URBAN DISTRICT COUNCIL OF FAREHAM

Telephone: PUBLIC HEALTH DEPARTMENT,
 Fareham 2431 130 WEST STREET,
 FAREHAM, HANTS.

July, 1967

To the Chairman and Councillors of the Urban District Council of Fareham

Mr. Chairman, Ladies and Gentlemen,

I have the honour to submit the Annual Report of the Public Health Department for 1966.

The Registrar-General's estimated population, 73,250, shows an increase of 2,110 on the number for 1965. The natural increase or increase of births over deaths was 715 so that immigration to Fareham continues. The number of births registered, 1,390, gives the high birth rate of 18.98 per 1,000 population. Again this year the crude birth rate is higher and the corrected birth rate, 17.27, is lower than that of 17.7 per 1,000 population for England and Wales.

The crude death rate of 9.22 per 1,000 population and the corrected death rate of 10.23 are well below the death rate of 11.7 per 1,000 population for England and Wales. The Infant mortality rate of 15.11 per 1,000 live births is still at a reasonably low figure and is below that of 19.0 per 1,000 live births for England and Wales. Fifteen of the twenty-one infants died in their first four weeks of life. Diseases of the heart and blood vessels caused 341 deaths, many attributed to Coronary disease. Deaths from Cancer of the Lung and Bronchus amounted to 29 and I can only repeat my warning about the definite association between smoking and that dreaded disease.

Measles seems to have lost its biennial epidemic incidence and although we had an epidemic last year 616 cases were notified this year. Measles vaccine, while effective in the prevention of the disease, is still not available for mass immunisation. Many of the infectious

diseases such as Diphtheria, Anterior Poliomyelitis, Tuberculosis and Smallpox are now controlled by immunisation but the sources of infection are always present and preventive medicine has still an important role to play. During the year manual workers in the Surveyor's Department were offered immunisation against Tetanus and the majority of the workmen accepted and were protected. The County Medical Officer very kindly gave me the use of the Clinic and help from one of his Health Visitors and this enabled me to carry out the immunisation procedure without difficulty. Manual workers, especially those engaged on refuse collection, receive contaminated wounds in the course of their duty and the danger of Tetanus can be a real one. The material injected against Tetanus seldom gives even the slightest reaction and is a very efficient prophylactic agent.

The throughput at Funtley Abattoir continued at a high level but the staffing with meat inspectors no longer presents a problem. The establishment of one Senior Meat Inspector and six Authorised Meat Inspectors is sufficient to ensure that all meat leaving the Abattoir is fully inspected. Your policy of training your own staff has proved very successful and to date all six trainees have qualified. Since the 31st October, 1966 one hundred per cent. inspection and stamping is legally required and this has been effected.

In recent years we have seen the installation of swimming pools in a number of schools in this district. Five schools, three private and two Local Authority, have the amenity. All pools are of modern design and construction and are provided with means for filtration, chlorination and aeration of the pool water. We carry out regular sampling of pool water for bacteriological examination to see that the water is free from contamination. Any failure in the treatment plant is soon shown in the bacteriological reports from the Public Health Laboratory. One of the private school buildings has been purchased by this Council and the pool is now supervised by the local Community Association. With the ever increasing popularity in Sailing, teaching the children to swim has become a very necessary part of their school curriculum.

I should like to express my gratitude to Mr. D. E. C. Hayward, Chief Public Health Inspector, both for the details of the work carried out by the Public Health Inspectors and for his very valuable assistance at all times.

In conclusion, I wish to thank the Members of the Council, in particular the Chairman and Members of the Health Committee, for their keen interest in the Department, the Chief Officers for their

co-operation, and all the staff of this Department for their high standard of work throughout the year.

I have the honour to be,

Mr. Chairman, Ladies and Gentlemen,

Your obedient servant,

M. CROWLEY,

Medical Officer of Health.

PUBLIC HEALTH OFFICERS OF THE AUTHORITY

Medical Officer of Health:

M. CROWLEY, M.B., B.Ch., B.A.O., D.P.H.

Chief Public Health Inspector:

*D. E. C. HAYWARD, M.A.P.H.I., D.S.A.A.

Additional Public Health Inspectors:

*†J. N. ADAMS, M.A.P.H.I., M.R.S.H. (to January 1966)

*†R. D. PALACIO, M.A.P.H.I., A.R.S.H. (to March 1966)

*N. RHODES, M.A.P.H.I.

*†L. W. RIVETT, M.A.P.H.I.

*A. W. P. ROBINSON

R. UPTON, M.A.P.H.I., M.R.S.H.

*I. H. WALTERS (to December 1966)

* Meat and Other Foods Certificate

† Smoke Inspector's Certificate

Authorised Meat Inspectors:

D. W. BRIDGER

D. J. EDWARDS

D. F. M. FREEMANTLE (to April 1966)

J. R. LODGE (from May 1966)

A. PILGRAM (from May 1966)

M. SANDERSON (from June 1966)

A. J. SPENCER

Rodent Control:

D. C. BEALE

V. GOODFELLOW

Senior Clerk:

MRS. M. B. LEWIS (to August 1966)

MRS. D. HEGGS (from August 1966)

Junior Clerk:

MISS S. DANN

Section I

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area of District — 18,352 acres.

Population —

Registrar-General's estimate of population for 1966 — 73,250.

Number of Inhabited Houses at 31st December, 1966 — 22,500.

Rateable Value at 1st April, 1966 — £2,686,180.

Sum represented by a Penny Rate (1966-67) — £11,800.

SUMMARY OF VITAL STATISTICS FOR THE YEAR

(1) LIVE AND STILL BIRTHS, Etc.

Total Deaths from Special Causes, 1966

					Male	Female	Total
Live Births:							
Total registered	..	..	..	..	746	644	1,390
Legitimate	..	..	..	..	693	609	1,302
Illegitimate	..	..	..	..	53	35	88

Section II

GENERAL PROVISIONS OF HEALTH SERVICES IN THE AREA

(a) Laboratory Facilities

Full facilities are available through the Public Health Laboratory Service for the bacteriological examination of water supplies and other investigations. Chemical examinations are done by arrangement with the Public Analyst, Portsmouth.

(b) Ambulance Facilities

Requests for ambulance transport in the area are dealt with as follows:—

County Ambulance Station, Highlands Road, Fareham:

Monday to Friday .. 8 a.m. to 6 p.m.

Saturday 8 a.m. to 12 noon

(Telephone: Titchfield 3434)

Central Ambulance Control, Winchester:

Monday to Friday .. 6 p.m. to 8 a.m. next day

Weekends 12 noon Saturday to 8 a.m. Monday

Bank and Public

Holidays All day

(Telephone: Winchester 61644)

The County Council has an agreement with the City of Portsmouth whereby all calls for the removal of infectious cases are passed to the latter authority's ambulance service for attention.

(c) Clinics

The following services in connection with tuberculosis, maternity and child welfare, orthopaedics, etc., are provided by the County Council and the Regional Hospital Board at clinics and treatment centres in the area:—

(1) Tuberculosis

Clinics are held at Queen Alexandra Hospital, Cosham, Portsmouth. Telephone: Cosham 79451).

(2) Venereal Diseases

Saint Mary's Hospital, Ward C.2, Milton, PORTSMOUTH. (Tel. Portsmouth 22331)		MALES
	Tuesdays and	9.30 a.m. to 12 noon
	Thursdays	4.30 p.m. to 7.00 p.m.
	Fridays	4.00 p.m. to 6.30 p.m.

		FEMALES
	Mondays	4.30 p.m. to 7.00 p.m.
	Wednesdays	2.00 p.m. to 6.30 p.m.
	Fridays	9.30 a.m. to 12 noon

Special Treatment Centre, Opposite Chest Clinic, Royal South Hants Hospital.		MALES
	Mondays to	9.00 a.m. to 12 noon
	Fridays	5.00 p.m. to 7.00 p.m.

44 & 46 Bullar Street, SOUTHAMPTON. (Tel. Southampton 23021)		FEMALES
	Mondays	12 noon to 1.00 p.m.
	Tuesdays	2.00 p.m. to 6.45 p.m.
	Wednesdays	2.00 p.m. to 4.00 p.m.
	Thursdays	2.00 p.m. to 6.45 p.m.
	Fridays	2.00 p.m. to 4.00 p.m.

(3) Maternity and Child Welfare

County Council Health Centre, West Street, FAREHAM.	Fridays all day commencing 9.30 a.m.
--	---

Gospel Hall, Gudge Heath Lane, FAREHAM.	Tuesdays, all day.
--	--------------------

West End Gospel Hall, St. Anne's Grove, FAREHAM.	Mondays, 2 p.m.
---	-----------------

Memorial Hall, LOCKS HEATH.	Second and fourth Tuesdays, 2 p.m.
--------------------------------	---------------------------------------

British Legion Hall, PARK GATE.	Thursdays, 2 p.m.
------------------------------------	-------------------

Community Centre, SARISBURY GREEN.	First and Third Tuesdays, 2 p.m.
---------------------------------------	----------------------------------

Methodist Church Hall, PORTCHESTER.	Thursdays all day commencing 10 a.m.
--	---

Community Centre, Westlands Grove, PORTCHESTER.	Second and fourth Fridays, 2 p.m.
--	--------------------------------------

Village Hall, STUBBINGTON.	Thursdays all day, commencing 10 a.m.
-------------------------------	--

Parish Hall, TITCHFIELD.	First and third Mondays, 2 p.m.
--------------------------	---------------------------------

Victory Hall, WARSASH.	First and third Mondays, 2 p.m.
------------------------	---------------------------------

(4) Ante-Natal

County Council Health Centre,
West Street, FAREHAM. Tuesday, 2 p.m.

Methodist Church Hall,
PORTCHESTER. First and third Mondays, 2 p.m.

Relaxation Classes

County Council Health Centre, Monday and Wednesday after-
West Street, FAREHAM. noons.

Methodist Church Hall,
PORTCHESTER. Tuesday afternoons.

Village Hall, STUBBINGTON. Friday afternoons.

Community Centre,
SARISBURY GREEN. Friday afternoons.

Institutional Provisions for Mothers and Children

(Provided by the Regional Hospital Board):—

Blake Maternity Home, Gosport

Blackbrook House, Fareham

Saint Mary's Hospital, Portsmouth.

(5) School Medical Inspections

County Council Health Centre, First and third Friday mornings.
West Street, FAREHAM. Medical examination and advice
only — no treatment.

(6) Child Guidance

The Gables, Spring Garden Lane,
GOSPORT. Attendance by appointment only

(7) Dental Clinic

County Council Health Centre, Attendance by appointment
West Street, FAREHAM. from the County Dental
Officer.

(8) Eye Clinic

St. Christopher's Hospital, Tuesday mornings and Wednes-
Wickham Road, FAREHAM. day afternoons.

(9) Orthopaedic Minor Clinic

County Council Health Centre, Third Wednesdays, 10 a.m.,
West Street, FAREHAM. alternately months.

Children's Remedial Exercises — Orthopaedic

St. Christopher's Hospital, Mondays, Wednesdays and Fri-
Wickham Road, FAREHAM. days, all day.

Physiotherapy

St. Christopher's Hospital, Monday to Friday all day.
Wickham Road, FAREHAM.

(10) Skin Clinic

St. Christopher's Hospital, Wickham Road, FAREHAM. Alternate Saturday mornings.

(11) Physical Medicine Clinic

St. Christopher's Hospital, Wickham Road, FAREHAM. Monday afternoons.

(12) Speech Therapy

County Council Health Centre, Monday morning.
West Street, FAREHAM. Thursday all day.

(d) Vaccination

Vaccination against Smallpox is carried out by General Medical Practitioners and at some Child Welfare Centres free of charge under the National Health Services Act, 1946.

NOTE:— Parents are advised to have their children vaccinated preferably in the second year of life.

(e) Hospitals

Apart from the Geriatric Unit at St. Christopher's Hospital, there are no general hospitals in the Urban District. At present, hospital services are available at Portsmouth, Southampton and Winchester; the nearest is at Cosham, five miles away. Infectious disease cases are sent to hospitals for infectious diseases at Portsmouth and Southampton. Most of the cases requiring hospital confinements are sent to Blackbrook Maternity Home, Fareham but quite a number from the district are admitted to Saint Mary's Hospital, Portsmouth.

Special hospital facilities are provided for Smallpox.

Treatment for tuberculosis is available at Bishopstoke and Southampton Chest Hospital.

(f) Homes for the Aged

The Hampshire County Council provide residential accommodation for 45 aged persons at Uplands, Park Lane, Fareham,

Section III

SANITARY CONDITIONS OF THE AREA

1. Water Supply

The Urban District is supplied by two large water companies — the Portsmouth Water Company and the Southampton Waterworks. The number of houses and the approximate number of persons supplied in the different Wards are as follows:—

- (a) Portsmouth Water Company — supplying Fareham — 10,487 houses, 32,568 population.
- (b) Portsmouth Water Company — supplying Portchester — 4,200 houses, 12,664 population.
- (c) Portsmouth Water Company — supplying Crofton — 2,781 houses, 8,125 population.
- (d) Southampton Waterworks — supplying Locks Heath, Sarisbury, Titchfield and Warsash — 5,047 houses, 20,188 population.

The Portsmouth Water Company take frequent water samples for both bacteriological and chemical analysis at their laboratory, and this Department also takes regular weekly samples of water for bacteriological examination. The Laboratory reports show that a very high standard of bacteriological purity in the water is maintained.

2. Drainage and Sewerage

The Western Wards Main Drainage Scheme is now completed. Approximately one thousand, nine hundred houses are connected but this number represents less than fifty per cent. of the houses in the area. As many of the houses connected are newly built ones a special effort to use the main drainage system should be made by the older residents who still depend on cesspits. More estate development and road improvements means more gulley cleansing and the two special vehicles engaged on this work are fully employed.

3. Refuse Collection

A satisfactory refuse collection service is provided throughout the district. The increased use of bulk containers for storage of refuse in trade premises and in flats has continued and two vehicles are now fitted with the equipment for emptying these containers.

4. Sanitary Inspections of the Urban District

Table (1)—Inspections for all Purposes and Notices served

6. Shops Act, 1950

Sixty-two visits were made to new shops or to premises where a change of occupier had occurred. Stocks of the relevant notices are retained in the Department for sale to shop occupiers.

7. Offices, Shops and Railway Premises Act, 1963

The year has seen the completion of inspections of all registered premises and new registrations are now dealt with on a day-to-day basis. Many of the premises in which work was required have been re-inspected and it is hoped that these re-inspections will be completed by the end of the coming year. The work required by notice has generally been done without any difficulty, the commonest missing item is the thermometer which is easily lost or broken.

There are also surprisingly few complaints from employees, the few notifications of inadequate temperature in shops have all been received from customers, no doubt encouraged by the disgruntled shop assistants. The minimum temperature is difficult to maintain during cold weather in a small shop relying on separate heating units, when there is direct access to the street, and the most satisfactory heating in these shops appears to be the warm air type of space heater. Accidents as a rule are only reported by the multiple firms, which may indicate that either the smaller employers are less acquainted with the requirements of the Act or are safer to work for. Fortunately all the reported accidents have been relatively minor ones and not attributable to any dangerous structure or practices.

One exemption under Section 46 has been granted because the employer is unable to obtain planning approval to extend the premises, in other cases satisfactory arrangements have been made for use of facilities in adjoining premises.

Without doubt the greatest criticism of the Act is the exemption from registration of premises where there are no employees or relatives only are employed. This allows standards in business premises to vary, and only constant surveillance can ensure that the statutory requirements are met. This would be a difficult task for a full-time inspector, and on a part-time basis is almost impossible.

8. Caravan Sites and Control of Development Act 1960,

Nine licences were in operation during the year in respect of sites in the area, permitting the siting of 168 residential caravans and 212 holiday caravans.

Twenty individual sites licences are in operation. There are, in addition, a number of caravans in the area which are, by virtue of exemptions provided in the Act, not subject to planning permission or site licence.

9. Pet Animals Act, 1951 and Animal Boarding Establishments Act, 1963

During the year two licences were renewed under the Pet Animals Act and ten licences renewed under the Animal Boarding Establishments Act.

10. Riding Establishments Act, 1964

Four premises were licensed under this Act during the year.

Section IV

HOUSING

1. Inspections of Dwelling-houses during the year

(1) (a) Total number of dwelling-houses inspected for housing defects (under Public Health or Housing Acts)	852
(b) Number of inspections made for the purpose ..	919
(2) (a) Number of dwelling-houses (included under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 and 1932	15
(b) Number of inspections made for the purpose ..	75
(3) Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation	12
(4) Number of dwelling-houses (exclusive of those referred to under the preceeding sub-head) found not to be in all respects reasonably fit for human habitation	68

2. Remedy of Defects during the year without service of Formal Notices

Number of defective dwelling-houses rendered fit in consequence of informal action by the local authority or their officers	240
---	-----

3. Action under Statutory Powers during the year

A. — Proceedings under Sections 9, 10 and 12 of the Housing Act, 1957:—

(1) Number of dwelling-houses in respect of which notices were served requiring repairs	36
(2) Number of dwelling-houses rendered fit after service of formal notices:—	
(a) By owners	20
(b) By local authority in default of owners ..	2

B. — Proceedings under Public Health Act:—		
(1) Number of dwelling-houses in respect of which notices were served requiring defects to be remedied		40
(2) Number of dwelling-houses in which defects were remedied after service of formal notices:—		
(a) By owners		21
(b) By local authority in default of owners ..		19
C. — Proceedings under Sections 17 and 23 of the Housing Act, 1957:—		
(1) Number of dwelling-houses in respect of which Demolition Orders were made		2
(2) Number of dwelling-houses demolished in pursuance of Demolition Orders		6
(3) Number of dwelling-houses demolished after informal action		1
(4) Number of dwelling-houses demolished (Clearance Areas)		—
D. — Proceedings under Section 18 of the Housing Act, 1957:—		
(1) Number of separate tenements or underground rooms in respect of which Closing Orders were made		—
(2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit		—
4. Rent Act, 1957		
Number of applications for certificates		4
Number of decisions not to issue certificates ..		—
Number of decisions to issue certificates:—		
(a) in respect of some but not all defects ..		3
(b) in respect of all defects		1
Number of undertakings given by landlords ..		2
Number of undertakings refused by local authority ..		—
Number of certificates issued		3
Number of inspections made for the purpose ..		21

Applications by landlords to local authority for cancellation of certificates	2
Objections by tenants to cancellation of certificates ..	—
Decisions by local authority to cancel in spite of tenants' objections	—
Certificates cancelled by local authority	2
Certificates as to the remedying of defects specified in a landlord's undertaking to remedy defects	—

5. Overcrowding

- (a) The number of dwellings overcrowded at the end of the year, together with the number of families and the number of persons dwelling therein:—
 - 1 dwelling overcrowded
 - 1 Family and 10 persons concerned
- (b) The number of new cases of overcrowding reported:—
 - 2 new cases
- (c) The number of cases of overcrowding relieved and the number of persons concerned:—
 - 2 cases relieved
 - 11 persons concerned
- (d) Particulars of any case in which dwelling-houses in respect of which the local authority have taken steps for the abatement of overcrowding have again become overcrowded:—
 - Nil.

HOUSING PROGRESS TO 31st DECEMBER, 1966

Total number of houses completed during 1966 .. 304

Total number of houses under construction at 31st
December, 1966 233

All prefabricated dwellings at Stow Estate have been demolished leaving the site ready for redevelopment.

Private Housing

The number of private houses completed in 1966 was 665.

Section V

INSPECTION AND SUPERVISION OF FOOD

(1) MILK SUPPLY

Milk (Special Designation) Regulations, 1963

The following licences were in operation during the year:—

Dealers' (Pasteurisers') Licences	2
Dealers' (Prepacked Milk) Licences ..	34

Sampling

Samples were taken regularly from milk dealers and the two dairies to ensure that the milk was satisfactory, as follows:—

Pasteurised Milk	112
Sterilised Milk	3
Untreated Milk	34
Ultra-heat treated Milk	1

Two pasteurised samples failed the phosphatase test: investigations failed to find any fault in the pasteurising plant and subsequent samples were satisfactory. Two untreated samples failed the methylene blue test, three were positive ring tests. All were from a farm outside the Urban District and the Ministry and the Local Authority concerned were informed.

Antibiotic Testing

Fifty-eight samples were taken and two contained inhibitory substances which were not indentified.

Biological Testing

Sixteen samples of raw milk were submitted. *Brucella* was isolated in one sample and milk from the herd was sent for pasteurisation.

Brucellosis

One hundred and eight samples were examined. Fourteen gave positive ring tests, one culture was positive.

Liquid Egg (Pasteurisation) Regulations, 1963

There are no egg pasteurising plants within the Urban District and no samples were taken. Liquid egg from one egg-packing station is used for animal feeding only.

(2) FOOD AND DRUGS ACT, 1955

Sections 2 and 6 and the Labelling of Food Order, 1963

The following samples were submitted for analysis:—

FOODS:				FOODS— <i>continued</i> :			
Angelica	1			Sausages	4		
Bread	1			Shrimp Flavoured Chips	1		
Biscuits	1			Soft Drink	4		
Cake Confectionery ..	4			Spice	1		
Canned Cream Soup ..	1			Sugar Confectionery ..	7		
Canned Fish	1			Tea	1		
Canned Fruit	1			Vinegar	1		
Canned Meat Preparation	7			Yoghourt	1		
Canned Pudding	1						—
Canned Soup	2						88
Cereal	1						—
Cheese	3						
Chocolate Preparation ..	1			DRUGS:			
Colouring	1			Aspirin Tablets	1

Dried Fruit	1			Sweets	1		
Dried Milk	3			Monosodium Glutamate	1		
Fish Cakes	1			Multivitamin Tablets ..	1		
Fish Paste	1			Proprietary Medicines ..	4		
Flavoured Milk	1						—
Flavouring	1						10
Ground Almonds	1						—
Ice Cream	3			MILK:			
Jam	4			Ordinary Milk	59		
Lemon Syrup	1			Channel Island Milk ..	16		
Margarine	3						—
Marzipan	1						75
Mayonnaise	3						—
Meat Extract	2			MILK EXAMINED FOR			
Meat Paste	1			PESTICIDES:			
Meat Pie	2			Ordinary Milk	3		
Meat Preparation	1			Channel Island Milk ..	1		
Pudding Mixture	1						—
Pickles	1						4
Saccharin	1						—
Sauce	3						

The Public Analyst criticised nine labels of samples submitted and in each case agreement was reached with the manufacturers to secure amendments.

A meat extract contained an undesirable amount of zinc but exhaustive tests by the manufacturers failed to reveal the source and an apricot and sherry jam was deficient of soluble solids a possible explanation from the manufacturers being that too much sherry had been added.

Two cases of insect infestation of food were found, in one case ants in dried apricots were only apparent when cooked for school meals and the whole consignment was destroyed.

One Channel Island milk was deficient of butter fat, but repeat formal samples were satisfactory. Nine samples were deficient of solids not fat due to the poor condition of the cows, one sample contained extraneous water but enquiries failed to reveal the source.

Thirty-three complaints concerning unsound food or foreign bodies in food were dealt with. Eight of these complaints were of dirty milk bottles or foreign matter in milk bottles, which in spite of all the efforts of the dairy appear to be inevitable.

Foreign bodies are found in almost every type of prepacked food, a hazard of large scale food production. In one case a successful prosecution was instituted when a piece of sand—cement in a cornish pasty was alleged to have broken the complainants tooth.

The remainder of the complaints were of unsound or mouldy foodstuffs and one grocer was successfully prosecuted for selling a mouldy meat pie.

Section 9

The following visits were made for the purpose of examining food:—

Butchers	...	3
Fishmongers	..	1
Grocers	..	48
Others	..	18
		70

and the undermentioned quantities of food were condemned:—

Meat	710 lbs.	3 ozs.
Fish	2 lbs.	10 ozs.
Canned Meat	663 lbs.	0 ozs.
Canned Fish	30 lbs.	10 ozs.
Canned Fruit	971 lbs.	7 ozs.
Canned Vegetables	693 lbs.	3 ozs.
Cereals	76 lbs.	0 ozs.
Conserves	25 lbs.	7 ozs.
Frozen Confectionery	255 lbs.	7 ozs.
Frozen Fish	621 lbs.	10 ozs.
Frozen Meat Products	431 lbs.	12 ozs.
Frozen Vegetables	616 lbs.	0 ozs.
Fruit	1,296 lbs.	12 ozs.
	6,394 lbs.	1 ozs.

Section 13—Food Hygiene Regulations

Six hundred and six routine inspections were made and nine informal notices served.

The Food Hygiene (Markets, Stalls and Delivery Vehicles) Regulations were introduced towards the end of the year to come into operation on 1st January 1967. Discussions took place with the Market Authority and various trade interests to ensure compliance with the Regulations which bring stalls and vehicles within the standards required for shops and other food premises. Enforcement presents little difficulty with the static stallholder or the mobile shop on a regular route, but the itinerant ice cream salesman is a difficult problem and usually worthy of the Inspector's close attention.

Section 16—Registered Premises

Ice Cream: Five applications were made during the year for registration of premises for the sale and storage of ice cream. The total number of premises registered is 233.

Sixty-one visits were made for sampling purposes and seventy samples were obtained with the following results:—

Grade I	46
Grade II	6
Grade III	6
Grade IV	12

Grades I and II are satisfactory results. The retailers of the Grades III and IV samples were advised on handling and storage and in some cases the manufacturer was notified and subsequent samples were satisfactory.

Twelve samples of ice-lollies were satisfactory.

Four premises were also registered under this section for the preservation of food by cooking.

(3) EDUCATIONAL ACTIVITY

Several talks were given during the year on Public Health topics and were well received. More use was made of film strips to illustrate the talks, these are popular and a very useful aid to the speaker.

TABLE OF INSPECTIONS OF FOOD PREMISES

MEAT INSPECTION

The Senior Meat Inspector reports as follows:—

The large throughput at Funtley Abattoir continued during 1966, but a small number of carcasses were removed without complete inspection. Since the introduction on 31st October of the Meat Inspection (Amendment) Regulations, 1966, no meat has been allowed to leave the slaughterhouse without the stamp of a Local Authority Inspector. Before these regulations came into force meat could be removed if it had not been inspected within a specified period.

The Local Authority continued the training of meat inspectors, and two students were successful in passing the Authorised Meat Inspectors' Examination. These were appointed to the staff replacing Public Health Inspectors who had taken up appointments with other Authorities. A number of Student Public Health Inspectors from neighbouring Authorities have continued to receive practical training in meat inspection at Funtley.

Standards of hygiene in the slaughterhouse improved during the year. The slaughter hall and hanging rooms were repaired and re-decorated and work has commenced on repairing and redecorating chillers. With the large throughput at the abattoir hanging space proves inadequate, and if the present throughput is maintained consideration should be given to the construction of additional chilling space.

On two occasions it was necessary to take proceedings against slaughtermen for failing to comply with the Slaughter of Animals Act, 1958. Both prosecutions were successful.

The statistics in animal disease show very little change from 1965, the increase in the number of sheep carcasses condemned was due to the larger number of ewes slaughtered during the year. Viable cysticercosis stays at the low level of 1965, and liver fluke in cattle and pneumonia in pigs account for the majority of the other abnormalities encountered. Suspected cases of tuberculosis in cattle are reported to the appropriate Animal Health Office together with specimens for laboratory confirmation.

Exports of meat to the continent continued throughout the year, and staff co-operated with local veterinary inspectors employed part-time on the inspection of export meat. Most countries, except Belgium, require veterinary inspection of meat imported from this country, and until such times as European countries recognise the Local Authorities' Inspectors certificate the present system of dual inspection will continue.

TABLE 1.—Statistical Summary of Inspections at Fareham Abattoir — 3.1.66 to 31.12.66

		CATTLE OTHER THAN COWS	(a) COWS	CALVES	SHEEP	PIGS	TOTAL

6. Disinfection

Investigations were made by the staff into cases of infectious diseases and reports were made dealing with the possible sources of infection, the supervision of contacts and the disinfection of premises:—

Number of visits made during the year . . . 107

Number of premises disinfected 5

Section VIII

NATIONAL ASSISTANCE ACTS, 1948 AND 1951

Section 47

No statutory action was necessary under the above Acts during the year.

Section VIII

PREVENTION OF DAMAGE BY PESTS ACT, 1949

Sewer Maintenance

Testing of the public sewers in the western wards was carried out during April, 1966. Ninety-eight manholes were tested and the results were found to be negative.

The following table shows the work done (other than sewer maintenance) by the Rodent Operatives during the year

		Local Authority's Properties	Dwelling Houses	Agricultural Properties	Business and Industrial Premises	Total
1. Number of inspections and revisits		367	8,260	285	994	9,906
2. Number of properties inspected as a result of:—						
(a) Notification		12	1,282	58	216	1,568
(b) Routine		170	60	32	59	321
3. Number of properties found to be infested:—						
(a) By rats — minor		50	896	24	81	1,051
(b) By rats — major		—	—	—	—	—
(c) By mice		2	88	4	17	111
4. Number of infested properties treated by Local Authority		52	984	28	98	1,162
5. Number of notices served:—
