F. H. Wynne, M.A.P.H.I., M.R.S.H., D.P.H.H. (Hons.)

Urban District Council Offices,
Kilwardby Street,
Ashby-de-la-Zouch,
Leicestershire.

To the Chairman and Members of
the Urban District Council of
Ashby-de-la-Zouch.

Mr. Chairman, Ladies and Gentlemen,

I beg to present my Report for the year 1960.

The population, which appears to be steadily increasing, is now 7,150 compared with 7,060 in 1959.

The birth rate (16.5) is lower than last year (17.1) and lower than that for England and Wales (17.1).

The death rate (8.7) is lower than last year (14.6) and lower than that for England and Wales (11.5).

The chief causes of death were from diseases associated with elderly people.

82 houses were completed during the year, making a total of 715 houses completed in the post-war period.

The total number of applicants for Council houses at the end of the year was 113 and the number of applications received during the year 44.

During the year 24 unfit houses were demolished and 4 closed.

During the year, 34 cases of Infectious Diseases were notified, 23 Measles, 6 Whooping Cough, 4 cases of Dysentery and 1 Pneumonia. There was one death from Pneumonia.

I am pleased to report that an increased number of children received primary immunisation against diphtheria.

Two cases of Tuberculosis, both pulmonary, males, were notified during the year, but there were no deaths. Three cases were removed from the register as cured.

I should like to express my thanks to the staff of the Public Health Department of the County and to Dr. Mair and his staff in the Public Health Laboratory at Groby Road, Leicester, for their help and co-operation.

Finally, I must thank Mr. F. H. Wynne, Public Health Inspector, for his invaluable help during the year, and to you, Ladies and Gentlemen, for your kindness and courtesy.

I remain,

Ladies and Gentlemen,

Your obedient servant,

A. McM. W. Segerdal
M.D., D.P.H.

Private Residence :

Belvoir Cottage,
Coalville.
Leicestershire.

Telephone Number

Coalville 144

SECTION A

General Statistics and Social Conditions of the Area.

Area (in acres)	6,162
Population (R.G.'s estimate)	7,150
Number of inhabited houses	2,310
Rateable Value (at 31.12.60)	£91,885
Sum represented by a penny rate	£367.16.8d
Comparability factor - Births	0.96
Deaths	0.97

Ashby-de-la-Zouch is a market town, the chief industries of the district are agriculture; biscuit making; crisp manufacture; dairies; soap manufacturing and glove manufacturing. A number of workers engaged in coalmining; earthenware and brickmaking are residents in the town. There are also 4 Public Parks and an Open-air Swimming Bath.

No industry was noted as having an injurious effect on the health of the population.

Vital Statistics.

		<u>% England and Wales</u>

Chief causes of death were :

Diseases of heart and circulation	33
Malignant neoplasm (Cancer)	12

SECTION B

GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA

Hospitals

All hospitals are under the Sheffield Regional Hospital Board.

The County Homes for aged and infirm people are under the County Council. When the inmates become ill they are the responsibility of the Hospital Board.

Ashby-de-la-Zouch and District Hospital

This is the only hospital in the area and is under the Leicester No. 2 Hospital Management Committee.

No. of In-Patients (Medical, Surgical, etc.)	454
No. of Maternity cases	420
No. of Births	362
No. of Births in 1950	206
No. of Still Births	1
Out-Patients attendances, including casualties and ante-natal	4248
Operations	320

Loudoun House. County Home for Old People

There are 48 residents, men and women.

The eventual intention is a Home primarily to serve the needs of the locality, but the large number on the waiting list for the whole County necessitates the admission of people many miles from their homes.

Local organisations in the town and environs have welcomed the new residents and help to integrate them into the life of the community. This is one of the important functions so necessary to prevent the residents from feeling an isolated section of the public.

Treatment Centres and Clinics

Infant Welfare Clinics are held every Thursday afternoon at the Baptist Schoolroom, Ashby-de-la-Zouch. An Ante-Natal Clinic is held at the Health Centre, Bridge Road, Coalville, and the Tuberculosis Clinic at Markfield Sanatorium. The Tuberculosis Clinic is under the Sheffield Regional Hospital Board.

Ambulance Facilities.

The County Council is responsible for all ambulance facilities in the County. Colliery accidents are removed by ambulances provided by the National Coal Board at Nailstone Colliery and Moira Colliery.

Nursing in the Home.

All district nursing and midwifery in the home is under the County Council.

Health Visiting.

This work is provided, as before, by the County Council and is ably carried out in the area.

A Diabetic Health Visitor attends the Clinic at the Royal Infirmary, Leicester, and visits the patients in their homes on request.

Laboratory Facilities.

Public Health Laboratory, Isolation Hospital, Groby Road, Leicester.

The examinations performed on behalf of the District in the County Laboratory were as follows :

Throat and Nose Swabs	:	0
Faeces and Urine	:	20
Sputa	:	10
Waters	:	5
Miscellaneous	:	<u>1</u>
		36
		<hr/>

Generally there is co-operation between the local authority and the services provided by the Executive Council and the Hospital Board, and the tendency is towards closer integration.

SECTION C

SANITARY CIRCUMSTANCES OF THE AREA

Water Supply.

Early in the year we received many complaints regarding the taste and smell of the water, particularly after periods of heavy rain. The bulk water supply is obtained from the River Dove Water Board and chemical analysis of the water ascertained that the complaints arose from the presence of chlorophenols in the water.

Three samples of water were taken for chemical analysis and part of the Analyst's report on these samples is given below :

Sample No. 1 was taken at Westfields.

Sample No. 2 was taken at New Packington.

Sample No. 3 was taken at Willesley.

" We beg to report that we have examined the three samples of water received from you on the 24th February, with the following results (in parts per million) :

	<u>1.</u>	<u>2.</u>	<u>3.</u>
Temporary Hardness	105	72	82
Permanent Hardness	200	188	193
Total Hardness	305	260	275
Free Chlorine	0.02	0.01	0.02
Combined Residual Chlorine	0.09	0.05	0.11

We have also carried out an examination for the presence of chlorophenols and find evidence of the presence of a minute trace of these substances in sample No. 1 but not in the other two samples.

When the samples were received by us we formed the opinion that sample No. 1 had a marked "Medicinal" odour and taste, that sample No. 2 also showed this odour and taste but to a lesser degree, while we did not detect any significant odour or taste in sample No. 3. The presence of minute quantities of chlorophenols (one part or less of phenol per 1000 millions) is sufficient to give rise to complaints of taste and odour, and in our opinion the difficulties associated with your water supply are due to the presence of substances of this type.

"

Six samples of tap water were submitted for bacteriological examination. All were satisfactory.

Particulars of water supply to dwelling houses in the district :

Internal mains water supply -

No. of dwelling houses	2239
Estimated population	6840

Mains water from external standpipes -

No. of dwelling houses	48
Estimated population	214

Well water supply -

No. of dwelling houses	29
Estimated population	96

Apart from a few isolated dwellings, the whole of the urban area is supplied with water from the public mains.

No. of cases in which piped supply was substituted for well water	4
No. of wells closed	4

Three samples of well water were submitted for bacteriological examination. Two were unsatisfactory, one was satisfactory.

Sewers and Sewage Disposal.

Number of cesspools constructed during the year	..	2
Number of cesspools abolished during the year	..	Nil
Total number of cesspools in district on 31st December, 1960	14

The Council's Consulting Engineers, Messrs. Pick, Everard, Keay & Gimson, have been instructed to prepare plans and report on the Sewerage Systems for the Urban District and it is anticipated that new sewers will have to be laid in the Northern, Central and Southern areas of the town, together with a new outfall sewer to the Works at Packington. The existing Works at Packington and Willesley will have to be extended and improved. The ultimate cost will be in the region of £200,000.

Closet Accommodation

Total number in district on 31st December, 1960

(a)	Privies	2
(b)	Pail Closets	32
(c)	Water Closets	2416

Number of closets converted to water carriage system during the year :

(a)	Privies	Nil
(b)	Pail Closets	2

No grant is made towards the cost of conversion.

Earth closets, privies, ashpits and cesspools are emptied free of charge by Council workmen.

Pail closets are emptied weekly and contents disposed of to sewer.

Public Cleansing

Domestic refuse is removed by direct labour over the whole of the district by an 8 year old Dennis 10 cubic yard side loading vehicle. Approximately 300 cubic yards of refuse are collected and disposed of weekly. Owing to labour difficulties and mechanical trouble with the lorry, the period between collections has varied from 7 to 13 days. A new vehicle was ordered for delivery during 1961 when it is hoped that a 7 day refuse collection service can be resumed.

In the autumn tipping on the crude tip on Nottingham Road was discontinued and a new tip which is partially controlled was opened in the disused railway cutting off the Smisby Road.

Sanitary Inspections of the Area

Total number of complaints received	19
Total number of premises at which defects or nuisances were dealt with	19
Total number of defects or nuisances dealt with	31

Particulars of Inspections made

	<u>Number of Inspections</u>
Animal Keeping	11
Bakehouses	4
Dairies	3
Drainage Works	29
Dwelling houses	1176
Infectious diseases inquiries	12
Food poisoning inquiries	6
Food premises	55
Offensive Trades	Nil
Refuse collection and disposal	144
Rodent control	4
Schools	1
Shops	22
Slaughterhouses and Meat inspection	266
Smoke control	0
Tents, vans and sheds etc.,	4

Shops

Particulars of action taken during the year under the provisions of Section 38 of the Shops Act, 1950 :

	<u>Outstand</u> <u>ing. 1st</u> <u>Jan.1960</u>	<u>Defects</u> <u>found</u>	<u>Defects</u> <u>remedied</u>	<u>Outstand</u> <u>ing. 31st</u> <u>Dec.1960</u>
Washing facilities	0	1	1	0
Facilities for taking meals.	0	1	1	0

Verminous Premises

One house was fumigated during the year.

Pet Animals Act, 1951

There are 2 licensed Pet Shops. 4 inspections were made during the year.

Rag Flock and other Filling Materials Act, 1951

No premises in the area.

Schools

Following representations to the Education Authority, plans were submitted to provide proper washing facilities and water closets at the Blackfordby school. It is hoped that the work will commence early in 1961.

Swimming Baths and Pools open to the Public

Number in area :

(a)	Publicly owned	1
(b)	Privately owned	0
	No. of inspections		4

The baths were not open during the year.

The table below gives details of work carried out by the part time rodent operator.
In addition 10% of the manholes in the district were test baited :

	Type of Property					(5)
	Non-Agricultural				(4)	
	(1) Local Authority	(2) Dwelling Houses (inc. Council Houses)	(3) All Other (inc. Business Premises)	Total of Cols. (1) (2) & (3)		(5) Agricultural
