GUISBOROUGH
URBAN DISTRICT COUNCIL

REPORT
for the Year 1964

of the Medical Officer of Health

TO THE CHAIRMAN AND MEMBERS
OF THE
GUISBOROUGH URBAN DISTRICT COUNCIL

Mr. Chairman and Gentlemen,

I beg to submit my Annual Report for the year 1963, the contents and arrangements of which are in accordance with the regulation of the Ministry of Health.

During the year measles accounted for 148 of the 160 cases of infectious diseases.

The table of classification of the causes of death shows diseases of the heart and circulation to take its usual first place with cancer second.

In conclusion I would like to thank the Heads of Departments for their co-operation at all times. To Mr. Pallister, Surveyor and Public Health Inspector, and Mr. Ward, Additional Public Health Inspector, I am especially grateful for their help in all matters concerning the health of the District. Finally I would like to acknowledge the hard work and willing effort of Mr. Nuttall and Miss Fox in the District Health Office.

I am, Gentlemen,

Your obedient servant,

T. M. B. ROHAN,

Medical Officer of Health.

October, 1965.

SECTION 1.

Statistics and Social Conditions of the Area

Population

The Registrar-General's estimate of the population of the district in the mid-year 1964 is 12,990 as compared to an estimate of the population in the mid-year 1963 of 12,800.

General Statistics

I am indebted to the Financial Officer of the Council for the following figures:—

1. Area of the District in acres	18,948
2. No. of inhabited houses according to the rate books			3,949
3. Rateable Value	£965,912
4. Sum represented by a penny rate	£4,055

TABLE 2

Vital Statistics

Live Births	149	107	256
Legitimate	147	103	250
Illegitimate	2	4	6
Still Births	1	5	6
Legitimate	1	5	6
Illegitimate	—	—	—

The number of births registered is 256, giving the birth rate of 19.7 per 1,000 population. Allowing for the differing age and sex distribution of the population in different areas, the birth-rate corrected by this comparability factor is 17.3 compared with the rate of 18.4 for England and Wales.

Deaths of Infants under 1 year of age

			MALE	FEMALE
Total	4	2
Legitimate	4	2
Illegitimate	—	—

6 infants under the age of 1 year died, giving an infant mortality of 23.4 per thousand live births compared to the rate for England and Wales of 20.9.

The General Provision of Health Services in the District

1. Laboratory Facilities

This work is now done at the Public Health Laboratory, Middlesbrough, only the biological test for tuberculous milk being carried out at the Public Health Laboratory, Northallerton.

2. National Health Service Act, 1946

With certain exceptions the Guisborough Area Health Sub-Committee of the Health Committee of the County Council exercises the functions of the Local Health Authority in supervising the day to day administration of the services provided under this Act. The Committee met every two months. It is composed of members of the County Council, of the three District Councils of Guisborough, Skelton and Brotton, and Loftus, and of certain co-opted members. Among the services administered are the following:—

Domestic Help Service	Home Nursing
Prevention of illness: Care and After Care	Health Visiting
Ambulance Service	Midwifery
Vaccination and Immunization	Care of Mothers and Young Children.

3. Prevention of Illness—Care and After-Care

The work previously carried out under this heading by the Voluntary Care Committee is now being undertaken by the Guisborough Area Health Sub-Committee. Enquiries and requests for assistance may be made to the Medical Officer of Health, District Health Office, Park Lane, Guisborough. (Telephone: Guisborough 2521).

4. National Assistance Acts, 1948 and 1951 — Section 47.

It has been possible to avoid advising the Local Sanitary Authorities to have recourse to the procedure laid down in these Acts.

Inspection and Supervision of Food

Ice-cream

There are 45 premises registered for the storage and sale of pre-packed ice cream, there being also one cold mix ice cream manufacturer in the district. These were inspected regularly.

Food Poisoning

No outbreak of food poisoning has been notified.

Bakehouses

There are two bakehouses in the district. 12 inspections and visits were made and no defects found.

Fish and Chip Shops

There are seven. 12 inspections were made.

Food Hygiene Regulations, 1955

Regular inspections have been carried out during the year and informal action was taken on several occasion, the requirements asked for being provided. Inspections were also carried out during the year of all food-handling premises in an endeavour to persuade persons concerned in the handling of food to attend a course in Food Hygiene at Cleveland Technical College, Redcar.

Food Retail Premises and Meat Inspections

97 visits were made to food premises. 6 premises are licensed under Section 16 of the Food and Drugs Act, 1955, for the making of sausages, brawn, pies, etc.

Food Retail Premises and Meat Inspections—continued.

1,663 pounds of meat and offal were voluntarily surrendered as unfit for human consumption and 164 tins of canned food weighing 416½ pounds.

Drainage and Sewerage

With the exception of outlying farms and villages, the District is served by public sewers discharging into various sewage disposal works, with the sewers of the Wilton parish discharging into the sewers of Eston Urban District Council.

Normal extensions to the sewerage system in the District have taken place in connection with private and council house development.

The extension of Guisborough sewage disposal works, including the diversion and renewal of various sewers, is making satisfactory progress. The four houses in Stokesley Road previously on septic tanks have now been connected to the public sewers.

No further progress has been made with the sewerage of Yearby Village.

The Council's consulting engineers have been instructed to prepare a new scheme of sewage disposal for the village of Newton-under-Roseberry. This is making satisfactory progress.

Closet Accommodation

2 sanitary pan closets were converted to water closets.

The whole of Guisborough is now on the water carriage system.

Several properties in Yearby Village still require conversion, the work being delayed owing to the lack of adequate sewage disposal facilities.

61 water closets were provided for new buildings in Guisborough during the year.

Public Cleansing (Refuse and Disposal)

A weekly collection of house and trade refuse is maintained throughout the District. Refuse is disposed of by means of controlled tipping.

Smoke Control/Clean Air

No complaints of smoke nuisance were received during the year.

The following table shows the deposit in tons per square mile in respect of the deposit gauges at Guisborough.

Rodent Control

During the year the Council's sewers were treated twice in accordance with the technique recommended by the Ministry of Agriculture, Fisheries and Food. Routine surveys have been carried out in connection with farms, business premises, dwelling-houses, etc. and at the year end 34 houses, and 5 other premises, including business premises, had been treated. The poison used has been 'Warfarin' which gives very good results and is used to deal with almost every infestation.

Movable Dwellings

There are 2 licensed sites. These were inspected on 6 occasions.

Shops Act, 1950

95 visits were paid under the above Act. Two unsatisfactory conditions were found; these were remedied by informal action.

Mortuaries

One at the Admiral Chaloner Hospital.
