Public Health Officers

Medical Officer of Health :

G. H. POTTER, M.B., Ch.B., M.R.C.S., L.R.C.P., D.P.H.
Retired May 1964.

R. SCHOFIELD, M.B., Ch.B., D.C.H., D.P.H.
Appointed May 1964.

Senior Public Health Inspector :

T. HAILWOOD

Certificate, Royal Sanitary Institute and S.I.E.J.B.
Meat Inspector's Certificates—Royal Sanitary Institute.
Liverpool University

Additional Public Health Inspector :

H. TOPPING

Certificate, Royal Sanitary Institute and S.I.E.J.B.
Meat Inspector's Certificates—Royal Sanitary Institute.
Liverpool University

Clerk :

MISS B. BRADLEY

Ince-in-Makerfield Urban District Council

*To the Chairman and Members
of the Public Health Committee*

Sir, Ladies and Gentlemen,

I have pleasure in submitting to you the Annual Report on the health of the district for the year 1964 compiled in the form indicated by the Ministry of Health.

I take this opportunity of tendering my best thanks to the Officials of the Council, the Staff of the Health Department, and especially to the Public Health Inspectors for valuable help and co-operation at all times.

I desire also to express to the members of the Public Health Committee my appreciation of the courtesy and consideration they have always displayed towards me.

I am,

Mr. Chairman, Ladies and Gentlemen,

Yours faithfully,

R. Schofield

Medical Officer of Health

INCE-IN-MAKERFIELD
URBAN DISTRICT COUNCIL

Ince-in-Makerfield
Urban District Council

Public Health Committee

of the Public Health Committee

At a meeting held on the 14th day of

the month of

I have pleasure in submitting to you the Annual Report
on the health of the district for the year 1904 compiled in the
form of a report by the Medical Officer of Health.

I have the opportunity of referring you to the
Report of the Medical Officer of Health for the year 1904, and
and especially to the Public Health Inspector for various help
and co-operation at all times.

I have also to refer to the members of the Public
Health Committee for their assistance in the various and consider-
able work done during the year 1904.

Public Health Officer

Medical Officer of Health

At a meeting held on the 14th day of

the month of

Yours faithfully,

R. Schofield

Medical Officer of Health

1. Statistics and Social Conditions of the Area.

Area : 2320 acres

Population (Census 1961) : 18,027

Estimated mid-1964 (Registrar General): 17,740

Total Number of Houses (Census 1951) : 5402

Number of Inhabited Houses at end of 1964 according
to Rate Books : 5782

Rateable Value : £442,917

Sum represented by a Penny Rate : £1910 (gross)

Ince is essentially an industrial area, the principal industry being coal mining. In addition, wagon works, railway works and cotton spinning mills give employment to both sexes.

2. General Provision of Health Services in the Area.

LABORATORY ARRANGEMENTS.

Bacteriological examinations are carried out by the Pathological Department of the Wigan Royal Infirmary and by the Public Health Laboratories, Monsall, Manchester. Bacteriological and chemical examinations of water samples are carried out by the City Analyst, Liverpool. A report on every examination is made to the Public Health Department.

During 1964 reports were made to the Authority on the following specimens : 3 samples of Water, 18 samples of Milk and 18 samples of Ice Cream.

AMBULANCE ARRANGEMENTS.

During the year Non-Infectious, Infectious, Accident and Maternity Cases were dealt with adequately by the motor ambulances belonging to the Lancashire County Council stationed within Health Division No. 8.

NATIONAL ASSISTANCE ACT, 1948.

No applications were received during the year under sub-section 3, section 47, of the National Assistance Act, 1948.

3. Sanitary Circumstances of the Area.

WATER SUPPLY

The District is supplied with water from deep wells at Golborne and the Rivington Reservoirs belonging to Liverpool Corporation. The water is found to be pure bacteriologically, the supply being constant and sufficient. No fluoride is added to the water.

The Statutory Water Undertaker is now the Makerfield Water Board which assumed responsibility for the supply of water to the district on 2nd October, 1961.

During the year three bacteriological examinations of the public water supply were made and found to be satisfactory.

All houses in the District have a piped supply of water from the main, with the exception of the house known as Bank Top House on the Aspull boundary, whose supply is derived from an adjacent spring. It is not possible at a reasonable expense to connect this house to the Public water main.

No. of houses with a piped supply direct from the				
public water mains	5781
No. of houses supplied from Springs	1
No. of houses supplied by stand pipe	NIL

DRAINAGE AND SEWERAGE

The combined system of drainage is in general operation throughout the district, apart from the Battersby Street and Industrious Bee Housing Estates, where the separate system of drainage is employed. One sewage disposal works is operated to carry out normal treatment of sewage and portions of the district are drained to Hindley U.D. and Wigan C.B. Two sewage pumping stations are incorporated in the sewerage system.

During the year, 202 inspections were made in connection with drainage.

No. of choked drains cleared by the Council	146
No. of houses where new drainage was provided	30

The sanitary accommodation in the District at the end of the year was :—

No. of freshwater closets...	6035
No. of pail closets	26
No. of privy middens	17

PUBLIC CLEANSING

Street scavenging and removal of house refuse are undertaken by the Local Authority.

Street cleansing is under the control of the Surveyor, 16.13 miles of streets being cleansed by 3 men with 3 Street Orderly Carts and 1 man operating a Mechanical Sweeper.

The collection and disposal of household refuse is under the supervision of the Public Health Inspector. Three S.D. Freighter Motor Vehicles were engaged regularly on the collection of household refuse and the emptying of the few privy middens and pail closets that still remain. On one half day per week they are employed in the collection of waste paper from shops. The staff engaged on these duties comprises 3 drivers and 13 labourers. The average interval between collections is 9 days for dust bin refuse and 4 weeks for privy middens. During the year, refuse was disposed of by controlled tipping at Fir Tree and Ince Moss tips.

Under the provisions of Section 75/3 of the Public Health Act, the Council provide and maintain dust bins for domestic refuse, the expense being met from the general rate fund. During the year 270 dust bins were replaced, and 30 supplied to new houses.

At the end of the year there were 5838 dust bins, 17 privy middens and 26 pail closets within the District. The amount of refuse dealt with was as follows :—

No. of loads of refuse removed	3840
Approx. weight of refuse removed	7420 tons
Approx. No. of dust bins emptied	201,000
Approx. No. of privy middens emptied	240
Approx. No. of pail closets emptied	1300

Salvage of Waste Paper

An incentive bonus scheme was adopted by the Council in 1951, and the workmen engaged on salvage collection are given a bonus at the rate of 33.33% on all waste paper above 4½ tons per month.

Total amount and value of salvage collected during 1964

	Tons	Cwts.	Qrs.	£	s.	d.
Waste Paper	14	17	0	115	1	9

SANITARY INSPECTION OF THE AREA

To secure the abatement of nuisances discovered, the following action was taken during the year :—

No. of informal notices served	276
No. of informal notices abated	201
No. of statutory notices served	44
No. of statutory notices abated	33

Record of Nuisances found and remedied

No. of complaints received	1023
No. of nuisances and defects found	1212
No. of nuisances and defects abated	1001
(a) as a result of informal action	817
(b) as a result of statutory notice	184

RENT ACT, 1957

During the year the following applications and undertakings were dealt with in respect of repairs to houses where the rent had been increased.

No. of applications for Certificates of Disrepair	5
No. of Certificates of Disrepair issued... ..	5
No. of Undertaking received	1
No. of revocations of Certificates of Disrepair ...	0
No. of Certificates as to Remediying of Defects... ..	0

TENTS, VANS AND SHEDS

There is one licensed site to house 51 caravans situated in Careless Lane, Ince. The licence was issued subject to the site being brought to the standard set out in the Model Byelaws.

Additional water closets, showers, deep sinks, hot water supply and water points have been supplied but some work still remains to be done.

CLEAN AIR ACT, 1956

The Council is a member of the Manchester and District Regional Clean Air Council.

There are 27 factory and works chimneys within the District. No formal action regarding smoke abatement was necessary during the year, co-operation with local works managers being readily obtained. Most of the factories have now been converted to oil-fired boilers.

Byelaws have been made under Section 24 of the Clean Air Act, 1956, with regard to the installation of approved heating and cooking appliances in new buildings.

SWIMMING BATHS AND POOLS

There are none in the District.

VERMINOUS PREMISES

During the year 16 Council houses and 8 other houses were found to be infested with bugs. These houses were treated with Zaldecide, a disinfectant containing 5% D.D.T., which has been found to be highly efficient. Periodical inspections of these houses are carried out to prevent re-infestation.

The premises and furniture of families being re-housed from slum clearance areas are disinfested prior to removal to Council houses.

OFFENSIVE TRADES

There is only one registered offensive trade (tripe boiler) situate in the District. The trade is carried on without offence.

COMMON LODGING HOUSES

There are no registered common lodging houses in the district.

FACTORIES

The following table gives particulars of the inspections during the year under Part 1 of the Factories Act, 1937, and an analysis of the defects which were found, with particulars of the action taken.

FACTORIES — DEFECTS FOUND

Particulars	NUMBER OF DEFECTS				No. of offences in respect of which Prosecutions were instituted
	Found	Remedied	Referred to H.M. inspector	Referred by H.M. Inspector	
Nuisances under the Public Health Acts —					
Want of Cleanliness	4	4	—	1	—
Want of Ventilation	—	—	—	—	—
Overcrowding	—	—	—	—	—
Want of Drainage of floors	—	—	—	—	—

Sanitary Conveniences —					
Insufficient	2	2	—	—	—
Unsuitable or defective ..	6	6	—	3	—
Not separate for sexes ...	—	—	—	—	—
Other Offences	—	—	—	—	—
TOTALS.....	12	12	—	6	—

Premises	No. on Register	No. of Inspect'ns	No. of written Notices	No. of occup'rs pros'ted
Factories without Mechanical Power...	2	4	—	—
Factories with Mechanical Power....	65	74	—	—
Other premises	2	4	—	—
TOTALS.....	69	82	—	—

Under Part VIII of the Act, visits were made to premises occupied by four outworkers. The premises were satisfactory.

CANAL BOATS

No canal boats were inspected during the year.

SCHOOLS

The water supply to the Schools in the area is constant and sufficient.

The majority of the Schools are provided with separate W.C.'s, each with its own cistern and flushing provision, but in certain schools there still remain forms of automatic flushing. It is desirable in the interest of hygiene that these should be replaced by water closets of the independently flushed type. Regular lime-washing of conveniences is arranged for by the Education Authority in the case of all Schools in the area.

A canteen is provided at each school for the taking of school meals, and these are in a satisfactory condition.

RODENT CONTROL

The number of properties inspected regarding the infestation of rats and mice was 174. A part time rodent operator is employed by the Council, and under the supervision of the Public Health Inspector deals effectively with all infestations discovered.

The sewers were treated twice during the year. 198 man-holes were baited on the first treatment 29 being found to be infested and 109 man-holes on the second treatment, 6 being found to be infested.

The treatment of infestations found at dwelling houses is carried out free of charge, but a charge is made for the treatment of business premises.

The types of bait and poison used during treatments were sausage rusk and zinc phosphide, bread mash and arsenic oxide, and warfarin.

PET ANIMALS ACT, 1951

This Act provides for a system of licensing and inspection by Local Authorities of Pet Shops. The main purpose is to enforce reasonable treatment and accommodation of pet animals during their sale or keeping for sale.

One person is licensed in the district to keep a Pet Shop. The premises are inspected regularly to ensure that the provisions of the Act are complied with.

RAG FLOCK AND OTHER FILLING MATERIALS ACT, 1951

Rag flock and other filling materials to which this Act applies may only be manufactured, stored or used in the course of business on premises registered or licensed by the Local Authority. There are no premises used for such purposes within the District.

PETROLEUM (REGULATION) ACTS 1928 AND 1936

22 licences to store Petroleum were issued for the year 1964 in respect of 22 premises, 28 inspections being made for this purpose.

One licence for the storage of Calcium Carbide was also issued.

4. Housing.

The township consists chiefly of working class houses, which are old in type, and congested in certain areas.

Mining subsidence is responsible for much damage to structure, and old houses are continuously in need of repairs.

During 1964, the erection of 220 dwellings on reclaimed land at the Industrious Bee site was completed. This permitted the rehousing of 220 families from slum clearance areas. Work on the erection of 46 houses and 16 flats on the Raven Street site was commenced during the year.

HOUSING STATISTICS.

Number of new houses erected during the year :

	Houses	Flats
(i) By the Local Authority	8	—
(ii) By other Authorities	—	—
(iii) By other bodies and persons	22	—

1. Inspection of dwelling-houses during the year :—

(a) Submitted to local authority ...	42
(b) Approved by local authority ...	44
(c) Work completed	33

5. Inspection and Supervision of Food.

MEAT INSPECTION

There is no slaughter-house in the District. The meat supply for the District is obtained from the surrounding towns.

UNSOUND FOOD

The various food stuffs detailed in the following table were examined and found to be unfit for human consumption. All were voluntarily surrendered by the owners and destroyed by incineration and by burying on the Council's Refuse Tip.

List of Unsound Foods condemned during 1964

Article	Container	Weight	
		LBS.	OZS.
Cooked Ham and Tongue	210 tins	1860	0
Corned Beef, Luncheon Meat, Steak etc.	90 tins	270	0
Soups	34 tins	17	0
Tomatoes	88 tins	44	0
Pineapples, Pears, Peaches	62 tins	42	0
Condensed Milk, Cream	21 tins	9	0
Rice Pudding	16 tins	8	0
Pilchards and Salmon	12 tins	6	0
Peas, Beans and Carrots	82 tins	52	0

FOODS AND DRUGS ACT, 1955

The Lancashire County Council are the "Authority" under this Act, and the following samples were taken by the County Public Health Inspector.

A total of 82 samples was obtained, consisting of 49 samples of milk, (4 of which were samples of Channel Islands milk) and 33 others comprising :—

1 Nembutal capsules	1 New potatoes
1 Vegetables, fresh onions	1 Vegetables, fresh carrots
1 Tomatoes, fresh	1 Pie Filling
1 Table jelly	1 Cut mixed peel
2 Biscuits	1 Potato crisps
1 Golden raising flour	1 Buttered cheese spread
1 Fish, canned	1 Tapioca
1 Shrimps in brine (jar)	1 Tea
1 Fruit curd	1 Gravy browning
1 Butter	1 Margarine
1 Salad Cream	1 Olive oil B.P.
1 Zinc ointment B.P.	1 Boric acid ointment B.P.
2 Glycerine B.P.	1 Tincture of iodine B.P.
2 Penicillin Lozenges	1 Phenoplex B. tablets
1 Lard	1 Sweets

I give below details of those samples upon which the County Analyst gave adverse reports :—

Type of Sample	Result of Analysis	Action Taken
1 Informal milk	Contained 0.01 International Unit penicillin per ml.	Dairy informed
1 Informal Channel Islands milk	Contained 0.03 International Unit penicillin per ml.	Dairy informed
1 Informal milk	Freezing point indicated presence of 0.51% extraneous water.	Vendor cautioned Further sample obtained
1 Informal milk	Freezing point indicated presence of 0.17% extraneous water.	Vendor cautioned
1 Informal milk	Freezing point indicated presence of 0.8% extraneous water.	Vendor cautioned

MILK SUPPLY

The licensing of milk dealers and premises under the Milk and Dairies Regulations is now carried out by Lancashire County Council.

A total of 18 samples of milk were submitted for examination during the year with the following results :—

Type of Milk	Methylene Blue Test		Phosphatase Test		Tuberculosis Test	
	Satisfactory	Unsatisfactory	Satisfactory	Unsatisfactory	Satisfactory	Unsatisfactory
Pasteurised ...	18	—	18	—	—	—
Tuberculin tested Pasteurised	18	—	18	—	—	—

ICE-CREAM

There is one ice-cream manufacturer in the district who produces loose ice-cream. The premises are of recent construction and contain modern equipment. Samples of the ice-cream produced were taken regularly during the year and were found to be satisfactory.

164 inspections were made of the 68 premises, mostly mixed businesses, which are registered for the sale of pre-packed ice-cream, modern refrigerators being provided in all cases for the storage of the ice-cream.

18 samples of the various ice products sold within the District were submitted for bacteriological examination and were classified as follows:-

Grade 1	8
Grade 2	8
Grade 3	2
Grade 4	0

INSPECTION OF FOOD PREMISES

The majority of food premises in the district have been inspected under the Food Hygiene Regulations 1955, and considerable improvements have been made in a number of cases.

The following are the number of food premises, by type of business, in the district.

Type of Business	No.
Bakehouses	13
Butchers Shops	17
Fish and Chip Shops	21
Wet Fish Shops	6
Ice-Cream Manufacturers	1
Mixed Businesses	122
Greengrocers Shops	9
Food Hawkers Premises	7
Public Houses	35
Canteens and Snack Bars	33

The number of food premises registered by the local authority and the number of inspections made are :—

Type of Business	No. Registered	No. of Inspections
Ice-Cream Manufacturing Premises	1	8
Shops registered for sale of Ice-Cream	68	164
Butchers Shops	17	49
Food Hawkers Premises	7	15

10 hawkers of food products, fish, fruit and vegetables are registered under the Lancashire County Council (General Powers) Act, 1951, which was adopted by this authority in January 1952.

FOOD POISONING

No cases of food poisoning were notified during the year.

6. Prevalence of, and Control over, Infectious Disease.

During 1964, cases of infectious disease requiring hospital treatment were removed to Whelley Hospital.

Five cases of Scarlet Fever were notified during the year, as against none in 1963.

No cases of Diphtheria were notified during the year, or in the previous year.

Supplies of Diphtheria Antitoxin are kept at the Divisional Health Office and the local hospitals, and are always available to the medical practitioners.

Free immunisation is provided for any pre-school or school child, and is performed by the Medical Officer at the Central Clinic.

The following statistics relate to the year 1964 and show the number of persons resident in Ince who were immunised and vaccinated during the year.

Type	Pre-School Children	School Children	Adults
Triple Antigen (Diphtheria Whooping Cough & Tetanus) Primary	171	1	Nil
Re-inforcement	Nil	Nil	Nil
Combined Antigen (Diphtheria and Tetanus) Primary	12	35	Nil
Re-inforcement	19	177	Nil
Poliomyelitis: Primary	181	36	23
Re-inforcement	7	118	Nil
Smallpox Vaccinations: Primary	47	4	18
Re-inforcement	Nil	Nil	10
Diphtheria only: Re-inforcement	1	3	Nil

No preliminary and no post-Schick tests were undertaken.

No immunisation against the Enteric Group was undertaken during 1964.

**CASES OF INFECTIOUS DISEASES

No local action has been taken with regard to the use of measles serum for prophylaxis or attenuation, and there are no existing facilities for the typing of pneumococci and for the provision of appropriate type sera.

The general standard of cleanliness and habits in the District remains high, and the cases of infestation by head lice dealt with at the Clinic were few, and were successfully treated with Lorexane.

DISINFECTION

Disinfection of all houses is carried out after death, removal to hospital or release from isolation of infectious cases. Houses are disinfected by the method of Formalin Spray, and all clothing, bedding etc., are dealt with by the steam disinfector at Hindley by arrangement with the Hindley Council.

The following table gives particulars of the disinfections carried out during the year :—

			No. of Cases	No. of Visits	No. of houses disinfected
Scarlet Fever	5	10	5
Tuberculosis	6	12	6
Total.....			11	22	11

CANCER

16 deaths (10 male and 6 female) were certified due to Cancer during the year, as compared with 31 (20 male and 11 female) in 1963.

Facilities for Radium treatment are available to Ince residents at the Radium Institute, Manchester, and at the Wigan Infirmary, which for this purpose, is a sub-clinic of the Manchester Centre.

TUBERCULOSIS

The dispensary service is under the control of the Regional Hospital Board, and Ince cases attend at the Chest Clinic in Millgate, Wigan.

6 new cases of Tuberculosis (5 Pulmonary and 1 non-Pulmonary) were notified during 1964. No deaths from Pulmonary Tuberculosis were registered during the year.

Notification of the disease in the District is quite satisfactory and no action has been necessary under the Public Health Act, 1936, relating to the compulsory removal of tuberculous patients to Hospital.

The subjoined Table shows the new cases of Tuberculosis in age groups, and the total deaths.

TUBERCULOSIS
