Inadequate ventilation	—	—	—	—
Ineffective drainage of floors	—	—	—	—
Sanitary Conveniences :—				
Insufficient	4	4	—	—
Unsuitable or defective	1	1	—	—
Not separate for sexes	—	—	—	—
Other offences...	—	—	1	—
Total	5	5	1	—

## MILK : DAIRIES AND COWSHEDS.

Number of Registered Cowkeepers	...	...	318
Retailers who are not producers	...	...	13
Number of "Tuberculin Tested" producers	...	...	17
Number of "Accredited" producers	...	...	29

## INSPECTIONS MADE.

Number.	Defects Found.		Remedied	Defects Outstanding.
	From 1942	1943		
282	—	11	11	—

## SAMPLES.

Four milk samples taken, all of which were satisfactory.

## MEAT AND OTHER FOODS.

Number of Inspections at Food Shops ... 758

## FOOD INSPECTED.

143 Bovines.	1,678 tins Meat.
165 Calves.	185 tins Fish.
1,374 Sheep.	262 tins Fruit.
40 Pigs.	1,027 tins Vegetables.
	734 tins Milk.

40-lbs. cheese, 24-lbs. tea, 28-lbs. shredded suet, 28-lbs. dried egg, 56-lbs. rolled oats, 266-lbs. bacon, 112-lbs. pearl barley, 92-lbs. margarine, 56-lbs. cake, 40-lbs. butter, 26-lbs. onions, 278 meat pies, 12 packets cereals, 72 oranges, 96 eggs, 14 tins biscuits.

## FOOD CONDEMNED.

216-lbs. beef	...	Dropsy and emaciation.
123-lbs. beef	...	Bone taint.
125-lbs. beef	...	Tuberculosis.
3½-lbs. bovine kidney	...	Cysts.
17-lbs. beef	...	Decomposition.
89-lbs. imported pork loins	...	Decomposition.
4 sets sheeps' lungs	...	Strongylosis.
1 set pig's lungs	...	Pneumonia.
328 tins meat	...	Decomposition.
58 tins fish	...	Decomposition.
170 tins fruit	...	Decomposition.
94 tins vegetables	...	Decomposition.
99 tins milk	...	Decomposition.

36-lbs. cheese, 9½-lbs. butter, 26-lbs. onions, 229-lbs. bacon, 28-lbs. shredded suet, 14-lbs. dried egg, 18 eggs, 36 oranges, 278 meat pies—Decomposition.

12-lbs. tea	...	Mould.
56-lbs. rolled oats	...	Fouled by rats.
112-lbs. pearl barley		Damaged by sulphuric acid.

### EMPTYING OF CESSPITS.

A scheme for the emptying of cesspits of Council houses was commenced in December with the Council's own cesspit Emptier under the control of the Public Health Department. Owing to the shortage of labour it is only possible to carry out this work part time utilising available staff. The scheme is working satisfactorily in the light of existing circumstances.

### RATS AND MICE (DESTRUCTION) ACT.

Consequent upon the Infestation Order, 1943, Mr. H. W. Plowman was appointed Rodent Officer and in this capacity made a survey of the district to investigate the extent of rat infestation. The survey brought to light a number of major infestations and numerous minor infestations in all parts of the district.

The necessary staff has been acquired and active steps are being taken to deal with rodent infestation as directed by the Ministry of Food.

### HOUSING.

Work under the Housing Acts has been carried out so far as prevailing circumstances permit. Housing conditions are far from satisfactory and are deteriorating with the prolongation of the war consequent upon the shortage of labour and materials. Cases of overcrowding are being dealt with whenever practicable.

A very considerable amount of work will have to be done in regard to housing generally in the post-war period.

### REFUSE COLLECTION AND DISPOSAL.

This work is carried out by direct labour under the control of the Public Health Department.

The collection of refuse and salvage on alternate weeks in the parishes of Eling, Dibden, Fawley and Lyndhurst is working satisfactory. Difficulties have been experienced in maintaining vehicles due to shortage of spare parts and in obtaining the necessary labour.

The schedule however, has been maintained with some difficulty arising from the foregoing and the added work placed upon the men in the collection of salvage.

I have the honour to be, Ladies and Gentlemen,

Your obedient servant,

G. HABGOOD,

Medical Officer of Health.
