MILNROW URBAN DISTRICT COUNCIL

Annual Report of the Public Health Inspector

for the year 1967

Mr. Chairman, Ladies and Gentlemen,

I have much pleasure in submitting to you my fourth Annual Report.

In February, Mr. R. Mills commenced duties as a full-time Meat Inspector. This appointment had been found necessary in order that 100% meat inspection could be maintained at the four slaughterhouses, the situations of which are widespread throughout the District. The introduction of controlled hours of slaughtering in August further assisted the maintenance of full inspection. Two objections were made, to the Council's proposals to impose the hours of 8.00 a.m. to 5.30 p.m. Monday to Friday, in respect of the slaughterhouses at Fern and 82, Huddersfield Road and in considering these objections the Minister ruled that the hours proposed be extended to include 8.00 a.m. to 12.30 p.m. Sat. The owners of the slaughterhouses at Bridge Street and 106, Huddersfield Road not having lodged an objection adhered to the hours originally proposed. In my opinion, if adequate, temperature controlled storage space was provided, Saturday slaughtering would be quite unnecessary. Apart from emergency killing, which is permissible outside controlled hours, there have been very few requests for slaughtering to be carried on at times other than those enforced, the reasons given for the requests have been seasonal demands, e.g. Christmas, and the delay or breakdown of vehicles delivering animals, etc. In every case the request was agreed to.

While I had hoped to be able to report a greater reduction in the number of pail closets in the District, there has at least been some reduction, there now being 100 such closets compared with 110 last year. None of these closets are situated within reasonable distance of a sewer, the provision of septic tanks would therefore be necessary. The number of enquiries received regarding the installation of septic tanks suggests that the rate of decrease of pail closets will be at least maintained and possibly accelerated.

There was some reduction in the mileage travelled by the refuse collection vehicles, this was the result of the replacement of the 11-15 cu. yard rear loading vehicle on one round by a larger capacity 20 cu. yard dual tip collection vehicle, this reducing the number of journeys to the tip. The introduction of this vehicle was also partly responsible for the improved service during the year when, during the latter part of the year, a weekly collection was maintained. The credit for this improved service must however be mainly due to the collectors themselves. The improvement dates back to the time when new crews were formed round the small nucleus of conscientious men already employed, the new teams then maintained a high standard of collection often in atrocious weather conditions and took some pride in claims made by ratepayers that "you can set your clock by them". There has been an increasing number of residents taking advantage of the free service provided by the Council for the removal of bulky household waste, e.g. furniture, cookers, etc. I feel that this service has done much to reduce indiscriminate dumping throughout the District.

Since becoming responsible for the removal of abandoned vehicles in the second half of the year, the Department dealt with 20 such vehicles. 17 of these were removed by owners after requests from the Department and 3 by the Council. A great deal of time, and consequently ratepayers money, has been wasted by both the Health Department staff and the Police in tracing owners of abandoned vehicles, it is hoped that more car owners will be deterred from dumping their vehicles by the heavy fines now imposed by the Civic Amenities Act, and will take advantage of the removal and disposal service offered by the Council.

cont'd...

MINUTES OF THE HEALTH COMMITTEE

I wish to express my sincere thanks to the Chairman and Members of the Health Committee for their help and consideration in carrying out my duties. I also wish to record my thanks to Mr. Evans, Mr. Mills and Mrs. Loriner for their valuable assistance during the year.

I am,
Yours faithfully,

H. JOHNSON,

Senior Public Health Inspector.

There was also a report from the Public Health Inspector regarding the results of the collection of dog licences for the year 1934. It was stated that the number of licences collected was 11,000, which was an increase of 10% on the previous year. The Public Health Inspector also reported that the number of dogs licensed was 11,000, which was an increase of 10% on the previous year. The Public Health Inspector also reported that the number of dogs licensed was 11,000, which was an increase of 10% on the previous year.

ENVIRONMENTAL HEALTH

Sanitary Circumstances of the Area

Housing

Number of Houses erected during the year	
By other bodies	181
By Local Authority	12

Inspection of dwellinghouses during the year

Total number of dwellinghouses inspected for housing defects (under Public Health or Housing Acts)	194
Number of inspections made for that purpose (incl. R.V's)	364
Number of dwellinghouses found to be in such a state as to be dangerous or injurious to health	8
Number of dwellinghouses (excluding those referred to under preceeding sub-heading) found not to be in all respects reasonably fit for human habitation but capable of being rendered fit.	103

Remedy of defects during the year without the service of formal notice

Number of defective dwellinghouses rendered fit in consequence of informal action by the Local Authority or its officers.	88
---	----

Action under Statutory Powers during the year

Proceedings under Public Health Act.	
Number of dwellinghouses in respect of which formal notices were served requiring defects to be remedied.	16
Number of dwellinghouses in which defects were remedied after service of formal notice.	
(a) by owner	15
(b) by Local Authority in default of owner	-

Proceedings under Housing Acts

Number of dwellinghouses in respect of which Demolition Orders were made	8
Number of dwellinghouses demolished in pursuance of Demolition Orders	6

Housing Act, 1947 Part IV - Overcrowding

Number of dwellinghouses overcrowded at the end of the year.	Nil
Number of families therein	Nil
Number of cases of overcrowding reported during year	Nil
Number of cases of overcrowding relieved during year	Nil

Houses in the district and their Sanitary Conditions

Water Supply

The water supply for the district is from Rochdale and Oldham Corporations. The statutory water undertaking being Rochdale. The water is from the Moorland gathering ground. Of the 3823 houses of the district 3660 are supplied from the mains. The houses not receiving mains water are those scattered throughout the outer fringe where there are no water mains and are farm houses and small hamlets. The supplies being from private wells and springs.

Sampling

12 samples were taken from public and private water supplies for bacteriological examination, of these, the water from five private supplies proved to be unfit, treatment of supply or alternate supply was arranged.

There are no stand pipes in the district.

Other action or points of interest - Sewer treatment carried out by private contractors. Sewer infestation only slight due to surcharging of sewers particularly during heavy rainfall.

Particulars of other infestations under the Act (as defined in Section 28) - 5 cockroach infestations dealt with.

Factories

There are 51 factories in the district made up as follows :-

Bakers	5
Bleaching and Dyeing	3
Core Oils and Foundry Machinery renovation	1
Cotton Spinning	4
Cotton Waste Spinning	2
Electric Components	1
Engineering	5
Handicrafts	1
Hemming and Packing Blankets	1
Joiners	5
Laundry	1
Motor repair garages	4
Non Ferrous Foundry	1
Paper Tube Manufacturers	1
Plastic Bag Manufacturers	1
Portable Buildings	1
Printers	2
Slaughterhouses	4
Spring Makers	3
Surgical cotton manufacturers	1
Waste Recovery	1
Woodwork machinists	1
Wool sorter	1
Precast Concrete	1

Defects

The sanitary accommodation was found to be in an unsatisfactory condition at one factory, the defects were remedied after verbal cautions were given.

Schools

There are 5 schools in the district, all these have fresh water closets.

Inspection and Supervision of Food

Food Shops

There are 102 food premises; 81 visits have been made to these premises.

Food Premises

<u>Type of Business</u>	<u>No</u>
Bakers and Confectioners	10
Butchers	8
Fried Fish & Chip	6
Greengrocers	7
Grocery and Provisions	24
Sweets and Soft Drinks	3
Restaurants, canteens and snack bars	11
Licensed premises - public houses and clubs	25
Others	8
	<u>102</u>

Inspection of Meat and Other Foods

Slaughterhouses

There are four private slaughterhouses in operation in the district. Mr. R. Mills commenced duties as a full time meat inspector in February following difficulties in maintaining 100% inspection.

Controlled hours of slaughtering

2 slaughterhouses 8.00 a.m. to 5.30 p.m. Monday to Friday
2 slaughterhouses 8.00 a.m. to 5.30 p.m. Monday to Friday and
8.00 a.m. to 12.30 p.m. Saturday.

It will be appreciated that practically the whole of the meat from these slaughterhouses is exported to other districts.

During the year 2,207 visits have been made to slaughterhouses.

	Cattle excl. Cows	Cows	Calves	Sheep	Pigs
Number killed	1859	1596	826	13441	3576
Number inspected	1859	1596	826	13441	3576
<u>All diseases except Tuberculosis and Cysticerci</u>					
Whole carcasses condemned	3	38	22	12	3
Carcasses of which some part or organ was condemned	472	738	7	70	218
Percentage of the number inspected affected with disease other than tuberculosis and cysticerci	25.4	46.2	3.5	0.61	6.18
<u>Tuberculosis only</u>					
Whole carcasses condemned	-	-	-	-	-
Carcasses of which some part or organ was condemned	-	-	-	-	3
Percentage of the number inspected affected with Tuberculosis	-	-	-	-	-
<u>Cysticercosis</u>					
Carcasses of which some part or organ was condemned	8	1	-	-	-
Carcasses submitted to treatment by refrigeration	-	-	-	-	-
General and total condemned	-	-	-	-	-

The approximate total weight of carcass meat and organs condemned :

17 tons

There was one prosecution in connection with slaughterhouses.

- (1) Slaughterhouse (Hygiene) Regulations, 1958 - Owner pleaded guilty on 4 charges - total fine £25 plus £10.10. 0d costs.

Food and Drugs Act, 1955

Sampling

The Lancashire County Council are the Food and Drugs Authority and carry out this work.

A total of 54 samples was obtained comprising 33 milks and 21 others as follows :-

1 Arrowroot	1 Cod Liver Oil B.P.
1 Bacon	1 Fresh Fruit
1 Pickles	1 Cooking Fat
1 Dried Herbs	1 Baking Powder
2 Dried Vegetables	2 Food Colouring
1 Tenderising Salt	1 Celery Salt
1 Potted Meat	
3 Whisky	1 Brandy
1 Gin	1 Run

I give below details of those samples on which the County Analyst gave adverse reports :-

<u>Sample</u>	<u>Result of Analysis</u>	<u>Action taken</u>
Fornal milk	Deficient 7.7% solids-not-fat	Prosecution and fined £10, costs £10.
Fornal milk	Fat 2.70%, deficient 10% fat	Producer cautioned and further sample obtained.
Potted meat	Total meat content only 67.5% Consisted of a meat brawn and not "Potted Meat". Recommended meat content for potted meat is 95%.	Vendor interviewed.

Shops Act, 1950

There are 111 shops, 25 public houses and clubs and 2 off-licences.

<u>Type of Business</u>	<u>Number</u>
Boot and Shoe	2
Butchers	8
Chemists	1
Bakers and Confectioners	10
Drapers	7

MILNROW URBAN DISTRICT COUNCIL

ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH

FOR THE YEAR 1967

Council Offices,
Milnrow.

June, 1968.

MEMORANDUM FOR THE DIRECTOR

1944-1945

This report contains a summary of the work done during the year 1944-1945. It is intended to provide a general overview of the progress made in the various fields of research and development. The report is divided into several sections, each dealing with a different aspect of the work. The first section deals with the general progress of the work, and the following sections deal with the work done in the various fields of research and development.

MILNROW URBAN DISTRICT COUNCIL

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

FOR THE YEAR 1967

To the Health Committee of the Urban District of Milnrow.

Mr. Chairman and Members,

I have the honour of presenting my thirtyninth Annual Report of the District of Milnrow and shall commence by placing before you the General Statistics from which this report is formed :-

Population

The estimated population of the district for 1967 is 9,150 with an acreage of 5,194.

The rateable value of the district is £282,410 and the sum represented by the penny rate is £1,120. 7. 4d.

The population is industrial and is occupied mainly with cotton spinning, the engineering trade and the wool trade, none of which has any peculiar influence on the public health.

Vital Statistics

Mortality rates per 1,000 population	
Total (all forms)	12.5
Respiratory Tuberculosis	Nil
Malignant neoplasms	3.50
Live birth rates per 1,000 population	23.1
Still births per 1,000 total births	Nil
Maternal mortality rate per 1,000 total births	Nil
Infant mortality rate per 1,000 live births	14.0
Neo-mortality rate per 1,000 live births	14.0
Early neo-mortality rate per 1,000 live births	14.0
Perinatal mortality rate per 1,000 total births	14.0

Under the National Health Service, the County is divided into 17 administrative divisions.

Milnrow is in number 13 district which is composed of Bacup, Heywood, Littleborough, Milnrow, Wardle and Whitworth.

Maternity and Child Welfare

Clinic There is a Maternity and Child Welfare Clinic (Consultation) open every Tuesday, 10-12 noon and 2.00 to 4.00 p.m.

Ante-Natal Cases attend clinic in Rochdale by arrangement or 1, Wesley Street, when the clinic is open.

Midwifery Domiciliary midwifery is carried out by midwives under the control of the Lancashire County Council.
