Feel good *with*
Tsubo

The Importance of Massage

Colebrand is proud to announce a versatile and extensive range of massage machines to soothe away your aches and pains after a tiring day at work or at play.

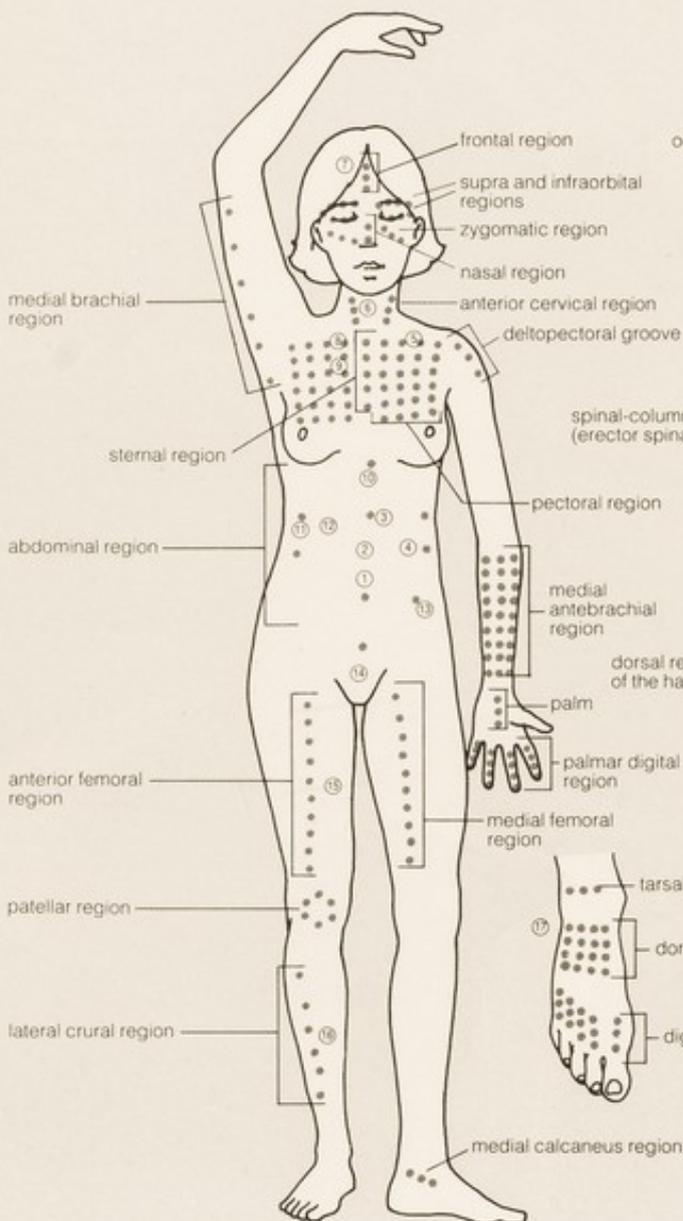

Massaging the body improves the circulation of the blood which increases vitality and reduces fatigue. Matoba's high quality range of massage machines will help to maintain a healthy body, in the peak of condition.

Finger pressure therapy, called Shiatsu, can be enjoyed with the instruments. The basic Shiatsu points are shown in the diagram below.

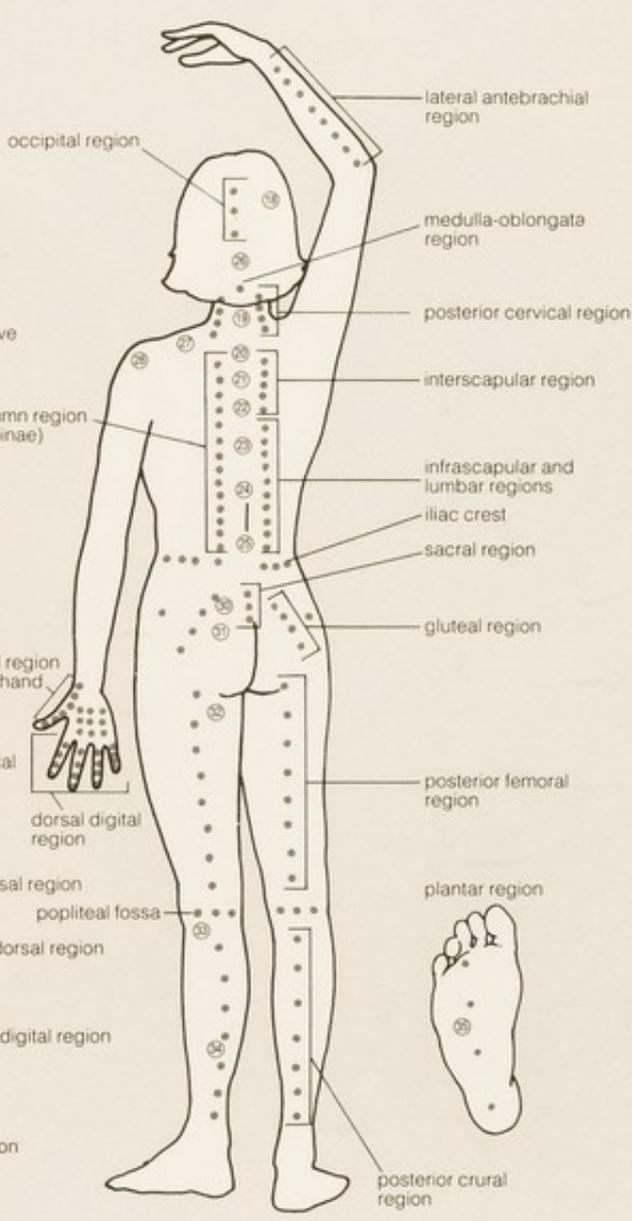

Using the principle of finger-pressure (Shiatsu)

Basic Shiatsu/Tsubo Points

Anterior surface

Posterior surface

Symptom	Shiatsu Point No.
Neuralgia	1, 3, 10, 17, 30
Arthritis	3, 6, 7, 23, 33
Disc	3, 16, 25, 30, 32
Sciatica	1, 3, 16, 30, 31
Midpain	1, 3, 10, 16, 24
Neuralgia of shoulder and elbow	3, 11, 19, 27, 28
Sputum	1, 4, 23
Impotence - ejaculatio praecox	1, 2, 3, 10, 14
Chilliness - leukorrhea	1, 3, 10, 17, 35
Irregular menstruation	1, 3, 10, 17, 35
Gastric disease - gastric cramp	3, 9, 10, 16, 24
Abdominal pain - diarrhoea	1, 3, 10, 11, 30
Haemorrhoids	1, 3, 7, 12, 14
Constipation	2, 3, 10, 11, 13

The Instruments

Wonder Heat MEH-25

A powerful two speed all-purpose massager for toning the body and the scalp by enhancing the circulation, and this not only makes you feel good but look good as well. This excellent all-round instrument can be used in reflexology.

Magnetic field to help circulation

Soothing heat to help relieve pains

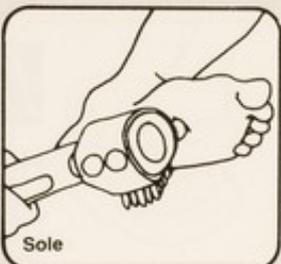

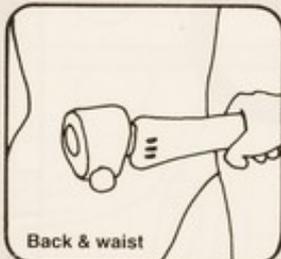

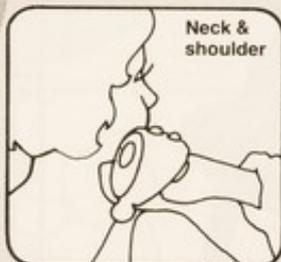

Soft comb designed specially to massage scalp

Unique teardrop for effective tsubo-massage (acupressure) reflexology

Extra-long contoured handle to massage hard-to-reach areas easily

Unique power switch with built-in heat switch

Hook for storage by hanging

Wonder Hand MEH-45

This unique instrument is provided with twin Shiatsu knobs so a stronger massage can be given to tired muscles. The ceramic heater helps to relieve pains and combined with massage further helps to improve circulation and relax muscles.

Vibrator Head

Elongated flat surface designed for better muscle massage and covers a wider body area

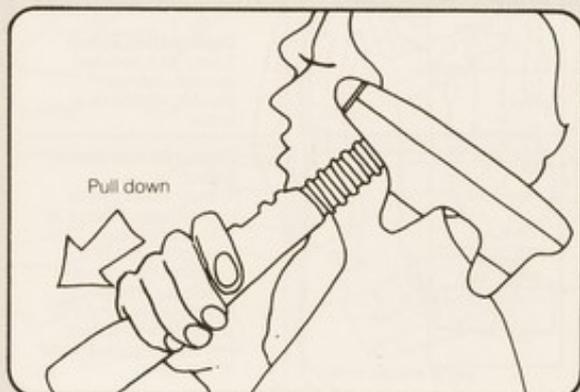

Saddle portion made specially for shoulder and neck massage

A refined selector allows you to adjust the speed according to your massage preference

The technical data and symbol of approval are shown on the appliance rating plate

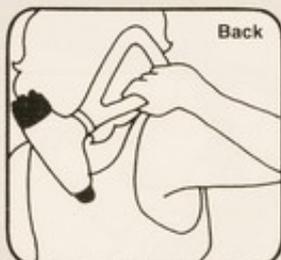

Longer and thinner handle allows firmer and more comfortable grip

Weight of appliance: 660gm

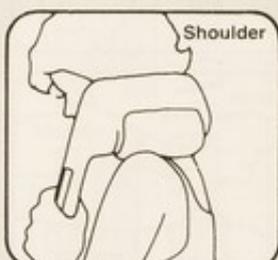

Wonder Knock ME-89

A variable speed tapping massager which allows you to reach all parts of the body, even those parts of the back difficult to massage using a more conventional instrument. The Wonder Knock can also be used in reflexology.

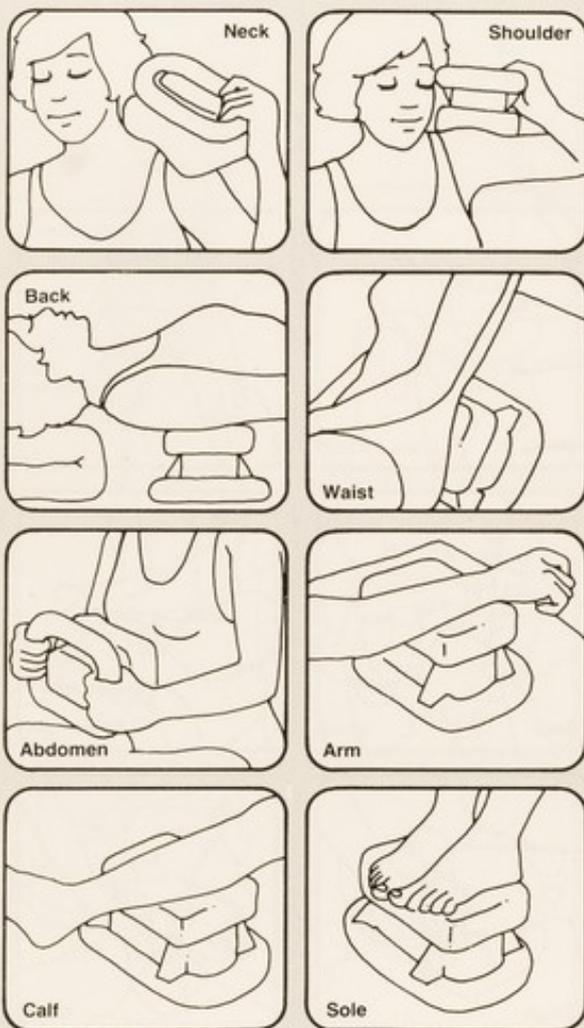

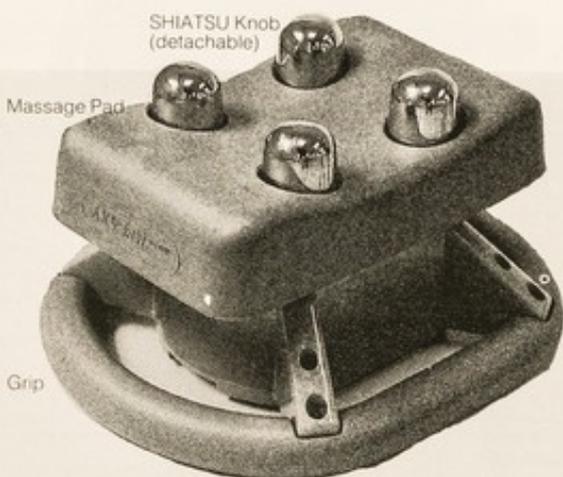

Wonder Roller MSR-7

This is a powerful roller type massaging machine. The rotation direction of the roller can be changed at the flick of a switch to allow for upward or downward massaging action. The Wonder Roller is a self-use massage machine, a major plus point.

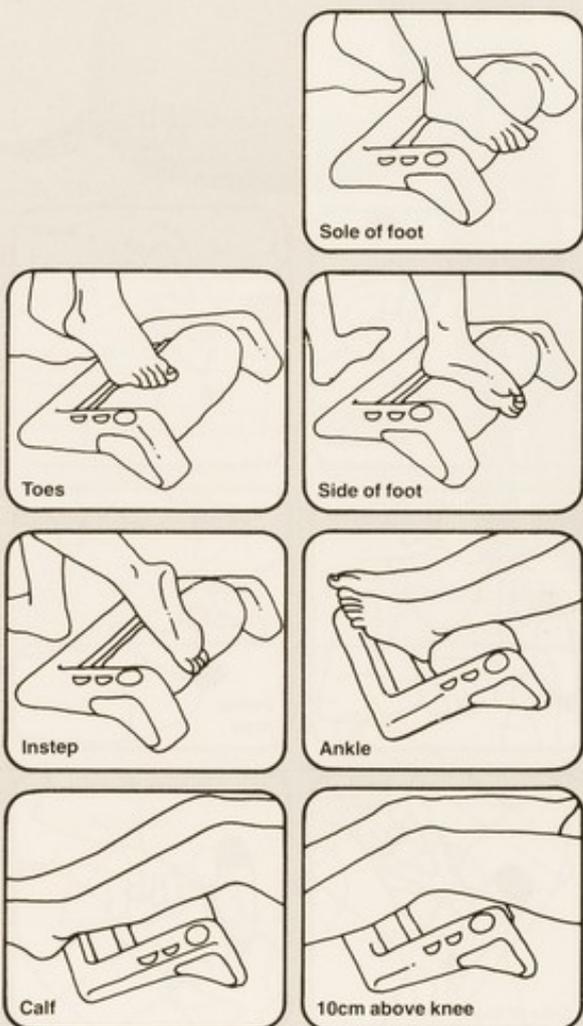

Relaxy-1 AF-5107

A superbly versatile instrument designed to give the maximum massage benefits. Very popular and recommended by many professional practitioners because of its robustness and wide range of uses. The Relaxy-1 also can be used in reflexology. The removable domes help to pinpoint areas needing specific massage.

Shape Up Roller II SR-5118

Enjoy a massage of the legs and feet with the easy to use Shape Up Roller II. This compact instrument is designed to let you relax in a position that best suits the part of the leg or foot being massaged. A very versatile massage machine which comes with a detachable cover pad for easy replacement or washing.

Wonder Chair FRC-5114

Just sit back and enjoy a massage in the Wonder Chair. The many built-in features, roller storage, massage mechanism, timer and selection facility make this excellent value for money. The **selective stretching** is an enormous advantage as is the "finger-type compression" which will reduce tension, giving very localised traction/release.

All the machines come with a plug and have a one year guarantee.

The policy of this company is one of continuous improvement, therefore specifications and design are subject to change without notice.

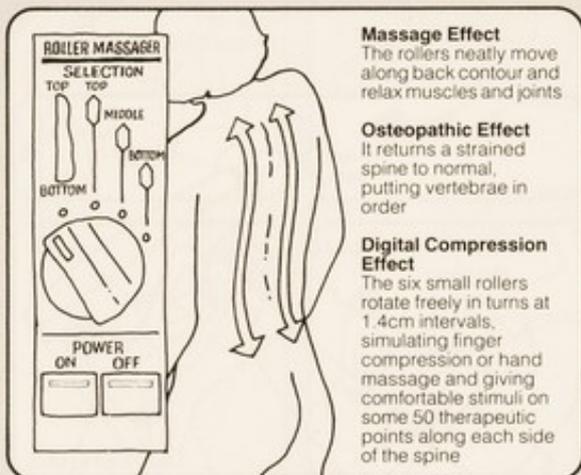

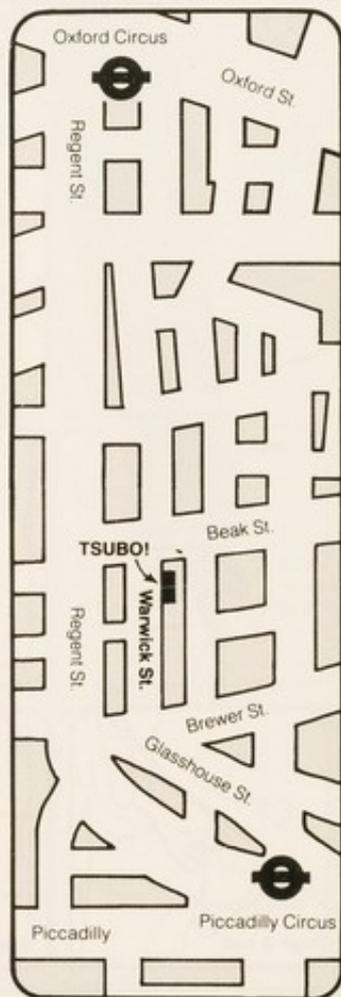

Roller Storage

After switched off, the roller part automatically creeps to the top for self storage

New Massage Mechanism

Drive gears incorporate small and free rollers that simulate finger tip compression in two lines

See you at **Tsubo**
