1958

Medical Officer of Health:

A. McM. W. SEGERDAL, M.D., D.P.H.

Surveyor and Public Health Inspector:

THOMAS H. FARRELL, C.R.S.H., D.P.H.H. (Hons.)

Additional Public Health Inspector:

H. H. FORD, M.S.I.A., C.R.S.I.

Clerk to the Council:

S. E. WILKINSON

Chairman of Council:

C. R. HARVEY, J.P., M.S.M.

Vice-Chairman:

MISS J. A. SMEDLEY, J.P.

Highways Committee Chairman:

A. E. F. SEARANCE

Housing Committee Chairman:

W. J. C. BOWKER

*To the Chairman and Members of the Ashby-de-la-Zouch
Urban District Council:*

Mr. Chairman, Ladies and Gentlemen,

I beg to present my report for the year 1958.

It will be noticed that there is a variation in the presentation of the vital statistics. This is in accordance with the wishes of the Minister so that comparisons can be made.

The population, which appears to be steadily increasing, was 6,980 compared with 6,840 in 1957.

The birth rate (16.9) is higher than last year (13.2) and higher than that for England and Wales (16.4).

The death rate (10.8) is lower than last year (10.9), and lower than that for England and Wales (11.7).

The chief causes of death are from diseases associated with elderly people.

Of the 70 deaths, 4 were due to accidents of various kinds.

At the Hospital the new Outpatient Department and modern Operating Theatre will be opened shortly.

19 houses were completed during the year, making a total of 593 houses completed in the post-war period.

The total number of applicants for Council houses at the end of the year was 138, and the number of applications received during the year 41.

With respect to general housing conditions the position is rapidly deteriorating, due to the large proportion of old property in the area.

During the year, only 4 cases of Infectious Diseases were notified, 1 Pneumonia and 3 Whooping Cough.

I am pleased to report a considerable increase in the number of children receiving primary immunisation against diphtheria.

The increase in the number receiving primary immunisation against diphtheria is probably due to the desire to be protected against Whooping Cough and the publicity associated with the poliomyelitis immunisation. I am unable to give any figures yet as regards the numbers receiving protection against poliomyelitis.

Three cases of Tuberculosis, all Pulmonary, were added to the register during the year, but only 1 was a new notification. There were no deaths.

I should like to express my thanks to the Staff of the Public Health Department of the County and to Dr. Mair and his staff in the Public Health Laboratory at Groby Road, Leicester, for their help and co-operation.

Finally, I must thank Mr. T. H. Farrell, Surveyor and Public Health Inspector and Mr. H. H. Ford, Additional Public Health Inspector, for their invaluable help during the year, and to you, Ladies and Gentlemen, for your kindness and courtesy,

I remain, Ladies and Gentlemen,

Your obedient servant,

A. McM. W. SEGERDAL, M.D., D.P.H.,

Medical Officer of Health.
