Chairman:

Mr. D.H. Jones

Vice-Chairman:

Mr. J.E. Porter F.R.V.A.

Councillors:

Mr. J. Littlewood
Mrs J. Morris
Mr. A.J. Selby
Mr. G.R. Towell
Mr. H.W. Webb
Mr. W.A. Wilson

Mr. J.M. Archer
Mr. B.A. Carter
Mrs V. Gell
Mr. G.Y.C. Green
Mr. J.W. Greenhalgh
Mr. T.W. Jones
Mr. F.W. Kayworth

PUBLIC HEALTH OFFICERS OF THE AUTHORITY

C. McHugh, B.Sc., M.B., Ch.B., D.T.M. & H., D.P.H., D.I.H.
Medical Officer of Health

P.R. Raymond, M.A., B.Sc., Public Health Inspector's Diploma.
Chief Public Health Inspector and Food Inspector.

T.I. Galloway, B.Sc., Public Health Inspector's Diploma.
Assistant Public Health Inspector.

Mrs G. Webb,
Clerk.

To the Chairman and Members of the Council.

Ladies and Gentlemen,

I have the honour to present the Annual Report for the year 1970.

The population of the town has increased by 190 during the year, from 18,440 in 1969 to 18,630 in 1970.

The Birth Rate dropped to 17.3 per 1000 population from 18.4 per 1000 population in 1969. The figure for England and Wales is 16.0 per 1000 population. The actual number of births in this Urban Area for 1970 was 174 boys and 149 girls, totalling 323 live births. These figures represent a drop from 176 boys and 164 girls, totalling 340 born during 1969.

The Illegitimate Births numbered 11 babies. This represented 3 per cent of all live births. The comparative percentage for England and Wales was 8 per cent. Last year the figure in Melton was also 3 per cent.

The Death Rate for 1970 was 12.2 per 1000 population. This was an increase from last year which was 11.8 per 1000 population. For England and Wales the death rate was 11.7 per 1000 population. The actual numbers who died were 129 males and 98 females. This means that the death rate increased whilst the average for the country decreased slightly and that the number of males dying during 1970 increased by 17 whilst the deaths in females fell to 98. There was an overall increase in the number dying, 227 people compared with 218 dying in 1969.

Eight babies under 4 weeks died. From this age until the age of 45, a further 9 people died, mainly due to some kind of accident. Between the ages of 55 years to 64 years, 35 people died and between 65 and 74 years 65 people died. Over the age of 75 years, there were 98 deaths.

The Infant Mortality Rate, that is deaths occurring under 1 year, was 31 per 1000 live births. This has increased from 18 per 1000 live births in 1969.

There were 11 illegitimate births in 1970 with 1 illegitimate death under 4 weeks. This means that the illegitimate infant deaths per 1000 illegitimate live births was 91 for the year 1970.

The Maternal Mortality was NIL. The chief causes of death were Ischaemic heart disease (45), cerebro vascular disease (35), malignant neoplasm (37), bronchitis and other diseases of the respiratory system (24) and other forms of heart disease (22). The deaths due to malignant causes began in the age group 45 to 54 years and the majority of the other causes was to be found in the older age groups.

Infectious diseases during 1970 totalled 133 as against 72 in 1969. The increase was due to measles which numbered 121, whereas the figure for 1969 was 46 cases. Although the vaccination against measles has been in use for some time, there has been an increase in the incidence of the disease. Every effort is necessary to ensure that all non-immune children are vaccinated.

Scarlet Fever and Infective Hepatitis both decreased in incidence from 6 and 10 cases to 2 cases respectively. There was no case of Typhoid Fever.

Smallpox was absent although a visitor from an infected area gave us the run-around until he was traced. He was found to have been vaccinated.

Cholera was also absent, but interest in this disease was widened by the knowledge of one case arriving in England.

German Measles (Rubella) is not a notifiable disease but the Rubella vaccination was recommended by the Ministry in 1970.

There was one case of Non-respiratory Tuberculosis. Amongst the school children offered vaccination against Tuberculosis with B.C.G. vaccine, 729 skin tests were done and 677 children were vaccinated against Tuberculosis. Further children had their chests X-rayed, and all with negative results.

Although Influenza is not a notifiable disease, I must mention that during 1969 and the early part of 1970 there was an upsurge of Influenzal cases reaching epidemic proportion.

The section of the report on environmental hygiene was prepared by Mr. Raymond, your Chief Public Health Inspector. This section is full of interest and I am gratefully indebted to him and also to the Public Health staff for their continued interest and enthusiasm with which they worked throughout the year.

Lastly, I would like to say how grateful I am for the interest and support given throughout the year by the members of the Council to the work of the Public Health Department.

G. McHUGH

Medical Officer of Health.

GENERAL STATISTICS

Area (in acres) - - - - -	5,699

VACCINATION AND IMMUNISATION PROCEDURES

The following immunisation/vaccination procedures were carried out during the year by Medical Practitioners:-

Diphtheria, Whooping Cough, Tetanus, Poliomyelitis and Smallpox.

B.C.G. vaccination (against tuberculosis) of school children was carried out during the year at the following three schools:

Sarson High, Ferneley High and the Melton Mowbray Upper School.

As B.C.G. vaccination was not carried out during 1969 there were double numbers this year.

<u>Number of Pupils</u> <u>Skin Tested</u>	<u>Result</u>		<u>Vaccinated</u>	<u>X-rayed</u>
	<u>Pos.</u>	<u>Neg.</u>		
729	91	638	677	12

X-rays of the chest were carried out at the Melton Chest Clinic and all the results were found to be sound.

Ambulance Facilities: Home Nursing Service: Home Help Service:
Maternity and Child Welfare: School Health Services: Child Life
Protection: Personal Health and Welfare Services:

The Leicestershire County Council is the responsible authority for administration of these services.

National Assistance Act, 1948, Section 47

No action taken during the year.

SANITARY CIRCUMSTANCES OF THE AREA

I am indebted to Mr. P. Raymond, Chief Public Health Inspector, for the following information:

WATER SUPPLY

The water undertaking is under the control of the City of Leicester, and the supply has been satisfactory as regards quantity and quality.

Nine samples of mains water supplies taken for bacteriological examination were reported as satisfactory.

There is no indication of any tendency to plumbo-solvent action in the piped supplies.

Except for a small number of isolated premises the dwellinghouses have an internal mains water supply.

SANITARY INSPECTION OF THE AREA

Total number of complaints received..... 172

Number of premises at which defects
or nuisances were dealt with..... 257

VISITS AND INSPECTIONS

Animal Keeping.....	9
Bakehouses.....	6
Dairies.....	8
Drainage works.....	52
Dwellinghouses (all purposes).....	367
Infectious disease inquiries.....	61
Food Poisoning inquiries.....	8
Food premises.....	74
Rodent control.....	163
Shops and Offices.....	92
Abattoir and meat inspection.....	684
Caravans.....	14
Factories and workplaces.....	23
Other inspections.....	<u>146</u>

Outstanding 31st December.....	2	-

Statutory

Outstanding on 1st January.....	2	-
Issued during year.....	2	-
Complied with during year.....	4	-
Outstanding 31st December.....	-	-

18 samples of water were taken for bacteriological examination from the Urban District Council's Public Swimming Bath and from the children's open air paddling pool owned by the Town Estate.

The results of the samples were satisfactory.

RODENT CONTROL

121 minor rats or mice infestations, reported or discovered have been dealt with and surveys made in conjunction with these infestations. Sections of the main sewers in the district have been test baited and treatments carried out to deal with rat infestations.

MOVEABLE DWELLINGSCaravan Sites & Control of Development Act, 1960

No new site licenses were issued during the year. There is one privately owned licensed site for a maximum of 20 vans. Several vans have had to be moved from unlicensed sites.

PET ANIMALS ACT, 1951

Two premises are licensed under the Act.
The conditions are satisfactory and no contraventions were found.

OFFICES, SHOPS and RAILWAY PREMISES ACT, 1963
