GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA

The Public Health Officers of the Authority are a Medical Officer of Health (also Medical Officer of Health of Plympton District, Kingsbridge Rural District, Salcombe Urban District, Kingsbridge and Salcombe Port Sanitary Authority and Medical Officer to the South Devon Water Board).

Deputy Medical Officer of Health (occasional).

One full-time Surveyor and Sanitary Inspector.

LABORATORY FACILITIES. The Public Health Laboratory Service provided a service at the South Devon and East Cornwall Hospital, Plymouth, on 3rd June, 1953, for the investigation of communicable disease and the examination of milk, water supplies, ice cream and foodstuffs, etc.

VACCINATION AND IMMUNISATION are carried out through the General Practitioner Service or at Schools, School Clinics and Infant Welfare Centres by the County Council through the County Health Services. Supplies of Diphtheria antigen can be obtained from the County Medical Officer, 45, St. David's Hill, Exeter, and Vaccine Lymph from the Public Health Laboratory Service, 7, Dix's Field, Exeter.

NURSING ARRANGEMENTS.—There is one District Nurse/Midwife working the area. Supervision is carried out by the County Nursing Officers. The nurse is qualified to administer analgesics, and acts as a County Staff Sister in the area, dealing with matters relating to the off-duty of Nurses in her group.

MIDWIVES.—The Midwives Act is administered by the County Council, which investigates cases of Maternal Mortality and Puerperal Disease. There is one practising midwife in the District.

MATERNITY AND CHILD WELFARE CENTRE.—There is a Centre in Kingsbridge, which is open on Wednesdays each week, except the first Wednesday in each month. The attendance has been very good during the year.

VENEREAL DISEASES TREATMENT.—At the Venereal Disease Dept., City Hospital, Plymouth. Female in-patients are also sent to St. Mary's Home, Exeter. A refund of rail or bus fare can be made in suitable cases by applying to the Medical Officer of the Centre or to the County Medical Officer.

Treatment is also available from a certain number of selected General Medical Practitioners specially approved for the purpose by the Ministry of Health. There is one such practitioner at Modbury, and another at Kingsbridge.

OPEN-AIR SCHOOL.—The Devon County Council maintain a residential home for the rehabilitation of delicate and debilitated children at Oaklands Park, Dawlish. There is also an open-air school for delicate children at Torquay.

X-RAYS.—The Regional Hospital Board have apparatus for examinations at their Chest Clinics at Exeter, Torquay, Barnstaple, and Plymouth.

ORTHOPAEDIC TREATMENT is available through the Devon Orthopaedic Association as in-patients at Exeter and Ivy-bridge, and for adults at Mount Gold Hospital, Plymouth. For out-patients there is a clinic at Kingsbridge and the South-West Clinic which deals with this district as well, held at the Hartley House, Mannamead, Plymouth.

THE SOUTH HAMS COTTAGE HOSPITAL provides 16 beds for patients from Kingsbridge and the surrounding district.

Men's Ward	6 beds
Women's Ward	6 beds
Children's Cots	2
Private Wards	2 (one bed each)

ISOLATION HOSPITAL.—Cases of infectious disease are sent to the Scott Isolation Hospital. Patients are removed by the Plymouth Ambulance Service on behalf of the Devon County Council.

AMBULANCE SERVICES.—The Ambulance Service throughout Devon is operated in accordance with Section 27 (2) of the National Health Service Act, 1946, through the agency of the Voluntary Organisations. Infectious cases for the Plymouth Infectious Area are carried, by agreement, in the Plymouth City Infectious Ambulance.

SANITARY CIRCUMSTANCES OF THE AREA.

WATER SUPPLY. (Moorland Supply) from South Devon Water Board.

The Water Supply is satisfactory in quality and quantity.

Bacteriological examinations of the raw water are made by the Water Board ; samples of water going into supply were submitted for analysis and were satisfactory.

No trace of lead was detected in chemical examinations of this water.

The water is chlorinated.

During the past year 57 samples of Moorland Water were submitted for bacteriological examination. Results were as follows : Grade 1=55 ; Grade 2=1 ; Grade 4=1.

DRAINAGE AND SEWERAGE. Following the work of the previous years, the improvement in conditions in the Estuary continued but it was found that the trunk sewer failed to discharge all the sewage that was now turned into it.

Long and exhaustive work was necessary to find the cause of this condition, but eventually by pile driving and erecting a new manhole in the mud of the estuary and replacing with a new length and a further manhole, the cause was removed.

At the end of the year the whole sewage system was functioning in the proper manner and the Engineer and surveyor is of the opinion that the troubles with the system in the past are finally overcome.

PUBLIC CLEANSING. No alteration in the system, which is satisfactory in all respects.

HOUSING.

No new houses were completed during the year.

96 houses and 40 flats have been erected since the war and an old building converted into four houses.

Including 77 pre-war houses, the Council now owns 177 houses and 40 flats.

FOODSTUFFS CONDEMNED.

281 tins various, 2 stones fish, 150-lbs. meat plus one sheep (whole), 30-lbs. fruit, 23-lbs. margarine, 7 various jars, 2 pies, 6-ozs. cheese, 24 packets tea.
