Dr. J. COLLIS BROWNE'S
CHLORODYNE.

TRADE

MARK.

CHLORODYNE is a liquid, taken in drops. It invariably relieves *pain* of whatever kind; creates a calm, refreshing sleep; allays irritation of the nervous system when *all other remedies fail*; leaving no bad effects like opium or laudanum; and can be taken when no other medicine can be tolerated. Its value in saving life in infancy is not easily estimated,—a few drops will subdue the irritation of Teething, prevent and arrest Convulsions, cure Whooping Cough, Spasms, and Flatus at once.

Among invalids, it allays the pain of **Neuralgia, Rheumatism, Gout, &c.** It soothes the weary aching of **Consumption**, relieves the soreness of the **Chest, Cough, and Expectorations**, and cures all **Chest Affections**, such as **Asthma, Bronchitis, Palpitation, &c.** It checks **Diarrhoea, Alvine Discharges, or Spasms, and Colics** of the Intestines, &c.

The extensive demand for this remedy, known as Dr. J. COLLIS BROWNE'S CHLORODYNE, by the Medical Profession, Hospitals, Dispensaries—Civil, Military, and Naval—and Families, especially guarantees that this statement of its extreme importance and value is a *bonâ fide* one, and worthy of the attention of all.

CAUTION.—Always ask for “Dr. J. Collis Browne's Chlorodyne,” and beware of spurious compounds or imitations. Dr. Browne placed the Recipe for making “Chlorodyne” in the hands of Mr. Davenport **ONLY**; consequently there can be no other Manufacturer. The genuine bears the words, “Dr. J. Collis Browne's Chlorodyne,” on the Government Stamp of each bottle.

The following is an extract from the decision of the Vice-Chancellor in the late Chlorodyne Chancery suit—BROWNE & DAVENPORT v. FREEMAN:—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the statements of the defendant Freeman were deliberately untrue, and he regretted to say that they had been sworn to. Eminent hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. —See THE TIMES, July 13th, 1864.

Sold in Bottles at 1s. 1½d., 2s. 9d., and 4s. 6d. Sole Manufacturer,

J. T. DAVENPORT,

33 and 34, GREAT RUSSELL STREET, BLOOMSBURY SQUARE, LONDON.

[MEDICAL TESTIMONIALS OTHER SIDE.]

TESTIMONIALS.

Earl Russell has graciously favoured J. T. Davenport with the following:—"Extract of a despatch from Mr. Webb, H.B.M. Consul at Manilla, dated Sept. 17, 1864:—

"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives."

*** Earl Russell communicated to the College of Physicians that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that Cholera has been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

Extracts from the GENERAL BOARD OF HEALTH, LONDON, as to its efficacy in Cholera.

1st Stage, or Premonitory.—In this stage the remedy acts as a *charm*, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purgings.—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse.—*In all cases restoring the Pulse.* So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

From DR. THOMAS SANDIFORD, Passage West, Cork.

I will thank you to send me a further supply of Chlorodyne. It is the most efficacious remedy I ever used, affording relief in violent attacks of Spasms within a minute after being taken. One patient in particular, who has suffered for years with periodical attacks of Spasms of a most painful nature, and unable to obtain relief from other remedies, such as opium, &c., finds nothing so prompt and efficacious as Chlorodyne.

From W. VESALIUS PETTIGREW, M.D., formerly Lecturer at St. George's Hospital, London.

I have no hesitation in stating that I have never met with any medicine so efficacious as an Anti-spasmodic and Sedative. I have used it in Consumption, Asthma, Diarrhoea, and other diseases, and am perfectly satisfied with the results.

From DR. J. H. SHORHOUSE, Carshalton, late Physician to the Metropolitan Convalescent Hospital.

I have been in the habit of prescribing Dr. Browne's Chlorodyne daily for the last twelve months, and beg to express my conviction of its efficiency as a powerful and *unique* remedial agent. It possesses Anodyne, Astringent, and Anti-spasmodic properties in a remarkable degree.

In all cases of Irritability in which I have tried it, it has induced a state of complete tranquillity and repose. In Phthisis it has allayed the harassing cough, and diminished the amount of expectoration. In Neuralgia and Rheumatism it has subdued the pain in a very satisfactory manner. Its effects are totally dissimilar to those of opium or of any other medicine used in England. In Paroxysmal Coughs, from Laryngitis, Croup, Whooping Cough, &c., and in Bronchitis with copious expectoration, Chlorodyne is superior to any other remedy I am acquainted with.

From SURGEON HAWTHORNE, Henry Street, Banbridge, Ireland.

I have been in the habit of prescribing your preparation of Chlorodyne pretty largely these last three months. I have invariably found it useful, particularly in the latter stages of Phthisis, allaying the incessant and harassing cough; also in Chronic Bronchitis and Asthma.

From J. M'GRIGOR CROFT, M.D., M.R.C.P., London, late Staff-Surgeon to H.M.F.

November 26, 1859.

SIR,—After prescribing Dr. J. Collis Browne's Chlorodyne for the last three years, in severe cases of Neuralgia and Tic-Douloureux, I feel that I am in a position to testify to its valuable effects. Really, in some cases it acted as a charm, when all other means had failed. Without being asked for this report, I must come forward and state my candid opinion that it is a most valuable medicine, and I have recommended several chemists in this neighbourhood not to be without it for prescriptions.

From JNO. E. GOULSTONE, M.D., late Principal Surgeon to the Steam Ship Great Eastern.

I can confidently state that Chlorodyne is an admirable Sedative and Anti-spasmodic, having used it in Neuralgia, Hysteria, Asthma, and Consumption, with remarkably favourable results. It relieved a fit of Asthma in four minutes, where the patient had suffered eleven years in a most distressing manner, no previous remedy having had so immediate and beneficial an effect.

From DR. B. J. BOULTON & Co., Horncastle.

We have made pretty extensive use of Chlorodyne in our practice lately, and look upon it as an excellent direct Sedative and Anti-spasmodic. It seems to allay pain and irritation in whatever organ, and from whatever cause. It induces a feeling of comfort and quietude not obtainable by any other remedy, and it seems to possess this great advantage over all other Sedatives, that it leaves no unpleasant after-effects.
