Health Department,
Town Hall,
GOSPORT.

March, 1974

To the Mayor, Aldermen and Councillors,

There is no significant change in the information of this report compared with last year and neither the Chief Public Health Inspector nor myself have time to make any detailed comments, so the report consists of statistics required by central Government departments.

I make no apology for the brevity of this document but reorganisation of the National Health Service, particularly affecting local health authorities, reorganisation of Local Government and our impending move from the Town Hall to other accommodation, makes it impossible to be otherwise than brief.

I.D.M. NELSON

Medical Officer of Health
and
Divisional Medical Officer

REPORT OF THE

Health Department,
Town Hall,
CANTON.

March, 1911

To the Board, Aldermen and Commissioners,

There is no substantial change in the sanitation of this town compared with last year and neither the Chief Public Health Inspector nor myself have any special comments, so the report consists of statistics compiled by various Government Departments.

I wish to express the hearty of this document and recommendation of the National Health Service, particularly affecting local health conditions, organization of local Government and our fighting wave from the Town Hall to other communities, where it is possible to be estimated from last year.

L. E. M. HENSON

Medical Officer of Health
and
Inspector of Medical Officers
