## NEWMARKET URBAN DISTRICT

in the

Administrative County of West Suffolk

ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

including the

Report of the Chief Public Health Inspector

K

ACKA BY

for 1 9 6 6

#### ANNUAL REPORT

#### of the

Medical Officer of Health for the Urban District of Newmarket, in the County of West Suffolk for the year ended 31st December, 1966

Tel : Newmarket 2321

Public Health Department,

Severals House,

Newmarket.

May, 1967.

To the Chairman and Councillors of the Urban District of Newmarket.

Mr. Chairman, Ladies and Gontlemen,

I have the honour to present the Annual Report for the year 1966.

Both the Death and the Birth Rate were lower than that of the country as a whole.

The Infant Mortality Rate was appreciably lower than that for England and Wales.

The incidence of infectious disease was very low.

In the course of the year there were 37 applications for improvement grants, the majority of which were from owner occupiers.

The Meals on Wheels Service which is run by the W.V.S. with financial backing from the District Council and the County Council continued to do good work during the year when between 40 and 50 old persons, unable to cook for themselves, were provided with a hot meal twice a week.

I wish to express my appreciation of the help afforded me in compiling the Report by the Chief Public Health Inspector, the Clerk of the Council, the Engineer and Surveyor, the Architect to the Council and by Mr. Parr of the Public Health Department.

My thanks are also offered to the Chairman and all members of the Public Health Committee for their help and encouragement throughout the year.

I am,

1 -

Mr. Chairman, Ladico and Gentlemen,

Your obedient Servant,

A. FARNILL MORGAN

Medical Officer of Health

#### Public Health Officers of the Authority - 1966

(a) Medical - One part-time Medical Officer of Health

A. Farnill Morgan, M.B., B.S., L.R.CP., L.R.C.S., D.P.H.(Durham), Cert. Mental Deficiency and Allied Subjects (London).

This Officer does not engage in private practice but holds in addition the following appointments :-

Medical Officer of Health :	Haverhill U.D.C. Clare R.D.C. Mildenhall R.D.C.
Assistant County Medical Officer	West Suffolk C.C.

-----

(b) Other - Chief Public Health Inspector

G. Penistone, F.A.P.H.I., Cert.S.I.B., Cert. Inspector of Meat and other Foods. Cert. Smoke Inspector, Royal Society of Health

Additional Public Health Inspector

K. Wotton, M.A.P.H.I., Cert. Inspector of Meat and Other Foods.

Appointed 1st November 1964 - Resigned October 1966

Assistant

D. Parr

#### SECTION B

## GENERAL PROVISION OF HEALTH SERVICES IN THE AREA

(a) <u>LABORATORY SERVICES</u>. The Public Health Laboratory, Tennis Court Road, Cambridge, provides an excellent bacteriological service and most readily discusses and advises on any epidemiological or similar problem.

(b) <u>AMBULANCE FACILITIES</u>. These services are provided by the County Council under the direction of Dr. D.A. McCracken, the County Medical Officer of Health.

(c) <u>NURSING IN THE HOME</u>. The West Suffolk County Council District Nurse-Midwives carry out these duties.

(d) <u>CLINICS AND TREATMENT CENTRES</u>. County Council Infant Welfare Clinics were held at the Health Clinic, Newmarket, each Tuesday, and at the Scout Hall, Exning, on one Thursday each month. Outpatient Clinics are held at the Newmarket General Hospital as follows :-

ANTE-NATAL	Registrar Mr. Hesketh	Tues. 2 p.m. Thurs. 10 a.m. Tues. 10 a.m.
ANTI-COAG. PATHOLOGY	Dr. Dean	Mon. & Fri. 2 p.m.

#### SECTION D

#### SANITARY CIRCUMSTANCES OF THE AREA

#### WATER

The Urban District was supplied with water by the Ely, Mildenhall and Newmarket Water Board. Only thirteen houses, all in remote parts of the District, are without a main water supply. Two wells in the chalk at Southfields Pumping Station, connected by an adit, are the sources of supply. One of these wells is 57 feet deep and the other 50 feet deep. Each is brick lined to a depth of 20 feet, the remainder being lined with cast iron cylinders. The water is chlorinated and pumped to a storage reservoir at Warren Hill, which has a capacity of 260,000 gallons.

The water is pumped by an electric submersible pump which was installed in 1957, and this pump is capable of pumping 46,000 gallons per hour, either up the 12 inch rising main to the storage reservoir or direct to the service mains. A diesel pump is available as an alternative means of pumping.

The supply was maintained without any cuts during the year, and a total of 269,949,000 gallons of water was pumped.

Ten samples of water were taken from the well at Southfields Pumping Station and seven samples were taken from the mains for bacteriological examination. The results of these samples showed the quality of the water supply to be satisfactory.

A sample of water was taken by the Water Board from the well at Southfields Pumping Station for chemical analysis. The Analyst's report indicated that the water conformed to the highest standard of organic quality, that it was pure and wholesome and suitable for public supply purposes.

#### DRAINAGE AND SEWERAGE

The whole of the sewage from properties within the Urban District and from 355 properties within the Newmarket Rural District (with the exception of 47 properties which are drained to cesspools or septic tanks in part of the Urban District where sewers are not yet available) is treated at the Council's two Sewage Disposal Works.

The main works at Newmarket serves an estimated population of 10,000 persons and the flow to the works comprises domestic sewage, industrial waste water, infiltration of ground water and storm water from roofs and paved areas. The dry weather flow at the works is 600,000 gallons per day, but as most of the existing sewers are old infiltration of ground water is high.

The smaller sewage disposal works at Exning serves an estimated population of 1,600 persons with an estimated dry weather flow of 65,000 gallons per day, and here also there is a high rate of infiltration of ground water.

At both works sewage has to be raised by pumping from the outfall sewers to the treatment tanks.

Both works were constructed about 1900 on the contact bed system, but the main works was adapted some years ago toprovide sedimentation tanks, percolating filters, humus tanks and sludge beds, and similar temporary alterations have been carried out at the Exning works providing a sedimentation tank and four percolating filters.

Both the existing works are incapable of producing a satisfactory final effluent on present day loadings and the Great Ouse River Authority are very concerned at the discharge of this unsatisfactory effluent from the main works into the watercourse known as No. 1 Public Drain which eventually discharges into the River Snail at Snailwell.

Council have engaged Consulting Engineers to prepare initial designs for the construction of a new sewage works and these designs are well advanced, but progress has been held up by the difficulty of obtaining agreement as to a suitable site. It is hoped that during 1967 application will be made to the Ministry for a new works on a site within the Urban District Council boundary on the Fordham Road and that work on the new site will be able to commence in 1968.

During the year Council have continued a free quarterly cesspool emptying service - using a 1,000 gallon mechanical gully emptier - to those properties within the Urban District not yet connected to the sewerage system.

#### PUBLIC CONVENIENCES

The Council maintain two modern public conveniences, each supplied with hot and cold washing facilities for both males and females, on sites in the Town Centre.

#### PUBLIC CLEANSING

The cleaning of some 35 miles of highways, road gullies and the collection and disposal of domestic and trade refuse was, as previously, carried out by direct labour under the supervision of the Engineer and Surveyor.

Controlled tipping is properly carried out on the Council's tip at Kennett and is treated regularly by the Public Health Department for the control of rats, flies and other insect pests.

During the year the Engineer commenced investigations into the possibility of pulverizing or incinerating the domestic refuse from the tip, and it is hoped that later in 1967 either pulverization or incineration of refuse will be undertaken.

## REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR

To the Chairman and Councillors of the Urban District of Newmarket.

Mr. Chairman, Ladics and Gentlemen,

I herewith submit for your information and consideration my Report for the year 1966.

I would like to thank the Chairman and Members of the Public Health Committee for their continued interest and help, and also all the Officers of the Council for their ready co-operation in matters affecting their Departments.

#### I am,

Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

G. PENISTONE

Chief Public Health Inspector

#### THE OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

During the year 64 registered premises received a general inspection and 144 visits were made for the purposes of the Act. Notices were sent to occupiers concerning various contraventions found as listed below.

Contraventions found Section 4 (Cleanliness) Premises not kept clean 2 Accumulations of dirt or refuse :: :: 1 • • .. Section 6 (Temperature) 100100100 20 1 Section 8 (Lighting) Suitable and sufficient lighting not maintained .. .. 1 Section 9 (Sanitary Conveniences) Not kept clean/maintained/lighted/ventilated ...... 4 Not separate for sexes .. .. .. .. .. 1 .. Section 10 (Washing Facilities) 1 9 2 Compartment without effective means of lighting .. .. Section 12 (Accommodation for clothing) No provision for hanging or accommodating clothing not worn in working hours .. .. 2 . . No arrangements for drying clothing .. .. .. 6 .. .. Section 16 (Floors, passages and stairs) Notof sound construction .. 2 ... ... . . . . . . . . 5 Handrail not provided .. .. .. .. .. ... ... Section 17 (Machinery) Dangerous parts not fenced or guarded .. .. ... Section 24 (First Aid) First aid requisites not kept .. .. .. .. .. 10 " " not to standard required of or sea b been 11 by regulation .. .. .. .. 12 The Information for Employees Regulations 1965 .. 19 Regulations not complied with .. .. .. .. ..

It was found that informal notice of contravention of the Act and Regulations was generally sufficient to secure compliance, and during the year 19 premises which had various contraventions were brought up to the standard required.

Class of Premises	No. of premises registered during year.	Total No.of registered premises at end of year.	No. of registered premises receiving a general inspec- tion during year.

ustnoss premines ware anarged for at the rate of 15/56. per hour,

#### CARAVANS

There are no licensed camping sites in the District.

#### SMOKE ABATEMENT

Newmarket has no heavy industries and is, therefore, comparatively free from industrial atmospheric pollution.

No action was necessary during the year.

#### NOISE ABATEMENT ACT, 1960

No action was necessary during the year.

#### SWIMMING POOL

The Council own a modern open-air swimming pool, water for which is obtained from the mains. Circulation of the water is continuous, the water being passed through a Bell horizontal sand filter and chlorinated.

The Pool was open from the 11th May to 10th September 1966. The number of tickets sold was 18,079 of which 13,610 were issued to children and 4,469 to adults. In addition there were 16 adult and 198 children season ticket holders.

Arrangements were made with the West Suffolk Education Committee and the Cambridgeshire Education Committee for use of the swimming pool by school children on each morning, Monday to Friday, during the school summer term.

Fourteen samples of water were taken from the pool for bacteriological examination. All the samples were satisfactory.

Sixteen inspections were made regarding cleanliness of dressing cubicles, sanitary accommodation and pool surrounds.

## ERADICATION OF BED BUGS AND OTHER VERMIN

The following infestations were treated :-

Type of Infestation	No. of premises	No. of treatments
Fleas	1	1
Cockroaches	5	7
Wasp Nests	53	53

#### RODENT CONTROL

The Council employ one rodent operator.

Inspections and treatments of premises were carried out where infestations were notified by occupiers as well as general inspections. of the district and treatment of premises where necessary.

Free treatments were given at dwelling houses. Treatments at business premises were charged for at the rate of 15/6d. per hour, inclusive of baits and poisons.

By the Council	Traditional	757
	Prefabricated	50
	Easiform	100
	Unity	48
	Wates	68
	Total Post-War	1023
	Total Pre-War	309
Gran	nd Total of Council Houses	1332
Built by the Cour	ncil and sold to	

Built by the Council and sold to private owners

70

Built by Private Enterprise 573

#### INSPECTION AND SUPERVISION OF FOOD

#### MILK SUPPLY

## Milk and Dairies (General) Regulations 1959

Number of Milk Distributors on Register Number of Dairies on Register

Under the Milk (Special Designation) Regulations, 1960, the County Council as the Food and Drugs Authority are responsible for the issue of Dealers Licences and for the sampling of designated milk.

#### ICE CREAM

There are no premises in the district where ice cream is manufactured. 28 premises are registered for the storage and sale of ice cream, but five of these were not selling ice cream during the year. The ice cream sold is wrapped or in cartons as it is received from the manufacturers.

#### FOOD INSPECTION

Complaints were made by members of the public concerning the following foods :-

Food	Action taken
Dirty Condition of Milk Bottle	Warning to Vendor
Mould Growth on Cake	Warning to Vendor
Mouldy Loaf of Bread	Warning to Vendor
	Warning to Vendor
Odour in Packet of Biscuits	Traced to defect in packaging machinery causing over-heating
	of packaging material. Action taken to prevent recurrence
Brick Fragment in Loaf of Bread	Found to have gained access to bread during building works

Cricket Nymph in tin of imported Fruit Cocktail Action through importers

at bakery - warning to Bakers.

2

NIL

Various foods were inspected at shops, warehouses and at the market. It is the practice of local food traders to set aside foods which are is obviously unfit or of which they have doubts and to ask for them to be inspected. The foods listed as condemned were inspected and surrendered voluntarily following requests for inspection.

## MEAT AND OTHER FOODS

A 100 per cent inspection of all animals slaughtered for human food has been maintained, 460 visits being paid to the slaughterhouse for this purpose.

There is only one slaughterhouse in the district and this is a private one which is used by the occupier for his own business as a wholesaler and retailer, and as a slaughtering contractor for such other butchers in the Urban and adjoining Rural Districts who desire to use his services.

No horses were slaughtered for human consumption in the district and there are no shops selling horse meat for human consumption.

38 63	tins tins	of of	Meat Milk Fruit Fish	17	tins	of	Vegetables Baby foods Cooked meats
16	tins	OI	Fish				

Total weight condemned: 5 cwt, 1 gr, 2 lb.

In addition to the above 265 lbs. of frozen foods were destroyed because of de-freezing due to breakdown of refrigeration machinery.

#### METHOD OF DISPOSAL OF CONDEMNED FOOD

#### Meat

Condemned meat was stained green by the Public Health Inspector and then removed by a private firm for processing. Meat condemned at butcher's shops was taken to the slaughterhouse and placed in the condemned meat store for removal with the other condemned meat.

## Other Foods

Foods condemned at shops, warehouses etc. were destroyed by burning at the Refuse Destructor.

Ice cream premises	 ••	••	••	28	

The registered sausage manufacturers are all butchers who make sausages as part of their general business. The inspections of these premises are included in the total of nine inspections at butcher's shops.

Particulars regarding the ice cream premises are set out elsewhere in the report.

#### FOOD HYGIENE REGULATIONS, 1960

The following contraventions of the Regulations at food premises were discontinued after informal notice :-

1

2

. No change

Lighty to peakors

Wash-hand basin not provided in preparation room

Unfit room used as food room

Walls and ceiling of food room not in good repair or clean

During routine visits to food premises the opportunity was taken to discuss the Regulations with the proprietors and to emphasise the need for clean handling of food.

#### EDUCATIONAL ACTIVITY REGARDING FOOD HYGIENE

No clean food guilds have been insugurated in the district.
