TO THE CHAIRMAN AND MEMBERS OF THE PUBLIC HEALTH COMMITTEE: HAYDOCK URBAN DISTRICT COUNCIL.

I have the honour of presenting for your consideration, the Annual Report on the health and sanitary conditions of the Urban District of Haydock for the year ending 31st December, 1968.

The number of births in 1968 was 235, an increase of 20 on the figure for 1967, giving an adjusted birth rate of 17.5 per 1,000 population; the figure for England and Wales was 16.9.

There were three deaths of infants under one year of age, one less than in the previous year.

There were no maternal deaths.

Total deaths numbered 143, 29 fewer than in 1967. The three main causes of death were: - Diseases of heart and circulation 63; "Strokes" - 21, and Cancer 15. Of these deaths, 35 occurred in persons between the ages of 65 and 74 and 65 at 75 years and over. Lung cancer accounted for two deaths, both male.

The adjusted death rate for Haydock was 12.2; the rate for England and Wales 11.9.

Infectious disease cases notified numbered 151, measles as usual heading the list with 127 notified cases. Figures for the previous 5 - year period show that of a total of 980 infectious disease cases notified, 850 were of measles. In 1968 measles vaccine became available and 251 children under the age of 16 received vaccination against the disease. It is reasonable to anticipate a significant decline in the incidence of the disease within the next few years.

I should like to take this opportunity to thank Members of the Council for their interest, and Mr. R. V. Watkin, and other members of the Staff for their loyal support and co-operation during the year.

I am,

Your obedient servant,

R. ELLIS JONES.

Medical Officer of Health.

SECTION 1

GENERAL STATISTICS AND SOCIAL CONDITIONS

Area (acres) 2,395
Population (Census 1961) 12,074
Population (Registrar General's estimate for mid-1968) 12,740
Number of inhabited houses (Census 1961 3,700
Number of inhabited houses at end of 1968 according to Rate books 4,202
Rateable Value
Sum represented by 1d rate 2,000

The Township of Haydock extends from St. Helens C. B. in the west to the Urban District of Golborne in the east, a distance of approximately 34 miles. It is bounded on the north side by the Urban District of Ashton-in-Makerfield and on the south side by the Urban District of Newton-le-Willows.

The district is without any marked undulation of surface, the height above mean sea-level varying from 65 feet at the bottom of West End Road to 200 feet at the top of Millfield Lane.

The sub-scil consists of clay and marl with occasional beds of sand. Surface water gravitates via the various brooks and streams in the district to Sankey Brook.

The occupations of the working population are principally coal mining, engineering in connection with the Collieries and general light engineering.

VITAL STATISTICS

LIVE BIRTHS:

Legitimate - 120 Male: 105 Female: Illegitimate - 5 Male: 5 Female:	275

Rate per 1,000 TOTAL Births	. Total 2
DEATHS:	
69 Male: 74 Female	. Total 143
Crude Death Rate per 1,000 population Adjusted Death Rate per 1,000 population	11.2
Maternal Mortality:	
Rate per 1,000 TOTAL Births	. NIL
Deaths of Infants under One Year of Age:	3
Rate per 1,000 LIVE Births	. 13
Neo-Natal Nortality:	to that's natt of
Deaths of Infants under 4 weeks of age Mortality Rate per 1,000 LIVE Births	1 4
Early Neo-Natal Mortality:	
Rate per 1,000 LIVE Births	. 4
Perinatal Mortality:	may we skeeped
Rate per 1,000 TOTAL Births	. 13

POPULATION: At the Census in 1961 the population enumerated was 12,074. The Registrar General's estimate for mid-1967 was 12,740 and this figure has been used in calculations of statistics in this report.

BIRTHS: During the year there were registered 235 live births, being 125 males and 110 females, to Haydock parents, representing a crude birth rate of 18.4, per 1,000 of the population and an adjusted birth rate of 17.5; the birth rate for England and Wales was 616.9.

There were 2 stillbirths giving a rate per thousand TOTAL Births of 8; the rate for England and Wales was 14.3.

DEATHS: The total number of deaths of Haydock residents whether within or without the district was 143 comprising 69 males and 74 females. The crude death-rate for 1968 was therefore 11.2 per 1,000 of the population and the adjusted rate 12.2 as compared with a death rate of 11.9 per 1,000 for England and Wales as a whole.

It will be noticed that the increase of births over deaths - the inatural increase" - for Haydock during the year was 92.

Of the 143 deaths, 25 were of patients in Haydock Lodge Hospital.

INFANT MORTALITY: Deaths of infants under one year of age numbered 3 giving a rate per 1,000 LIVE Births of 13. The rate for England and Wales was 18.3.

There were no deaths from Measles or Whooping Cough.

MATERNAL MORTALITY: There was no "Maternal death" i.e. death due to or associated with pregnancy or parturition.

COMPARABILITY OF CRUDE LIVE BIRTH AND DEATH RATES: If the populations of all areas were similarly constituted as regards the proportions of their sex and age groups, their crude rates for live births and deaths (per 1,000 population) could be accepted as valid for purposes of comparison with other areas and with the country as a whole.

As the population of the areas are not thus similarly constituted the Registrar General supplies "comparability factors" to each area, by which the crude live birth and death rates of the area are "weighted" to give the "adjusted" rates, which are truly comparable with the adjusted rates of other areas.

For this area the Live Birth rate comparability factor is 0.95 and the adjusted Live Birth-rate becomes 17.5 per 1,000. The Death-rate comparability factor is 1.09 and the adjusted Death-rate is therefore 12.2 per 1,000.

COMPARISONS OF BIRTH, DEATHS, ETC: The tables on the following pages give comparisons of the Births, Deaths, etc., for the year 1968 and for the preceding 5 years; also the causes of death in the Haydock Urban District for the year 1968.

SECTION 3

INFECTIOUS DISEASES -- PREVENTION AND CONTROL

Notifications in 1968 were 105 more than the previous year due to the increase in the number of cases of Measles: - 127 as against 28 last year.

8 cases of Infective Jaundice were notified.

ISOLATION & DISINFECTION

The Infectious Diseases Hospital at Peasley Cross, St. Helens, is available for the treatment of Haydock cases.

Only two cases of infectious disease from Haydock were admitted during 1968.

The use of the steam disinfector at the hospital is also available for the disinfection of bedding and clothing as and when required.

- 12 -SECTION 4.

SANITARY CIRCUMSTANCES OF THE AREA

WATER SUPPLY:

The supply of water to the district is the responsibility of the St. Helens Corporation who, by agreement with the Council, assumed control of the undertaking in April, 1958.

INSPECTION AND SUPERVISION OF FOOD SUPPLIES

The number of types of food premises in the area at the end of 1968 were as hereunder:-

Grocers and Provision Dealers						-
Greengrocers and Fruiterers					 	6
Heat Shops						
Bakers and/or Confectioners						3
Fried Fish Shops					 	7
Shops, selling mainly Sweets, M.	ineral	s, Ice	-Cream	, etc.	 	16
Licensed Premises, Clubs, Cante	ens, R	estaur	ants,	Snack-		
Bars and similar Catering Est	ablish	ments			 	26
Others	ple. 10	3			 	11

All were inspected systematically during the year, in addition to special visits.

The following foodstuffs were condemned as unfit for human consumption and destroyed.

Canned Meat Other canned foods 1,323 lbs.

No cases of food poisoning have occurred.

34 shops and one ice-cream Storage and Distribution Depot in the district are registered under the Lancashire County Council (Rivers Board and General Powers) Act, 1938, for the sale of ice-cream. In each shop a refrigerator is installed and the ice-cream is sold wrapped as delivered to the shop.

There are no ice-cream manufacturers in the district.

MEAT AND OTHER FOODS:

There are no slaughter-houses in operation in the area.

DRAINAGE AND SEWERAGE:

With the exception of a few out-lying premises all property is connected to the public sewers.

The western part of the district is served by the Parr Sewage Works, St. Helens, which is situated partly in the Haydock district and which came into operation early in 1958.

The sewerage scheme for the eastern portion of the district, - part of the Sankey Valley Sewerage Scheme, came into operation in November, 1959.

SANITARY ACCOMMODATION (HOUSES AND SCHOOLS):

The number of the various types of conservancy measures in the district at the end of 1968 are as follows:-

Privy Middins	. 1
Pail Closets	1
Trough Closets	Nil
Waste-water closets	Nil
Fresh-water closets	4,558
Dry Ashpits	Nil
Ashbins	4,358

All the schools in the district now have reasonably satisfactory sanitary accommodation and are connected to the public mains for water supply and to the public sewers for sewage disposal.

PUBLIC CLEANSING AND SALVAGE:

The collection of refuse is carried out under the control of the Council's Surveyor. Three motor vehicles are in operation and the majority of dustbins are emptied weekly. Refuse is disposed of by means of tipping. Paper, cardboard etc. is collected separately and sold as selvage.

RODENT CONTROL:

Although infestations of rats and mice in the district are generally of a minor nature, the sewers and refuse tips are subject to constant observation and treatment in accordance with the methods recommended by the Ministry of Agriculture and Fisheries Infestation Control Division.

Annual contracts were entered into for rodent destruction at three farms and two warehouses in the district.

Occupiers of dwellinghouses are encouraged to report infestations of rats and mice, no charge being made for disinfestation work carried out by the local authority at this type of property.

One rodent operative is employed part-time.

Total inspections (including reinspections) carried out, and number of infestations found and treated were as follows:-

TYPE OF PROPERTY

	Non-Agricultural	Agricultural
(a) No. of properties in district	4,800	17
(b) Total No. of properties inspected following notifications	520	4
(c) No. of (b) infested by Rats	205 81	4 3
(d) Total No. of properties inspected for rats or mice for reasons other than notification	231	13
(e) No. of (d) infested by Rats	14 6	3

DISINFESTATION:

Infestations of houses with insect pests were dealt with by the use of D.D.T. insecticide and powder, with good results.

The number and types of infestations of houses dealt with during the year were as follows:

Ants	131	houses
Cockroaches	26	houses
Crickets	2	houses
Silverfish	1	house

Insect pests were also dealt with at one factory.

SHOPS ACT, 1950:

The Shops Authority in this area is the Lancashire County Council, but inspectorial duties are carried out by the Public Health Inspector who, for that purpose, has been appointed Shops Inspector by the County Council.

There are 177 premises classified as shops under this Act, in the district, and inspections during the year numbered 350.

PETROLEUM (REGULATION) ACT, 1928 AND 1936:

19 premises were licenced to keep petroleum spirit and three to keep petroleum mixtures. Visits of inspection to new and existing installations numbered 34.

Income from licence fees amounted to £26. 3. 4d.

The new Shell-B.P. Hydrocarbon Cil Terminal, claimed to be the largest of its particular type in Europe, came into operation during 1968.

SECTION 5.

HOUSING

At the end of 1968, according to the Rate Books, the total number of houses in the area was 4,202.

Of these, 1,544 are Council houses and some 800 have been built in the post-war period by private enterprise. The majority of the remainder are of terrace type, 60 years of age and upwards, whose general standard may be described as "fair". Little overcrowding exists.

During 1968, 76 traditional permanent houses were erected by private enterprise.

1. Inspection of dwelling-houses during the year:-

- (1) (a) Total No. of dwelling-houses inspected formally or informally for housing defects (under Public Health or Housing Acts) 303
 - (b) No. of inspections made for the purpose 623
 - (c) No. of dwelling-houses in (a) above found to be not in all respects reasonably fit for human habitation but capable of being rendered fit
- (2) Total No. of dwelling-houses existing at the end of the year which were unfit for human habitation and not capable at reasonable expense of being rendered fit, and in respect of which:-
 - (a) Demolition, Clearance or Closing Orders have been made

(b) Demolition, Clearance or Closing Orders have not yet been made 291

2. Houses Demolished:-

(1) In Clearance Areas:

Houses unfit for habitation

14

(2) Not in Clearance Areas:

As result of formal or informal procedure under Section 17 (i) Housing Act, 1957

3. Unfit Houses Closed:-

Under Section 17 (i) Housing Act, 1957

NIL

4.	Unfit Houses made Fit and Houses in which Defects were Remedied	:-
	(1) After informal action by Local Authority	85

5.	Houses Improved:-	
	By Discretionary Grant:	
	(1) Applications submitted	NIL
	(2) Applications approved	NIL
	(3) Work completed	NIL
	By Standard Grant:-	
	(1) Applications submitted (a) to full standard	23
	(b) to reduced standard	NIL
	(2) Applications approved (a) to full standard	23
	(b) to reduced standard	NIL
	(3) Work completed	22
	Amenities provided under the Standard Grant procedure were:-	
	Bath in Bathroom	22
	Washbasin	22
	Inside Water Closet	21
	Hot Water Supply	22
	Ventilated Food-Store	20

Standard Grants paid during the year in respect of 22 houses improved amounted to 24,075. O. Od.

INDUSTRIAL AND COMMERCIAL HYGIENE FACTORIES ACT, 1961

There are 42 registered factories in the district comprising 40 factories in which mechanical power is used, and 2 without mechanical power.

The types of factory are:-

	Engineering	8
3	Bakehouses	3
	Motor Vehicle Manufacture	2
	Joinery	1 (1)
	Pre-Cast Concrete Goods	2
	Laundry	2
	Hinge-Making and Electro-Plating	1

SECTION 8.

PROVISION OF GENERAL HEALTH AND ANCILLARY SERVICES IN THE DISTRICT

(1) LABORATORY -ARRANGEMENTS:

(Public Health Laboratory Service, and County Analyst's Department)

Pathological specimens, samples of milk, foodstuffs, "swabs", etc. for bacteriological investigation are dealt with by the Public Health Laboratory Service either at the Public Health Laboratory, Mount Pleasant, Liverpool, or at the Public Health Laboratory, Monsall Green, Monsall, Manchester. The chemical analysis of water samples, and of samples of food and drugs, is undertaken at the County Analyst's Department, County Offices, Preston.

(2) HOSPITAL ARRANGEMENTS:

(Liverpool Regional Hospital Board, St. Helens and District Hospital Management Committee, and Warrington and District Hospital Management Committee)

The Haydock Cottage Hospital is the only hospital situated in the district; it is a General Hospital with a nominal establishment of 13 beds, but in view of its small size it is not equipped to deal with major surgical cases. The district is mainly served, for general cases by the St. Helens Hospital, and also by the Providence Hospital, St. Helens. Maternity cases requiring hospital treatment are admitted either to the County Hospital, Whiston, the St. Helens Maternity Hospital, the General Hospital, Warrington, or to the Warrington Maternity Home, Victoria Park, Latchford, Marrington. Cases requiring isolation on account of Infectious Disease are normally admitted to the Peasley Cross Isolation Hospital, St. Helens.

In addition to the above, cases requiring highly specialised treatment for pediatric, orthopeadic, opthalmic, ear, nose, throat, and gynaecological disabilities may be admitted, by arrangement, to any of the "teaching hospitals" attached to the Universities of Liverpool or Manchester, and situated within, or in close proximity to those cities.

(3) AMBULANCE ARRANGEMENTS:

Full responsibility for the Ambulance Service (provided under Section 27 of the National Health Service Act, 1946) rests with the Lancashire County Council - the "Local Health Authority" - under the Act, and the Urban District is serviced by staff and vehicles maintained at the County Ambulance Station, Silverdale Road, Newton-le-Willows.

All vehicles in the Lancashire County Council ambulance service are under radio control, and all services in the Division are controlled by staff at the area ambulance headquarters at Whiston. Vehicles from other stations can be brought in easily because of the radio contact when necessary.

This service deals with all types of cases where such transport is required by reason of illness (including mental illness or mental subnormality), whether accident, other emergency, general illness or infectious disease. In cases of emergency any person having reason to do so may summon an ambulance, and the emergency service number "999" should be used. In other cases the calls for this service are made either by a doctor, dentist, midwife, nurse or other duly qualified persons who can call Whiston Headquarters, telephone number Prescot 5222.

Five stretcher-carrying ambulance vehicles and three "Sitting case" cars are stationed at the Newton-le-Willows Depot, and manned by an appropriate staff, all qualified in First Aid.

(4) TREATMENT CENTRES AND CLINICS:

(i) SCHOOL HEALTH - School Clinic, Station Road, Haydock.

Assistant Divisional Medical Officer, Doctor J. C. Udechuku.

School Nurse/Health Visitors. Mrs. A. Boyes, Mrs. K. Smith.

Sessions - Minor Milments and Medical Inspection.

Doctors Sessions - Weekly - Tuesday a.m. (during School Term).

Nurses Re-Dressing Sessions - Weekly - Thursday a.m. (during School Term).

Ophthalmic Surgeon - Mr. Barker.
School Nurse in Charge - Mrs. A. M. Tarbuck.
Sessions - Weekly - Tuesday p.m. (by appointment only).

Orthopaedic Surgeon - Mr. Almond.
Orthopaedic Physiotherapist - Mrs. Garrett.
Sessions - Surgeon's sessions - Monthly, morning of the first Monday (by appointment only).

Mr. A. C. Crawford, ably assisted by Mrs. Twigg, the Dental Attendant, has continued the periodic inspection and treatment of school children, the treatment of expectant and nursing mothers and of children of "pre-school" ages.

(ii) ANTE-NATAL CLINIC (held at School Clinic, Station Road, Haydock)
Obstetrician - Mr. H. V. Corbett, Mr. C. I. Moss (alternate fortnights).

Health Visitor - Mrs. A. Boyes.

Sessions - Fortnightly - alternate Thursday afternoons.

These sessions are attended whenever possible by the local County Midwives, who assist at the examination of their patients. Where hospital confinement is advisable, either on obstetric or social grounds, the necessary arrangements are made for admission. During the current year a total of 245 expectant mothers made 416 attendances at the Clinic.

(iii) MATERNITY AND CHILD WELFARE CLINIC (Held at the School Clinic, Station Road, Haydock) Assistant Divisional Medical Officer - Doctor J. C. Udechuku. Health Visitors - Mrs. A. Boyes and Mrs. H. Evans. Bessions - Weekly - each Wednesday - morning and afternoon. The purpose of these Clinics is to facilitate the medical examination and general supervision of infants and small children up to the age of 5 years, and to advise the mothers regarding their nurture and welfare. As an ancillary service, in order to help the parent to implement the advice received regarding feeding methods, a number of artificial infant foods and of vitamin preparations etc., are available at cost price to those regularly attending, and Ministry of Health "Welfare Foods", i.e. cod liver oil, orange juice and vitamin tablets are also dispensed at these sessions. In addition, expectant mothers who attend with infants or other young children are advised regarding the maintenance of their general health, and on other problems connected with their pregnancy; and are of course referred for special obstetrical advice to the Ante-Natal Clinic.

The following figures show the use made of the Child Welfare Centre during the year:-

Number of individual in attendance	l children	Number of attendances
Born in 1968 Born in 1967 Born in 1966/63	226 201 169	2,714 432 <u>173</u>
	596	3,319

(5) MIDWIFERY ARRANGEMENTS:

Two whole-time salaried Midwives are employed by the County Council - the "Local Health Authority" and "Local Supervising Authority" - for the purpose of conducting domiciliary confinements, either as midwives, (when assuming sole responsibility for the delivery, etc.), or as maternity -nurse, (when assisting at delivery in conjunction with a Doctor). The general policy is that each midwife should use a car, in order to enable her to respond speedily to urgent calls, and to transport analgesia apparatus.

The names and addresses of these Midwives are:-

Mrs. W. Burns, 2 Folds Road, Haydock - Telephone St. Helens 27135, and Mrs. M. A. McGhee, 31 Pimblett Road, Haydock - Telephone Ashton-in-Nakerfield 77477.

No private midwife practises within the district, nor is there any private Maternity Home so situated. These ladies were therefore responsible, either as midwives or maternity-nurses, for the 52 domiciliary confinements which took place during the year.

(6) HEALTH VISITING ARRANGEMENTS:

The scope of this work is steadily expanding, the responsibility now rests on Health visitors to advise on general health matters relating to the family as a whole, also on the welfare of the aged and handicapped, and not solely in relation to infants, young children, and school children. Furthermore, they have a specific responsibility to advise on immunisation against Diphtheria and Whooping Cough, and on the importance of vaccination.

These domiciliary visits, so necessary as regards not only supervision but also health education, are complementary so far as pre-school children are concerned, to the work carried out at the Child Welfare Centre.

During the year this area has been covered by two Health Visitors Mrs. A. Boyes and Mrs. K. Smith.

(7) MENTAL HEALTH ARRANGEMENTS:

The district is covered for this purpose by four Mental Welfare Officers of the Local Health Authority, No.10 Health Division. These officers deal with all aspects of mental health, including cases for which investigation, supervision and appropriate action is required under the Mental Health Act, 1959.

The names and addresses of these officers are:-

Miss C. V. Horrocks, Mr. J. Baldwin, Mr. B. Sumner, Mrs. K. Meeks.

No. 10 Divisional Health Office, Winwick, Nr. Varrington.

The services of a Mental Welfare Officer may be obtained in emergency at any time; during normal office hours, by communicating with the Divisional Health Office - Telephone No. Warrington 37444, outside these hours, and at week-end, by telephone to the Area Ambulance Headquarters - Telephone No. Prescot 5222.

(8) HOME HELP ARRANGEMENTS:

This is a permissory service provided by the County Council through its Divisional Health Scheme. (No. 10 Divisional Health Committee), and is one which is not necessarily provided free of cost to the public. It aims to provide domestic help where required by reason of the presence in a household of sickness, pregnancy, a parturient woman, children under compulsory school age or a mentally subnormal person. A steadily increasing demand for such help has been satisfied during the current year, most of the help being given in the homes of the aged and disabled. In some cases also "night helps" are made available to meet the urgent need for night attendance of people seriously ill.

The "Home Helps" engaged are all part-time workers; none is full time, but all must undertake a minimum of 22 hours per week if required.

During the current year 162 cases in the district have been helped by a staff os 37 part-time home-helps.

(9) HOME NURSING ARRANGEMENTS:

Nursing help in the home is now provided by the Local Health Authority, which employs fully trained and registered Home Nurses for this purpose. The public demand for this onerous work has grown considerably, and in view of this, a State Enrolled Nurse was appointed in June, 1962 to assist.

The "Home Nurse" for the District is:

Miss V. M. Dunn, 9 Greenwell Road, Haydock - Telephone No. St. Helens 27302, and the State-Enrolled Nurse, Mrs. A. Robinson, 498 Fleet Lane, Parr, St. Helens - Telephone No. St. Helens 27939.

(10) ARRANGEMENTS FOR THE PREVENTION OF ILLNESS, CARE AND AFTER CARE OF SICK PERSONS, (INCLUDING THOSE SUFFERING FROM TUBERCULOSIS), THE PROVISION OF CONVALESCENT ACCOMMODATION, AND OF EXTRA MOURISHMENT MERE RECOMMENDED

Responsibility for the above rests with the Local Health Authority partly on an obligatory, and partly on a permissive basis; "illness" also includes mental defectiveness. The scope of such arrangements is very wide, and includes all the methods of "Health Education" and propaganda relating to health matters, health-visiting in the homes, (including those of persons suffering from Tuberculosis) the provision of ancillary nursing equipment, the after-care of patients who have suffered from illness, whether at home or in hospital, and the provision of convalescent accommodation and rehabilitation measures where these are required to enable those recently sick to regain full health and strength. Extra nourishment may also be provided where necessary for cases of Pulmonary Tuberculosis, on the recommendation of the Chest Physician.

The Tuberculosis Health Visitor for the District is Mrs. H. Evans. She maintains supervision of patients in their homes, and arranges for their examination and re-examination, also for that of "contacts" (including X-ray investigation), at the Chest Clinic at St. Helens, administered by the St. Helens and District Hospital Management Committee of the Liverpool Regional Hospital Board.

As regards Health Education - a very important and essential factor in the prevention of illness - it is emphasised that although some responsibility for this side of preventive medicine is accepted by the County Council as Local Health Authority, the permissive powers of the District Council (as a Local Sanitary Authority), to carry out measures of health education under Section 179 of the Public Health Act, 1936, are still extant, particularly in respect of the dissemination of information relating to the control of infectious diseases.

(11) VACCINATION AND IMMUNISATION ARRANGEMENTS:

Vaccination, and immunisation against Diphtheria, Whooping Cough and Tetanus, are available free of cost to all who desire it, either through the family doctor, who carries it out as part of his duty to his patients, or by attendance at one of the Immunisation Sessions held at approximately monthly intervals at the School Clinic, Station Road, where the work is carried out either by one of the local doctors or by the Assistant Divisional Medical Officer. Infants and young children may also be immunised at the normal Child Welfare sessions on Wednesdays.

During the year a total of 151 children under 15 years of age completed the full course of immunisation against diphtheria of which 136 were under 5 years. In addition, 405 children received re-inforcement or booster injections.

In accordance with the Ministry of Health Circular 27/62 issued in November, 1962, routine smallpox vaccination is recommended during the first two years of life, preferably during the second year of life instead of during the first few months as in previous practice. The number of children under two vaccinated during 1968 was 99 and the percentage based on the number of live births during 1967 and 1968 is 16.

During the year 151 persons up to the age of 16 received primary vaccination against poliomyelitis. In addition 262 re-inforcement doses were given.

(12) THE CHILDREN ACT, 1948, THE CHILDREN AND YOUNG PERSONS ACT, 1953. THE ADOPTION ACT, 1950.

In the main, the Children act of 1948 provides for the care and welfare of children and young persons up to the age of 18 years who

for one reason or another are deprived of a normal home life, and it thus has an important bearing on the mental and physical health and development of such children.

The County Council, which is the Local Authority for the purposes of this Act, exercises its functions through its Children's Committee and the Children's Officer, who is responsible to the Committee for the efficient administration and day to day operation of the Service which is carried out on a regional area basis.

The Haydock Urban District lies administratively within the preview of the Area Children's Officer of the Leigh Area, who is assisted by Child Care Officers, and is responsible for all matters relating to "deprived" children, e.g. the provision of accommodation, the inspection of and report on prospective foster homes, infant life protection, supervision of adopted children during the probationary period, and the care and conveyance to suitable "places of safety" of children committed by the Courts to the care of the Authority as a "fit person", under the provisions of the Children and Young Persons Act, 1933, and so on.

The Area Children's Officer and his visitors work in close liaison with the Divisional Medical Officers and their staffs, and I am happy to say that in this district (included in No. 10 Health Division) the co-operation is excellent.

The Area Children's Officer is:-

Mr. W. N. Ritchie, Area Office, Williams Deacon's Bank Chambers, Market Street, Leigh, and the Child Care Officer for the Urban District is Miss N. Walsh, Area Offices as above.

(13) NATIONAL ASSISTANCE ACTS, 1948 (AND 1951):

The Local Authority carrying responsibility for the implementations of Parts III and IV of this Act is the County Council, and the administrative machinery, in this case also, is on the divisional basis. The main provisions of Part III relate to residential accommodation for the disabled and aged, to temporary accommodation for persons who, by virtue of circumstances which could not reasonably have been foreseen, are without lodging, and to welfare services in general, for persons handicapped by infirmatives such as blindness, deafness, dumbness, crippling physical defects and other disabilities of a permanently handicapping character.

The approved scheme of the County Council in regard to Welfare utilises very fully the services rendered by various voluntary agencies already in existence prior to this legislation. The scheme opens up a tremendous field of activity for all, both voluntary and salaried workers.

Section 47 of this 1948 Act prescribes the procedure whereby aged or infirm persons, if not receiving adequate care and attention in their homes may, by Court Order, be removed to a suitable hospital following a hearing by the Court of evidence in support of a certificate issued by the Medical Officer of Health, after due consideration of all the circumstances of the case; the 1951 Act prescribes emergency procedures on similar lines. No cases were admitted to hospital under this section during the year.

Section 50 of the Act places on each County District Authority the duty of arranging for the burial or cremation of the body of any person who has died or been found dead within the district, when it appears to the Authority that no suitable arrangements for the disposal of the body have been or are being made otherwise than by the Authority. No action under this section was required during the year.

Charles of the first the first of the South Court, where the best to be the same
