England and Wales- - -	15.5	15.2

1. The first part of the report is a general description of the project and its objectives. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the project's purpose.

2. The second part of the report is a detailed description of the project's methodology. This section should describe the methods used to collect and analyze data, and should also include a discussion of the limitations of the study.

1. The first part of the report is a general description of the project and its objectives.	2. The second part of the report is a detailed description of the project's methodology.	3. The third part of the report is a discussion of the project's results.	4. The fourth part of the report is a conclusion and a statement of the project's significance.
---	--	---	---

3. The third part of the report is a discussion of the project's results. This section should describe the findings of the study and should also include a discussion of the implications of the results.

4. The fourth part of the report is a conclusion and a statement of the project's significance. This section should summarize the main findings of the study and should also include a statement of the project's contribution to the field.

5. The fifth part of the report is a bibliography. This section should list all of the sources used in the study and should be formatted according to the appropriate style guide.

6. The sixth part of the report is an appendix. This section should contain any additional information that is relevant to the study, such as raw data or supplementary figures.

7. The seventh part of the report is a list of references. This section should list all of the sources used in the study and should be formatted according to the appropriate style guide.

8. The eighth part of the report is a list of references. This section should list all of the sources used in the study and should be formatted according to the appropriate style guide.

9. The ninth part of the report is a list of references. This section should list all of the sources used in the study and should be formatted according to the appropriate style guide.

10. The tenth part of the report is a list of references. This section should list all of the sources used in the study and should be formatted according to the appropriate style guide.

	1953	1954
<u>Stillbirths</u> rate per 1,000 live and stillbirths	6.4	25.9

TABLE showing the variations in the total live births and in the birth rates during the past ten years :-

CONTROL AND PREVENTION OF INFECTIOUS DISEASE

IMMUNIZATION :

Immunization facilities are provided free under the National Health Service Act. 121 children under the age of 5 years received their primary immunization during the year whilst 75 children received further treatment to maintain their immunity.

TUBERCULOSIS :

There were 3 deaths from this disease during the year under review.

New cases are summarized as follows :

	MALE	FEMALE	TOTAL
Pulmonary Tuberculosis	6	8	14
Non-pulmonary ..	<u>Nil</u>	<u>Nil</u>	<u>Nil</u>
TOTALS	6	8	14

The total number of cases residing within the District at the close of the year was as follows :

	MALE	FEMALE	TOTAL
Pulmonary Tuberculosis	23	37	60
Non-pulmonary ..	<u>10</u>	<u>8</u>	<u>18</u>
TOTALS	33	45	78

NOTIFIABLE DISEASES

The following cases of infectious disease were notified during the year :-

Measles	2
Whooping Cough	23
Scarlet fever	1
Pneumonia	8
Poliomyelitis	2
Typhoid fever	2

The cases of typhoid fever gave rise to an investigation of the community within which they occurred. 13 contacts were examined, 62 samples of faeces and urine being taken for this purpose.

A carrier was found and was admitted to hospital for treatment.

In the course of this investigation the water supply to the community was examined and found to be grossly polluted. 9 samples of water were taken from the deep well supply and the pollution found to be consistent over a period of six months. The community was advised of the steps which should be taken to render safe this water even though it had no bearing on the occurrence of typhoid fever.

The National Assistance Act, 1948 and National Assistance
(Amendment) Act 1951.

Application was made to the Courts under Sect. 47, of the above Act for orders to remove to hospital two elderly persons in need of proper care and attention.

The orders were granted and the persons were removed.

One, an elderly man, was fully recovered from his illness at the end of three weeks and returned to his home.

The other, an elderly woman, was subsequently removed to a Mental Hospital in which she remains.

Six other aged and infirm persons were persuaded to enter hospital voluntarily.

CONFIDENTIAL - SECURITY INFORMATION

TO: [illegible] FROM: [illegible] DATE: [illegible]

[illegible text block]

SANITARY CIRCUMSTANCES OF THE AREA

For the following information I am indebted to Mr. R.W. Turner, Senior Sanitary Inspector, whose work during the year under review it represents.

Water Supply.

Main supplies have been satisfactory except at Saddington where insufficient pumping led to a shortage. Steps have been taken to remedy this.

Well supplies, being mostly from shallow wells, are usually polluted. Owing to the very wet season supplies have been adequate and for the first time since 1946 water was not carted on account of shortages.

2096 houses with a population of 6660 are served by internal mains water supply whilst a further 118 houses with 354 residents have access to mains water from stand pipes.

Sewage Disposal.

The East Langton scheme has been completed and with the exception of one property serves the whole village.

An enquiry was held during the year regarding proposals for Thorpe Langton and the works were agreed in principle.

There are in the District 2812 W.Cs. 157 privies and 48 pail closets.

Cesspools are emptied at approximately three month intervals.

Refuse Disposal.

House refuse is collected at fortnightly intervals by direct labour and disposed of by crude tipping at Foxton, Husband's Bosworth Hallaton and Kibworth.

Sanitary Inspection of the Area :

Total number of complaints received during the year	-	-	158
Total number of defects or nuisances discovered	-	-	206

Total number of inspections made :

	<u>Inspections</u>
Animal keeping	Nil
Bakehouses	19
Dairies	266
Drainage works	1388
Dwelling-houses (all purposes)	1179
Food premises	309
Rodent control	1079
Refuse collection and disposal	161
Schools	10
Shops	70
Slaughter-house and meat inspection	173
Tents, vans, sheds, etc.	26
Verminous premises	4
Water supplies	1430
Workshops	88
Other inspections	153
Smoke observations	<u>Nil</u>
Total inspection	6355

Notices served during the year :

<u>Preliminary</u>	<u>Housing</u>	<u>Public Health</u>
Outstanding on January 1st. 1954	5	14
Issued during the year	44	52
Complied with during the year	44	66
Statutory action necessary	Nil	Nil
Outstanding on December 31st. 1954	5	Nil

Prevention of Damage by Pests Act, 1949.

Treatment of sewers was carried out with the assistance of Ministry of Agriculture and Fisheries operators.

Tips were dealt with by our own workmen.

Smoke Abatement.

No action was necessary during the year.

Shops Act, 1950.

A comprehensive survey of shops handling food stuffs has been carried out. Defects discovered in 24 cases have been remedied by the service of informal notice.

Camping Sites.

4 camping sites exist and 8 licences were issued under Sect. 269, Public Health Act 1936 for moveable dwellings. 26 inspections were made and conditions are good.

Pet Animals Act, 1951.

No premises are licensed under this Act.

Rag Flock and other Filling Materials Act, 1951.

No premises are registered under this Act.

Eradication of Vermin.

2 houses were found to require treatment to eradicate bed bugs. The infested properties were not owned by this Council.

Disinfestation was satisfactorily carried out in every case by stripping and treating with proprietary insecticides applied under pressure. The occupiers were advised of the steps necessary to prevent recurrences.

THE INSPECTION AND SUPERVISION OF FOOD

Ice Cream.

20 premises are registered for sale of ice cream. All ice-cream sold is of the prepacked variety.

Milk: Dairies and Distributors.

i) Dairies:

Number on Register	3
Number of inspections made	30
Number of contraventions found	Nil
Number of contraventions remedied	Nil

ii) Distributors:

Number on Register	6
Number of inspections made	39
Number of contraventions found	Nil
Number of contraventions remedied	Nil

Milk Sampling.

49 routine samples of bulked milk were taken for biological examination. In 1 of these infection by tubercle bacilli was detected and in a further 4 infection by *Brucella abortus*.

Stop notices were issued on all five occasions and a further 92 individual samples were taken.

Two stop notices were still in operation at the end of the year.

Milk (Special Designations) (Pasteurised and Sterilised Milk) Regulations, 1949.

<u>Licences issued</u> : 1 Dealers, Pasteurised	3
Sterilised	Nil
2 Supplementary, Pasteurised	2
Sterilised	Nil

Milk (Special Designations) (Raw Milk) Regulations, 1949.

<u>Licences issued</u> : 1 Dealers, Tuberculin Tested	3
2 Supplementary, Tuberculin Tested	1

Meat and other Foods.

4 private slaughter houses were licensed in Fleckney, Husbands Bosworth, Lubenham and Medbourne.

The 672 animals slaughtered therein were examined.

In 11 cases disease was discovered and appropriate action taken. In 1 case the disease was tuberculosis.

223 inspections of meat shops were made together with 259 inspections of other premises where other food is kept or prepared for sale.
