ANNUAL REPORT

OF THE

Medical Officer of Health

FOR THE YEAR 1946.

Mr. Chairman and Gentlemen,

I have the honour to submit to you my Annual Report on the Health and Sanitary Administration of the Urban District for the year 1946. Incorporated with it is the report of the Sanitary Inspector.

The Report is an "ordinary" report, and therefore mainly statistical.

I desire to express my thanks to the Chairman and Members of the Public Health Committee and also the Staff of the Department for their co-operation.

GENERAL STATISTICS.

Area (acres)	4,000
Population	12,090
The number of inhabited houses according to the rate book ...	3,483
Rateable Value	£46,759
Sum represented by Penny Rate	£180/0/0

SOCIAL CONDITIONS.

The District is partly residential in character and we have one working colliery. The majority of the population find employment in adjacent collieries and factories.

EXTRACTS FROM THE VITAL STATISTICS OF THE YEAR 1946.

Comparability Factor. The variety and magnitude of Local population movements and the uneven incidence of civilian war deaths have together combined to frustrate the attempt to secure comparability between local death rates by the use of Area Comparability Factors, and the preparation and issue of such factors are being suspended under present conditions.

LIVE BIRTHS :—	Total	Male	Female
Legitimate	251	141	110
Illegitimate	4	2	2
Birth rate per 1,000 of the estimated resident population			21.1

STILL BIRTHS :—	Total	Male	Female

DEATHS FROM ALL CAUSES :—

	Total	Male	Female
	129	68	61
Death rate per 1,000 of the estimated resident population,			10.7.

Remarks on Total Statistics: The Birth Rate 21.1 shows an increase on last year which was 18.8. The rate for England and Wales was 19.1.

The following is a table showing the Birth Rate for the past five years:—

Year		Garforth		England & Wales
1942	...	20.1	...	15.8
1943	...	18.4	...	16.5
1944	...	21.4	...	18.1
1945	...	18.8	...	16.1
1946	...	21.1	...	19.1

Death Rate:—The Death Rate of 10.7 is the same as that of the previous year. For England and Wales the Death Rate for 1946 was 11.5. It will be noted that the Birth Rate continues above the Death Rate.

The following is a table showing the Death Rate for the past five years:—

Year		Garforth		England & Wales
1942	...	11.9	...	11.6
1943	...	11.6	...	12.1

Chief Causes of Death:—These included 17 from Cancer, 35 from Heart disease, 5 from Tuberculosis of the Respiratory system.

A detailed list of Causes of Death is printed in this report.

Infantile Mortality:—The Death Rate of Infants under one year of age per 1 000 live births shows a decrease on last year. The Rate for England and Wales for 1946 was 43.

The following is a table showing the Death Rate of Infants under one year of age per 1,000 live births :

Year	Garforth	England & Wales
1942	38.6	49.0
1943	42.7	49.0
1944	36.1	46.0
1945	22.9	46.0
1946	20.0	43.0

PREVALENCE OF AND CONTROL OVER INFECTIOUS AND OTHER DISEASES.

I have great pleasure in stating that no cases of Diphtheria were reported during 1946. I attribute this substantial decrease of the incidence of this disease to the fact that more parents are taking advantage of the scheme to have their children immunised.

I should again like to stress the advantages to be obtained by having children immunised.

Small Pox : No cases of Small Pox were reported in the Council's area.

Measles : There was a small amount of measles during the past year, but no deaths resulted.

Whooping Cough : No cases of Whooping Cough were reported during 1946.

Summer Diarrhœa : There was a small amount of this disease during 1946, and two deaths resulted.

Influenza : There was the usual amount of Influenza during the past year, but no epidemic fortunately no deaths resulted.

Tuberculosis : 10 new cases of Tuberculosis were reported during the year 7 Pulmonary and 3 Non-Pulmonary. There were 5 deaths from Pulmonary Tuberculosis and 1 from Non-Pulmonary Tuberculosis.

Ophthalmia Neonatorum : No cases reported.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

Public Health Officers of the Local Authority.

The Staff consists of the Medical Officer of Health and the Sanitary Inspector. The Medical Officer of Health is a part-time Officer. One-half of the salaries of these officials is recovered from the County Council. The Local Authority provides clerical assistance.

CLINICS AND TREATMENT CENTRES.

Name	Situation
Maternity & Child Welfare Centres	Garforth Kippax Allerton Bywater
Tuberculosis Clinic	Garforth T.B. Dispensary
V.D. Clinic	Leeds

CHILD WELFARE CENTRES.

These Centres are under the control of the W.R.C.C. The mothers attend regularly and derive particular benefit from the advice given by the staff regarding the Feeding and Welfare of their infants.

School Children are also seen at these Centres where minor ailments are given attention.

SCABIES.

In addition to the treatment received at the Child Welfare Centres, facilities are now provided for the treatment of the more persistent cases at the Castleford Scabies Clinic.

LABORATORY FACILITIES.

Bacteriological examinations are undertaken by the West Riding County Council Analysts Department by arrangement with the County.

AMBULANCE FACILITIES.

(a) For Infectious Diseases.

We have an arrangement with the Tadcaster Rural District Council for the use of their Ambulance, which is kept at the Isolation Hospital, Garforth.

(b) For Non-Infectious, Maternity and Accident Cases.

The Council own a motor ambulance for these cases at a fixed charge.

Kippax St. John & Miners' Welfare also serve the district with a modern well-equipped ambulance.

PROFESSIONAL NURSING IN THE HOME.

(a) General.

The Garforth District Nursing Association continues to do useful work in the area. The services of a qualified District Nurse are available in general and midwifery nursing.

There is no District Nursing Association in Kippax or Allerton Bywater. A need for a District Nurse is often felt.

County Council midwives are in practice over the whole area.

(b) Infectious Diseases. None.

HOSPITALS.

For Infectious diseases we have an arrangement with the Tadcaster Rural District for the use of the Isolation Hospital at Garforth Cliff at a fixed charge.

Mortuaries.

The Council owns two Mortuaries: one is situated adjoining the Councils premises in Garforth, and the other adjoining the Council Offices in Allerton Bywater.

SANITARY CIRCUMSTANCES OF THE AREA.

Water: The Water is purchased in bulk from the Leeds corporation: it is of a exceptionally high degree of purity. There has been an adequate and constant supply throughout the year.

DRAINAGE AND SEWERAGE.

The majority of the drainage is by piped sewers, discharging into the sewage disposal works.

The remaining houses in the area unconnected to our disposal works are situated in the outlying parts of the district.

CLOSET ACCOMMODATION.

No. of privies with open Ashpit	...	—
No. of pail or Tub Closets	4
Privies with covered Middens	826
No. of Water Closets	2595
No. of Chemical Closets	4

Public Conveniences: There are modern underground Public Conveniences provided consisting of 3 w.c.'s and 1 urinal. There has also been provided 2 w.c.'s in the Garforth Church yard to which the public have access.

HOUSING.

(a) Proceeding under Public Acts:—

- (1) Number of dwelling-houses in respect of which notices were served requiring defects to be remedied ... 157
- (2) Number of dwelling-houses in which defects were remedied after service of formal notices 148

(b) Proceedings under Section II, Housing Act, 1936:—

- (1) Number of dwelling houses in respect of which Demolition Orders were made 1
- (2) Number of dwelling-houses demolished in pursuance of Demolition Orders 0

2. Number of new houses erected during 1946.

(a) By Local Authority	0
(b) By Private Enterprise	8
				—
			Total	8

3. Housing Conditions.

(1) Total number of houses in the District	3483
(2) Number of working-class houses included in the above	3138

(3) General observations as to housing conditions, overcrowding, and shortage of houses. Housing conditions are very fair. We have little overcrowding in the village of Garforth, but unfortunately there are still many cases of definite overcrowding in the villages of Allerton Bywater and Kippax to be dealt with.

These cases of overcrowding in all probability would have been relieved except for the outbreak of hostilities. There is an acute shortage of houses in most parts of the district.

INSPECTION AND SUPERVISION OF FOOD.

1. Milk and Dairies Order.

(1) Number of visits to Cowkeepers	70
(2) Number of Cowsheds visited	16
(3) Number of Milk Cows	90
(4) General Conditions and Type of Cow			Fair
(5) General Cleanliness of Cows	...		Good
(6) General Conditions of Sanitation	...		Good
(7) Chief Methods of Milk Disposal	...		Retailed Locally

The cowsheds as a whole are kept in a clean condition.

II. Water, Food, and Drugs.

(New bakehouse in process of erection).

CHEMICAL AND BACTERIOLOGICAL EXAMINATION OF FOOD.

Examinations under this head are carried out by the West Riding County Council.

BUTHERS' SHOPS AND SLAUGHTERHOUSES.

During the period of Hostilities and since the majority of the Slaughtering is carried out in the Leeds Abattoir.

SHOPS ACT, 1934, Sections 10 and 13 (3).

There were 25 visits made under the above Act during 1946 and unsatisfactory conditions were found and remedied in 4 cases.

I am, Gentlemen,

Your obedient Servant,

CLAUDE C. HARGREAVES,

Medical Officer of Health.
