ANNUAL REPORT.

of the Medical Officer of Health and Sanitary Inspector
for the Mangotsfield Urban District for the year 1939.

To the Chairman and Members of the Mangotsfield Urban
District Council.

GENTLEMEN,

I have the honour to present my second Annual
Report on the health of the district for the year 1939,
this being the eleventh report since the formation of
the Urban District in 1927.

In accordance with Circular 1961 and subsequent
amending Circulars, an abbreviated report is presented
this year owing to the difficulties in production at
length.

Efforts have been made, however, to retain
the continuity of statistical tables.

A:-STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

(1) General Statistics.

Area.	1,553 acres.
Population. Census (1931).	11,251.
Population (Registrar-General's estimate middle 1939).	15,070.
Number of inhabited houses, (1931)	2,801.
Number of inhabited houses to end of 1939.	4,800.
Rateable Value.	£69,000.
Sum represented by 1d rate.	£257.

The population of the District continues to increase and
has now reached the total of 15,070, an increase of 690
over previous year's estimates.

ANNUAL REPORT

of the Medical Officer of Health and Sanitary Inspector
for the Municipal Ward District for the year 1937.

To the Chairman and Members of the Municipal Ward
District Council.

GENTLEMEN,

I have the honour to present to you my annual
report on the health of the district for the year 1937,
this being the eleventh report since the formation of
the Urban District in 1927.

In accordance with Circular 1937 and subsequent
sanitary circulars, an abridged report is presented
this year owing to the difficulties in production of
leaflets.

Efforts have been made, as ever, to retain
the continuity of statistical tables.

A - STATISTICS AND SOCIAL CONDITIONS

FOR THE YEAR

(1) General Statistics.

Area.	1,353 acres.
Population, Census (1931).	17,351
Population (Registrar-General's estimate 1937).	18,070
Number of inhabited houses (1931).	3,707
Number of inhabited houses in year 1937.	4,000
Rateable Value.	£69,000
Sum represented by 11 rate.	£237

The population of the District continues to increase and
has now reached the total of 18,070, an increase of
over previous year's estimate.

(4)

Action taken 111

No. inspected 10

No. of inspections 10

(iv) Shops and Offices.

No special action was taken under the Shops Act, 1934, or the Public Health Act, 1936. All new shops were inspected.

(v) CAMPING SITES.

There is no camping site in the area.

(vi) SMOKE ABATEMENT.

(a) Observations made. 3

(b) Complaints received. 2

Notices served and nuisances abated.

(vii) SWIMMING BATHS AND POOLS.

There are no swimming baths in the district.

(viii) ERADICATION OF BED BUGS.

1. (a) No. of Council houses found to be infested 1

(b) No. of Council houses disinfected 1

(c) No. of other houses found to be infested Nil

(d) No. of other houses disinfected Nil

2. The disinfecting is carried out by the use of a substance called "Zaldecide", which is expressly prepared for this purpose.

3. Inspection has been made and treatment given where necessary to ensure that the belongings of tenants are free from vermin before removal to Council Houses. General advice is given and insecticides supplied to prevent re-infestation

4. The work of disinfection is carried out by the Council.

4. SCHOOLS.

See 1938 Report.

D. - H O U S I N G.

The onset of hostilities has prevented for all practical purposes any further extensive action that might be desired under the heading of Clearance Schemes.

After September the construction of new buildings, which had proceeded rapidly, was very much restricted and soon ceased altogether.

(v) CAMPING SITES.

There is no camping site in the area.

(vi) OTHER ABANDONMENT.

(a) Observations made.

(b) Complaints received.

Notices served and witnesses stated.

(vii) SWIMMING BATHS AND POOLS.

There are no swimming baths in the district.

(viii) REMEDIATION OF BAD SITES.

1. (a) No. of Council houses found to be infested.

(b) No. of Council houses disinfested.

(c) No. of other houses found to be infested.

(d) No. of other houses disinfested.

2. The disinfesting is carried out by the use of a

substance called "Kilobac", which is extremely

effective for this purpose.

3. Inspection has been made and treatment given where

necessary to ensure that the poisoning of vermin

etc. does not cause any harm to Council

houses. General advice is given and instructions

supplied to prevent re-infestation.

4. The work of disinfection is carried out by the

Council.

SCHOOLS.

See 1935 Report.

D. - HOUSES IN G.

The onset of hostilities has prevented for all practical

purposes any further extensive action that might be

desired under the heading of Clearance Scheme.

After September the completion of new buildings, which

had proceeded rapidly, was very much restricted and work

ceased altogether.

1. INSPECTION OF DWELLING HOUSES DURING THE YEAR.

- (1) (a) Total number of dwelling houses inspected for housing defects (under Public Health or Housing Acts). 24
- (b) Number of inspections made for the purpose 27
- (2) (a) Number of dwelling houses (included under the sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations 1925 and 1932. 11
- (b) Number of inspections made for the purpose 11
- (3) Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation. 3
- (4) Number of dwelling-houses (exclusive of those referred to under the preceeding sub-head) found not to be in all respects reasonably fit for human habitation. 8

2. REMEDY OF DEFECTS DURING THE YEAR WITHOUT SERVICE OF FORMAL NOTICES.

Number of defective dwelling-houses rendered fit in consequence of informal action by the Local Authority or their Officers. 9

3. ACTION UNDER STATUTORY POWERS DURING THE YEAR.

centage of Demolition Orders.

(3) Proceedings under Section 12 of the Housing Act, 1936

(1) Number of separate tenements or under-tenements

rooms in respect of which Closing Orders were

MI

made.

(2) Number of separate tenements or under-tenements

rooms in respect of which Closing Orders were

determined, the tenement or room having been

MI

rendered fit.

HOUSING ACT, 1936: - PART IV: OVERCROWDING

(1) Number of dwelling-houses overcrowded at the end

MI

of the year (since last housing survey)

MI

(ii) Number of families dwelling therein

MI

(iii) Number of persons dwelling therein

Number of new cases of overcrowding reported

MI

during the year.

(1) Number of cases of overcrowding relieved during

MI

the year.

MI

(ii) Number of persons concerned in each case.

Particulars of any cases in which dwelling-houses

have again become overcrowded after the local

Authority have taken steps for the abatement of

MI

overcrowding.

(e) Any other particulars with respect to overcrowding conditions upon which the Medical Officer of Health may consider it advisable to report. Nil

E. - INSPECTION AND SUPERVISION OF FOOD.

As for 1938.

Under the Emergency Powers Act, the slaughtering of animals was transferred towards the end of the year to the Central Abattoir, Bristol, instead of at the private slaughter houses as in previous years.

F. - PREVALENCE OF, AND CONTROL OVER, INFECTIOUS

AND OTHER DISEASES.

The number of cases of infectious diseases (other than Tuberculosis) reported during the year was 54, which is 10 less than in 1938, and is below the average for the past five years, the figures for the respective years being:-

1935	33
1936	35
1937	98
1938	64
1939	54

(a) Diphtheria.

Twenty cases were reported, an increase of seven over 1938. Eighteen of these cases were admitted to hospital, one of which proved fatal.

(b) Scarlet Fever.

Twenty four cases were notified, being twelve less than in the previous year. There were no deaths.

(c) Other diseases.

Tables follow which indicate the incidence of all infectious diseases in Wards and in age Groups.

(e) any other notification with respect to corresponding conditions upon which the Medical Officer of Health may consider it advisable to report.

F. - INSPECTION AND SUPERVISION OF POOL.

As for 1935.

Under the Emergency Powers Act, the slaughtering of animals was transferred towards the end of the year to the Central Slaughter, Bristol, instead of at the private slaughterhouses as in previous years.

G. - PREVALENCE OF, AND CONTROL OVER, INFECTIOUS AND OTHER DISEASES.

The number of cases of infectious diseases (other than Tuberculosis) reported during the year was 54, which is 10 less than in 1934, and is below the average for the past five years, the figures for the respective years being:-

1935	54
1934	64
1933	64
1932	64
1931	64
1930	64

(a) Typhoid.

Twenty cases were reported, an increase of seven over 1934. Eighteen of these cases were admitted to hospital, one of which proved fatal.

(b) Scarlet Fever.

Twenty four cases were notified, being twelve less than in the previous year. There were no deaths.

(c) Other diseases.

Tables follow which indicate the incidence of infectious diseases in wards and in the community.
