Total on Register at end of 1958.	16	8	4	5	20	13

WATER SUPPLY.

Practically the whole of the dwelling houses in the Borough are supplied from the Council's public mains, the figures being as follows:-

Laid on direct to house.	1,825
Water fetched from distant standpipe.	<u>1</u>
	1,826
Houses (including isolated farms) relying on a private well supply.	<u>2</u>
	<u>1,828</u>

Sufficiency. No shortage was experienced during 1958.

Sanitation. No shortage was experienced during 1928.

Practically the whole of the dwelling houses in the Borough are supplied from the Council's public mains, the figures being as follows:-

supply.	2
relying on a private well	1,828
Houses (including isolated farms)	
Water fetched from distant standpipe.	1,828
Laid on direct to house.	1,828

#### WATER SUPPLY.

#### NOTIFIABLE DISEASE (OTHER THAN TUBERCULOSIS):-

WATER SUPPLY.(continued)

Quality. The supply is hard. Galvanised Iron Polythene and Copper service pipes are used and no difficulty is experienced due to plumbo-solvent action. Permanent Chlorination Plants (Chloramine Process) are in continuous operation.

During 1958 an emergency filtration plant was hired and installed at Edgarley Reservoir for three months to filter water taken from this Reservoir.

The results of samples taken for Bacteriological examination during the year were as follows:-

<u>Date Taken.</u> 1958.	<u>Edgarley Supply.</u> (Low Level)	<u>10 Acres Supply.</u> (Inter. Level)	<u>Tor Hill Supply</u> (High Level)
	Probable No. of Coliform Bacilli per 100 ml.

During the year extension of water mains to supply further development at Avalon Building Estate, Wells Road, and the Dyehouse Lane Area were carried out.

Future Proposals.

As from the 1st April, 1959, Glastonbury Water Undertaking being amalgamated with the Bristol Waterworks Company.

# WATER SUPPLY (continued)

## Quality.

The supply is hard. Galvanized Iron  
Polythene and Copper service pipes  
are used and no difficulty is  
experienced due to phos-  
phorus. Permanent Chlorination  
Plants (Chloramine Process) are  
in continuous operation.

During 1958 an emergency filtration plant  
was hired and installed at Edegarley Reservoir for three months  
to filter water taken from this Reservoir.

The results of samples taken for Bacteriological  
examination during the year were as follows:-

Date Taken.	Edegarley Supply. (Low Level)	10 Acres Supply. (Inter. Level)	Top Hill Supply (High Level)

## DRAINAGE AND SEWERAGE.

### Extensions and Improvements during the year.

During the year extension of the Sewage System to take drainage from existing houses in Wellhouse Lane was carried out.

### Sewage and Trade Effluent Disposal Scheme.

The New Sewage and Trade Effluent Disposal Plant at Mill Lane started taking sewage in July, 1958, and Trade Waste from the two Factories (Messrs. Clark, Son & Morland Ltd., and Messrs. A. Baily & Co., Ltd.,) in October, 1958.

## FOOD POISONING.

No outbreak of food poisoning occurred in the Borough during the year.

## NATIONAL ASSISTANCE ACT, 1948.

Section 47. Removal to suitable premises of persons in need of care and attention.

No action was taken under this section during the year.

## HOME NURSING.

It should be noted that the provision of Home Nursing is the responsibility of the County Council and not of the Local Authority in this Area.

Two full-time and one part-time Nurses are responsible for the nursing in the area and in addition for the nursing of two neighbouring Villages, in general, their work consists principally of:-

1. Visiting the sick of all ages in their homes and giving such general attention and especial treatments as are required.
2. Ante-Natal care of Midwifery and the conduct of domiciliary midwifery with and without a doctor.
3. Work in conjunction with the School Medical Schemes.
4. Infant Welfare Work and routine visits to children of pre-school age.
5. Domiciliary visits for the purpose of giving insulin, liver extract, and other injections.
6. Routine visits to elderly house bound people.

The principle increase in work has occurred in Ante-Natal, Midwifery and Infant Welfare Departments and it is not found that the giving of routine or other injections is a heavy call.

## HEALTH OF CHILDREN.

There is an Infant Welfare Clinic which is held on the first and third <sup>AND 4<sup>th</sup></sup> Wednesdays in the month, the Medical Officer of Health attending at all sessions.

A voluntary "Moral Welfare Society" operates in the area and pays particular attention to cases where there is a threatened break-up in the family or children are in need of supervision, and their parents advice.

No Scheme is administered by the Local Authority.

## DRAINAGE AND SEWERAGE

### Extensions and Improvements during the year.

During the year extension of the Sewage System to take drainage from existing houses in Wolfhouse Lane was carried out.

### Sewers and Trade Effluent Disposal Schemes.

The New Sewage and Trade Effluent Disposal Plant at Mill Lane started taking sewage in July, 1958, and Trade Waste from the two factories (Messrs. Clark, Son & Holland Ltd., and Messrs. A. Bailey & Co., Ltd.,) in October, 1958.

## FOOD POISONING

No outbreak of food poisoning occurred in the Borough during the year.

## NATIONAL ASSISTANCE ACT, 1948.

Section 47. Removal to suitable premises of persons in need of care and attention.  
No action was taken under this section during the year.

## HOME NURSING

It should be noted that the provision of Home Nursing is the responsibility of the County Council and not of the local authority in this area.

Two full-time and one part-time Nurses are responsible for the nursing in the area and in addition for the nursing of two neighbouring villages in general, their work consists principally of:-  
1. Visiting the sick of all ages in their homes and giving such general attention and specialist treatments as are required.

2. Ante-natal care of Midwives and the conduct of domiciliary midwifery with and without a doctor.

3. Work in conjunction with the School Medical Services.

4. Infant Welfare Work and routine visits to children of pre-school age.

5. Domiciliary visits for the purpose of giving insulin, liver extract, and other injections.

6. Routine visits to elderly house bound people.

The principle increase in work has occurred in Ante-natal, Midwifery and Infant Welfare Departments and it is not found that the giving of routine or other injections is a heavy call.

## HEALTH OF CHILDREN

There is an Infant Welfare Clinic which is held on the first and third Wednesdays in the month, the Medical Officer of Health attending at all seasons.

A voluntary "Infant Welfare Society" operates in the area and pays particular attention to cases where there is a threatened break-up in the family or children are in need of supervision, and their parents advice.

No scheme is administered by the local authority.

ANTE-NATAL CARE.

Ante-Natal care is provided by the patients own Doctor under the provisions of the National Health Act and, in addition, the District Nurses hold regular weekly Ante-Natal clinics. Instruction in relaxation classes is given by the District Nurses and at clinics regularly held at Butleigh Hospital by qualified Physiotherapists.

SMOKING AND LUNG CANCER.

No action taken.

DOMICILIARY HEALTH SERVICES.
