(1) WATER SUPPLY

Number of Samples taken for Analysis:-

(a) from piped supply	4
(b) from wells	Nil

Two samples of water for bacteriological examination and two samples for chemical analysis from the piped supply were all satisfactory. The reports obtained show that the water supply was satisfactory as regards quality, and no serious shortage of supply was experienced, but it is hoped that the negotiations for an additional supply will soon reach a successful conclusion in order to meet the rapidly increasing demands of the Town.

During the year a piped supply from the water mains was substituted for a supply from a well where previous samples had shown that the well water was unsatisfactory.

(2) DRAINAGE AND SEWERAGE

No. of Cesspools in District at the
end of 1951 6

No new cesspools were constructed during the year.

(3) CLOSET ACCOMMODATION.

(b) Water Closets	...	3,880

(4) PUBLIC CLEANSING

House refuse is collected by direct labour for disposal at the Destructor Works. Practically all houses are provided with movable dustbins.

House refuse and salvage material are collected as far as possible weekly throughout the area, and larger accumulations are collected as requested.

Good progress was made on the salvaging of all classes of materials, the value of the salvage dealt with during the year 1951 being £3,928.

Summary Action :-

Proceedings were taken against a firm for non-compliance with a notice to abate a nuisance arising from effluvia or fumes given out in the process of manufacture of glass marbles.

Production of these marbles ceased before the Court hearing and as the nuisance did not then exist, no Nuisance Order was made. The firm concerned did not recommence production and the premises were later taken over by a firm of engineers.

SHOPS

Action taken under the provisions of the Shops Act, 1950 :-

Seven defects were found relating to sanitary conveniences and washing facilities and five were remedied.

4. Housing Act, 1936, Part IV - Overcrowding.

Complete details of all overcrowding in the District cannot be given, but from the information supplied by over 600 applicants for Council houses, there are many cases of overcrowding, and the position is still difficult.

During the year, ten families have been transferred to Council Houses. Consideration has also been given to applications from Council House tenants who require a larger house and other cases where a smaller type of house would meet their need, and in order to make the fullest use of available accommodation, fourteen Council House exchanges have been effected.

The total number of persons rehoused, excluding Council House exchanges is 34, and the number of persons rehoused in Council House exchanges is 56, a total of 90.

In addition to conditions of overcrowding, there are a number of houses in the Town where the structural and general conditions are so unsatisfactory that it will be necessary to consider the making of demolition orders and the rehousing of the tenants in such cases.

The following Foods were condemned and voluntarily surrendered:-

283 lb. of Fish; 364 lb. of Other Foods; and 3,187 tins, jars and bottles of various Foods.

The tins condemned included 68 large tins of imported cooked ham, nett weight $960\frac{3}{4}$ lb., and 1,472 tins of one brand of imported cherries.

The tins of cherries appeared quite sound externally but when opened the contents had a strong "metallic" taste and smell due, in the Analyst's opinion, "to hydro-carbons formed by the action of the acid fruit juice on the tin container and rendered the food not of a suitable quality for human consumption." As a result of information passed to, and action taken by, the Food Inspector for the district where the importer's warehouse was situated, the whole of the consignment was withdrawn from sale.
