Future Prospects. Extension of water mains to supply further development at Avonlea Building Estate, Wallis Road, and the Dyehouse Lane area. Agreement has been reached for the taking over of the Glastonbury Water Undertaking by the Bristol Waterworks Company on 1st April, 1939.

Chemical Analysis. The results of the examination of seven samples of water taken on 30th April, 1957, were as follows:-
All results in parts per million.

[illegible]

DRAINAGE AND SEWERAGE.

Extensions and Improvements during the year.

No extensions or improvements were carried out during the year.

Sewage and Trade Effluent Disposal Scheme.

The construction of the New Sewage and Trade Effluent Disposal Plant still proceeding satisfactorily.

Future Proposals.

The extension of the Sewage System to take drainage from existing houses in Wellhouse Lane.

FOOD POISONING.

No outbreak of food poisoning occurred in the Borough during the year.

NATIONAL ASSISTANCE ACT, 1948.

Section 47. Removal to suitable premises of persons in need of care and attention.

No action was taken under this section during the year.

HOME NURSING.

It should be noted that the provision of Home Nursing is the responsibility of the County Council and not of the Local Authority in this Area.

Two full-time and one part-time Nurses are responsible for the nursing in the area and in addition for the nursing of two neighbouring Villages, in general, their work consists principally of:-

1. Visiting the sick of all ages in their homes and giving such general attention and especial treatments as are required.
2. Ante-Natal care of Midwifery and the conduct of domiciliary midwifery with and without a doctor.
3. Work in conjunction with the School Medical Schemes.
4. Infant Welfare Work and routine visits to children of pre-school age.
5. Domiciliary visits for the purpose of giving insulin, liver extract, and other injections.
6. Routine visits to elderly house bound people.

The principle increase in work has occurred in Ante-Natal, Midwifery and Infant Welfare Departments and it is not found that the giving of routine or other injections is a heavy call.

HEALTH OF CHILDREN.

There is an Infant Welfare Clinic which is held on the first and third Wednesdays in the month, the Medical Officer of Health attending at all sessions.

A voluntary "Moral Welfare Society" operates in the area and pays particular attention to cases where there is a threatened break-up in the family or children are in need of supervision, and their parents advice.

No Scheme is administered by the Local Authority.
