MAST. DANIEL HARTLEY,
The Great **GOLIAH** of the Day,

OR THE
WONDER OF THE AGE

This Phenomenon of Nature, although only 17 Years of Age, stands 5ft. 10in. high, is the astonishing weight of 44 Stone, measures round his Body 7 feet 6 inches, round his Thigh 41 inches. When three days old he weighed 33lbs.; at the age of 14 months he carried the astonishing weight of 28lbs.; and at the age of 9 years he raised four 56lb. weights above his head. He has 6 Fingers on each hand, and 6 Toes on each Foot. This Youth is also double-jointed, possesses excellent Symmetry, pleasing features, solid flesh, with a beautiful fair skin, and is certainly the most remarkable Prodigy of Nature ever seen.

His infant Brother, who died in Manchester, on Sunday, April 13th 1839, aged 18 months, was also double-jointed; and, if he had lived, was likely to have been his rival, being possessed of the same Gifts of Nature.

The above Youth may be seen with his Parents, who are of ordinary stature; what is most remarkable is their having two sons born such Wonderful Prodigies, and a large Family of children of natural growth.

Read the 2nd of Samuel, chap. xxi. v. 20, where you find, that in ancient days, giants were born with six fingers on each hand, and six toes on each foot, twenty-four in number.

The above Youth is accompanied and contrasted by
THE DEVONSHIRE
DWARF!

Mr. THOMAS BARTLETT, or the Man in Miniature.

This astonishing little Gentleman is a native of Bockland Brewer, in Devonshire; he is 35 years of age, of the extraordinary small weight of 45lbs, measuring 39 inches in height; possessing excellent symmetry, pleasing features, beautifully proportioned; and when in contrast with the Giant Boy, they are two of the Greatest Curiosities and Contrasts Nature ever exhibited.

EXHIBITION'S like this may to us be of use,
What a contrast of creatures this world can produce,
See the Largest and Smallest before us in state,
What a prodigy rare, and Phenomenon great!

From each wonderer's acoustic presented to view,
We now may our study of Nature pursue;
And of all the Creatures that e'er were recorded,
We have the Largest and Smallest that Nature produced.

The Proprietor's object not being of a pecuniary consideration, but merely to gratify the Lovers of the Works of Nature, therefore, the Price of Admission will be moderate in order that all Classes of Society may have an opportunity of witnessing the above astonishing Individuals.

Private Families admitted by giving One Hour's Notice.
