ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

for the year ended 31st December, 1965.

---000---

To the Chairman and Members of the Rural District Council of Hexham.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present my Annual Report for the

year ending 31st December, 1964.

This large Rural District contains a diversity of social conditions. The Eastern part is becoming increasingly residential, and the majority of new private houses are being built there and occupied to a large extent by new residents from the Newcastle area. Some of the former country villages there are approaching the size of towns and desire the services available in an urban area. The administration is concerned with providing modern amenities on an increasing scale, and the most pressing need is for up-to-date sewage treatment facilities. This the Council have under consideration in the form of the Mid-Tyne sewerage scheme, now in course of preparation. The typically rural part of the District consists of fertile agricultural land. The villages are prosperous and maintain their population, and many of the older houses have been improved with the aid of grant. The extension of mains water has been of great benefit, and the provision of small sewage treatment works is proceeding gradually. The most difficult part of the District to serve with modern facilities lies in the high valleys and uplands where the land is poorer, and where the distances involved make the supply of mains water, which is the greatest need, unreasonably costly. The Council are anxious to provide amenities there as elsewhere, but progress is limited.

The population increased by 200 during 1964, and the natural increase of births over deaths was 70. Although the population as a whole has shown a slow but steady increase over recent years it is very probable that it is becoming redistributed, with more newcomers attracted to the residential areas than are indicated by the annual increase while the smaller and more remote villages are losing population. This impression cannot be confirmed until the next census shows the new population by parishes. The vital statistics for the year are very satisfactory. The birth rate and death

rate were close to the national average, while for the ourth successive year the infant mortality rate was considerably below the national average, and was in fact the lowest recorded in the past 25 years. Of the three deaths in infancy none could be considered preventable. There was a slight increase in the number of deaths from lung cancer, pneumonia and bronchitis, but the main causes of death were as usual vascular lesions of the nervous system and various forms of heart disease and occurred in elderly persons.

The pattern of infectious diseases has changed so much of recent years that the major infections call for comment only by their absence. Apart from measles, which was widespread, few cases were notified. Improved health and living conditions have contributed to the control of infectious disease, but most credit must go to preventive medicine in the form of immunisation and vaccination and to the extent to which parents have accepted the protection that can be offered. It is probable that measles too can be prevented by immunisation in the near future. Included in the three notifications of tuberculosis was one case of non-pulmonary infection, now uncommon since dairy herds became tuberclefree, but it occurred in an elderly person whereas most milkborne infections develop in children. If milk-borne tuberculosis is rare, brucellosis is being more often recognised. Again two herds were brought to notice through the routine sampling of milk and were extensively investigated. Positive excretors were found, in one case affecting a high proportion of a small herd, and the milk has since been pasteurised. This is satisfactory from the point of view of providing the public with safe milk, but it does nothing to remove the source of infection, which is the ideal solution.

During the year 79 houses were built by the Council and 90 privately. Under construction were a further 45 houses, 38 being privately built. The plans for 140 houses of advanced design have been approved for Corbridge, and further private development there is under consideration. While the waiting list for Council houses remains high the need for re-housing is less urgent than it was some years ago. The Council plan to build further family houses at Barrasford, but otherwise only old people's bungalows are in the next programme. These will be built in a number of villages, and the needs of the frail elderly, and of the severely handicapped of all ages, will be met by the proposed large development in Corbridge, to consist of some 30 flats with special amenities, including a

warden, and 40 bungalows. Unfortunately this scheme will be delayed until Corbridge has adequate sewage disposal facilities. Additional housing is provided by the Council through the purchase and improvement of old property when the opportunity offers, and work is in progress on six such houses in Humshaugh. Owners are encouraged to modernise old property and keep it in occupation with the aid of improvement grants, and the Council have an excellent record in this respect — over 1,000 discretionary grants have now been made, and only one third of these to improve owneroccupied houses. The value of this policy in a Rural District cannot be over-stressed in saving individual houses and whole communities. A systematic inspection is being made in villages where there are still a number of unsatisfactory houses and the owners are being encouraged to modernise with grant aid, but the results so far have been disappointing in Haydon Bridge owners have undertaken or have agreed to undertake improvement in respect of 38 houses only out of 136. The latest Housing Act gives the Council powers to acquire and modernise such property, but informal approach will remain the first step.

The Newcastle and Gateshead Water Company, as statutory water undertakers, continue to provide much the greater part of the District with a supply that is satisfactory in quality and quantity. The Council remain responsible for private and proposed supplies. Routine and check samples are taken frequently, the results being interchanged where necessary, and any remedial action required is taken by the appropriate authority. Only one chemical analysis was carried out, on a proposed supply, and it and the bacteriological sample were unsatisfactory. It is known however that the mains supply is satisfactory chemically, and that plumbosolvency is not a problem, but that the fluoride content is low. Detailed information about the water supply is given in the Chief Public Health Inspector's section of the report.

The South-West Northumberland water scheme is now complete, but the Council will extend phase 3 where this can be done at reasonable cost. The only extensions carried out during 1964 were in the Langley and Stagshaw areas, but others are under consideration. The Council bear the first £350 per property, and the owner is required to pay the balance if the scheme is to proceed. Although this is a generous grant it is quite inadequate for some of the proposed schemes, particularly to distant villages where long lengths of un-

productive main must be laid. It is usually suggested, in these circumstances, that the Company should use local sources, but these are usually inadequate in quality or quantity, and in using them the Company could not fulfil its statutory obligations. The only way in which mains water can be brought to some parts of the District is to disregard cost, which means generous grants from some source.

Except in the Mid-Tyne area the arrangements for sewage disposal in the District can be said to be adequate. During the year the sewerage and sewage disposal scheme for Langley was completed, and the joint scheme to serve the villages of Acomb, Oakwood and Anick together with the town of Hexham was begun. A scheme for Blanchland will be begun soon, and is regarded as urgently necessary in view of the fact that untreated sewage would otherwise enter the new Derwent Valley reservoir. The position in the Tyne Valley from Corbridge eastwards is far from satisfactory owing to the lack or inadequacy of existing facilities, and a number of schemes have been prepared by the Consulting Engineers. The Council favoured one centralised works, but after discussion with the Ministry it was agreed to proceed at once with works at Broomhaugh to serve Corbridge, Riding Mill and Stocksfield. Alternative proposals to deal with the villages of Ovington, Ovingham, Horsley and Wylam are under consideration, and the scheme adopted will depend on the ability of Prudhoe sewage treatment works to accept all, part or none of the sewage from these villages. The cost will be very considerable, but the need is urgent and indisputable as this populous area is inadequately served and new housing development must provide temporary treatment works or remain in abevance pending settlement of the sewage disposal question.

In presenting this Report I should like to record my appreciation of the progressive outlook of the Council in the improvement of amenities in this very large Rural District, and of the active interest the Councillors continue to take in the work of the Health Department. I acknowledge with gratitude the co-operation and courtesy of the Clerk and other officials, and the continued good work done by the

Public Health Inspectors and the staff.

I am, Ladies and Gentlemen,
Your obedient servant,
J. M. McEWAN,
Medical Officer of Health.

HEALTH SERVICES OF THE AREA

(1) Hospitals

There are in the district four hospitals under the manage ment of the Hexham and District Hospital Management Committee. These comprise the Charlotte Straker Hospital and the Bridge End Maternity Hospital at Corbridge, the Dilston Maternity Hospital and Wooley Sanatorium. These hospitals together with the Hexham General Hospital, the Hexham War Memorial Hospital and the Newcastle group of hospitals are available to cases from the area.

Cases of infectious disease requiring admission to hospital are referred to the City Hospital for Infectious Diseases, Newcastle upon Tyne.

(2) Ambulance Service

The British Red Cross Society, acting as agents for the Northumberland County Council, provide an ambulance service which serves the district. Ambulance Stations are situated at Corbridge and at Hexham. Patients requiring transport, but not an ambulance, are brought in by car. In an extensive area with poor communications this is a very valuable service. Some of the cars are provided by the British Red Cross Society, others by agents in the various villages.

(3) Home Help Service

The Northumberland County Council Home Help Service is in operation in the district. Home Helps are available to households where such help is required owing to illness or confinement, and their services are obtained through the office of the West Area Health Sub-Committee, Priory Buildings, Hexham.

(4) Maternity and Child Welfare Clinics

The following Maternity and Child Welfare Clinics are held by the Northumberland County Council in the district :

CHILD WELFARE CLINICS :

Acomb Miners' Institute Hall, Acomb.

Alternate Thursdays:

1-30 — 4 p.m.

Allendale .. Dr. Gray's Surgery.

Second Monday in the month;

1-30 p.m. — 4 p.m.

Corbridge . . Parish Hall, Princes Street.

Alternate Mondays:

9-30 a.m. — 12 noon.

1-30 p.m. — 4 p.m.

Haydon Bridge . . Church Hall.

Alternate Mondays:

9-30 a.m. — 12 noon.

1-30 p.m. — 4 p.m.

Humshaugh .. Village Hall.

Every fourth Thursday:

1-30 p.m. — 4 p.m.

Newbrough .. Women's Institute.

Alternate Wednesdays:

1-30 p.m. — 4 p.m.

Ovington .. Methodist Church Hall, Ovington.

Every fourth Tuesday: 9-30 a.m. — 12 noon.

Riding Mill . . Parish Hall.

Every fourth Thursday:

1-30 p.m. — 4 p.m.

Stocksfield ... Red Cross Hut.

Alternate Mondays:

9-30 a.m. — 12 noon.

1-30 p.m. — 4 p.m.

Wylam .. Methodist Church Hall.
Alternate Tuesdays:
1-30 p.m. — 4 p.m.

ANTE-NATAL CLINICS:

Allendale .. Dr. Gray's Surgery.

Alternate Tuesday: 1-30 p.m. — 4 p.m.

Stocksfield .. Red Cross Hut.

Alternate Tuesdays: 1-30 p.m. — 4 p.m.

(5) Midwifery and Home Nursing Service

These services are now administered by the Northumberland County Council and in this area are combined. There are nine Nurse Midwives working in the Hexham Rural District.

WATER AND SEWERAGE SCHEMES

I am indebted to Mr. W. W. Outhwaite, the Engineer and Surveyor for giving the following tables of construction works proposed or in hand.

Works under Construction or Completed during 1964:

Langley Sewerage and Sewage Disposal, Acomb, Oakwood and Anick Sewerage.

Works to be commenced during 1965 :

Blanchland. Newton.

Works to be designed and prepared by Consultants :

Mid-Tyne Sewerage and Sewage Disposal comprising the villages on the river — Corbridge to Wylam.

Two meetings have been held in London with the Ministry of Housing and Local Government and with representatives of Prudhoe Urban District Council to consider the most satisfactory way of dealing with the Mid-Tyne Sewerage from Corbridge to Wylam. It is now decided that the scheme be designed on the lines:—

- (a) one sewage works to be sited at Broomhaugh, Riding Mill to deal with the western villages of Corbridge, Riding Mill and Stocksfield; and
- (b) that consideration be given to the following alternative means of sewage disposal for the eastern villages of Ovington, Ovingham, Horsley and Wylam:—
 - to discharge sewage from all four villages to the sewage works at Prudhoe;
 - (2) to discharge sewage from Ovingham and Ovington to Prudhoe Works and construct a new works at Wylam;
 - (3) construct new works at Wylam for the eastern villages leaving the Prudhoe sewage works for Prudhoe's own requirements.

Works to be designed and prepared for Completion in Engineer's Department:

Fourstones.

Allenheads.

Hardhaugh.

Blackhall Mill.

Wall.

ANNUAL REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR FOR THE YEAR ENDED 31st DECEMBER, 1964.

___0___

Water Supplies:

During the year, 72 samples were taken for bacteriological examination and I sample was taken for chemical analysis.

Public Supplies :

Samples are taken regularly both by the Council and by the Newcastle and Gateshead Water Company. The results of samples taken by the Council are shown in the accompanying table.

Small extensions to the Newcastle and Gateshead Water Company's mains have been laid in the Langley and Stagshaw areas during the year.

Including new houses, 173 additional properties were given connections to the mains during the year.

HOUSING

Council House Building

The Chantry estate at Corbridge and an extension to the Allenfields estate at Allendale were completed during the year, providing 68 general purpose houses and 6 Old Persons' bungalows.

An extension of the Blackett Cottages site at Wylam providing a further 8 Old Persons' bungalows was nearing completion at the end of the year, 5 houses having been completed and occupied.

The re-conditioning of 20 houses at Horsley Wood has been completed and work was begun at Humshaugh on the construction of 4 Old Persons' bungalows and on the re-conditioning of 6 houses at Widdrington Terrace. A further house has been purchased at Princes Street, Corbridge which will be improved as soon as suitable accommodation has been found for the present tenant.

The Council has given approval to proposals to build further houses in the following places:

Slaley 12 Old Persons' bungalows.

Barrasford 13 General purpose houses and

6 Old Persons' bungalows.

Newbrough 2 Old Persons' bungalows.

Ovingham 12 Old Persons' bungalows.

Corbridge Estate for Old Persons.

It is intended that the Corbridge site should comprise both bungalows and flatlets, the latter consisting of a bedsitting room and kitchen with shared toilet accommodation. The estate will be under the general supervision of a warden.

The total number of Council houses is now 944 of which 91 are Old Persons' bungalows.

Garages:

The Council has now 56 lock-up garages situated on the various estates. There are also two pieces of land providing sites for 19 garages erected by tenants.

Council House Applications

At the end of the year, there were 348 applications for general purpose houses and 208 applications for Old Persons' bungalows, the latter shows a decrease of 27 whilst applications for general purpose houses have increased by 34.

104 families were housed during the year, 79 in new houses and 25 as a result of casual vacancies. By exchanges of tenancies, a further 11 families were moved to houses more suitable for their needs.

When tenancies were considered for the Chantry Estate at Corbridge, opportunity was given to tenants of Council houses in other parts of the District to make application for transfer to Corbridge. As a result, 10 families were re-housed on the estate. The Council had also agreed to set aside 10 houses for employees of the Airscrew Weyroc factory at Anick. By the time the estate was completed, the Company

had taken only 4 of these and the remaining 6 houses were allocated to families on the Council's general list.

In order to reduce the very considerable amount of time taken in repeated visits to applicants, new forms were issued together with a circular letter requiring future changes in circumstances to be notified to this office. New applicants are to be visited initially to ensure that the information given is correct.

When a vacancy occurs, all applicants on the list are required to verify the particulars given on the application form or to give details of any changes which have taken place. Following the allocation, the successful applicant is visited to ensure that the information given is correct before handing over the keys.

Council House Maintenance

Tenders were let for the external painting of 122 Council houses. Owing to delay in commencing work, the contracts for I house at Hedley-on-the-Hill, 2 houses at Juniper and 6 houses at Waynriggs Terrace, Humshaugh were held over until the following year.

2,736 visits have been made in connection with the general supervision of Council houses. 806 items of disrepair were dealt with. In the main the larger items consisted of the complete renewal of the rough casting of six houses at Waynriggs Terrace, Humshaugh at a cost of £718 os. od., and the replacement of 29 ranges. 27 of these were worn out, the other 2 were unsatisfactory back to back ranges. Alternative means of cooking were provided in 16 cases.

IMPROVEMENT GRANTS

103 grants were approved during the year, comprising 76 Discretionary grants and 27 Standard grants. This is an increase of 14 on the previous year and the highest figure since 1956. The total number of grants approved since the inception of the scheme in 1951 is 1068.

The following are the percentages of different types of houses for which grants have been approved.

Tenanted farmhouses, farm and estate cottages.
 Owner occupied houses.
 Rented houses.

The Housing Act 1964 which came into force on 16th August gave Local Authorities power to require the improvement of tenanted dwellings and also made changes in the conditions relating to both Discretionary and Standard grants.

Part 2 of the Act, which deals with compulsory Improvement grants, enables Local Authorities to compel owners of tenanted properties to carry out improvements either on the request of a tenant or by the declaration of an Improvement area.

Whilst giving this new power to Local Authorities, the Minister recommends that, wherever possible, owners should be approached to improve their houses voluntarily. This policy is being carried out in particular in the Haydon Bridge area at present where all owners of property suitable for improvement are being approached either personally or by letter.

Part 3 of the Act relates to revised conditions attached to grants and increases the maximum grant in respect of Standard grants to £350 in special circumstances. The limit for Discretionary grants has been increased to £500 os. od., in respect of a house of 3 or more storeys which is converted to smaller dwellings.

SUMMARY OF DISCRETIONARY IMPROVEMENT GRANTS APPROVED

Unfit Houses

During the year 7 properties were demolished, one as a result of statutory action, and 6 voluntarily by their owners. 3 of those voluntarily demolished were wooden bungalows in the Ovington/Ovingham area, the occupiers of which were re-housed by the Council.

Undertakings were accepted in respect of 2 properties.

2 Hill Street, Corbridge.

Rift Farm Cottage, Wylam.

Rent Act, 1957

No applications for certificates of disrepair were received during the year.

Privy Conversions

6 grants towards the cost of converting privies were approved.

Privies at Schools

During the year, the conversion of the privies at Newbrough School was completed, and work was in progress on the conversion of privies to water closets at Chollerton School, Barrasford.

There are now in the district five village schools where privies are still in use, these are as follows:—

Allenheads.

St. Peter's School, Sparty Lea.

Bingfield.

Carrshield.

Grindon, Haydon Bridge.

SUPERVISION OF FOOD

There are 9 licensed slaughterhouses in the district, all of which are in regular use.

3,132 animals were slaughtered during the year, inspection was carried out in all cases, and the carcases were stamped in compliance with the Meat Inspection Regulations, 1963.

The figures in the accompanying tables give details of meat condemned. No tuberculosis was found in the 722 bovine carcases and offals inspected.

As in previous years cirrhosis of the liver was the most common cause for condemnation. Of the 156 animals which were found to have some part or organ affected 121 had cirrhotic livers and accounted for 68% of the total weight of meat condemned.

The 250 lbs. of meat condemned for black quarter was an entire carcase of bullock which was brought into the slaughter house as a casualty. The meat was stained and brought into Hexham for disposal.

Assistance was given to Haltwhistle Rural District Council by carrying out meat inspection, on the occasions when their inspector was on holiday.

All condemned meat, before being disposed of, is stained in accordance with the Ministry's recommendations, small quantities are taken by the Council's refuse collectors and buried in tips, larger amounts are accepted at the Hexham Abattoir and disposed of with condemned meat from Hexham.

2. Food Inspection

246 visits were made to food premises during the year. The standard of cleanliness of both premises and personnel continues to be satisfactory.

No prosecutions were taken under the Food Hygiene Regulations.

Details of food premises in the area are shown in the following table.

Hospitals	1	1	1	1	21	1	-	3 4	3	I	1	1	1	1	1		1	1	I	1	1	I	1	1	1	1	- 23	6 296

3. Ice-Cream

There are 81 premises registered for the sale of icecream, 3 of which were registered during the year.

SAMPLING

True of Comple	Number -		Gra	ling			
Type of Sample	taken	1	2	3	4		
Pre-packed	7	7		_	_		

4. Milk

Routine samples of milk have been taken regularly throughout the year by the County Health Department from all dealers who sell milk in the area. Samples have also been regularly taken of all milk supplied to schools. 130 samples were taken, 30 of which were of milk supplied to schools.

Positive samples showing the presence of Brucella Abortus were found in 2 herds. At the request of the County Council, the department investigated the herds, individual samples being taken from each cow. The milk from both these herds is now pasteurised.

5. Game Act, 1851

Two applications were received during the year for the renewal of Dealers' licences to buy and sell game. Both were approved.

6. The Liquid Egg (Pasteurisation) Regulations, 1963

There are no pasteurisation plants in the District.

Infectious Diseases Precautions in respect of Aberdeen Typhoid Outbreak

On 3rd June 1964, a circular was received from the Ministry of Health referring to the epidemic of typhoid fever in Aberdeen. Tins of corned beef processed at certain establishments in South America were regarded as suspicious. Local Authorities were asked to check all stores and food premises in their areas, and advise the withdrawal of 6 lb. tins of corned beef bearing special trade identification marks.

As a result of this and further Ministry circulars on the subject, some 430 visits were made to food premises. No corned beef from the suspect source was found.

REFUSE COLLECTION AND DISPOSAL

Refuse collection by direct labour is carried out by two 14 cubic yards Shelvoke and Drewry rear loading vehicles and three Bedford side-loaders, two of 10 cubic yards and one of 7 cubic yards capacity. The vehicle serving the Stocksfield and Wylam area has a driver and two loaders, the other four vehicles are worked with a driver and one loader. In order to cover absences due to holidays and sickness, two additional men are employed. When not engaged on refuse collection these men work under the direction of the Engineer and Surveyor. Refuse collection in the Allendale, Allenheads and West Allen district continues to be carried out by contract.

Small extensions to the collection area were made during the year to include a further 14 houses. These together with new houses made a total of 145 additional premises included in the service during the year.

Of the 7,322 houses in the District, 6,485 or approximately 88% have a refuse collection service, 5,858 being cleared by direct labour and the remaining 627 by contract. 6,001 houses have a weekly collection, 316 houses have a fortnightly collection and 168 houses, mainly farms, have a monthly collection principally intended for the collection of tins and bottles.

All villages and small groups of houses throughout the district are covered in the collection area, and future extensions will consist of the inclusion of individual houses in the outlying areas. The major problem in the future will undoubtedly be to find adequate and conveniently accessible tipping facilities. The Council uses 18 tips in various parts of the district. By virtue of their scattered location it is not possible to prevent unauthorised dumping of refuse, and as a result, the majority of the tips are filling up more rapidly than anticipated, in particular those tips which are used for the Corbridge and North Tyne areas.

Part VII of the Act. OUTWORK

There are no persons residing in the Hexham Rural District employed as outworkers.

The Offices, Shops and Railway Premises Act, 1963

This Act, which deals with health, welfare and safety of persons employed in offices, shops and railway premises came into force generally on 1st May 1964, although many of its provisions, enforceable by regulations, become operative at later dates.

A number of premises, mainly small shops, are excluded from the act and the enforcement of the provisions of the Act in specified premises is the responsibility of the Factory inspectorate and the Mine and Quarry inspectorate. Fire authorities are responsible for the enforcement of fire precautions where they apply.

A basic survey of the district was made, and it was found that some 394 premises came within the definitions as set out in the Act.

Of the 394 premises 105 have been registered by this Council, and the owners or occupiers of those which do not fully comply with the provisions of the Act will be advised of the work to be carried out to bring them up to standard. It was considered that 100 premises were such as to require registration by the Factory inspectorate. The remaining 189 premises were those which were operated either by self employed persons, run as a family business, or were those where the employees did not work for more than 21 hours per week, and did not require registration.

Details of premises and persons employed are shown in the following tables.

REGISTRATIONS AND GENERAL INSPECTIONS

Class of Premises	No. of premises registered during the year	Total No. of registered premises at end of year	No. of registered premises ins- pected during year
Offices Retail shops	18 65	18 65	18 65
Wholesale Depts., warehouses Catering establishm'ts	1 20	1 20	1 20
Fuel Storage Depots	1	1	1

Fuel Storage Depots	2	= 3	2
	144	258	402

During the eight months, 1st May to 31st December, there were no accidents notified.

PREVENTION OF DAMAGE BY PESTS ACT, 1949

I have to record with deep regret the death of the late Mr. A. H. D. Chave on 4th April, 1964.

Mr. Chave was appointed as the Council's first Pest Officer and served in that capacity from 4th December, 1950 until his death.

Mr. A. B. Cairns of Corbridge commenced his duties as Pest Officer on 19th May, 1964.

All tips and sewage disposal works are regularly treated, and are relatively free from rat infestation. Sewers have been test baited and are also free from infestation.

The following tables give details of premises which have been inspected, and/or treated during the year.

1. Agricultural Premises:

No. of premises	No. of	No. Clear			
inspected 321	Rats	52	Mice	2	267
	Major 14	Minor 38	Major 1	Minor 1	207

2. Business Premises:

No. of premises inspected 46	No. of	No. Clear			
	Rats	11	Mice	2	22
	Major 3	Minor 8	Major —	Minor 2	33

3. Dwelling Houses

No. of premises	No. of	No. Clear			
inspected 252	Rats	73	Mice	21	158
	Major 2	Minor 71	Major 9	Minor 12	138

4. Refuse Tips

No. of Tips	No.	No. Clean			
inspected 15	Rats	11	Mice		7
	Major 7	Minor 4	Major	Minor	,

5. Sewage Disposal Works:

No. of S.D.W's	No. o	No. Clear			
inspected 32	Rats	7	Mice	–	25
	Major	Minor 7	Major	Minor	25

Details of premises treated for insect pests:

41 premises were treated for inspect pests.

Clean Air Act, 1956

The plans and specifications for the chimneys and 3 boilers which it was proposed to instal in an extension to the Airscrew Weyroc premises were examined and approved by the National Industrial Fuel Efficiency Service, and a Certificate of Prior Approval under Section 6 of the Clean Air Act, 1956 was issued.

No prosecutions were instituted during the year.

Animal Boarding Establishments Act, 1963

Four applications for renewal of licence to keep a boarding establishment for animals were received. The premises were all satisfactory and licences were issued.

Common Lodging Houses

There are no Common Lodging houses in the district.

MOVEABLE DWELLINGS

Caravan Sites and Control of Development Act, 1960

The position is virtually as it was at the end of last year. Of the 6 existing sites which accommodate from 15-40 caravans, 3 i.e.

The Orchard, Corbridge (40 caravans)
The Hermitage, Ovingham (15 caravans)

Lilswood, Hexhamshire (15 caravans), fully comply with the model standards.

Work is in progress to bring the remaining sites up to standard:

Allendale Station (40 caravans)

East Lands End,

Haydon Bridge (23 caravans)

Town Foot, Slaley

Details of the site at Barrasford Park which will accommodate approximately 150 caravans are still being discussed between the applicant and the County Planning Authority.

An application was made for planning approval in respect of a site at Fallowfield Dene which would accommodate some 96 caravans and 41 holiday cottages. As this site was within the area covered by the North Tyneside Green Belt, the Northumberland County Council have made application to the Ministry for a variation order. It is anticipated that a local enquiry will be held.

The position regarding small individual sites remains as it was last year.

SUMMARY OF VISITS
