THE ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

FOR THE YEAR 1959

The Chairman and Members of the Council.

Mr. Chairman and Members,

I have the honour to present the Annual Report on the Health of the District for the year 1959.

As in previous years, the statistics for the Urban Districts of Malton and Pickering, and the Rural Districts of Helmsley, Kirbymoorside, Malton and Pickering, are all included in one Report. Because of the small numbers involved no conclusion can be drawn from the figures for individual Districts, and those shown against "all Districts" can be taken to represent much more closely the actual conditions in a particular District.

SANITARY CIRCUMSTANCES OF THE DISTRICT

FOOD

Meat and other foods

The year opened with the resignation of the Veterinary Surgeon who had for years worked in a part time capacity on the Inspection of meat.

The work of Meat Inspection was then undertaken by the Public Health Dept., and it was found possible, with a certain amount of evening work to examine every animal slaughtered.

The Slaughter-house and lairage do not comply with modern concepts, and were they made to do so would still be small and badly situated, particularly if any additional burden were placed on them by the closing of private Slaughter-houses in the area.
