## QUESTION:

*What is safer sex? How do I tell if I've got AIDS? If I have a test, who will find out? You only need to worry in London, don't you? What is the difference between HIV and AIDS? My girlfriend wants us to use condoms - do we have to? What should I tell my children? If I have the virus, can I still have sex? I'm worried - where can I talk to someone in confidence? Should I have the test? Can I be infected by having a tattoo? My son is gay and I'm frightened he'll get the disease - what should I do? Is it really a problem for heterosexuals? Where can I get the test? Can a mother infect her unborn baby? Is there a vaccine now? Is oral sex risky? Can my boss sack me? The virus can get through condoms, can't it? Can I get AIDS from kissing? Are my kids in danger in playground accidents? Who can help?*

## ANSWER:

**0203 555616**

**+ minicom**

**AIDS Helpline: Weds 7-9 pm**
