REPORT, 1872.

DURING the fifty-two weeks of the year 1872 (terminating on Saturday, 28th December, 1872), the Returns of the Local Registrars record 19,343 births and 13,540 deaths within the Borough of Liverpool.

Of the births, 9,870 were males, and 9,473 were females ; making the total Birth-rate of the Borough equal to 38·7 per 1,000.

The distribution of the births in the different wards and districts of the Borough has been arranged in the following Table :—

BIRTHS.

DISTRICTS AND WARDS.		1st Quarter.		2nd Quarter.		3rd Quarter.		4th Quarter.		Annual Births
		Male.	Female.	Male.	Female.	Male.	Female.	Male.	Female.	
Parish.	Scotland.....	394	360	408	378	345	359	364	353	2961
	Vauxhall	68	85	78	78	81	76	77	69	612
	St. Paul's and Exchange.....	127	101	101	116	112	110	97	89	853
	St. Anne's and Lime Street...	180	166	178	182	155	158	157	175	1351
	Castle Street and St. Peter's	29	26	31	35	26	28	16	26	217
	Pitt Street and Gt. George...	100	92	100	92	83	82	96	85	730
	Rodney St. and Abercromby..	217	203	216	194	212	208	190	215	1655
Out-Townships.	Everton and Kirkdale.....	772	645	714	634	665	691	722	718	5561
	West Derby	275	255	277	264	257	254	250	224	2056
	The Toxteths.....	415	422	437	418	433	403	415	404	3347
Parish.....		1115	1033	1112	1075	1014	1021	997	1012	8379
Out-Townships.....		1462	1322	1428	1316	1355	1348	1387	1346	10964
Borough.....		2577	2355	2540	2391	2369	2369	2384	2358	19343

Of the 13,540 deaths, 7,029 were of males, and 6,511 of females ; 7,352 occurred in the Parish, and 6,188 in the Out-townships.

The Death-rate of the Borough was equal to 27·0 per 1000.

The Death-rate of the Parish was equal to 31·2, and that of the Out-townships to 23·3 per 1000 of the population.

The deaths occurred in the following districts :—

DEATHS.

DISTRICTS.		1st Quarter.		2nd Quarter.		3rd Quarter.		4th Quarter.		Annual.
		Male.	Female.	Male.	Female.	Male.	Female.	Male.	Female.	Deaths.

Parish		984	910	890	791	1090	938	936	813	7352
Out-Townships		767	780	784	747	812	756	766	776	6188
Borough		1751	1690	1674	1538	1902	1694	1702	1589	13540

We are able, from the returns made by the Registrars as to the residences of persons dying in the Workhouses and Hospitals of the town, to classify 1,141 of the deaths in these establishments under the wards and districts from whence the patients were removed, viz., 283 under Scotland Ward, 118 under Vauxhall Ward, 123 under St. Paul's and Exchange Wards (Dale Street District,) 180 under St. Anne's and Lime Street Wards (Islington District,) 20 under Castle Street and St. Peter's Wards (St. George's District,) 91 under Pitt Street and Great George's Wards (St. Thomas's District,) 81 under Rodney Street and Abercromby Wards (Mount Pleasant District,) 177 under the Out-Townships of Everton and Kirkdale, 63 under that of West Derby, and 5 under those of the Toxteths. This will, however, still leave unclassified 720 deaths of persons whose previous residences were either unknown or are not specified.

The results of the alterations occasioned by a re-arrangement of the deaths in the wards and districts from whence the patients were removed will be shown in the following table, from which a calculated rate of mortality per 1,000 of the estimated inhabitants has been made; but it must be observed that the estimate of the population of all the districts of the Parish, has been made on a rate of decrease which is probably in excess of what is now going on.

DISTRICTS AND WARDS.	Annual.	
	Deaths.	Rate per 1000.
Scotland	2480	32.3
Vauxhall	599	32.8
St. Paul's and Exchange	760	32.1

West Derby	1128	21.5
The Toxteths	1808	22.0
Parish and Out-Township Workhouses and Hospitals, residences unknown	720	...
Borough	13540	27.0

The Registrar-General's weekly reports enable us to compare the mortality of Liverpool with twelve of the large towns of Great Britain; and as the density of population ought to be considered in every comparison of the sanitary condition of towns and cities, it has also been included in the following table:—

TOWNS.	Estimated Population in the middle of the year 1872.	Births in 52 Weeks, ending 28th Dec. 1872.	Deaths in 52 Weeks, ending 28th Dec., 1872.	Annual Rate to 1,000 of Population.		Population on Acre.
				Births.	Deaths.	
London	3311208	117180	70898	35.4	21.4	42.5
Bristol	186428	6598	4107	35.4	22.0	39.8

Liverpool	499897	19343	13540	38.7	27.0	97.9

The deaths of infants below the fifth year of their age amounted to 6,608, and thus comprised 43·8 per cent. of the whole deaths.

The first of the following tables shows the districts where infant mortality was relatively and absolutely greatest; the second table illustrates the influence of age on the death rate of the Borough; and the third table places, in one connected view, the pathological history of the death registry.

ZYMOTICS.

Zymotic diseases occasioned 3,305 deaths during the year 1872, and thus accounted for 24.4 per cent. of the total mortality within the Borough of Liverpool during the same period. The following table shows the localities and the periods of their fatal prevalence:—

WARDS, &c.	Deaths from all Causes.	ZYMOTICS.

TYPHUS AND INFANTILE REMITTENT FEVER.

These diseases accounted within the Borough of Liverpool for 451 deaths, or for 238 in the Parish, and 213 in the Out-townships; the rate of their mortality was equal to 0.9 per 1000 per annum of the estimated population; their per-centage rate relatively to deaths from all causes was 3.5 during the first, 3.2 during the second, 2.6 during the third, and 3.9 during the fourth quarter of the year; their annual rate relatively to deaths from all causes was 3.3 per cent; and relatively to deaths from Zymotic causes 13.6 per cent. Their deaths included 232 males and 219 females; 160 persons below the age of 15; 94 between the ages of 15 and 30, and 197 above the age of 30.

Every form of continued fever (with the exception of Relapsing Fever) is included under the generic term of typhus; but the Registers of Deaths attribute 9 cases to gastric fever, 89 to typhoid fever, 14 to enteric fever, 3 to continued fever, 2 to brain fever, and 184 to typhus. Under the term of fever there were registered 86 deaths, under that of febris 11 deaths, under that of febricula 17 deaths, and under that of common fever 1 death. The deaths registered under the term of infantile remittent amounted to 35.

The following tables are in themselves sufficiently explanatory; the first compares the averages of deaths from typhus during the preceding ten years with those during 1872; the second table shows the districts of the town and the periods of the year in which all forms of continued fever were most fatally prevalent; the third table marks in streets the habitats of the disease; and the remaining tables the occupations and social positions of its victims.

RELAPSING FEVER.

Relapsing Fever occasioned 25 deaths, or 14 in the first quarter, 4 in the second, 3 in the third, and 4 in the fourth quarter of the year. Of the patients, 19 were tradesmen or of their families; 4 were labourers or of their families; 1 was a servant girl, and 1 the child of a seaman; 9 were males, and 16 females; 12 were below 15 years of age, 4 between 15 and 30, and 9 above 30. The following is a list of the streets with the dates at which the deaths occurred.

STREETS.	DATE OF DEATH.	STREETS.	DATE OF DEATH.
Clare	January 1st ...	Westminster Road ...	March 23rd
Portland Place	" "	Barter	" 30th
Radcliffe	" 4th	Brick	April 5th
Rose Vale	" 7th	Howe	" 23rd
Tamworth	" "	Robsart	May 7th
India	" 9th	Baptist	July 13th
Penrhyn.....	" 14th	Beresford	" 21st
Giles	" 24th	Netherfield Road, North.	Sept. 12th.
Ribble	" 26th	Epsom.....	Nov. 2nd
Buckingham	" 29th	"	" 4th
Fenton	" 30th	Potter	" 7th
Sawneypope	February 18th	Hampton	" 12th
Banastre	March 13th		

It is somewhat surprising that though we thus had through the whole year sporadic cases of Relapsing Fever, occurring in the various districts of the Borough (9 in the Parish, 12 in Everton and Kirkdale, and 4 in the Toxteths) yet there was no evidence in the reports of sickness, of the epidemic spread of the contagion. The cases were nevertheless, probably connected with the epidemic of Relapsing Fever, during the years 1870 and 1871, and they illustrate the mode in which epidemic diseases become gradually extinct.

SCARLATINA.

Scarlatina was less fatal in the Borough of Liverpool during the year 1872, than it had been in any year of the previous decennial. It accounted during the year for 222 deaths, or for 76 in the Parish, and 146 in the Out-townships. The rate of its mortality was equal to 0.4 per 1,000 per annum of the estimated population. Its rate relatively to deaths from all causes was 1.7 per cent. in the

first quarter, 2.0 in the second, 1.3 in the third, and 1.4 in the fourth quarter of the year; its annual rate relatively to all deaths was 1.6 per cent., and relatively to deaths from Zymotic causes 6.7 per cent.

The first of the following tables gives a statistical history of the mortality of Scarlatina during the year 1872; the second is a record of the streets of the Borough wherein 2 or more deaths occurred from that disease.

I have received from Mr. Hartnup the following Meteorological Table for the year 1872.

LIVERPOOL OBSERVATORY.

DATE.	Mean Barometer.	Mean Temperature.	Rainfall on Ground.
1872.	Inches.	°	Inches.
January	29.526	41.8	3.476
February	29.744	44.6	2.278
March	29.775	45.5	2.272
April	29.929	48.0	2.604
May	29.918	50.4	1.506
June	29.862	57.6	4.324
July	29.929	62.9	7.512
August	29.968	61.0	2.167
September	29.792	57.0	6.575
October	29.679	48.0	6.531
November	29.634	44.6	2.857
December	29.582	41.2	3.562

The Select Vestry are kind enough to forward to my office a daily list of the cases of Fever and Small Pox, attended by the Parochial Medical Officers and a monthly list of the cases of all Zymotic diseases, of Tubercular diseases, and of sickness from other causes, which have occurred in the twelve districts of the Parish.

The daily list enables the Health Committee to take action for the purification of the houses, and I am able from the other to classify the districts and streets in which sickness has prevailed.

The following are the streets within the Parish of Liverpool in which three or more cases of Fever, or two or more of Scarlatina, or two or more of Small Pox have occurred during the year.

STREET.	Zymotic Diseases, including Fever, Scarlatina, and Small Pox.	Fever.	Small Pox.	Scarlatina.	Tubercular Diseases including Phthisis.	Phthisis.	Other Diseases.

These show that the average number of persons suffering from Typhus at one time in Hospital during the year 1872, was 47, and their per centage death-rate 8·8; the average number of cases of Small Pox at one time in Hospital during the year was 11, and their per centage death-rate was 14·0; the average number of cases of Measles at one time in Hospital during the year was 2, and their per centage death-rate was 21·4; the average number of cases of Scarlatina at one time in Hospital, during the year was 2, and their per centage death-rate was 14·3.

Of the 135 cases of Small Pox in the Workhouse Hospital, 55 were Emigrants or Seamen from on board ship; 7 arriving in January, 5 in February, 2 in March, 3 in April, 18 in May, 8 in June, 5 in July, 4 in August, 1 in September, and 2 in October. Besides these cases, 3 Seamen from on board ship were carried to the Netherfield Road Hospital; thus showing that during the whole year, there was a constant importation from abroad of the contagion of the disease.

The number of persons in receipt of Parochial Relief on Saturday, the 29th June, 1872, was 9,799, or 2,316 less than at the corresponding period of 1871, and the number on Saturday, the 28th December, was 9,362, or 2,100 less than at the same period of 1871.

LODGING-HOUSES.

The Health Committee have, since the passing of the Sanitary Act, 1866, ruled that, as far as possible, all registered lodging-houses should have a day apartment for the accommodation of their lodgers, and that all houses where single rooms were occupied by day and night should be registered as sub-let. The space required for a night lodger in a registered lodging-house is 300 cubical feet, while the space in a sub-let house for each adult is 350 feet. The effect of this arrangement is to lessen the number of registered lodging-houses.

There were on the register 1,104 lodging-houses at the end of 1871, and 1,035 at the end of 1872. This difference was occasioned by the removal of 318 old licenses and the addition of 249 new ones. The visits to lodging-houses are both by day and night. The lodging-houses of the better class, and especially those provided only with single bed for each person, and only with the number of beds equivalent to the number of lodgers allowed, are not visited at night except on grave suspicion or on complaint, or in the case of foreign emigrant lodging-houses. The night visits are pretty nearly restricted to the low districts and tramp houses. The number of day visits paid during the year was 41,488, and the night visits 5,792. The number of lodging-houses found overcrowded on the night visits was 22; the number of informations laid for breaches of the bye-laws was 89, with the results of fines in 84 cases to the extent of £13 14s. 6d., in sums varying from 1s. to 20s. and costs. The number of lodging-houses found dirty was 199; notices were served to limewash and cleanse.

It is necessary frequently to visit houses which are not licensed either as lodging or sub-let houses, especially when emigration is brisk, or at race times. There were 1,440 such visits paid during the day, and in 65 of the cases where suspicion was confirmed they were followed up by night visits. A tenant harbouring lodgers is not taken before the Justices for the first offence, but is noticed to have his rooms measured and licensed. There were 225 such notices issued during the year, and in no case did the tenant refuse to comply with the requisition. A bye-law requires that every case of infectious sickness in a lodging-house should be at once reported to the Medical Officer of Health. 24 cases of Fever and 9 cases of Small Pox occurred in lodging-houses; the patients were at once sent to Hospital, the bedding removed to the disinfecting apparatus, and the rooms purified and cleansed. No lodger died from Fever or Small Pox in a registered lodging-house; but there were 92 deaths from non-contagious diseases in lodging-houses, of which 66 belonged to the keepers' families and 26 were lodgers.

SUB-LET HOUSES REGISTERED UNDER THE SANITARY ACT OF 1866.

The number of sub-let houses on the Register at the termination of 1871 was 9,280; the number registered during 1872 was 400, making the total on the register on the 31st December, 9,680. The number of visits paid during the night was 11,690, and during the day 56,306, with the result of finding 1,129 rooms overcrowded. In addition to overcrowding, the offence (though not punishable in sub let houses) of permitting adult males and females not married to occupy the same room, comes under the notice of, and is entered in the books of the Inspectors. There were 489 rooms thus indecently occupied by 683 males and 863 females, besides having also in these rooms 401 children between the ages of 5 and 13 years.

Informations were laid against 912 chief tenants for permitting overcrowding in rooms with the following results:—702 were fined 1s. and 1s. costs; 1 fined 2s. 6d.; 1 fined 2s. 6d. and 1s. costs; 105 fined 2s. 6d. and 2s. 6d. costs; 28 fined 5s. and 4s. 6d. costs; 18 fined 10s. and costs; 8 fined 20s. and costs; and 2 fined 40s. and costs, making a total of fines levied during the year of £137 7s. 0d. Of the remaining 47 cases, 33 informations were withdrawn, the tenants having abated the overcrowding; in 14 cases the tenants were acquitted—the majority because it was the first offence, and the remainder because of their poverty, and their promise not again to offend.

BAKEHOUSES.

1,138 day visits and 1,134 night visits have been paid to Bakehouses during the year. 18 informations were laid for working young people below the age of 18 years, between the hours of 9 p.m. and 5 a.m. Penalties were inflicted in each case, varying from 1s. and 1s. costs to 20s. and costs, and making a total of £5 3s. 6d. 113 Bakehouses were found dirty and notices were served to limewash and cleanse them.

LICENSES FOR CATTLE.

During the year 1872, 14 applications for Licenses to keep 101 cows were made to and granted by the Health Committee ; 28 shippons licensed to keep 204 cows have been given up during the year. There are at present 551 shippons licensed to keep 5,489 cows. 77 of the premises previously licensed have been transferred to fresh tenants. In 71 of the shippons, pigs are also allowed to be kept ; in 64 of them, only 2 pigs each ; in 6, 4 pigs ; and in 1, 5 pigs.

99 applications were made during the year to keep pigs in styres separate from and unconnected with shippons ; 25 of the applications, for keeping 58 pigs, were granted. The total number of premises or styres now licensed in the Borough (excluding shippons) is 327, for keeping 984 pigs.

MORTUARIES.

Under the provisions of the 27th section of the Public Health Act, 1866, the Council provided Mortuaries or proper places for the reception of bodies, dead of infectious disease, which are detained in any room in which persons live or sleep, and of bodies which are in such a state as to endanger the health of the inmates of the house, or room in which they are kept.

The following is a list of the cases removed to the Mortuaries by order of the Justices on the certificate of the Medical Officer, with remarks as to the condition of the rooms from which the bodies were removed.

Date.	No.	Street.	Description	Remarks.
Jan. 9th	1 in 23 Court	Addison	Child—Fever	Family live and sleep in same room, a wake had been held, two women sitting on the coffin near the fire.
12th	4	Pall Mall	Man	The disease not infectious, but body offensive.
13th	39	Addison	Child	The disease not infectious, but body was offensive, family live and sleep in same room.
17th	1 in 11 Court	Ben Jonson	Woman—Fever ...	Family live and sleep in same room, preparations for a wake.
29th	42	Oriel	Do.	The disease not infectious, but body offensive, had been retained for the purpose of a wake.
31st Feb.	16 Cellar	Sherwood	Girl—Fever	Family live and sleep in cellar
15th	7 in 8 Court	Saltney	Boy do.	Three other children ill of same disease, and the whole family live and sleep in same room, mother was lying drunk upon the floor.
March 6th	10 in 7 Court	Llanrwst	Woman	The disease not infectious, but body offensive, family live and sleep in same room.
12th	4 in 9 Court	Darnley	Child	The disease not infectious, but body offensive, family live and sleep in same room.
16th	48	Sawneypope	Man	The disease not infectious, wakes had been held during several nights, family live and sleep in same room
18th	59	Virgil	Man—Fever	The body kept for the purpose of a wake, a woman was found dead in the same room after a night wake
„	„	„	Woman	This was the person who after the wake was found dead.
19th	4 in 6 Court	Eldon	Man—Fever	Family live and sleep in same room
27th	26	Gascoyne	Woman	The disease not infectious, but body offensive, family live and sleep in same room, and a man suffering from fever in same house
April 4th	97	Beaufort	Do.	The disease not infectious, but the body was offensive.
11th	4 in 9 Court	Gascoyne	Do.	The disease not infectious, family live and sleep in same room, a wake had been held, and the body was offensive.
„	4 in 9 Court	Westmoreland	Do.	The disease not infectious, but body offensive, and a member of the family, who live and sleep in same room, was suffering from fever
16th	75	Highfield	Woman	The disease not infectious, but body offensive, family live and sleep in same room.

Date.	No.	Street.	Description.	Remarks.
May 23rd	5	Durham Place ...	Child	The disease not infectious, but body offensive, and a person sick in same room.
June 4th	71 Cellar	Kew.....	Boy—Fever	Two other children ill of same disease and family live and sleep in cellar
10th	8 in 7 Court	St. Andrew.....	Do.	The disease not infectious, but body very offensive, family live and sleep in same room.
20th	25	Leeds	Man.....	The disease not infectious, but body very offensive, family live and sleep in same room.
27th	42	Cavendish	Woman	The disease not infectious, but body very offensive, and the room was full of drunken people who had attended the wake.
July 3rd	8	Webster	Man.....	The disease not infectious, but body offensive.
Aug. 21st	3	Eaton	Boy	The disease not infectious, but body offensive, and had been kept for the purpose of a wake.
„	4 in 1 Court	„	Man.....	The disease not infectious, but body very offensive, family live and sleep in same room.
Oct. 19th	2 in 11 Court	Wright	Woman—Fever. ..	Family live and sleep in same room.
29th	5 in 17 Court	Blandford	Man.....	The disease not infectious, but body offensive.
Nov. 23rd	17	Hughson.....	Child	The disease not infectious, but body offensive, family live and sleep in same room.
Dec, 27th	4	Elias	Man—Small Pox..	Body offensive, and three families live in this house.

REMOVAL OF THE SICK TO HOSPITAL.

PUBLIC HEALTH ACT, SEC. 26.

Under the provisions of the above Section, there were removed, to the Work-house Hospitals, 49 persons, including 15 men, 9 women, and 25 young persons and children. In 40 of the cases, all suffering from Fever, the law had to be enforced against the wishes of the patients or of their friends. In the cases of three children removed willingly, two were found destitute, and neglected by their parents; while one poor child, suffering from Fever, was found in bed with her dead father. The six other cases removed willingly were suffering from Small Pox.

The number of articles sent to the Disinfecting Apparatus during the year amounted to 51,078.

DISINFECTION OF HOUSES.

In all cases of infectious disease the houses were disinfected, free of cost, with sulphurous gas, by officers appointed by the Health Committee, but whenever there was sickness in any room of the house, so as to endanger health by the use of sulphurous gas, carbolic acid powder was freely sprinkled in the rooms and passages of the house until the sulphurous gas could be used safely. No house is considered properly disinfected until the sulphurous gas has been used. The existence of sickness and the consequent employment of carbolic acid powder, necessitate many visits by the persons in charge of the disinfection. There were in all 3,982 visits paid to the houses for the purposes of disinfection; the number of houses properly disinfected being 1,909.
