Medical Officer of Health's Report

for

1 9 5 6

To the Chairman and Members of the Hartley Wintney Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present my Annual Report for the year 1956, prepared in accordance with the Ministry of Health Circular, 19/56.

The population is now 25,620, an increase of 400 on 1955.

Infectious diseases notified were 166 - which number includes a moderate amount of Whooping Cough and Measles cases. Thus the year was a quiet one in this respect. Tuberculosis cases notified were 7. The Mass Radiography Unit visited in 1956 but only two active cases were found in 1269 examinations in the areas of Long Sutton, Crondall, Odiham, Hartley Wintney and Hook.

There were 10 deaths from Cancer of the lung - of which 8 were male and 2 female - the total cancer deaths were 51.

The infant mortality rate was low at 15.4 - the national rate being 23.7 - a figure which compares very favourably with that of Denmark (25) France (36) Italy (48) Sweden (17).

Three Poliomyelitis cases occurred in 1956 - one of whom made a complete recovery. No deaths occurred from this disease.

The general health of the District is satisfactory.

I wish to thank the Chairman and Members of the Health Committee for their kindly interest and encouragement in the work of the Department and to the staff for their help and assistance throughout the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

Wm. Walmsley.

Birth Rate of the District

Year	No. of Births	Birth Rate	Birth Rate for England and Wales
1956	388	15.4	15.3
1955	384	15.0	15.3
1954	374	14.7	15.2
1953	367	14.5	15.0

Health Visitors for the District

Area Served

Miss E. Simpson, S.R.N., S.C.M.
Military Families Health Centre,
Queen Elizabeth Barracks,
Crookham. (Fleet 1214)

South Fleet, Hartley Wintney,
Dogmersfield, Winchfield,
North Crondall, Crookham.

Mrs. E. M. Crone, S.R.N., S.C.M.,
H.V.
94 Stratfield Road,
Basingstoke (Basingstoke 879)

Hook, Greywell, Odiham,
South Warnborough, Long
Sutton, South Crondall.

Miss D. H. Hardingham S.R.N., S.C.M.,
H.V.
1 Hound Green Close,
Mattingley (Heckfield 54).

Bramshill

Mrs. R. Stockdale, S.R.N., S.C.M.,
H.V.
32 Elm Grove Road,
Farnborough (Farnborough 1574)

North Fleet, Eversley, Yateley,
North Blackwater (to the main
road).

Miss C. L. Cole, S.R.N., S.C.M.,
H.V.
The Malt House,
Hawley. (Camberley 959).

Hawley.

Ante-natal Relaxation Classes.

Odiham - Guide Hut at 2.30.p.m. every Tuesday.

Hartley Wintney - Edward Hall, at 2.30.p.m. every Thursday.

Hospital Services

There are three hospitals in the Rural District.

1. Odiham Cottage Hospital (Winchester Group)
8 beds and 1 cot, (including 1 private ward)
2. Yateley and District Hospital (Farnham Group)
14 beds and 1 private ward.
3. Winchfield Hospital (Winchester Group).
This is a hospital of 166 beds, mostly for chronic sick patients. There is a maternity unit of 4 beds. There is no Part III accommodation at the hospital now.

Laboratory Facilities.

The laboratory service for this area is normally The Public Health Laboratory, Royal Hants County Hospital, Winchester (Tel. Winchester 3807). The Director is Dr. H. T. Findlay. All types of bacteriological examinations are done. Chemical Analysis of water is carried out by the Public Analyst at Reading.

Clinic and Treatment Centres

	<u>Child Welfare Centres</u>	<u>Day held (at 2.p.m.)</u>
Crandall	Village Hall	1st Friday
Crookham	Military Families Centre	1st and 3rd Monday
Eversley	Village	1st Tuesday
Hartley Wintney	Victoria and Edward Hall	1st Tuesday
Hawley	Memorial Hall	2nd and 4th Thursday
Hook	Elizabeth Hall	2nd Tuesday
Odiham	(1) Dunley's Hut, High Street. (2) Families' Social Club, R.A.F. Station	2nd and 4th Friday 1st and 3rd Wednesday.

Yateley

W. I. Hut behind British
Legion Hall.

2nd and 4th Thursday.

Orthopaedic Clinics

Administered by the Lord Mayor Treloar Hospital, Alton and the Regional Hospital Board.

- (1) A Surgeon's Clinic is held at the School Clinic, St. Georges Road East, Aldershot on the 1st Tuesday morning in the month. A Remedial Clinic is held every Tuesday, Wednesday and Friday all day, at the same place.
- (2) A Surgeon's Clinic is held at Brambly's Grange Health Clinic, Basingstoke on the 1st Tuesday afternoon in the month. A Remedial Clinic is held every Monday, all day, at the same Clinic. Examinations at these Clinics is by appointment.

Tuberculosis Clinic

This is a Regional Hospital Board responsibility but the County Council deal with certain aspects, such as contacts, care and after-care.

The Clinics are held at :-

- (1) Northfield Hospital, Redan Road, Aldershot.
Monday 9.30.a.m. Old patients (by appointment)
2.00.p.m. Refill patients (by appointment)
Tuesday 9.30.a.m. Old patients (by appointment)
11.15.a.m. New patients (by appointment)
1.30.p.m. Old patients (by appointment)
- (2) Basingstoke, Brambly's Grange Health Clinic
Thursday 11.00.a.m. New patients
2.00.p.m. Refill patients
Friday 9.45.a.m. Old patients.

Venereal Diseases Clinic

Northfield Hospital, Redan Road, Aldershot.

Males - Monday 5 - 7 p.m.
Females - Wednesday 9 - 12 noon.
2 - 4 p.m.

Speech Clinics

The School Speech Clinics are held at Basingstoke and Aldershot, by appointment.

Basingstoke Brambly's Grange Clinic
Every Monday (all day) and every Thursday morning.

Aldershot The School Clinic, St. George's Road East.
Every Tuesday and Friday all day, Thursday afternoon.

Eye Clinics

These are a Regional Hospital Board responsibility, administered through the County Council. They are held at Brambly's Grange Health Clinic, Basingstoke and the School Clinic, Aldershot, by appointment.

Dental Clinics

(For Pre-School and School children and expectant and Nursing Mothers).

These are held at Brambly's Grange Health Clinic Basingstoke, and St. Georges Road East School Clinic, Aldershot.

Child Guidance

Clinics are held by appointment only at

- (1) Brambly's Grange Health Clinic, Basingstoke, every Tuesday all day.
- (2) The School Clinic, Aldershot (Monday and Wednesday) all day.

Family Planning Clinics

These are held at Brambly's Grange Health Centre, Basingstoke on 1st and 3rd Friday at 1.30. - 3.30.p.m., and Manor Park, Aldershot on 1st, 2nd and 3rd Friday in the month 2 - 4.p.m.

The Climate of the district is indicated by these figures.

<u>Month</u>	<u>Rainfall Inches Hartley Wintney</u>	<u>Total Sunshine in hours (at R.A.E. Meteorological Station 9 miles away).</u>
January	3.74	47.9
February	.19	61.1
March	.51	130.7
April	1.13	146.8
May	.24	237.3
June	1.93	130.9
July	3.84	166.8
August	3.19	162.1
September	3.21	102.1
October	3.10	103.5
November	.71	53.8
December	3.71	11.9
	<u>Total</u> 25.40	<u>Total</u> 1354.9

Diphtheria, Whooping Cough and Tetanus Prophylaxis

This is normally done by arrangement with the patient's doctor, or at a Welfare Centre. The triple Antigen (against Diphtheria, Whooping Cough and Tetanus combined) is used as a routine now, but vaccine against Diphtheria (FT) or Whooping Cough can be done separately if required; or Diphtheria and Whooping Cough combined together.

Anti-Poliomyelitis Vaccination (by 2 doses of 1 c.c at a three-weekly interval) is now given, normally by the patient's own doctor. Children born in the years 1947 - 1956 can now be registered for this by filling in a card, obtainable from the County Medical Officer, The Castle, Winchester or the District Medical Officer of Health at the Council Offices. Vaccine for this is not ordinarily immediately available.

The number of children who have been immunised against Poliomyelitis in the district is now 211 of which 22 were done as a pilot scheme in May and June, 1956. The number of children in the District who have received a course of Diphtheria immunisation between 1st January 1942 and 31st December, 1956 is 3175.

The immunised state of the child population is estimated to be about 65.5% - the child population being about 5000.

During 1956 these immunisations were given against

	<u>Primary doses</u>	<u>Booster doses</u>
Diphtheria alone	14	65
Diphtheria & Whooping Cough	256	57
Diphtheria, Whooping Cough and Tetanus	49	1
Whooping Cough alone	4	4
<u>Vaccination against Small Pox.</u>		

This is done either by the Patients doctor or at the Child Welfare Clinics.

In 1956, 436 primary vaccinations and 152 re-vaccinations were done - a combined total of 588 vaccinations. The number of babies under 12 months, vaccinated in the district and expressed as a percentage of live births was as follows in the year

	<u>1954</u>	<u>1955</u>	<u>1956</u>
	90.7%	84.2%	98.8%
Hampshire County	56.1	60.0	60.2

Hartley Wintney has the highest vaccination rate in the County.

No cases of Venereal Disease were specially brought to the notice of the Medical Officer of Health during the year.

Disinfection of Rooms after certain (mostly infectious) diseases is carried out on request.

The number of such disinfections in 1956 was 8.

Mass Radiography.

The Mass Radiography Units (Southampton) of the S.W. Metropolitan Regional Hospital Board visited the district in 1956. The results are as follows :

<u>Location</u>	<u>Numbers examined on Miniature film</u>			<u>New Cases Active Pulmonary Tuberculosis</u>		<u>Inactive P.T.</u>		<u>Significant Non-Tuberculous</u>	
	<u>Male</u>	<u>Female</u>	<u>Total</u>	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>
School Group, Long Sutton.	291	48	339	-	-	-	-	-	-
Crondall Hospital Group	-	95	95	-	-	-	2	-	2
Odiham and District	127	169	296	-	1	1	-	-	-
Hartley Wintney and District	162	229	391	-	-	-	-	-	1
Hook and District	68	80	148	-	1	-	-	-	-

Thus there were only two cases of Active Pulmonary Tuberculosis revealed in these surveys in the district.

Water Supply.

The supply for all the Parish Districts is from the Mid Wessex Water Company.

This mains supply is an adequate chlorinated and satisfactory water. The Pumping Stations are at Frimley, Itchel, Greywell, Lasham and Beenham's Heath, near Wokingham.

Daily tests for the purity of the water are taken. The hardness varies from 16.5 to 21 grains per gallon, due to the chalybeate origin of the water (from deep wells in the chalk). Softening by the lime process is done to reduce the hardness to the statutory limit of 12 grains per gallon.

The Parish of Hartley Wintney Water Works was taken over by the Mid Wessex Water Company on 1st October, 1956.

Wells.

There are about 60 wells in use in the district, mostly belonging to isolated properties. These wells are for the greater part shallow wells and the water usually contains B.Coli. The properties are mostly isolated and this fact often forces the Authority to allow these conditions which would be more potentially dangerous in urban communities; but an endeavour is made to get a mains water supply to properties where practicable.

Factories Acts, 1937 and 1948

Part I of the Act.

1. INSPECTIONS for purposes of provisions as to health (including inspections made by Sanitary Inspectors).

Premises	Number on Register	Number of Inspections	Number of Written Notices	Occupiers Prosecuted
(i) Factories in which Sections 1, 2, 3, 4 and 6 are to be enforced by Local Authorities	14	8	-	-
(ii) Factories not included in (i) in which Section 7 is enforced by the Local Authority	102	42	-	-
(iii) Other Premises in which Section 7 is enforced by the Local Authority	-	-	-	-
TOTAL	116	50	-	-

Rodent Control

The Council is represented on the North Hants. Rodent Committee. All premises are charged for on the basis of size of infestation and cost of labour and materials used.

Period Contracts.

The value of Annual Contracts during this Period was £408.

The following Statistics were supplied to the infestation division, the Ministry of Agriculture.

Numbers of properties treated.

<u>Local Authority</u>	<u>Dwelling Houses</u>	<u>Business</u>	<u>Agricultural</u>
18	170	79	122

Sewers.

Treatment of the Cricket Green Area was carried out during August and January using Warfarin and P.N.P. Recent tests show a complete clearance.

Pest Destruction and Disinfections.

The destruction of wasps nests and treatment of verminous properties was carried out.

Disinfecting after notifiable diseases was also done.

The Pond at Hartley Wintney was sprayed with Ante-Mosquito Spray.

Sewerage

I am indebted to the Surveyor for the following information.

During the year the sewerage scheme for the Village of Crookham was completed and a start made on the sewerage scheme at Crondall.

The 1st Stage of the Yateley Sewerage Scheme was completed.

Public Cleansing and Salvage.

The Hartley Wintney A.30 road section is swept once a week in Winter and twice a week in Summer. Odiham High Street is swept once a week throughout the year.

The Chief Public Health Inspector supervises the administration of the refuse and salvage disposal.

Conservancy.

The collection and clearance from premises having bucket latrines is made from 90 premises.

Housing.

The Surveyor has kindly supplied the following information. Twelve Council houses at Eversley were brought up to present day standards and schemes approved by the Council for similar works at South Warnborough (6 houses) and Malt House Bridge (6 houses). Other schemes will be submitted for Crondall and Yateley when main sewerage is available.

Permanent Houses completed in 1956.

Council Houses (including flats)	10
Private Houses	99
	<hr/>
Total	109

Houses in construction 1.1.1957.

Council Houses	66
Post War Houses erected in district	
Council Houses to end of 1956	1449
Private enterprise houses	472
Conversions	29
	<hr/>
Total	1940

Housing Repairs and Rents Act, 1954.

Certificates of Disrepair issued = NIL

Housing Improvement Grants for period of 12 months ending 1st April, 1957.

Amount paid during year £10,834

Number of properties = 39.

Council House Lettings. A Committee meets monthly to allocate lettings and consider housing applications.

Caravans. There are 101 licensed caravans in the district.

Milk Supply. There are 10 retailers of designated milk in the district.

There are 2 pasteurising plants.

Ice-Cream. 29 premises are registered for the sale of ice-cream (all pre-packed).

Shops. The Sanitary Provisions in Section 38 of the Shops Act, 1950 are administered by the district as the Local Sanitary Authority. The County Council administers the Shops Act generally.

Food Poisoning. The number of cases of food poisoning notified was Nil.

Slaughter House. There is one licensed Slaughter House - that of Mr. Monk, at High Street, Odiham. All meat slaughtered is inspected before release.

Knacker's Yard. There is a licensed Knacker's Yard in operation at Hook (near the Station).

The premises are frequently inspected by the Public Health Inspectors. There are no special reasons for comment at present.

Blackbushe Civil Airport - Port Health. Dr. Sharkey, the Airport Medical Officer, to whom I am indebted for this report, writes :

"I have the honour to report as follows :

The service was carried on the same pattern as last year, with the addition of the power to grant Ministry of Health Disinfection Certificates for aircraft disinfected under the supervision of the Port Medical Officer. This facility, as mentioned in my last report as

being under consideration, was granted with effect from 1st November, 1956.

The work has increased greatly in amount, particularly in the numbers of aliens arriving on Ministry of Labour permits, who have to be examined to ensure that they are medically desirable.

There were two extra-ordinary duties. From August 14th - 18th Operation Nursery was in progress - the airlift of British Nationals from the Suez Canal Area. The Port Medical facilities were extended to these people in conjunction with the Medical Staffs of I.C.I. and Messrs. Wimpey.

From 17th November to 14th December the airlift of the Hungarian Refugees was in progress and a special routine was instituted. There was no question of refusing entry on medical grounds, so a system of interrogation was instituted, through interpreters, whereby the family and personal medical history of each refugee was ascertained; lists of personnel and complaints being sent to the County Medical Officer for further action, when necessary. Active severe illness was dealt with summarily by sending the sick to local hospitals. I am grateful for the free co-operation of these hospitals and the local Medical Officer of Health.

Form Port 12 was rendered on two occasions in respect of aliens entering the country for medical treatment.

On 16th April, 1956 a family arrived from Tripoli, one child suffering from a rash suggestive of Small-Pox. The family of six were admitted to hospital for observation through the co-operation of the County Medical Officer of Health. The case proved to be one of Chicken-Pox.

On 12th April, 1956 a person suffering from suspected dysentery arrived from Nairobi and was admitted to hospital. On 28th June, 1956 a similar case was dealt with.

On 20th August, 1956 a rat was found in an aircraft. This was trapped by the local Rodent Officer and the aircraft sent for disinfection.

In all 196 aliens on Ministry of Labour permits were examined and the Hungarian Refugees numbered 4034.

Form Port 18 was rendered in January.

Aircraft arriving	673
Passenger arriving	33803.

Form Port 18 rendered in July.

Aircraft arriving	708
Passenger arriving	57889

Form Port 17 was rendered in January, 1957.

Number of aircraft carrying aliens	1333.
Total number of aliens arriving including crews.	8415
Alien Forces	<u>10049</u>
Total number of aliens examined	3
M.L.P.	202
Hungarian Refugees	<u>4034</u>
Total	<u>4239</u>

Conditionally landed on Port 12 for further examination	3
