Complaints

Conduct & behaviour.

Quiet & answered questions sensibly, but no conversation & constantly laughing in a silly way. Doesn't know why she is laughing.

June 18th

P. had very little sleep. Brom: given at Bed-time. 355 Brom
S. Enema given. Rather constipated. To have the bowels to be given
washed out each day. Hungadi each, a. m. Brom each each night
night at Bedtime. Got up midday. played tennis
Did some needlework. & played & sang.
Had a book but said she didn't know what it
was about although reading it. Continues to
laugh in a very silly way. Habits reported fairly.

" 12th

Visited by Dr. --- this a. m.

13th

" 20th

Has a rash over most of her body.

Condition much the same. Went to Meeting &
laughed the whole time. Seemed quite unable
to control herself.

" 20th

P. has been without a night's sleep since Tuesday.
Condition much the same. Inclined to lie
about & be idle the last two days.

July 4th

Has gradually become more troublesome & seems to use
less control. Wanting to bang on the piano all day long.

Has refused to do needlework or play games.

Is taking food & sleeping well.

" 11th

Rather better during the week, but very silly
at times. Wash out to be given 3 times a week.

" 24th

Has been rather better on the whole, but very
naughty & mischievous at times, tipping over
flower vases etc. Has employed herself with
painting & needlework also played games.
Very much upset when told she was going
away, but not home. Cried a little.

Left the Retreat 2-15 p.m. Seemed fairly
bright. No further evidence of bad habits.

Abstract of Certificate.

Patient laughed in a silly way almost continuously during interview. Appeared to take no interest in anything, & says she slacks all the time because there is nothing to do. Woke up last night feeling herself suffocating but doesn't think she did anything to prevent it. Often has this feeling. Dislikes her sisters but doesn't know why, & doesn't know whether she likes her father. Her answers were mostly very indefinite to any question.
