## REPORT AS TO PRIVATE PATIENT.

To be sent at the expiration of ONE MONTH AFTER reception.

---

I have this day seen and examined John Thomas Bullough

received here on the 9th day of September, 1913

and report that with respect to mental condition he is very depressed and confused. He believes that everything is wrong; that there is no food and no money. He thinks his business affairs are hopelessly involved.

, and that with respect to

bodily condition he is in poor health and he looks a bad colour. There is no evidence of visceral disease, but his pupils are rather sluggish.

body is well. In some parts of the body a

muscles are rather atrophic.

Time of day 11:15 AM

At the time of the examination

was in a state of

no history of himself  
or his previous history or  
family history. His wife  
is a member of the Society  
of Friends. She attended the  
meeting there with us, but was  
not a joined member. As  
regards the question of cost,  
I do not consider he  
requires any special  
arrangements for himself, but  
perhaps you will let us  
know what your <sup>several</sup> charges  
are. He has retired from  
business & has some means.

I think the best plan  
will be for you to kindly  
send an attendant &
