## DARLOW & CO.'S PATENT

### TESTIMONIALS.

From GARTH WILKINSON, Esq., M.D., M.R.C.S.E.

76, Wimpole Street, London, W., March 17, 1874.

F. W. Darlow, Esq.

SIR,—I am able to certify that I have used your Magnetic Appliances pretty largely in my practice, and that in personal convenience to my patients they are unexceptionable, and far superior to any other inventions of the kind which I have employed; and that of their efficacy, their positive powers, I have no doubt. I have found them useful in constipation, in abdominal congestion, in neuralgia, and in many cases involving weakness of the spine, and of the great organs of the abdomen. In the public interest I wish you to use my unqualified testimony in favour of your Magnetic Appliances.—I remain, yours faithfully,

GARTH WILKINSON, M.D., M.R.C.S.E.

From RICHARD C. SHETTLE, Esq., M.D.

Royal Berts Hospital, Reading, May 15th, 1872.

GENTLEMEN,—I have given the Magnetic Appliances a somewhat extended trial in hospital as well as private practice, and I have much gratification in stating that, as far as it is possible to judge of the curative merits of any remedy, I have seen exceedingly marked benefit from their effects. The cases in which I have recommended them have been principally affections of the nervous system, and even in severe forms of such disorders I have found patients rapidly improve under the influence (as I believe) of this remedy.—I am, Gentlemen, yours truly,

RICHARD C. SHETTLE, M.D.

To Darlow and Co.

From JOHN DOBSON, Esq., M.D., F.A.S.

Holborn Hill (Cumberland).

GENTLEMEN,—In reply to your inquiry, I beg to state that the "Magnetic Belts" I obtained from you have given satisfaction in every instance. While I do not regard your "Belts" as "The Great Cure-all," I value them highly as a therapeutic agent, and believe that a more extended use of them in practice would be followed by the best results to physicians and patients.—Yours truly,

J. DOBSON, M.D., F.A.S.

Messrs. Darlow and Co.

From the Rev. STENTON EARDLEY.

The Vicarage, Streatham Common, Nov. 4th, 1874.

GENTLEMEN,—I feel that I cannot in honour, to say nothing of gratitude, any longer refrain from acquainting you with the extraordinary benefit which I have received from the wearing of one of your Magnetic Belts. Seventeen months ago, when suffering from great pain—a condition in which I had been, with brief intervals, for nearly seven years, and which arose from a severe accident on a Swiss Glacier—I was recommended to try one of your Belts; I hesitated considerably, for I HAD ENDURED MUCH IN THE WAY OF ELECTRIC CHAINS, and gone through much in the way of galvanic and various English and Continental baths, without any appreciable relief. My testimony, in brief, is this: I purchased one of your Belts, and within a few weeks the pain in my back had gradually subsided, and I have now spent sixteen months wholly free from pain. Certainly the case is, to me at least, marvellous; and I will not allow any false delicacy to override the duty which I too tardily discharge in making this statement, and offering you my deepest gratitude.

Your obliged servant,

STENTON EARDLEY.

To Messrs. Darlow and Co. Vicar of Immanuel Church, Streatham Common.

From the Rev. CHARLES GARTH FULLERTON.

Boothby Graffor Rectory, Lincoln, May 18, 1877.

DEAR SIRS,—I enclose cheque for the Wristlet and Belt for my friend, and have great pleasure in saying that I have certainly found the Belt you sent me last November to be of the greatest benefit. With perfect truth I can say I should not like to be without one now; I have had no lumbago or rheumatism since I began to wear it, and you are quite welcome to use this letter as a testimonial from yours faithfully,

(Rev.) CHARLES GARTH FULLERTON.

To Darlow and Co., 443, West Strand, London.

## FLEXIBLE MAGNETINE APPLIANCES.

### TESTIMONIALS.

From CHARLES J. PLUMPTRE, Esq., *Lecturer on Public Reading and Speaking, King's College, London.*

36, Hamilton Terrace, Maida Vale, N.W., March 10, 1877.  
DEAR SIR,—I have had in the last few weeks more inquiries than ever in regard to my case, as stated in the Testimonial I sent you for insertion in your pamphlet. Some of the inquiries have been by letters, which I have duly answered, saying I have continued as well as a man can possibly be since wearing your Magnetic Belts; and those strangers who have called here, and seen my present robust constitution, say they can scarcely believe or realise the fact that I could have been in the utterly prostrate condition I was when I first ordered the Belts from you. But I assure them there is not the slightest exaggeration in the statement I sent you, now nearly a year and a half ago. My sister-in-law, Mrs. Wade, of Dawlish, to whom I strongly recommended the Belts for Chronic Rheumatism, writes word that since she has worn them she has been much benefited. Mr. Serjeant Cox also tells me that since wearing the Belts for his Sciatica he has been very much better. You will be glad to hear that, though in the fullest work from morning till night, I have never had the slightest return of any of the distressing symptoms of weight and pain in the brain—not even the slightest approach to an attack of giddiness—since my letter of testimonial was written to you; and, in fact, I am now as strong and well as a man can possibly be. I still always wear the Body and Spine Bands by day, and they are so comfortable and pleasant to wear that I think I shall continue to do so for the rest of my life, if you advise.—I am, dear Sir, yours faithfully,

F. W. Darlow, Esq.

CHARLES J. PLUMPTRE.

From Major A. TREW.

9, St. James's Terrace, Winchester, 29th November, 1876.  
To Messrs. Darlow and Co., West Strand, London.

GENTLEMEN,—I came to know of your Appliances by means of one of your pamphlets, at a time when I was ill in bed. I showed the book to my doctor, who said it was of no use. Notwithstanding, I made up my mind to buy the Belt, and have now been wearing it for eighteen months, during which time it has not cost me one shilling for medical advice, which, together with the improved state of my health, is indeed much to be thankful for. If you will send me a few of your business books, I shall have much pleasure in bringing them to the notice of all who are known by me to suffer.—I remain, Gentlemen, yours sincerely, A. TREW, Major.

*Extract (the Original Letter may be seen at the Office of Messrs. Darlow & Co.).*

To Messrs. Darlow and Co.

The Accouchement Belt I had from you last autumn has answered most wonderfully. I could walk quite up to the end of my time, and have never had a back-ache since, to which I had been subject for years. A friend has tried mine, and would like to have a Belt exactly like it.—Faithfully yours,  
L. A. S.

*Additional Testimonial from GARTH WILKINSON, Esq., M.D.*

F. W. Darlow, Esq.

76, Wimpole Street, W., June 15, 1876.

SIR,—Since March, 1874, when I wrote to you to express my opinion, from experience, of the value of your Magnetic Appliances, I have been frequently asked by letter if my certificate was genuine, and if in the time since elapsed your inventions still approved themselves as beneficial in my practice. To both these questions I can answer by endorsing Magnetine as an arm which I am obliged to resort to in a good many cases.

In addition to the cases I before specified, I can now add some experience of the utility of Magnetine in cases of debility, and as a local remedy in painful affections arising in the course of gout. Indeed, I am accustomed to prescribe it wherever topical weakness proceeds from a low vitality in the great nervous centres, or in the principal organs of assimilation, nutrition, and blood purification; also in weak throat from nervous exhaustion affecting the larynx.—I am, Sir, yours faithfully,

GARTH WILKINSON, M.D., M.R.C.S.E.

INVENTORS, PATENTEES, and SOLE MANUFACTURERS.

# DARLOW & CO.'S IMPROVED PATENT Flexible MAGNETINE Appliances.

For Gout and Rheumatism, Spinal, Liver, Kidney, Lung, Throat, and Chest Complaints, Epilepsy, Hysteria, Hernia, General Debility, Indigestion, Sciatica, Asthma, Neuralgia, Bronchitis, and other forms of Nervous and Rheumatic Affections.

**Magnetine is a soft, light, flexible, and permanently magnetic substance.** It is entirely unaffected by any change of climate.

**Magnetine is encased in various soft materials, such as silk, velvet, jean, leather, flannel, &c., and is made up in a variety of forms, to meet the several ailments for which they are designed.**

**Magnetine does not contain any material of a dangerous or injurious character, and can be worn with comfort and safety by the youngest child or the most delicate or nervous invalid.**

**Darlow and Co.'s Magnetine Appliances stand pre-eminently above every other invention, with regard both to their finished manufacture and remarkable curative value—there being no remedy so gentle, soothing, vitalising, and effective as Magnetine.**

**Darlow and Co.'s Magnetine Appliances** require no preparation of any kind to render their operation effective. They give no shocks, produce no sores. They are worn over one or more garments, need no attention, are so simple in their adaptation that a child can use them, and so gentle and soothing in their action that they can be placed on the most delicate or nervous invalid without fear of inconvenience.

**Darlow and Co.'s Magnetine Appliances** have been most successful in their application for numerous intricate complaints, where ordinary medical treatment has failed. They are recognised for their beneficent healing powers in almost every portion of the civilised world, and have gained the approval of many of our missionaries labouring in some of the most unhealthy stations in Africa and the East and West Indies.

**Messrs. Darlow and Co.** are honoured by the patronage of the highest families in the kingdom, including Ladies and Gentlemen in Her Majesty's Household and Members of both Houses of the Legislature, Gentlemen of the Legal and other learned Professions, Officers in the Army and Navy, Clergymen of all denominations, Bankers, Merchants, Writers, Speakers, Artists, &c., &c., who have testified to the benefits derived from the use of Magnetine.

We have so frequently heard of cases in which sufferers have found relief from Mr. Darlow's "Magnetine," that we are glad to have an explanation of its discovery, given so intelligently and briefly, and to recommend the pamphlet to the attention of our readers.—*Metropolitan Family* (Editorial Notice).
