Harold Pass

PUBLIC HEALTH INSPECTOR

F. H. Wynne, M.A.P.H.I., M.R.S.H., D.P.H.H. (Hons.).

Urban District Council Offices,
Kilwardby Street,
Ashby-de-la-Zouch.

To the Chairman and Members of
the Urban District Council of
Ashby-de-la-Zouch.

Madam Chairman, Dr. Griffith and Gentlemen,

I beg to present my Report for the year 1962.

The population is steadily increasing and is now 7,480 compared with 7,450 in 1961.

The birth rate (16.4) is lower than last year (18.6) and lower than that for England and Wales (18.0).

The death rate (10.4) is lower than last year (12.2) and lower than that for England and Wales (11.9).

The chief causes of death were from diseases associated with elderly people.

33 houses were completed during the year making a total of 781 houses completed in the post-war period.

The total number of applicants for Council houses at the end of the year was 115 and the number of applications received during the year was 69.

During the year 32 unfit houses were demolished and 2 closed.

During the year 24 cases of Infectious Diseases were notified, 22 Measles, one Whooping Cough and one Puerperal Pyrexia. There were five deaths from Pneumonia.

During the outbreak of smallpox in some parts of the country at the beginning of the year, the son of one of the cases in Birmingham visited this area. A considerable amount of visiting and enquiries was necessary. To allay the panic which existed during that period involved a considerable amount of time, particularly in answering telephone calls.

I am pleased to report that the number of children who received primary immunisation against diphtheria still remains high.

Only one case of Pulmonary Tuberculosis, a male, was notified during the year.

The Mass Radiography Unit again made a survey in the area.

I should like to express my thanks to the staff of the Public Health Department of the County and to Dr. Mair and his staff in the Public Health Laboratory at Groby Road, Leicester, for their help and co-operation.

Finally, I must thank Mr. F. H. Wynne, Public Health Inspector, for his invaluable help during the year, and to you, Ladies and Gentlemen, for your kindness and courtesy.

I remain,

Ladies and Gentlemen,

Your obedient servant,

A. McM. W. Segerdal,
M.D., D.P.H.

Private Residence :

Belvoir Cottage,
Coalville,
Leicester.

Telephone Number :

Coalville 2144

SECTION A

General Statistics and Social Conditions of the Area

Area (in acres)	5,985
Population (R.G.'s estimate)	7,480
Number of inhabited houses	2,347
Rateable Value (at 1st April, 1962)	£93,174
Sum represented by a penny rate	£366
Comparability factor - Births	0.96
- Deaths	1.10

Ashby-de-la-Zouch is a market town, the chief industries of the district are agriculture; biscuit making; crisp manufacture; dairies; soap manufacturing and glove manufacturing. A number of workers engaged in coalmining; earthenware and brickmaking are residents in the town. There are also 4 Public Parks and an Open-air Swimming Bath.

No industry was noted as having an injurious effect on the health of the population.

Vital Statistics

		<u>% England and Wales</u>
Live Births	128	
Live Birth rate	16.4	18.0

Chief causes of death were :

Diseases of heart and circulation	30
Malignant neoplasm (Cancer)	17
Diseases of the respiratory system	13

SECTION B

GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA

Hospitals

All hospitals are under the Sheffield Regional Hospital Board.

The County Homes for aged and infirm people are under the County Council. When the inmates become ill they are the responsibility of the Hospital Board.

Ashby-de-la-Zouch and District Hospital

This is the only hospital in the area and is under the Leicester No. 2 Hospital Management Committee. The hospital has accommodation for 28 patients, including 13 maternity beds.

No. of In-Patients (Medical, Surgical, etc.)	850
No. of Maternity cases admitted (included in above 850)	420
No. of Births	341
No. of Still Births	3
Out-Patients attendances, including casualties and ante-natal	6,632
Operations	308

Loudoun House. County Home for Old People

Loudoun House accommodates 48 residents of both sexes who by reason of age, infirmity, etc. are unable to care for themselves in their own homes. Whilst many of the residents are from the immediate locality, there are numbers admitted from other areas of the County because of the pressing demand for accommodation. All residents have the opportunity of being transferred to a County Home nearer to their normal area of residence but as this often entails a lengthy delay whilst waiting for a suitable vacancy, little movement actually takes place as the residents do not wish to face another upheaval and settling in.

The Home receives considerable support and interest from members of Local organisations some of which takes the form of gifts particularly on festive occasions, others in visiting or by inducing the residents to participate in various functions they arrange. These organisations realise the importance of letting the residents of Loudoun House know that they are now new residents of Ashby-de-la-Zouch and are not a little community of folk living apart.

Treatment Centres and Clinics

Infant Welfare Clinics are held every Thursday afternoon at the Baptist Schoolroom, Ashby-de-la-Zouch. An Ante-Natal Clinic is held at the Adult School, Bridge Road, Coalville, and the Tuberculosis Clinic at Markfield Sanatorium. The Tuberculosis Clinic is under the Sheffield Regional Hospital Board.

Relaxation classes for pregnant mothers are held at the Ivanhoe Community Centre on Wednesday mornings, except during the school holidays.

Ambulance Facilities

The County Council is responsible for all ambulance facilities in the County. Colliery accidents are removed by ambulances provided by the National Coal Board at Nailstone Colliery and Moira Colliery.

Nursing in the Home

All district nursing and midwifery in the home is under the County Council.

Health Visiting

This work is provided, as before, by the County Council and is ably carried out in the area.

A Diabetic Health Visitor attends the Clinic at the Royal Infirmary, Leicester, and visits the patients in their homes on request.

Laboratory Facilities

Public Health Laboratory, Isolation Hospital, Groby Road, Leicester.

The examinations performed on behalf of the District in the County Laboratory were as follows::

Bloods	:	3
Vaginal & Cervical Swabs	:	13
Faeces and Urine	:	41
Sputa	:	37
Waters	:	6
Food	:	4
Miscellaneous	:	4
		<hr/>
		108
		<hr/>

Generally, there is co-operation between the local authority and the services provided by the Executive Council and the Hospital Board, and the tendency is towards closer integration.

Meals on Wheels

This service, operated by the Women's Voluntary Service, commenced in May 1962 and supplies a hot meal two days per week to about 12 elderly and infirm people living within the District.

SECTION C

Water Supply

The water supply has been satisfactory in quantity but complaints are still being received from residents regarding the taste and smell of chlorophenols in the water.

Particulars of water supply to dwelling houses in the district :

Internal mains water supply -

No. of dwelling houses	2352
Estimated population	7244

Mains water from external standpipes -

No. of dwelling houses	30
Estimated population	147

Well water supply -

No. of dwelling houses	27
Estimated population	89

Apart from a few isolated dwellings, the whole of the urban area is supplied with water from the public mains.

No. of cases in which a piped supply was substituted for well water	1
---	----	----	---

Water Samples

Mains Supply

Six samples of tap water were submitted for bacteriological examination. All were satisfactory.

Well Supply

Two samples of well water were submitted for bacteriological examination. One sample was unsatisfactory. Persons using this well have been warned to boil the water before use.

Sewers and Sewage Disposal

Number of cesspools constructed during the year	..	1
Number of cesspools abolished during the year	..	-
Total number of cesspools in district on 31st December, 1962	..	15

Closet Accommodation

Total number in district on 31st December, 1962 :

(a) Privies	1
(b) Pail Closets	14
(c) Water Closets	2,573

Number of closets converted to water carriage system during year :

(a) Privies	Nil
(b) Pail Closets	Nil

Number of privies converted to pail closets Nil

No. grant is made towards the cost of conversion.

Public Cleansing

Until November an 8-day refuse collection service was operated by one Shelvoke and Drewry 25 cubic yard "Fore and Aft" Freighter, and one Dennis "Chelsea" side loader which was used for one day each week to collect refuse from the outlying areas. In November the Council adopted a new bonus scheme and from 21st November a weekly service operated throughout the whole of the district.

The refuse is disposed of in the disused railway cutting off Smisby Road. This tip is partially controlled.

Sanitary Inspections of the Area

Total number of complaints received	16
Total number of premises at which defects or nuisances were dealt with	16

Particulars of Inspections made

	<u>Number of Inspections</u>
Animal keeping	3
Bakehouses	6
Dairies	2
Drainage works	20
Dwelling houses	1,209
Infectious diseases inquiries	18
Food poisoning inquiries	-

Smallpox Contacts

The son of one of the smallpox cases in the Birmingham area visited a house near this district, attending church service morning and evening. Some 40 people attended both services. All these people and their families were vaccinated, and as there were several people who lived in various areas both near and far, the appropriate Medical Officers of Health were notified. A large amount of visiting and enquiry was necessary, but it was made much easier by the co-operation of all church members. The state of panic which existed brought numerous enquiries from people, particularly by telephone, which considerably interfered with one's work.

Mass Radiography

An X-ray survey was carried out in April. In all 2,147 persons were examined, 770 males and 1,377 females. Three cases of Pulmonary Tuberculosis were discovered which did not require close supervision and three cases were discovered which required formal supervision. Included in the 24 other diseases discovered were two cases of lung cancer.

There is free co-operation between the local authority and the Chest Physician and every assistance is given in the ascertainment of contacts, rehousing and employment. A special clinic for contacts has been working very satisfactorily and general practitioners have availed themselves fully of X-ray facilities.

A number of cases and contacts were seen and examined by Dr. Paul at the Outwoods Hospital, Burton-on-Trent.

ANNEX TO ANNUAL REPORT

FACTORIES ACT, 1937 and 1959

Resumé of Annual Report of the Medical Officer of Health in respect of the Year 1962 sent to the Director of Statistics, Ministry of Labour and National Service Headquarters, Orphanage Road, Watford, Herts.
