REPORT OF THE MEDICAL OFFICER OF HEALTH

The Guildhall,
Grantham.

To the Mayor, Aldermen and Councillors of the
Borough of Grantham.

Gentlemen,

I have the honour to present the Annual Report on the Health, vital statistics and sanitary conditions of the Borough for the year 1973. This report is necessarily incomplete as the vital statistics usually included were not available at the time of writing.

The number of infant deaths was similar to last year's figures, the deaths being mainly due to premature birth and malformation. These figures were obtained from records kept by the County Health Department.

The table of infectious diseases shows a large number of cases of measles, this being due to the usual two-yearly cycle of the disease. An unusual feature was a notification of malaria which was unfortunately fatal.

No action was taken during the year under Section 47 of the National Assistance Act, 1948, though as usual several cases had to be investigated in case such action might be required.

The following paragraphs are included by direction of the Department of Health and Social Security.

Water Supply: (Provided by Kesteven Water Board).

This is adequate in quantity and satisfactory in quality. Nine samples were taken from the Town mains and found to be satisfactory on bacteriological examination. Regular random samples of the raw water were taken by the Water Board's staff. The most recent estimate of fluoride content showed a level of 0.05 parts per million. Unfortunately it has not yet been possible to proceed with the fluoridation of Grantham water supply. No evidence of plumbo-solvent action is known. No action was required in respect of contamination. All houses in the Borough are supplied with water direct from the mains except for two which are supplied from shallow wells.

Public Swimming Baths:

There was one open air swimming bath in Dysart Park, open only in the Summer, and filled with water from the River Witham. The water was filtered and chlorinated and pumped through continuously. Two bacteriological samples were taken, both of which were satisfactory.

The new indoor swimming pool in Union Street was open throughout the year. Ten samples of water were taken, of which two were unsatisfactory.

When an unsatisfactory sample is found steps are immediately taken to bring the water up to a satisfactory standard.

Sewerage:

The sewage works was operating throughout the year. The majority of houses in the town are connected to the public sewerage system, but a small number dispose of their sewage by septic tanks.

Common Lodging Houses:

There are none in the town.

A comprehensive account of the Department's work in the fields of housing, food hygiene and other environmental matters follows in the report of the Chief Public Health Inspector.

I have to thank all members of the Council, colleagues in other departments and all in the Public Health Department for their continued interest, courtesy and unfailing help throughout the year, and indeed throughout my 19 years term of office.

I am, Gentlemen,

Your obedient servant,

CHARLES W. SHEARER.

CARAVAN SITES AND CONTROL OR DEVELOPMENT ACT, 1960

The number of sites now licensed within the Borough is three. A new licence was issued during the year for an individual caravan for a temporary period. The other sites licensed are the Gypsy Site on Spitalgate Hill and the Residential Caravan Site on Spitalgate Level. An application was received during the year to extend this residential site. The application was approved by the Council and the Conditions of the licence issued in 1970, which limited the number of caravans on the site to 104 were amended to allow not more than 124 caravans to be stationed on the site.

A licence issued for an individual caravan for a temporary period in 1972 expired on 31st December, 1973.

RENT ACT, 1968

No certificates of Disrepair were issued.

FACTORIES ACT, 1937

Details of inspections made and defects found are tabulated on
Pages and

CLEAN AIR ACTS, 1956 and 1968

Smoke Control Order No.19 (Covering the remainder of the Hooley Estate) came into operation on the 1st May, 1973 and Smoke Control Order No. 20 (Greenhill Road) came into operation on the 1st October, 1973. Smoke Control Order No. 21 (Earlesfield Estate) was also due to come into operation on the 1st October but the date of operation was postponed to the 1st May, 1975 owing to a modernisation scheme by the Council for all their houses in this area. This would include the installation of gas fired central heating and because it is a major project the work could not possibly have been completed by the 1st October.

Smoke Control Order No.22 (Harrowby Lane) was confirmed by the Department of the Environment and should come into operation on the 1st November, 1974.

One application was submitted for approval of a chimney height.

PREVENTION OF DAMAGE BY PESTS ACT, 1949

The Council renewed an annual contract with Rentokil Laboratories early in the year, and their Rodent Operator assigned to this district gave excellent service in dealing with 295 complaints of rat infestations, 43 complaints of wasps' nests and bees, and weekly treatment of the refuse tip at Sudbrook. Seven fumigations of dwelling houses were also carried out.

The sewers were treated by expert staff in April and September with Fluoracetamide.

ANIMAL BOARDING ESTABLISHMENT ACT, 1963

One licence was issued in respect of an establishment for the boarding of dogs.

PET ANIMALS ACT, 1951

Three licences to keep pet shops were issued during the year; one was for the sale of tropical fish only.

NOISE ABATEMENT ACT, 1960

Fifteen complaints of noise nuisance were received during the year and these included five in respect of loud music, four in respect of barking dogs, five in respect of noise from industrial premises and one in respect of chimes on an ice cream vehicle. All were satisfactorily resolved without statutory action.

EXPLOSIVES ACT, 1875

The number of premises registered for the storage and sale of fireworks was thirty-two.
