Dec. 30, 1911

Dear Sir,

I have not heard anything of Mr. Harker since his return home, but I saw him in York station as he passed through. I hope it will be all right to discharge him as "recovered" on Monday, so that he will start the new year without certificates.

Yours very truly,

Dr. McNeill,

Bridlington

Dec. 30, 1911

Dear Mrs. Harker,

Now that the end of the year has come it is desirable that Mr. Harker's name should be removed from our books, and I conclude I shall be doing right to discharge him as "recovered".

Unless I hear to the contrary on Monday morning I shall accordingly do so.

With all good wishes for the new year,

Yours very truly,

Dear Sir.

Portmanteau
arrived safe this
morning - thanks
for all trouble.
It is marvelous
how they all went
in this small space.
I do not think you
have anything
of mine in the

locker, unless
you have any of
the Dressing Case
fillings as I do
not know what
were in when it
was sent to me
as I did not see
it until later -
will you kindly ask
the Management
to send me to
this address by
return if possible
my Bill to the
Quon 3 bar when
I came away

I think there was £20 paid
to me when I first came
to think I is less in the
Sage - I have no more

Dear Mr. Harker,

I am pleased to hear that you are getting on very well. The weather certainly is better now, and I hope you are able to enjoy your visit to Harrogate. I trust you will let me know if you are failing in any way to progress, but if you are steadily improving all the time we shall of course not want you to come back here.

With kind regards and good wishes,

Yours very truly,

Dear Sir.

We are staying
at the above address.
But the weather has
been very bad, wind
& rain. We propose
staying a few days
longer perhaps over
new week end.
(with your permission)

it is very bracing 679
I think makes me
sleep better if I
do not hear from
you I shall take
it that silence

Dear Dr. Perce

I should be pleased
if you would let me know
how my husbands health
is now - also the depression
& his spirits & how much
longer he will be before
he is able to return home
The last time I have

been to York my husband
has met us at the station
& we have spent our time
with him in York so
that I have not been able
to see either you or J.
Graciously to have a little
conversation.

I myself think my
husband has improved
wonderfully since he has
been at the Retreat
but would like to have
your opinion about
him.

me I expect this is business
If I came it would be
Friday.

I shall I do so please
say.

Yours Sincerely
Florence Larker

Dear J. P. Pierce Sept 26th 1911

I was agreeably
surprised to see my
husband looking better
& brighter when we came
yesterday he talked all
the time we were there
this we could not get him
to do the last week he
was at home.
He would very much

like a separate bedroom
as he does not like being
disturbed I said I would
see you as we went out
but you were not in
of course you know but
also may my husband
have plenty of fruit as
he is very fond of it &
had been having a
good deal at home.
I have had a letter from
him this morning asking
me to come on Thursday
or Friday as he wants
to talk things over with

Dear Mr. Horton,

It will be quite convenient for you to see Mr. Hooker again this week but he really ought not to discuss business nor should anything be said to unsettle him. He wants to go home which is not surprising but he fails to understand the necessity for leaving home. The boy in the next is better & is certainly more interested in things but also still much depth of depression.

He could have a bed room to himself but this would mean much more expense. He is not fit to be left

alone at night & so a special night nurse would be required.

Perhaps you will say if you could like this change made

Dear Mr. Chapman,

I will be quite convenient for
 you to see Mr. Chapman again this week
 but he will not be out to discuss
 business for some time. I am
 to see him. I want to be
 sure which is not convenient but
 he finds it convenient to see me
 for some time. He has not in the
 week is better. I am certainly some
 interested in this but also still some
 light of discussion.
 The course has a great deal to be
 but it is more than some course
 reference. It is not fit to be left
