DRAINAGE AND SEWERAGE.

Extensions and Improvements during the year.

The provision of a Sewage Pumping Station and Rising Main to deal with foul drainage from the development of land at Wells Road, "Thorndun" Estate, for Housing Purposes.

Sewage and Trade Waste Disposal Scheme.

The New Sewage and Trade Waste Disposal Plant is in full operation and continues to work satisfactorily.

FOOD POISONING.

No confirmed outbreak of food poisoning occurred in the Borough during the year. Although one case of suspected Food Poisoning was reported from St. Dunstan's Secondary Modern School on the 1st June, 1960. A specimen sample of tinned sardines was submitted to the Public Health Laboratory at Taunton, the result of which proved to be negative.

NATIONAL ASSISTANCE ACT, 1948.

Section 47. Removal to suitable premises of persons in need of care and attention.

No action was taken under this section during the year.

HOME NURSING.

It should be noted that the provision of Home Nursing is the responsibility of the County Council and not of the Local Authority in this area.

Two full-time and one part-time Nurses are responsible for the nursing in the area and in addition for the nursing of one neighbouring Village, in general, their work consists principally of:-

1. Visiting the sick of all ages in their homes and giving such general attention and especial treatments as are required.
2. Ante-Natal care of Midwifery and the conduct of domiciliary midwifery with and without a doctor.
3. Work in conjunction with the School Medical Schemes.
4. Infant Welfare Work and routine visits to children of pre-school age.
5. Domiciliary visits for the purpose of giving insulin, liver extract, and other injections.
6. Routine visits to elderly house bound people.

The principle increase in work has occurred in Ante-Natal, Midwifery and Infant Welfare Departments and it is not found that the giving of routine or other injections is a heavy call.

HEALTH OF CHILDREN.

There is an Infant Welfare Clinic which is held on the first, third and fourth Wednesdays in the month, the Medical Officer of Health attending the first two sessions.

A voluntary "Moral Welfare Society" operates in the area and pays particular attention to cases where there is a threatened break-up in the family or children are in need of supervision, and their parents advice. No Scheme is administered by the Local Authority.
