## Maryport Urban District Council.

---

To the Chairman and Members of the  
Maryport Urban District Council.

Madam and Gentlemen,

I have pleasure in presenting my Annual Report for 1947, drawn up in accordance with Circular 170-47, dated 31st. December, 1947, and the Registrar General's Memorandum SD/54.

The Summary of your Sanitary Inspector is appended.

I would like again to express my sincere thanks to the Members of the Council for their willing help and courtesy. I am also much indebted to my brother officials for their kind support and co-operation at all times.

I am,

Madam and Gentlemen,

Your obedient servant,

MARK S. FRASER,  
Medical Officer of Health.

## GENERAL STATISTICS.

Area (acres), 3,200

Registrar-General's estimate of resident population (1947) 11,670.

Number of inhabited houses (end 1947) according to Rate  
Book, 3,287.  
Rateable Value ... .. £45,697.

Sum represented by Penny Rate.—Gross, £190 8s 1d.  
Actual product of a Penny Rate £167 8s 2d.

### EXTRACTS FROM VITAL STATISTICS OF THE YEAR.

Births.	Total	M.	F.	
Live Legitimate	283	145	138	Birth Rate R.G.
Births Illegitimate	20	11	9	25.96
Still Births	3	1	2	

Still Birth Rate per 1,000 Total (live and still) births, 9.8.

	Total	M.	F.	
<b>Deaths</b>	149	66	83	Crude death Rate

(R.G.) 12.77 per 1,000 estimated resident population.

Deaths from puerperal causes (childbirth):—

	Deaths.	Rate per 1,000 total (live and still) births.
Puerperal Sepsis	0	0
Other Puerperal causes	0	0
<b>Total</b>	<b>0</b>	<b>0</b>

(Total England and Wales, 1.17).

Death Rate of Infants under 1 year of age:—

All Infants per 1,000 live births	26.40
Legitimate infants per 1,000 legitimate live births	24.73
Illegitimate „ „ illegitimate	50.00
Deaths from Cancer (all ages)	17
Deaths from Measles (all ages)	0
Deaths from Whooping Cough (all ages)	1
Deaths from Diarrhoea (under 2 years of age)	1

## ANNUAL REPORT

### OF THE MEDICAL OFFICER OF HEALTH for the Year 1947.

---

---

The area of the Urban District of Maryport in statute acres is 3,200.

#### RAINFALL.

I regret that the rainfall records for 1947 are not available.

#### POPULATION.

The Registrar-General's figure for the resident population of the district estimated to the middle of 1947 is 11,670.

(The figure for 1946 was 11,470).

The Yearly estimates of population provided by the Registrar General are based on the adjusted last Census figures after allowance for births, deaths and migration

#### PUBLIC ASSISTANCE.

In the Maryport Relief District, which is included in the Mid-Cumberland Guardians' Area, the number of persons in receipt of out-door relief was 300 on the 31st December. This figure was comprised of:—

Old age, sick and infirm	161
Unemployed able-bodied	25
Unemployed on account of sickness	114

9 persons belonging to this district were admitted to a Public Assistance Hospital during the year. No person was admitted to the City General Hospital, Carlisle, for specialist treatment.

The County Social Welfare Officer has kindly supplied me with the above information.

#### UNEMPLOYMENT.

The Manager of the Maryport Employment Exchange has been good enough to supply me with the following figures in respect of unemployed persons, aged 18 to 64, at December, 1947.

Year	M.	F.	Total
1947	190	12	202

## Vital Statistics.

### BIRTHS.

LIVE BIRTHS.—303 Live Births (156 males and 147 females) were registered as belonging to the district (i.e. after including inward transfers and excluding outward transfers): of these, 20 (11 males and 9 females) were illegitimate. The net live birth rate is accordingly 25.96 per 1,000 of the population, as compared with 19.53 for the previous year.

Comparisons may be given as follows:—

Birth Rates, 1947—Cumberland	22.0
Rural Districts of Cumberland	21.4
Urban Districts of Cumberland	22.9
England and Wales	20.5
Maryport Urban District	25.96

The percentage of illegitimate live births is 6.6 as compared with 4.9 in 1946.

The Live Birth Rates for the past 10 years in the Maryport Urban District were:

Year —	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Rate—	25.96	19.53	19.16	21.8	18.9	15.8	17.4	16.9	16.4	16.1

The percentage of illegitimate live births for the past ten years were:—

Year—	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
% —	6.6	4.9	6.6	8.3	7.5	6.5	3.1	3.6	5.9	2.7

STILL BIRTHS.—3 still births (3 legitimate) were also registered, giving a still birth rate of 0.26 per 1,000 of the population as compared with 0.96 for 1946. (The rate for all England and Wales was 0.50). In Maryport approximately 1 birth in 100 was a still birth in 1947, as compared with 1 in 20 for 1946, 1 in 54 for 1945, 1 in 121 for 1944, and 1 in 43 for 1943.

The still birth rate per 1,000 total live and still births was 9.8 as compared with 46.8 in 1946, 18.6 in 1945, 8.26 in 1944, 23.0 in 1943.

## DEATHS.

The number of deaths, registered as belonging to the district was 149 (i.e. after correcting for non-residents dying within the district and for those persons whose usual residence was within the district dying without the district). This gives a crude death rate of 12.77 per 1,000 of the population, as compared with 15.08 for the preceding year.

By multiplying the crude death rate figure by an adjusting factor ("The Population Handicap") supplied by the Registrar General the Adjusted Death Rate is arrived at, i.e. the crude death rate adjusted, in so far as sex and age group components of the population are concerned, so as to make it comparable from a mortality point of view with the crude death rate of the country as a whole or with the mortality of any other local area similarly modified. The adjusted death rate for Maryport Urban District is excluded for 1947.

Comparisons of crude death rates are shewn below:—

Death Rates, 1947—Cumberland	13.8
Rural District of Cumberland	13.4
Urban Districts of Cumberland	14.3
England and Wales	12.0
Maryport Urban District	12.77

The Crude Death Rates for the past ten years in the Maryport Urban District were:—

Year—	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Rate—	12.77	15.1	12.9	12.2	11.8	14.0	13.3	17.4	13.3	14.6

## INFANTILE MORTALITY.

There were 8 deaths of infants under one year of age, 7 legitimate, which gives an Infantile Mortality rate of 26.40 per 1,000 births, as compared with 55.32 for the preceding year.

Comparisons may be given as follows:—

Infantile Mortality Rates, 1947.—	
Cumberland	42
Rural Districts of Cumberland	39
Urban Districts of Cumberland	46
England and Wales	41
Maryport Urban District	26

One death occurred among illegitimate infants so that the Illegitimate Infantile Mortality rate for 1947 was 50.0 per 1,000 illegitimate births, as compared with the Legitimate Infantile Mortality rate of 24.73 per 1,000 legitimate births. The latter rates were respectively Nil and 61.03 for 1946.

## CAUSES OF DEATH IN 1947.

Causes of Death	All Causes	Males	Females
		66	83
1. Typhoid and Paratyphoid Fever	...	0	0
2. Cerebro-Spinal Fever	...	0	0
3. Scarlet Fever	...	0	0

36. All other causes	...	5	14
Deaths of Infants under 1 year of age—Total	...	5	3
Legitimate	...	5	2
Illegitimate	...	0	1

The Infantile Mortality Rates for the past 10 years in the Maryport Urban District were:—

Year—	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Rate—	26.4	55.3	85.3	29.2	70.8	87.9	57.9	103	43	49.5

#### SENILE DEATH RATE.

67 persons had attained the age of 65 years or upwards. This number represents a Senile Death Rate of 44.96 per cent. of the total deaths as compared with 59.54 in 1946, 35.66 in 1945, 53.70 in 1944, 50.00 in 1943, 51.50 in 1942, and 35.40 in 1941.

12 ( 5m 7f) persons died between the ages of	65 and 70 years
14 ( 8m 6f)       "       "       "	70 and 75 years
18 ( 7m 11f)     "       "       "	75 and 80 years
12 ( 5m 7f)     "       "       "	80 and 85 years
8 ( 4m 4f)      "       "       "	85 and 90 years
3 ( 1m 2f)      "       "       "	90 and 95 years

#### INQUESTS, UNCERTIFIED DEATHS AND VIOLENCE.

In respect of deaths belonging to the district during the year there was one inquest.

3 deaths were uncertified (1946, 9.)

Inquests in past 10 years:—

Year—	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Inquests—	1	3	1	6	2	2	10	10	12	9

**Violence.**—With reference to the Violence death rate of 0.5 for this district, I give below a table showing the Number of deaths from Suicide, Other Violence, and the total violence deaths, together with the percentages of the total deaths from all causes and the death-rates of each per 1000 of the population for the past ten years:—

SUICIDE—										
Years	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Deaths	nil	2	1	0	0	1	3	1	1	nil
% all causes	nil	1.16	.69	0	0	0.62	1.9	.5	.65	nil
Death-rate—	nil	.17	.09	0	0	.09	0.25	0.09	0.08	nil
OTHER VIOLENCE—										
Deaths	6	3	9	11	4	4	9	19	3	6
% all causes—	4.03	1.73	6.29	8.20	3.03	2.48	5.7	9.5	1.9	3.6
Death-rate—	.51	.26	.81	1.00	.36	.35	.75	1.66	0.26	.53
TOTAL VIOLENCE—										
Deaths	6	5	10	11	4	5	12	20	4	6
% all causes—	4.03	2.89	6.09	8.20	3.03	3.1	7.6	10	2.6	3.6
Death-rate—	.51	.44	.9	1.00	.36	.44	1.0	1.75	0.35	.53

## INFANT MORTALITY DURING THE YEAR 1947.

Net Deaths from stated Causes at various Ages  
under 1 Year of Age.

CAUSES OF DEATH	Under 1 Week	1-2 Weeks	2-3 Weeks	3-4 Weeks	Total under 4 weeks	1-3 months	3-6 months	6-9 months	9-12 months	Total Deaths under One Year
Broncho-pneumonia								2	1	3
Premature Birth.	1				1					1
Congenital Malformations or Birth Injuries.	2				2					2
Whooping Cough							1			1
Suffocation (Accidental)								1		1
All Causes (certified)	3	0	0	0	3	0	1	3	1	8

As will be seen from the above table, 3 infants out of the 8 died before reaching the age of one month, and these 3 were also under one week old.

Respiratory Disease accounted for 4 of the deaths.

Infantile Deaths for the past ten years are:—

Year	—1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Deaths	— 8	13	18	7	15	16	12	20	8	9

At least one-half of the deaths were from causes that may be considered as preventable.

## CANCER.

Cancer proved fatal in 17 cases, as follows:—

	Males	Females	Average (approx)
Cancer of Buccal Cavity and Oesophagus	1	—	84
„ Uterus	—	1	82
„ Stomach and Duodenum	1	1	77
„ Breast	—	1	68
„ all other sites	5	7	66
	7	10	70

No. of the deaths occurred among persons between	20 and 30 years of age
0	30 and 40
2	40 and 50
0	50 and 60
7	60 and 70
4	70 and 80
4	80 and 90

The 17 deaths correspond to a death rate of 1.5 per 1,000 of the population as compared with 24 deaths and a death rate of 2.1 in 1946.

Out of every 8 deaths of persons in the district, one was due to cancer.

The cancer deaths and death rates for the past 10 years were:

Year—	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Deaths—	17	24	13	9	12	17	19	25	21	13
Rate —	1.5	2.1	1.2	0.8	1.1	1.5	1.6	2.2	1.9	1.2

## ZYMOTIC DISEASES.

The Zymotic Death Rate, or the death rate from the seven principal zymotic diseases for 1947 is .17 per 1,000 of the population as compared with .17 for the preceding year.

The following are the zymotic diseases referred to:—

Zymotic Disease.	No. of Deaths.
Smallpox	—
Measles	—
Whooping Cough	1
Diphtheria	—
Scarlet Fever	—
Fever:—Typhus	—
Typhoid	—
Para-typhoid	—
Diarrhoea under 2 years	1
Total	2

Table showing Zymotic Death Rates for past ten years:—

Year —	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Rate—	.17	.17	.18	.09	.18	.35	.08	.44	.18	.44

## TUBERCULOSIS.

There were 11 deaths due to Tuberculosis:—

	Males.	Females.
Pulmonary	3	7
Non-Pulmonary	0	1

The Total gives a tuberculosis (all forms) Death Rate of 0.64 per 1,000 of the population, as compared with 0.78 for 1946, 0.99 for 1945, 1.09 for 1944, 0.98 for 1943, 1.57 for 1942, 1.18 for 1941, and 0.96 for 1940.

All of the deaths were of previously notified cases in the Urban District of Maryport.

The "Consumption" (i.e. Pulmonary Tuberculosis) Death Rate is 0.86 per 1,000 of the population, as compared with 0.52 for 1946

The Pulmonary Tuberculosis Death Rates for the past ten years were:—

Year—	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Rate—	0.86	0.52	0.91	0.91	0.62	1.13	0.8	.7	.71	.89

## General Provision of Health Services in the Area.

### PUBLIC HEALTH STAFF.

1. Part-time Medical Officer of Health.

2. One full-time Sanitary Inspector, Mr. J. J. Pattison, who holds the certificate of (a) The Royal Sanitary Institute and Sanitary Inspectors' Examination Joint Board. (b) Royal Sanitary Institute as Inspector of Meat and other Foods. (c) the London City Guilds for Plumbing (1st Class).

3. One Assistant Sanitary Inspector, Mr. D. Logan, who holds the Certificate of the Royal Sanitary Institute and Sanitary Inspector's Examination Joint Board. The Council retain his services for Housing works.

The work of the Council's Surveyor and Water Engineer, Mr. H. Hillier is also, to a considerable extent, connected with this department.

### LABORATORY WORK.

The following table shows the amount of work done in connection with investigations of certain cases of illness during the year, 1947:—

Material	Test applied for—	Result	
		Pos.	Neg
Throat or Nose Swabs...	Diphtheria	0	4
Sputum	Tuberculosis	5	8
Throat Swabs	Hæmolytic Streptococci	1	4
	Spirochaetae Vincenti	0	3

The Cumberland Pathological Laboratory at the Cumberland Infirmary, Carlisle, was wholly made use of. The arrangement made whereby all specimens are to be dealt with by the Cumberland Pathological Laboratory is still in force.

Particulars relating to the following seven items (under the above heading) remain as detailed in the 1930 and subsequent reports:—

- (i) Hospitals.
- (ii) Nursing in the Home.
- (iii) Maternity.
- (iv) Clinics and Treatment Centres.
- (v) Institutional Provision for Unmarried Mothers, Illegitimate Infants, and Homeless Children.
- (vi) Institutional Provision for the care of Mental Defectives.
- (vii) Ambulance Facilities.

## Sanitary Circumstances of the District.

### WATER SUPPLY.

The filtration and chlorination plant at the Waterworks, Cockermouth, continues to work satisfactorily, and the water as distributed to the consumer remains of excellent quality and satisfactory quantity. One sample was bacteriologically and chemically examined during the year, the Laboratory Report of this being

#### Cumberland Pathological Laboratory Report.

Journal No. 5818.

#### Examination of Water.

Time and place of sample taken:—Water from tap at Town Hall.

#### Bacteriology.

Agar plate count	o.l.m.l. colonies	1 m.l. colonies	10 m.l. colonies

temporary	...	0.4
Chlorine present as chlorides	...	0.9
Heavy metals	...	0.00

Opinion: A pure and wholesome water.

J. Steven Faulds,  
Pathologist.

The supply is constant and 99.97% of the dwelling-houses in the district are supplied directly from the Works.

It has been estimated that the consumption of water was again approximately 29 gallons per head of the population per day throughout the whole area served by the Maryport Water Board (which included Maryport U.D., Dearham and Dovenby).

**Extension of Main.**—150 yards 2" and 130 yards of 3" water main were laid during 1947.

#### DRAINAGE AND SEWERAGE.

The system of drainage and sewerage remains the same. One conversion of an insanitary bottom outlet gulley to a modern side outlet gulley was made in 1947. 17 additional street gulleys were installed.

**Extension of Sewers.**—415 yards 12", 466 yards 9" and 377 yards 6" sewers were laid for the Ewanrigg and Flimby Housing Sites.

N.B.—The Sanitary Inspector made 236 visits to new buildings and 41 visits to old or existing buildings for the purpose of testing drains and sewers.

#### CLOSET ACCOMMODATION.

With the exception of 30 outlying houses (including farms), the water-carriage system is universal. The Sanitary Inspector continues to strive to get extra accommodation provided where necessary and reasonably possible. 133 W.C.'s were added to new and existing premises. The description of Sanitary Conveniences at the end of 1947 was as follows:—

Water Closets 2,973. Pail Privies 8, Midden Privies 22.

#### SCAVENGING AND REMOVAL OF REFUSE.

All arrangements made for collection and disposal of house and shop refuse, fish offal, etc., remained the same. Refuse continues to be disposed of by tipping, the two refuse tips in use being:—

- (a) One on the waste land to the West of the new road leading into Curzon Street from Grasslot for the old Urban District, and
- (b) One in Flimby, near the Council houses in that area.

#### SANITARY INSPECTION OF THE DISTRICT.

The Sanitary Inspection of the district is undertaken by the Sanitary Inspector, Mr. J. J. Pattison, whose Summary of Work Done, in accordance with Article 27 of the Sanitary Officers' Regulations, 1935, will be found at the end of this report.

My best thanks are again due to Mr. Pattison for his willing and valuable help at all times in the many problems constantly arising in the District. He deals with all matters promptly and efficiently and has untiring energy.

#### SHOPS.

105 visits of inspection to shops dealing in all classes of goods were paid by the Sanitary Inspector, including visits for the abatement of nuisances, etc., defects being found and remedied at 4.

## FACTORIES AND WORKPLACES.

109 visits were made to factories and 4 intimatory notices were necessary, relating to insufficient sanitary accommodation.

Premises	Inspec- tions	Defects Found	Written Notices	Defects remedied	Prose- cutions
Factories with mechanical power	40	2	2	2	—
Factories without " "	63	2	2	2	—
Other Premises under Act	6	—	—	—	—
Insufficient Sanitary Accommodation		4	4	4	—
Other Offences		—	—	—	—

**Workplaces.**—20 visits were made to Workplaces (being places other than Factories where persons are employed except in domestic service). In 2 instances defects amounting to nuisances were found and abated.

### PREMISES AND OCCUPATIONS WHICH CAN BE CONTROLLED BY BYE-LAWS OR REGULATIONS.

(a) **Offensive Trades.**—There are still 3 tripe boilers and 2 factories for kipper-curing. The premises have been kept in a satisfactory condition. Offal is still removed and disposed of privately by the firms concerned.

(b) **Moveable Dwellings and Camping Sites.**—There were no licences issued by the Council.

The Sanitary Inspector informs me he paid 26 visits to caravans during the two Fair weeks.

### OTHER SANITARY CONDITIONS REQUIRING NOTICE. SCHOOLS.

#### SANITARY CONDITION AND WATER SUPPLY.

The water supply at each school is satisfactory.

Trough closets are still in existence at the Grasslot School. The desirability of their conversion to modern pedestal closets is again pointed out.

22 visits were paid by the Sanitary Inspector to Schools mainly for the purpose of milk sampling, and nuisances were abated in three cases.

#### PORT SANITATION.

Again this does not call for special comment.

#### AMOUNT OF SHIPPING ENTERING THE PORT.

During the year 1947.

	Number.	Tonnage	Number Inspected	
			Medical Officer	Sanitary Inspector
FOREIGN—Steamers	98	19,692	—	30

#### SWIMMING BATHS AND POOLS.

In the district there are no (a) public (b) privately owned swimming baths or pools open to the public.

## ERADICATION OF BED BUGS.

Number of houses found to be infested :—

Council Houses, 0 ; Other houses, 2 ; Total houses disinfested, 2.

The method employed for disinfestation, carried out by the Sanitary Inspector, is that of spraying with a proprietary insecticide in an endeavour to destroy the majority of the vermin in the first place, after which the tenant is advised as to thorough cleaning of the house, the stripping off of wallpaper, cleaning of wire bed mattresses, etc. Usually after the stripping of walls, further spraying is carried out. Owners are later approached, if no further signs of vermin are observed, to repair plasterwork, etc.

The belongings of tenants before removal to Council houses are always examined and, in suspicious or definitely verminous cases, the furniture (including woodwork and spring mattresses of beds) are sprayed and then, together with bedding, thoroughly washed and cleansed by the tenant.

In all cases after disinfestation is carried out, tenants are advised as to the proper periodical cleaning of houses, including the regular dismantling and cleaning of beds. Where walls have been stripped, often of many successive layers of wallpaper, tenants are advised to redecorate the walls with distemper in preference to wallpaper.

One insecticide is used by the Sanitary Inspector with good results, viz. "Zaldecide."

4 visits were made in connection with bed bug eradication  
Two houses were sprayed out for ants.

## RATS AND MICE DESTRUCTION ACT, 1919.

The Council still hold the powers of the County Council under the Rats and Mice (Destruction) Act, 1919, which were delegated to and accepted by the Maryport Council in 1944. No statutory action was taken during the year as the Sanitary Inspector prefers to work with and assist occupiers of infested premises, using the technique and poisons recommended by the Infestation Division of the Ministry of Food.

32 visits were made by the Sanitary Inspector for the purpose of investigating complaints of infestation by rats and mice, advising occupiers as to the eradication of the vermin, laying poisoned baits etc. ; 42 rats were known to have been killed during the year.

The Sanitary Inspector also subjected the Council's refuse tip to one treatment for rat infestation.

## Housing.

Two private bungalows were built and seven private houses were commenced during the year.

A number of houses subject to Demolition Orders, and from which tenants have been rehoused, are still occupied illegally. It is hoped that the Council, when rehousing tenants from these unfit houses in the future, will rigidly enforce the provisions of the Housing Act to prevent re-occupation and effect the complete demolition of the premises within a reasonable time.

By the end of year, the Council had completed 110 houses of the 193 to be erected at Netherton. In addition, work was commenced on 92 houses and roads and sewers for 100 houses at Ewanrigg.

## Housing Appendix.

### STATISTICS

- 1 Inspection of Dwelling-houses during the year:—
- (1) (a) Total number of dwelling-houses inspected for housing defects (under Public Health or Housing Acts ..... 853
- (b) Number of inspections made for the purpose 1116
- (2) (a) Number of dwelling-houses (included under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 and 1932 0
- (b) Number of inspections made for the purpose 0
- (3) Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation 0
- (4) Number of dwelling-houses (exclusive of those referred to under the preceding sub-heading) found not to be in all respects reasonably fit for human habitation 0
- 2 Remedy of Defects during the year without service of formal Notices:—
- Number of defective dwelling-houses rendered fit in consequence of informal action by the Local Authority or their Officers 0
- 3 Action under Statutory Powers during the year:
- (a) Proceedings under Sections 9, 10 and 16 of the Housing Act, 1936—
- (1) Number of dwelling-houses in respect of which notices were served requiring repairs 0
- (2) Number of dwelling-houses which were rendered fit after service of formal notices:—
- (a) By owners 0
- (b) By Local Authority in default of owners 0
- (b) Proceedings under Public Health Acts:
- (1) Number of dwelling-houses in respect of which notices were served requiring defects to be remedied 38
- (2) Number of dwelling-houses in which defects were remedied after service of formal notices:—
- (a) By owners 38
- (b) By Local Authority in default of owners 0
- (c) Proceedings under Sections 11 and 13 of the Housing Act, 1936:—
- (1) Number of dwelling-houses in respect of which Demolition Orders were made 0
- (2) Number of dwelling-houses demolished in pursuance of Demolition Orders 0

(d)	Proceedings under Section 12 of the Housing Act, 1936—	
(1)	Number of separate tenements or underground rooms in respect of which Closing Orders were made	0
(2)	Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit	0
4	Housing Act, 1936, Part iv.,—Overcrowding:—	
(a)	(i) Number of dwellings overcrowded at end of year	137
	(ii) Number of families dwelling therein	150
	(iii) Number of persons dwelling therein	908
(b)	Number of new cases of overcrowding reported during year	15
(c)	(i) Number of cases of overcrowding relieved during year	25
	(ii) Number of persons concerned in such cases	115
(d)	Particulars of any cases in which dwellinghouses have again become overcrowded after the Local Authority have taken steps for the abatement of overcrowding	nil

(e) Certificates of Permitted Numbers have been supplied for 2,337 houses and a total of 2,799 houses have been surveyed since the Housing Act came into force. The new overcrowding survey was completed during the year for Maryport, and Flimby, and of 2,712 houses visited, 137 or 5.05 per cent. are overcrowded.

The Council take overcrowding into consideration when letting Council houses.

## Food.

### MILK SUPPLY.

There were 24 registered premises, situated in the district, on the register, including: 3 producers and wholesalers; 12 producers and retailers; 2 producers, wholesalers and retailers; 3 producers, buttermakers and retailers; 4 retail purveyors. Also there were 3 retailers whose premises are situated outside the urban area.

There is one "Tuberculin Tested" milk producer in the area, viz. C. Greggains, Camp Farm.

Licensed "Accredited" milk producers in the area are:—

R. Scott, Moorside Farm; T. Anderson, Woodside Farm;  
J. Holliday, Ellenborough Farm.

A retailer's licence to sell "Pasteurised" Milk was granted to The Maryport Co-operative Wholesale Society.

Altogether 55 samples of milk were taken in the Urban District and submitted to the Cumberland Pathological Laboratory, Carlisle, for bacteriological examination. In accordance with an arrangement with the County Council, the sampling of designated milks 4 times per year, and producers supplying Schools 3 times per year, as well as 50 routine samples (including repeat samples) was aimed at. Duplication of samples was avoided in the case of designated milks being supplied to schools, one sample being taken in such instances and serving the purposes of a designated and a school sample. In effect, therefore, the 55 samples represented:—

9 school, 36 designated, 29 routine, and 7 repeat samples.

Of the above 55 samples, 40 came up to Accredited standard, and 15 failed to reach Accredited standard as follows:—

	Accredited Standard.	Below Accredited Standard.	Totals.
Milk produced in Urban District	21	10	31
Milk produced in other districts	19	5	24
	—	—	—
	40	15	55

No Tubercle Bacilli were reported as being present in any sample.

On a sample of milk being reported as tubercular, a thorough investigation is made and suitable action taken by the Veterinary Officers of the Ministry of Agriculture and Fisheries. I am kindly informed by Mr. John Reid, Veterinary Officer of that Authority, that in so far as the Urban District of Maryport was concerned, no cow was slaughtered under the Tuberculosis Order, 1938, during the year under review.

76 visits were made during the year to farms, cowsheds and dairies, including visits for sampling, repeat sampling and investigating the causes of dirty samples.

Where the results are unsatisfactory as to cleanliness, the attention of the producer is drawn to the requirements regarding precautions to be taken in connection with the production and handling of milk, and if a purveyor only is involved, suitable precautionary measures are discussed with him.

#### MEAT AND OTHER FOODS.

All the slaughtering was carried out at the Public Abattoir during 1947, under the Regional Scheme of the Ministry of Food. The general supervision and inspection continues to be satisfactory and all animals slaughtered were inspected at the time of slaughtering or before removal from the Abattoir.

As many as 304 visits of inspection were made by the Sanitary Inspector to the Maryport Abattoir, and the following slaughtering took place:—

Beasts.	Sheep.	Pigs.	Calves.
1,841	5,673	23	1276

There are 27 licensed slaughtermen in the Maryport Urban District.

The amount of food condemned and disposed of as being unfit for human consumption was as follows:—

Beef (including offal)	...	70,101	lbs.
Mutton (including offal)	...	3,366	
Pork (including offal)	...	723	
Veal	...	2,288	
Imported Beef	...	337	
<b>Total Meat</b>		<b>76,815</b>	
Fish etc.	...	3,058	
C.O. Beef	...	1,171	
Other Canned Goods	...	357½	

With reference to the foregoing figures:—

The 3,058 lbs. of fish, all in a state of decomposition included 70lbs. cured fish, 70lbs. kippers and 112lbs. prawns.

The canned goods comprised Fish, Fruit, Jam, etc., Meat, Milk, Pickles, Soups and Vegetables.

In addition, the following foods were condemned as unfit for human consumption:—

Bacon and Ham	...	11¾	lbs.
Barley Flakes	...	6	
Butter	...	1	
Cake Mixture	...	2½	
Chocolate Fudge	...	48	
Cucumbers (Barrelled)	...	2016	
Flour (including Self-raising)	...	108	
Macaroni	...	40	
Milk (Dried)	...	½	
Oatmeal	...	16	
Peaches (Dried)	...	75	
Prunes	...	100	
Sausages	...	1¾	
Shredded Wheat	...	5	
Sultanas	...	3	
Tea	...	8	
<b>Total</b>		<b>2442½</b>	

All the food material was surrendered voluntarily by the tradesmen concerned.

**Bakehouses.**—There are 19 bakehouses on the register, 9 of which may be considered non-domestic in type. 22 visits were made and no defect was found.

**Other Premises Where Food is Prepared.**—26 inspections were made by the Sanitary Inspector to Fish and Chip Saloons, 12 visits to ice cream shops were also made.

The Sanitary Inspector records 40 visits of inspection to the weekly markets held on Fridays

## Prevalence of, and Control over Infectious Diseases.

**Notifiable Infectious Diseases.**—The total number of Infectious Diseases notified during 1947, including Pulmonary and other forms of Tuberculosis, Pneumonia, Ophthalmia Neonatorum and Encephalitis Lethargica, was 287, as compared with 179 for 1946.

### NOTIFIABLE DISEASES, 1947.

Disease	Total cases notified	Cases notified 1947 admitted to Hospital	Deaths
Small-pox ...	0	0	0
Diphtheria ... ..	0	0	0
Scarlet Fever ...	33	22	0
Enteric Fever (including Para-Typhoid)	0	0	0
Puerperal Pyrexia ...	1	1	0
Pneumonia	0	0	0
Measles	225	0	0
Whooping Cough	9	0	1
Erysipelas ...	1	0	0
Acute Poliomyelitis ...	3	3	0
Ophthalmia Neonatorum	1	0	0
<b>Tuberculosis—</b>			
(Pulmonary) Males	5	4 (San.)	1
Females	5	1 "	2
Total	10	5	3
(Non-Pulmonary) Males	2	2 (Hosp)	0
Females	2	0	0
Total	4	2 "	0

The following table gives the monthly incidence of notifications during 1947 of diseases shown.

	Jan	Feb	Mar	Apr	May	Jun	July	Aug	Sep	Oct	Nov	Dec.	Total
Scarlet Fever	5	3	2	1	2	1	1	2	4	7	4	1	— 33
Diphtheria													— 0

Scarlet Fever was more in evidence, there being 33 notifications as against 28 in 1946. No death occurred among these. 22 of the cases were removed to an Infectious Diseases Hospital. Whenever possible scarlet fever cases are nursed at home.

No Diphtheria case was notified in the district, as was also the case in 1946. During the year 132 children (under 15) were immunised against Diphtheria.

There was no notification of Pneumonia. The total deaths recorded from the disease (all forms) numbered 3.

Puerperal Notifications. Puerperal Pyrexia, 1.

There were no maternal deaths in 1947. The Maternal Mortality Rate per 1,000 total (live and still) births for 1947 was nil. The rate (1947) for England and Wales was 1.17.

Ophthalmia Neonatorum 1 : Cerebro-Spinal Meningitis 6;  
Poliomyelitis 3, notifications received.

**Tuberculosis.**—Under the Tuberculosis Regulations 10 cases of Tuberculosis of the Lungs (5 males, 5 females), were notified during the year. Three of the above cases proved fatal (1 male, pulmonary, and 2 females, pulmonary). Five of the above Pulmonary cases (4 males, 1 female) were admitted to a Sanatorium.

The following table gives the number of New Cases and Mortality (all cases) during 1947 :—

1947 Ages	New Cases				Deaths			
	Respiratory		Non-Respiratory		Respiratory		Non-Respiratory	
	M	F	M	F	M	F	M	F
1—5 years	...		1					
5—10	...			1				
10—15	...							
15—20		2				1		
20—25	2	1				1		1
25—35	...	2	2	1	1	1	4	
35—45	...					1		
45—55	...				1			
55—65	...	1			1			
65 and upwards	...							
Totals	5	5	2	2	3	7	0	1

A statement regarding the total deaths from Tuberculosis will be found on page 12

The number of cases on the Tuberculosis Register at the end of 1947 was as follows :—

	Males	Females	Total
Pulmonary	34	33	67
Non-Pulmonary	16	24	40
All cases	50	57	107

In the urban district, notification of Tuberculosis is always efficient.

The following table gives the age incidence of each disease notified during the year.

Notifiable Disease.		Cases notified in 1947.												
		Ages—years												
		At all Ages	Under 1 year	1-2	2-3	3-4	4-5	5-10	10-15	15-20	20-35	35-45	45-65	65 & upwards.
Smallpox														
Diphtheria														
Scarlet Fever		33			2	4	1	19	4	3				
Puerperal Pyrexia		1												
Measles		225	15	22	31	41	50	60	3	3				
Whooping Cough		9	1	3	1	2		2						
Erysipelas		1												1
Pneumonia

Malaria														
Polio myelitis		3		1				1				1		
Tuberculosis—														
Pulmonary M.	...	6									4	1	1	
F.	...	5						1	1	3				
Non-Pulmonary M.	...	1												
F.	...	1						1						
		Ages at death during the year												
Whooping Cough		1	1											
Diarrhoea under 2 years		1	1											
Tuberculosis—														
Pulmonary M.	...	3									1			2
F.	...	7							1	5	1			
Non-Pulmonary M.	...	0												
F.	...	1								1				

The following is a Table comparing Infectious Diseases (excluding Ophthalmia Neonatorum, Chickenpox and Pneumonia) notified in 1947 with those in the previous 10 years.

Disease.	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938	1937
Smallpox											
Diphtheria	0	0	11	5	6	1	6	3	1	11	8
Scarlet Fever	33	28	61	13	27	5	9	10	34	29	20
Typhoid (including para-Typhoid)	0	1	0	0	0	0	0	0	2		1
Puerperal Pyrexia	1	2	1	1	1	4	3	3	1	5	
Erysipelas	1	0	0	2	0	1	3	1	2		4
Ac. Poliomyelitis	3							2	1		
Encephalitis Lethargica											
C.-S. Meningitis					0	3	1	2	1		
Tuberculosis:—											
Pulmonary	10	11	10	16	13	22	13	18	11	13	7
Other Forms	4	2	2	4	4	4	3	0	2	5	3

Pamphlets relating to certain diseases, e.g. Measles, Scarlet Fever, Diphtheria, etc., are distributed when considered advisable. Instructions regarding the common notifiable diseases are given where each case occurs, along with special warnings under the Public Health Act, 1936.

Measles was very evident during the Summer but no death from the disease occurred. The death rate from Measles per 1,000 of the population was nil, that for England and Wales being 0.01.

Measles deaths for past 10 years:—

Year—	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Deaths—	nil	nil	1	nil	nil	nil	nil	1	nil	4

Whooping Cough was less in evidence, there being 9 cases, but there was one death. The death rate from this disease per 1,000 of the population was, therefore, .09, that for England and Wales being 9.02

Whooping Cough deaths for past 10 years:—

Year—	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938
Deaths—	1	nil	nil	1	0	2	1	3	nil	nil

### SCHOOL CLOSURES.

No school was closed during the year for epidemic disease.

Summary supplied by the Sanitary Inspector to the Medical Officer of Health, in pursuance of Article 27 (18) of the Sanitary Officers' (Outside London) Regulations, 1935.

## Sanitary Inspectors' Summary for the year ending December 31st, 1947

### NUISANCES:—

Complaints received .....	250
Nuisances observed .....	320
Nuisances abated .....	310
Nuisances unabated or work in hand .....	10
Sanitary Conveniences repaired .....	53
Drains tested .....	4
New drains laid and tested .....	19
New gully traps fixed .....	12
New chambers constructed .....	5
New water closets fixed .....	10

### INFECTIOUS DISEASES:—

Visits to infectious cases .....	88
Patients removed to Isolation Hospital .....	28
Houses disinfected .....	32

### WATER SUPPLIES:—

Old connections and service pipes renewed ... ..	46
New connections to mains ... ..	84
Burst water pipes repaired on informal notice ... ..	93

### HOUSING:—

Houses inspected under the Housing Acts .....	643
Number of inspections made .....	796
Number of houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation .....	0
Houses (not including the above) with structural or other defects .....	0
Houses, defects remedied .....	0
Number of dwelling houses demolished in pursuance of demolition orders .....	4
Houses inspected under Public Health Acts .....	210
No. of Visits made under the Public Health Acts .....	320
Number of houses with defects amounting to nuisances .....	301
"          " (nuisances abated) .....	290
Representations for closing or demolition .....	0
Closing Orders served .....	0
Closing Orders determined .....	0
Demolition Orders .....	0

**SEWERAGE and NEW BUILDINGS.—**

New Sewers laid and tested	...	...	28
New Drains laid and tested	..	...	823
New Chambers	...	...	289
New Water Closets	...	...	123
Private drains connected to Public Sewers	...	...	93
New Gully Traps fixed	...	...	376
New Street Gully Traps fixed	...	...	17

**DAIRIES AND COWSHEDS, Etc.:—**

On the Register at the end of the year,—24 as follows:—

Producers and Wholesalers	...	...	3
Producer, Wholesaler and Retailer	...	...	2
Producers, Butter makers and Retailers	...	...	3
Producers and Retailers	...	...	12
Retail Purveyors	...	...	4
Retailers in the district whose premises are outside district	...	...	3
Visits of Inspection, etc.	...	...	76
No. of samples of Milk taken for Bacteriological Examination	...	...	55
Found Unsatisfactory as to cleanliness	...	...	15
Found to contain Tubercle Bacilli	...	...	0

**SLAUGHTER-HOUSES AND MEAT, Etc., INSPECTION:—**

No. of Licensed Slaughtermen	...	...	27
No. of visits to Slaughter-Houses for carcase inspection and enforcing regulations, etc.	...	...	304
Meat condemned and destroyed	(lbs )		
Beef (including offal)	...	70,101	
Mutton " "	...	3,366	
Pork " "	...	723	
Veal " "	...	2,288	
Imported Beef	...	337	
	Total	76,815	
Fish condemned and Destroyed	3058	lbs.	
Canned Goods	1528½	"	
Other Food	2442½	"	

**FACTORIES, etc.—**

Visits to the various premises during the year:—

Factories	...	...	87
Workplaces	...	...	20
Bakehouses	...	...	22
Fish and Chip Saloons	...	...	26
Offensive Trades	...	...	5
Fish Curing Premises	...	...	5
Ice Cream Shops	...	...	12

**CONTROL of HOUSE and TRADE REFUSE.—**

Visits to the various Tips in the area:—

Curzon St. Tip	...	...	13
Flimby Tip	...	...	7

Total 20

**NOTICES SERVED.—**

Under the Public Health Acts (Informal)	...	...	388
