MALDON
PORT HEALTH AUTHORITY

ANNUAL REPORT

of the

Medical Officer of Health

for

1963

including

Report of the Port Health Inspector

by

T.D. BLOTT, B.Sc., B.S., M.B., D.P.H.

WALTON
PORT HEALTH AUTHORITY

ANNUAL REPORT

of the

Medical Officer of Health

for

1963

Including

Report of the Port Health Inspector

by

T.D. BLOTT, B.Sc., M.B., D.P.H.

To the Mayor, Aldermen and the Councillors of the
Borough of Maldon.

Madam Mayor, Ladies and Gentlemen,

I beg to present my tenth Annual Report on the sanitary conditions
of the Port of Maldon, covering the year ending 31st December, 1963

During the year conditions in the Port have been satisfactory
and no nuisances in shipping have been observed.

It was not possible to spare the time to attend the Annual
Meeting of the Port Health Authority this year but the new regulations
covering smallpox quarantine have been received.

In the early part of the year the exceptionally cold weather
lead to a high rate of mortality amongst oysters and during Decem-
ber a further cold spell interferred with the cleansing processes in
the oyster tanks. Arrangements have been made with the oystermen
concerned modifying the cleansing process to cater for low temper-
atures and there appears to be no reason to think that there will be
any effect on the quality of Blackwater oysters, which are probably
the best in the country.

I am again indebted to your Port Health Inspector for his help
in preparing this report.

I am, Madam Mayor, Ladies and Gentlemen,

Your obedient Servant,

T. D. BLOTT,

Medical Officer of Health.

to the Mayor, Aldermen and the Councillors of the
Borough of Maldon.

Madam Mayor, Ladies and Gentlemen,

I beg to present my tenth Annual Report on the sanitary conditions
of the Port of Maldon, covering the year ending 31st December, 1903.

During the year conditions in the Port have been satisfactory
and no nuisances in shipping have been observed.

It was not possible to spare the time to attend the Annual
Meeting of the Port Health Authority this year but the new regulations
covering smallpox quarantine have been received.

In the early part of the year the exceptionally cold weather
led to a high rate of mortality amongst oysters and during Decem-
ber a further cold spell interfered with the cleansing processes in
the oyster tanks. Arrangements have been made with the oyster-
men concerned modifying the cleansing process to cater for low temper-
atures and there appears to be no reason to think that there will be
any effect on the quality of Blackwater oysters, which are probably
the best in the country.

I am again indebted to your Port Health Inspector for his help
in preparing this report.

I am, Madam Mayor, Ladies and Gentlemen,

Your obedient servant,

T. D. BLOTT,

Medical Officer of Health.

SECTION II - Amount of shipping entering the district during the year.

TABLE B

Ships from	Number	Tonnage	Number inspected		Number of ships reported as having had during the voyage, infectious disease on board.
			By the Medical Officer of Health	By the Public Health Inspector	
Foreign Ports	58	14,802	-	10	Nil.
Coastwise	358	43,745	-	9	Nil.

SECTION III - Character of shipping and trade during the year.

TABLE C

PASSENGER TRAFFIC	{ Number of passengers	INWARDS Nil
	{ Number of passengers	OUTWARDS Nil
CARGO TRAFFIC	{ Principal Imports	Timber, Wheat, Live Eels.
	{ Principal Exports	Wheat, Maize, Gravel.
PRINCIPAL PORTS FROM WHICH SHIPS ARRIVE.	London, Colchester, White Sea, Baltic and Norweigan Ports and Rotterdam.	

SECTION IV - Inland Barge Traffic - Timber from Maldon to Chelmsford.

SECTION II - Amount of shipping entering the district during the year.

TABLE B

Ships from	Number	Tonnage	Number inspected	By the	Number of ships reported as having had during the voyage, infectious diseases on board.
Foreign Ports	58	14,802	-	By the Medical Officer of Health Inspector	Nil.
Coastwise	358	43,745	-	By the Public Health Inspector	Nil.

SECTION III - Character of shipping and trade during the year.

TABLE C

PASSENGER TRAFFIC	(Number of passengers)	(Number of passengers)	INWARDS NIL	OUTWARDS NIL
CARGO TRAFFIC	(Principal Imports)	(Principal Exports)	Timber, Wheat, Live Pigs.	Wheat, Maize, Gravel.
PRINCIPAL PORTS FROM WHICH SHIPS ARRIVE.	London, Colchester, White Sea, Baltic and Norwegian Ports and Rotterdam.			

SECTION IV - Inland Barge Traffic - Timber from Malden to Chelmsford.

SECTION V - Water Supply.

(1) a & b For the Port. Water from the local supplies is obtained at the various Creeks for barges.

The chief supplies are obtained: At Maldon and Heybridge Basin from the Corporations water mains. At Tollesbury from the Public Supply. These are all above suspicion.

(2) Analysis of Water Samples.

Frequent samples of the public water supply are submitted for bacteriological analysis. These always give results of the highest quality and the Analyst has always expressed himself entirely satisfied with the purity of the public water supply in the Port Health District.

(3) Hydrants & Hose Pipes.

The stand pipe at Heybridge Basin is efficiently maintained and satisfactory. Vessels are expected to provide their own hose-pipes.

(4) For Shipping in the River: From a water boat from Brightlingsea in the Colchester Port District. There is only water boat. The sanitary condition of this vessel is satisfactory.

SECTION VI - Public Health (Ships) Regulations, 1952.

(1) List of Infected Areas.

The list is maintained at the office of the Port Health Inspector. It is amended as and when the circumstances demand and copies are supplied to H.M. Customs Officers and local pilots.

(2) Radio Messages.

No arrangements or facilities exist for the receipt or transmission of messages by radio.

(3) Notifications Otherwise than by Radio.

Any such notifications from inward vessels would be given to the pilots or Officers of Customs and then passed to this authority.

Upon such information being received inward ships are immediately boarded by an Officer of the Authority.

MOORING STATIONS.

(a) There are no docks in which a suitable mooring station could be designated.

(b) An outside mooring station has been designated near the mouth of Bradwell Creek.

SECTION V - Water Supply.

(1) a & b For the Port. Water from the local supplies is obtained at the various Creeks for barges. The chief supplies are obtained: At Malden and Haybridge Basin from the Corporation water mains. At Tollerbury from the Public Supply. These are all above suspicion.

(2) Analysis of Water Samples.

Frequent samples of the public water supply are submitted for bacteriological analysis. These always give results of the highest quality and the Analyst has always expressed himself entirely satisfied with the purity of the public water supply in the Port Health District.

(3) Hydrants & Hose Pipes.

The stand pipe at Haybridge Basin is efficiently maintained and satisfactory. Vessels are expected to provide their own hose pipes.

(4) For Shipping in the River: From a water boat from Brightlingsea in the Colchester Port District. There is only water boat. The satisfactory condition of this vessel is satisfactory.

SECTION VI - Public Health (Ships) Regulations, 1932.

(1) List of Infected Areas.

The list is maintained at the office of the Port Health Inspector. It is amended as and when the circumstances demand and copies are supplied to H.M. Customs Officers and local pilots.

(2) Radio Messages.

No arrangements or facilities exist for the receipt or transmission of messages by radio.

(3) Notifications Otherwise than by Radio.

Any such notifications from inward vessels would be given to the pilots or Officers of Customs and then passed to this authority. Upon such information being received inward ships are immediately boarded by an Officer of the Authority.

MOORING STATIONS.

(a) There are no docks in which a suitable mooring station could be designated.

(b) An outside mooring station has been designated near the mouth of Bradwell Creek.

(c) In view of the extreme difficulty of rapid communication with vessels moored in the lower part of the estuary, the Customs Officers have been instructed to allow of boarding or leaving the ship, where the declaration of health and all other circumstances are satisfactory.

(5) Arrangements for:

(a) Hospital accommodation for Infectious Diseases is available at the Infectious Diseases Hospital, Chelmsford.

(b) Local Surveillance is maintained by Officers of the Authority. Information concerning contacts in other areas is forwarded to the responsible Authority.

(c) There are no special arrangements for the Cleansing or disinfection of ships. Persons, clothing and other articles would be landed and arrangements made for the cleansing as required.

SECTION VII - Smallpox.

(1) The North East Metropolitan Regional Hospital Board are responsible for the treatment of persons suffering from Smallpox and provide hospital accommodation, as and when required.

(2) Ambulance facilities are provided by the Essex County Council, who are responsible for the vaccinal state of the ambulance crews.

(3) Dr. J.D. Kershaw, Medical Officer of Health, Borough of Colchester.

(4) No special arrangements have been made for the laboratory diagnosis of smallpox.

SECTION VIII - Venereal Disease.

Facilities exist for the treatment of both out and in-patients at the Essex County Hospital, Colchester. Out-patient treatment is available as follows:-

Medical Officer in attendance.	{	MONDAYS:	Males	5 p.m. to 6 p.m.
	{	FRIDAYS:	Males	1 & 3 p.m.

Male Nursing Staff daily: 9.30 a.m. to 5 p.m.

It has not been considered necessary to take any special steps to make this information known to seamen.

(c) In view of the extreme difficulty of rapid communication with vessels moored in the lower part of the estuary, the Customs Officers have been instructed to allow of boarding or leaving the ship, where the declaration of health and all other circumstances are satisfactory.

(2) Arrangements for:

(a) Hospital accommodation for Infectious Diseases is available at the Infectious Diseases Hospital, Chelmsford.

(b) Local Surveillance is maintained by Officers of the Authority. Information concerning contacts in other areas is forwarded to the responsible Authority.

(c) There are no special arrangements for the cleaning or disinfection of ships. Persons, clothing and other articles would be landed and arrangements made for the cleaning as required.

SECTION VII - Smallpox.

- (1) The North East Metropolitan Regional Hospital Board are responsible for the treatment of persons suffering from Smallpox and provide hospital accommodation, as and when required.
- (2) Ambulance facilities are provided by the Essex County Council, who are responsible for the vaccinal state of the ambulance crews.
- (3) Dr. J.D. Kershaw, Medical Officer of Health, Borough of Colchester.
- (4) No special arrangements have been made for the laboratory diagnosis of smallpox.

SECTION VIII - Venereal Diseases.

Facilities exist for the treatment of both out and in-patients at the Essex County Hospital, Colchester. Out-patient treatment is available as follows:-

MONDAYS:	Males	2 p.m. to 6 p.m.	Medical Officer in attendance.
FRIDAYS:	Males	1 & 3 p.m.	

Male Nursing Staff daily: 9.30 a.m. to 5 p.m.

It has not been considered necessary to take any special steps to make this information known to seamen.

SECTION IX - Cases of Notifiable and other infectious diseases on ships.

Table D.

NIL.

If any such cases or suspected cases are reported the crew are required to remain aboard and no contact with the shore is permitted except by the boarding of the ship by the pilot or the Officers of Customs until the circumstances have been fully investigated and all members of the crew have been medically examined.

SECTION X - Observations on the Occurrence of malaria in ships.

NIL.

SECTION XI - Measures taken against ships infected with or suspected for plague.

No special measures in this connection have been thought necessary in the past.

SECTION XII - Measures against rodents in ships from foreign ports.

- (1) Deratization or Deratization Exemption certificates of vessels inspected are examined. The number of foreign going vessels which moor at the quays is small and no trouble has been experienced with regard to rodents.
- (2) No special arrangements have been made for the bacteriological or pathological examination of rodents and none have been sent for such examinations during the year.
- (3) There are no facilities in the Port for the deratization of ships.
- (4) No special measures of rat-proofing have been found necessary.

Table E.
