13th June, 1916.

My dear Reynolds,

Many thanks for the cheque for £1. 1. 0.

There certainly will be no harm in delay in respect to Mrs. Wright. The Mrs. Thompson of whom you speak is a really capable and trustworthy person, and if she is able to look after Mrs. Wright she will do it really well. I have known her for a long time. She was once Matron of a large asylum at Sedgefield.

Fenton is doing perfectly well. He will be leaving at the end of this week, and I will suggest that you continue an injection that we are giving him, and I will ask Dr. Mackenzie to enclose particulars. Not only is the atropin and strychnine helpful in itself, but the personal supervision required is good for the patient as he will see you frequently and you can encourage him.

I remain,

Yours very truly,
