Dear Dr. Pierce,

I must thank you for
your promptness in answering
my inquiries. We are very
glad to have your assurance
as to the management and
nursing at Bootham Park,
as it very strongly confirms

our own impressions.

We were perfectly satisfied on that score, but we very much missed the little refinements that she had at the Retreat, and we were very much struck with the way th her afternoon tea was sent up.

I would like you to know

that your letter has reassured us, on the points we were anxious about, and that we shall not now think of making any change.

Yours very truly,

Edith G. West.

Sept. 23, 1913

Dear Madam,

Dr. Pierce asks me to let you know that he arranged an interview with Dr. Jeffrey of Bootham Park. He is prepared to receive Miss A.H. West at the same terms as she is paying here in the hope that a change of surroundings may be beneficial. We have every confidence in recommending her to go to Bootham Park, and as the place is near at hand we can easily manage the removal. It will, however, be necessary for you to make application direct to Dr. Jeffrey, and when you have received his reply you will have to obtain the consent of the Commissioners in Lunacy, 66 Victoria St., Westminster, London.

Yours truly,

Asst. Sec.

Dear Sir,

I wrote telling Dr Pierce that as I thought of removing to the south of England I should be glad if he could let me know the address of some institution further south than Yorkshire. You do not say where Bootham Park is, but if it is 'near at

could not think of arranging for my sister's removal without seeing the place. Please let me know by return, to this address, that there is no immediate hurry, and if possible send address of institutions more conveniently placed, that Dr Pierce can recommend.

Yours truly

2
hand' I am afraid it would
be very inconvenient for my
visits which must be frequent.
Is there no place nearer London
to which he could arrange to
send her? If this is the only
available place of course
Dr Pierce will give long enough
notice to allow of my seeing
the place and giving my
consent or otherwise before
he takes any steps for her

removal. I have another sister who
has just been dangerously ill, and
I am at present staying in Wales
with her, but if there is any immediate
hurry, I must come home on Friday,
do as to take the week. And Saturday
to Monday in York and arrange
matters. This would be almost-
impossibly inconvenient, but I

I would ask you to leave me
as much time as possible
as I have had another sister
dangerously ill, and I have
had to give up my work to
take care of her.

Dear Dr Pierce,

I was extremely sorry to
receive your letter this morning
but from what I heard in July
I can quite understand that
it is almost impossible that
she should stay where she is.
The difficulty is that no other
place of those that I enquired

about will take a chronic case. I should be very much obliged if you could tell me of any place, with fairly reasonable terms, that would take her, - preferably in the South of England, as we may be moving there, but if you can highly recommend one anywhere else except Scotland it would influence me in my choice of a place to live in.

I hope that in the event of there being a decided improvement for the charge, you would consent to take her back. I may take this opportunity of testifying to the extreme patience and kindness of the staff in dealing with a most-difficult case.

Yours truly,
Edith & West.

Dear Miss West,

The Committee of the Retreat find themselves obliged to reduce the number of patients in residence, and I have submitted to them a list of those patients who are not likely to suffer by removal to another Institution. One of these is Miss West, and I am requested to ask you to make arrangements for her removal to some other Institution as early as can conveniently be arranged. There is I fear little hope of Miss West's recovery, and I do not think she will suffer in any way from a removal: indeed it is possible that a change of scene may be of some benefit. For many years past I have urged the desirability of the removal of chronic patients, as experience has shown that a change of scene is often beneficial. Miss West has developed most painful delusions as regards the character of the hospital, making the most objectionable accusations against the staff. It is therefore necessary for her to have new surroundings.

Dear Miss Thompson,

We have been much exercised lately on account of the Women's side being over full, and we have had to decline several patients we should have liked to admit. I have been through the list of patients with the Committee, and two who are not likely to benefit by a prolonged stay have been selected for transfer. One of these is Miss West, whom you will remember. The reason why we think she should leave is that she has developed delusions respecting the staff and the character of the place of a painful and unreasonable nature and we think a change may do good, and certainly cannot do any harm. I shall therefore be writing to Miss West asking her to arrange for the removal.

You will be much interested in Sir Oliver Lodge's address, and though I cannot say I am entirely at one with him in all his opinions, I must admit that the tone of the address is excellent, and the warning to dogmatic people who call themselves scientific is very much needed.

We had a delightful holiday in the Lake District, and I am glad to say we are all nicely. I hope you and Mr. Thompson are now quite well and have been able to enjoy the beautiful weather.

Dear Miss West,

I do not think there is any special cause for anxiety about your sister. Her physical health is much as usual. She is not improving mentally, and that we can hardly expect, but I do not think she becomes much worse.

She always enjoys your visits, so by all means come on Nov. 2nd. I could not possibly say whether you would be able to see Dr. Pierce on the Sunday or not, as I do not know what engagements he has.

Miss West takes her food quite regularly. She does not sleep very well as she is very restless and has been inclined to tear her sheet. She walks about in the garden a good deal. She occupies herself a good deal with writing and ~~pp~~ occasionally a little drawing: otherwise she does nothing. She does not appear to be at all tired or listless, and she takes practically no interest in the other patients or in the nurses.

Yours truly,

M.K.

Dear Dr. Pierce,

I wrote to you on the 2nd of September asking whether there was any likelihood of my sister's going to Throsby this month, and making enquiries about her health, whether she is sleeping better and eating well. I have had no reply at all, though September is now nearly half through. It may be that she is not well enough, but in any case I am anxious to know how she is. Dr Kemp said she ^{is} would be away all September, and that it is not advisable to write to the Sisters, but that you would answer any enquiries. My sister seems anxious about her business affairs, which of course are in Chancery now. She seems to have heard something of the arrangement, and I think perhaps it would relieve her mind if I told her plainly how matters stand. Would you advise this, or not? I shall be here till Friday morning when I return to Birkenhead. "Inverkip" Park Road North.

Awaiting an early reply.

Yours faithfully,

June 12, 1912

Dear Sirs,

I beg to return Miss West's letter, and should point out that Miss West has been a most anxious case on account of repeated serious suicidal attempts. She has swallowed a considerable number of articles and attempted to strangle herself many times. It is therefore not safe to give her much liberty.

The last time she went to a Communion service in the town she went a second time to the altar rails, thus taking the sacrament twice within a few minutes. We have not allowed her to go into the city again for this purpose, but she has frequent opportunities of taking communion in the Retreat, as the Vicar of St. Lawrence, Rev. E.G. Hutchings, has many times arranged a special service. Miss West is dominated by hallucinations of hearing, and generally at the last moment, when a service is arranged, she has declined to go.

If the Master in Lunacy requires to see the originals at any time hereafter, no doubt you could arrange for them to be sent to London for his inspection. Dear Sir,

MISS A. H. WEST.

We are much obliged for your letter and enclosures.

From the latter it is evident that we have put you to a good deal of unnecessary trouble, but we have been misled by Mr. H. Cope West who distinctly told us that the reception order was limited to 6 months which turns out not to be the fact. There is, of course, now no difficulty, and we have engrossed your affidavit in the form in which you have already approved of it and shall be glad if you will affirm to it.

With regard to the last paragraph, we think that the date should be the date when Miss West was first received into the Retreat prior to the reception order being made. This date would be either the 30th or the 31st March 1910. You should also fill in, in the same paragraph, the date when you last saw her. We think it will be necessary to exhibit

11

the original reception order and certificates to the affidavit and we propose that these should be marked "A" "B" and "C".

Perhaps you will be good enough to complete the document before the Commissioner whom you generally go to in these matters, and as he will have to mark the exhibits, he might charge an extra fee. If you will kindly pay his charge and let us have an account of it together with your own fee in the matter, we will let you have a cheque for it.

Yours truly

Bateson Wainwright

The original receipt was and certified to the amount
 and we suppose that these should be noted as such.
 Perhaps you will be good enough to include the
 amount before the Commission that you normally do in
 these matters, and so we will have to send the certificate, as
 this change is made too. It may well likely pay the change
 and let us have an amount of it together with your own in
 the matter, so that you have a check for it.

The state of the mind of the Commission
 and the nature of the work that they do
 and the fact that they are not to be
 in a position to do anything more
 than to receive the money and
 to give it out as they see fit
 and to do so as they see fit.

Dear Sir,

RE MISS A.H.WEST.

(2494)

We have communicated with our London Agents, who have a very large experience in lunacy matters, with regard to your last letter to us, and we have heard from them this morning.

They write us that if proceedings are instituted upon subsection (C) there must be evidence of "lawful detention" and that a detention order must be ⁱⁿ enforced and exhibited to the affidavit together with the medical certificates which accompany it. They add that they know of no other procedure under this subsection. We submitted the draft of your affidavit to them, and we enclose a copy of it in the way in which they have altered it, and which they consider would be sufficient to justify proceedings under subsection (D). We should be glad to know whether you would feel yourself justified in making the affidavit in the form in which it stands.

Perhaps you will be good enough to return us the draft when you write us as to this; we send you an envelope for the purpose.

From a conversation which we have had with Mr.H. Cope West, we gather that his sister is detained with the approval, if not under the direction, of the Visiting Commissioners, and if this be so, we would ask our Agents whether this fact would not be sufficient to justify proceedings under Subsection (C). Perhaps you will be good enough to let us know whether what Mr.H.Cope West states is correct.

Failing proceedings under subsection (D) or any evidence which we can obtain as to "lawful detention" under subsection (C) being sufficient, we see no way out of the difficulty except to obtain another detention order.

Yours truly,

Batesnowan

Perhaps you will be good enough to return to the staff when we write to you to help us with our studies for the papers.

With a recommendation that we have had with us.

The first we found that the matter is detailed with the approval, it was under the direction of the Working Committee, and it was to be, as well as the other studies. The first study was to be published in the Working Committee.

Perhaps you will be good enough to let us know whether this is the case or not.

Yours faithfully,

Dear Sir,

RE MISS A. H. WEST.

We are much obliged for your letter with reference to this matter .

We believe that before Miss West went into the Retreat, her family Doctor took her to see a female specialist on several occasions, and we might perhaps pursue this point further with a view of proceeding under the disease subsection of section 116 of the Lunacy Act 1890. However, it occurs to us that it might be simpler and less expensive to proceed under the subsection entitling the relations to have a Receiver appointed of Miss West's Estate as being a person [“]lawfully detained as a lunatic[”] though not so found by Inquisition. This would necessitate a fresh detention ^{order} being obtained.

We have seen Mr. H. Cope West to-day and he has authorised us to write to you to know whether you could arrange for this to be done. It would, of course, mean that 2 fresh cer-

RE: THE CASE OF

I am much obliged for your letter with reference to this matter.

The patient had been in the hospital for several weeks, but finally decided to see a local specialist on several occasions, and on these occasions the patient was with a view of proceeding under the disease condition of another lot of the family lot 1925. However, it seems to me that it might be slight and less expensive to proceed with the operation existing in relation to this matter.

Appointed at this point's time as being a person entirely satisfied as a result of being seen by the patient. This would necessitate a fresh detection being obtained.

We have seen Dr. Jones West on 20-21 and he has authorized us to write to you to know whether you could arrange for this to be done. It would, of course, mean that a fresh

Dear Sirs,

I fear I must return to you the draft affidavit once more. The originals of the Order and Certificates are not my property, and in any case we cannot part with them. It was on this account that I sent you the copies, which if you will return endorsed, in the usual way, I shall be able to state I have compared with the originals and found them true and correct copies. I conclude this will mean a re-writing of the affidavit.

My fee will be three guineas, exclusive of the Commissioner's fee.

Miss A.H. West

Dear sirs,

I quite fail to see why Miss West's affairs should not be dealt with in the way in so many of our patients' affairs are, viz. under Sec. 1160 of the Lunacy Act.

If this is done there does not seem the slightest reason why a fresh Order and certificates should be required.

This step is frequently taken for patients who have been here a considerable time, and I have never heard of a patient being discharged from Certificates in order that this might be done. Moreover there is no reason why we should be put to the trouble of all the technicalities involved in a re-admission; and I am sure the Commissioners in Lunacy would object to it.

Yours very truly,

Dear Sir,

We are much obliged for your draft affidavit.

The evidence of insanity appears to us to be amply sufficient, but we are not sure that the draft as it stands is sufficient to bring the case within the disease section of the Lunacy Act. We are communicating with our London Agents on this point, and also asking them whether they will require a copy of the reception order and certificate. In the meantime, we should be glad to know whether you could supplement your affidavit by some statement of your opinion as to the origin of Miss West's present condition. As we think we have already mentioned to you we were led to suppose that it had its origin in some female disorder, and if this be so, we think it would be desirable to state it.

We note as to your fee which we will remit you when we send you the affidavit to you to be sworn.

We shall be glad to hear from you on the point which we have mentioned.

Dear Sir,

I wrote to you some weeks ago, when you first sent in the account due for my Sister's residence at the Retreat for two quarters, to tell you that I understood from Dr Pierce that the terms were to be either £2.8 or at the outside £2.10 a week, whereas the account sent in was for £73.16. I think the £3.16 was for extra expenses (I did not keep a copy of the first account) but you will see that £70 for the half-year is at the rate of £140 for the year, - £2.10 a week being only at the rate of £130 for the year. I asked for an explanation, and you said it could stand over till Dr Pierce's return. The account has now come in again for £43.16 which

with the \$30 already paid comes to the
same as the original account \$73.16.
I am sorry to trouble you again, but
I should be glad to know if this is the
sum agreed upon by the Committee
before writing a cheque for the amount.

Dr. Pierce,
The Retreat, YORK.

Dear Sir,

MISS ANNIE HARTLEY WEST.

As we understand you are already aware, we have been instructed by Miss Edith G. West and her brother Mr. H. Cope West, to take the necessary steps to have a Receiver appointed of the income of Miss Annie Hartley West who is now under your care at the Retreat. We are anxious if possible to proceed under the Disease Section of the Lunacy Act, which is, of course, the simplest, quickest, and least expensive method of procedure.

We have not liked to question Miss E. G. West too closely in the matter, but we rather gather that her sister's present mental condition has its origin in some female disorder, and if this be so, it would enable us to adopt the ^{above} course which we prefer.

It will be necessary to support the application by medical evidence, and we think that under the circum-

stances your evidence would be sufficient without obtaining evidence from a second Doctor as is some-times done.

We understand from Miss E.G.West that you would be willing to make the necessary affidavit, and we enclose draft affidavit in duplicate in skeleton form, and we should be glad if you would return us one copy of this draft with the various blanks filled in, when we will have it engrossed, for signature.

With regard to this draft will you please fill in your full name and qualifications at the commencement giving in particular any special qualification which you might have in lunacy matters.

In paragraph 2 will you please fill in the date when Miss Annie H.West was received into the Retreat, and state what she was suffering from at the time of her reception. If it be the fact, you will, of course, in this paragraph explain that her condition upon reception had in your opinion been brought about by some disease which you would particularize.

We should like you to check the facts in paragraph 3 which have been given to us by Mr.H.Cope West.

The report will be submitted to the appropriate authorities for their consideration. It is hoped that the report will provide a comprehensive overview of the situation and suggest effective measures to address the issues identified.

The report is being prepared by the relevant departments and will be available for your review as soon as it is finalized. Your input and feedback are highly valued and will be taken into account in the final version of the report. We appreciate your continued support and cooperation in this matter.

In addition, we are pleased to inform you that the project is progressing well and is on track to meet the scheduled timeline. We look forward to your response and to continuing our collaboration. Please do not hesitate to reach out if you have any questions or need further information. Thank you for your time and attention.

Dear Miss West,

I am sorry your letter was not promptly answered.

There is no cause for anxiety, and your sister is quite comfortable. We are keeping her in bed, and she has no pain; and there are no signs of the foreign bodies giving her any trouble. Dear Dr. Pierce,

I am much obliged for your keeping us informed as to my sister's condition, but although we feel sure that all that is possible is being done for her, we are still very anxious about her. We think of coming to stay in

York again for a time, so as to come up and see her, from time to time, as you think it advisable. It would at least relieve the tedium of the long hours in bed for her, and it might cheer her a little to see us now and again. I should be glad of a wire from you tomorrow morning in confirmation of this arrangement, unless you

think there is any reason against it. On receiving your wire, we will try and arrange to come on Friday or Saturday next. Of course we should make arrangements to stay on for some time, as we think the case is now so serious.

Yours truly,
Edith G. West.

Sept. 19, 1911

Dear Miss West,

There is nothing fresh to report about Miss West except that she passed a needle on Saturday. We had Mr. Jalland, the surgeon, to see her, and he advised that she should remain in bed and that nothing should be done further than what we had been doing. He did not think that any operation could be entertained in her present restless condition, and consequently we have not troubled about the X ray examination. She is comfortable and there is no fever, but she still refuses food.

Yours very truly,

1911

The first of these is the fact that the
 government has been unable to raise
 sufficient funds to meet its obligations
 and that it has been forced to resort
 to the issue of new bonds. This has
 led to a general loss of confidence
 in the government and a consequent

 further contributed to the
 financial difficulties.

Dear Dr. Pierce,

We were very much shocked at your news today, and have to thank you for so promptly letting us know. Under present arrangements I am leaving by an early train for Ambleside tomorrow, Friday morning, for the week-end but should not think of going if you say there is any cause for immediate anxiety. May I ask you to let me have a wire ~~if~~ before ten o'clock tomorrow (Friday) morning if you think it would be advisable for me to postpone this visit so as to be at hand in case you sent for me. If you wire "no need for immediate anxiety" I shall understand that matters are going on satisfactorily for the present. If the X ray examination is necessary, by all means have it; but we hope that the means you suggest may get rid of the difficulty. My sister will remain at home in any case, and will receive any letter you may send with details to this address, and you will understand that either or both of us are ready to come to York again, if we can be of any help to Annie. Again thanking you,

Yours truly

Sept. 11, 1911

Dear Miss West,

Your letter of Sept. 7th did not reach me: I was away from home on urgent business. Moreover it did not arrive in time for us to send the wire requested.

Miss West is going on rather better. She is taking her food better and is in no pain. She says we need not worry about the hair pin; it was only a small one, and she swallowed it the right way downwards. As there are no symptoms we are doing nothing. Up to the present there has been no sign of its being voided. There is certainly no ground for immediate anxiety.

Yours very truly,

Sept. 4, 1911

Dear Miss West,

I am sorry to say that your sister is no better and that she is constantly making suicidal attempts. She was allowed her own clothes today instead of strong ones, and she at once tied some tape round her neck in a dangerous way, and in my presence she frequently tried to tear off portions of her clothing to use for the same purpose. It is quite clear she is unfit to sign the papers you send, and there seems to be no likelihood of her being able to do so. It is quite irregular for patients as bad as she is to be asked to sign documents, and we cannot in future do it.

I, therefore, return to you by registered post, all the various dividends we have, and would suggest your seeing your solicitor, so that application may be made to the Court of Chancery for the appointment of a Receiver to deal with her property. This is the only course that can be taken, and though it involves a certain amount of expense the result will be much more satisfactory than the present arrangement.

Dear Dr Pierce,
May I trouble you to get
my sister to sign these two
papers. She has shares in the
European Petroleum Company,
^{which} ~~and they~~ stopped payment
some months ago. The enclosed
document is to direct payment
of the first instalment of 22½%
to be made to her banker.

This request at the foot of the larger paper must be signed by her. I think for the "full postal address" she had better put "c/o Miss E. G. West, Inverkip, 442 Park Road North, Birkenhead" as that is the address to which all her dividend warrants are sent now. You will notice that they require her debentures to be sent to them, but I cannot get them out of the sealed box at the bank without her written authority. The banker has therefore made out the written form, which I enclose,

and if she will sign it, it will authorize me now, or on any future occasion when it may be necessary, to have the box opened without troubling you for her signature again! I am writing to her by this post to explain it all to her, and I hope there will be no difficulty about it. If she should refuse to sign the papers, there is, I suppose nothing for it, but to let the matter stand over till she seems better. But if she is ready to sign it, I should be very glad if she would sign the other

from her since we returned
but you will understand that
we are still very anxious about
her. It is a great relief to us to hear
from her, and we thought it
very kind of them to allow her
to write at once. We should be
very glad to know exactly
how you think she is now,
especially after our visit. Is
she sleeping better, and does
she take good meals? She had
an idea that the strikers were
plotting against her. I hope she
is free from this illusion now,
as I think it frightened her at night.

Dr Kemp advised me to write to
you this time, as she was going
away for her holidays.

Dear Dr. Pierce,

I am writing to ask you if it would be possible to arrange in any way for my sister to take the Communion regularly. She has always been accustomed to doing so, and I believe it has been a very real trouble to her. She had hoped that we would have arranged to take it with her when we came, but that did not seem feasible, and she was much disappointed.

I quite understand what the difficulties are, but I thought that at the Church the patients are accustomed to attend, any eccentricity would be less noticeable, and in fact, I think it most unlikely that anything unusual would occur again. But if you do not think it wise to risk it, I think the clergyman of the parish would be willing to arrange to hold the service at the Retreat from time to time. I have not mentioned this to her, as I do not wish to disappoint her if it should be unmanageable,

but we have been hoping that it could be arranged before the first Sunday in February. Of course, she would like to know a day or two beforehand. We do not hear from her as frequently now, as formerly, and she ~~is~~ makes suggestions about leaving the Retreat, but I think she really understands that that cannot be yet. May I trouble you to pass the enclosed Dividend warrants to her for her signature.

Yours truly,
Edith G. West.

Dear Dr. Pierce

The case of Miss A.
West referred to you is
one that I have been
professionally concerned
with for some years.

She has given her family
a lot of trouble & anxiety
by her waywardness &
impulsiveness & absurd
behaviour, compounded
of hysteria & slight
delusions at times,
alternating with periods
of perfect rationality
& calm. She has seen
several doctors here

for fancied complaints
but no definite disorder
can be made out. Dr
Hawkes made a careful
examination of her
lately, but found nothing
definite in the pelvic
organs, so it would
seem to be a functional
derangement of the brain
nervous system. —

I think if some strong
will could be exercised
over her & some steady
occupation given her
she would be benefited.
at present she is casting
about to do some
parish work & tried
to get into a society
for the purpose in
Birmingham but had

to be sent home for
some absurd behaviour
in walking about the
house at night. —

If you could get her
for a while as a vol-
untary case under your
observation we think
you could help us
in determining the best
thing to be done. —

at present she is in
a rational mood & calm
& I don't think there
is any delusion present
that would justify her
possible detention, &
she seems ~~willing~~
to place herself under
your care.
The bearer will give you
all the information

Dear Madame,

B. Pierce is away for a few days so that I cannot consult him as to the arrangement with respect to terms. The Retreat Committee by mistake paid the rate at 2½ guineas a week - but if you will allow the matter to stand over for a few days I will show B. Pierce your letter on his return -

Yours faithfully

B. E. Waller.

Dear Dr. Peirce,

In answer to your letter received this morning by my sister I will come to York on Monday arriving at the Retreat, as I have some business to do, about 3.30. as there are several

points we should like
to discuss before arranging
anything final. I will
call at your house as
I think it will be ad-
visable to have a talk
with you before seeing
my sister.

Yours faithfully,

Dear Dr Pierce,

We had a letter from my sister
by the first post this morning,
which caused us some uneasiness
but it was followed within a few
hours by another, which relieved
our anxiety, as it seems to show
she has decided to stay on at
the Retreat. I send you both the

letters, as it seems wiser that you should know exactly how she has felt about it. Up to this morning, her letters have been very encouraging and we gathered that she was not only contented and happy, but that she wished to prolong her stay indefinitely. The question of expense had occurred to her, but she thought some reduction of terms might be made, if she undertook some duties in the

house. All this seems to shew a very sensible view of the case, and we hope there will be no further indecision. At the same time, I should be very glad if you could spare time to let us know what your impression about her is, now she has been with you nearly three weeks.

Yours truly,

Edith G. West.

I hope you got
the G. & S. W. change
safely.

My dear Edith,

I am sending you back the share list. Will you write to the offices for me, please, giving Inverkip, c/o yourself, as my address, & put the list back in my tin box, when done with.

It was a stupid idea to think again of taking parish work at Birmingham. I could not undertake it without blinking my eyes to the

fact that I have behaved in such a silly way that any sort of life has become impossible for me, & a Retreat is the only thing left for me.

I look on my being here as an acknowledgment that I have been literally too silly for anything, & I will stay here till you, Emilie, Harry & the others are satisfied that I can be trusted to behave like a sane & responsible person.

Thank you all very much for so kindly volunteering to help towards the expense.

With best love to all,

Your affectionate sister,

Annie H. West.

The Retreat,
Ayr,
April 17. 1910.

My dear Edith,

Thank you for your interesting letter. How pretty the house must look now it is spring-cleaned.

I am returning the cheque, signed. I forgot to put it in when I wrote before. I am not sending the list of shares, as I am thinking of writing again to Mr Richards about the Birmingham work, but I am giving myself till Tuesday

to think it over, as I want to go
about it steadily & systematically.
My machine & books came yesterday,
rather a pity, as it will be so much
the more to take to Birmingham.
Not that I do not want them there,
but they might as well have gone direct
You may as well keep the things from
the laundry now, & send them on to
me at Birmingham. I intend to
write to Mr Richards on Tuesday, & if
he wants me to come, I expect it
will be without much delay.

The people here as I told you before,

are very nice. There is a great deal more brightness & fun & homelikeness about the place than you would think, as there is a large number of quite sane visitors, who have come for insomnia or some other, comparatively slight trouble. There is also a large number of imbeciles & idiots, who have to be led about everywhere by the nurses. We meet them in the grounds & occasionally we have supper with them, but other meals we do not have with them. — There is one nice old lady amongst the same patients who has very defective sight, but is very bright & jolly when she begins to talk.

I used to live at Huddersfield as
a girl, & remembers a little schoolfellow
there called Miss West, who was the
daughter of a Wesleyan minister. I
think grandpapa was at Huddersfield
once, & as the date, & age of the little
girl would make her about Aunt Annie's
age now, I expect it would be her.
I think I must stop now, with best love

to all.

Your affectionate sister,

Annie H. West.

written have advised her to stay. Of course, she knows that she is not now free to go if she likes, but we feel that if her own will is against her detention, it will interfere very much with the possibility of a cure. She writes as though she was keeping well, and I am sure you would let us know if she were ailing or depressed.

Yours truly,

Edith G. West.

Dear Dr Pierce,

I should have written sooner about the letters for my sister, but I understood that Miss Thompson had very kindly promised to ask the Committee at the next meeting for some concession in our case.

I do not know whether there has been a meeting yet, but I have not yet heard what arrangement has been made. When I hear, I will make out another cheque for the amount which will then be due.

We have been rather uneasy at receiving letters from my sister, saying that she wishes

to take up her work again in Birmingham or here. Of course, this would be impossible, but we hope the desire for freedom is not affecting her health or spirits. We have written, persuading her that it will be wise for her to remain until her brain trouble is cured, and other friends to whom she has

the form signed. I did not ask
about the sleeping accommodation,
and she is hoping to have a room to
herself. Is this possible? She is, I think
a little bit uneasy about the other
inmates, but on the whole she has
been very happy since she knew it
was settled. I have written at such
length, as I thought it might be
impossible to speak privately
tomorrow. We are taking the train
leaving Liverpool 10.55 and arriving at
York at 1.42. We shall have had lunch
and I shall return by the afternoon
train.

Yours very truly
Edith G. West.

Dear Dr. Pierce,

My sister has been very
much interested in all. I told her
about the Retreat, and I have
shown her the Report, as you said.

She is not only willing, but anxious
to come at once, and as she will be
ready by tomorrow, we think it
wiser not to postpone it any
further. Our doctor's wife, Mrs. Proctor,

has a wonderful influence with her, and she undertook to explain to her the nature of the Retreat, so that she perfectly understands. The doctor thinks it is fortunate that Mrs Thompson is giving his lecture tomorrow as that will help her over the first evening. He thinks she may be trusted to return, if she goes out alone, and that she might have as much liberty as you think advisable. She wishes to send for her books and sewing machine if she is allowed to have them. We have not encouraged her about the books, as you may not think it advisable for

her to have them all. I see that a Quarter's fees are required in advance but as the terms have not yet been fixed, I am bringing a blank Cheque on her account at the Bank of Liverpool to fill up as you direct. She has given me power of attorney over her money during her absence, and I should be glad to know how to arrange about the money she will require for dress. She suggested that you should take charge of it, but no doubt there is some suitable arrangement about that. She is coming, of course, as a Voluntary Boarder, and will bring

Dear Dr. Pierce,

As your letter only arrived at 12.20, it was impossible for my brother to arrange to go to York today. I hope you will be able to see us on Monday afternoon any time between 3 + 5.30. If we do not hear from you to the contrary, before Monday morning at 10.0 a.m. which is the time at which we must leave this house, we will come to York on

Monday, but my brother is obliged
to return the same night.

Yours truly,

Edith G. West.

Hope you will get this in time to let
us know in any case.

June 8, 1910

Dear Miss West,

I get about two letters a day from Miss West, each expressing a contrary wish to the previous one as to what she would like to do. It is quite clear that there is no improvement in her mental condition. She is quite well in health, and, as you say, does not give a great deal of trouble.

The lowest rate for persons unconnected with Friends is 48/- a week. I do not gather from your letter that you wish a reduction below this, but as I understand Miss West is in no way connected with the Society of Friends I do not think it likely that the Committee will sanction any reduction of terms, but I shall be pleased to submit your letter to them. It will be quite suitable for her sister to come and see her at any time, but I fear it will not make much difference in respect to her unsettlement of mind.

opportunity of seeing her again.

Dear Dr. Pierce,

As I told you, I have been
waiting to hear from Miss Thompson
before writing to you again
about the terms. As she is away
from home, and it seems uncertain
whether she would be able to
influence the Committee as to

a concession in our favour,
I am writing to ask that
we may be put on the lowest
terms that are compatible
with my sister's having a
room to herself, and all
the ordinary advantages
of the institution. I inferred
from what you said that
the terms are different in
different cases, and I should
imagine that my sister's case

is among the least troublesome
to deal with. I am sending
another cheque - this one for
£ 10, and I shall be glad to
know how long a time in
advance that will cover,
when the Committee have
decided what we are to pay.
My sister writes regularly and
until quite lately we have been
quite satisfied, but in the last
few letters she has seemed more

Dear Miss West,

I think you fail to understand that we cannot keep Miss West as a Voluntary Boarder, seeing that her behaviour is so uncertain and she has so frequently expressed her wish to leave. I fully understand the difficulty in which you are placed, but there is no doubt your sister is of unsound mind and could be certified as such. As regards the Retreat there are two alternatives: she must either leave or be placed under certificates.

Dear Dr. Pierce,

We were much concerned to hear from you again about my sister this morning. If she cannot be persuaded to take food, one of us must come over and see her, but I am very much afraid a visit now, might unsettle her to no purpose.

We think it advisable that she should remain as a Voluntary Boarder, ^{for} as long as you can arrange to keep her, and she will consent to stay - unless she continues to refuse to take her meals. This will give us time to consider and consult before taking a step, which we (of her family) all feel to be quite the last resource. At the same time my brother is of opinion, that unless she comes round to

a more reasonable view of things it would be well to put before her quite plainly the possible consequences that may ensue, if she refuses to take advantage of the opportunity she now has, of voluntarily accepting the conditions now beneficial to her. He offers to write to her to this effect, but would send you a copy before hand, so as to have your opinion as to whether his letter would have a beneficial

Dear Dr Pierce,

We were very sorry to hear that my sister continues to be so unsettled. It was quite impossible for me to go to York yesterday, but we wired to Mrs Proctor, who was staying in Leeds, and she most kindly arranged to go over in the afternoon. We have not yet heard from her, but she has so much influence with

my sister, that we hope she may see the wisdom of staying on at the Retreat, at any rate for the present. When we hear from Mrs Proctor we must consider whether any further step is still necessary, but we are most anxious to avoid the necessity of Certification.

Thanking you for your two letters received lately, which

I shall answer more fully when I hear whether my sister is likely to settle down again.

Shall you be at home

otherwise, at the earliest
opportunity. It is the case
