Section XIV. - Public Health (Shell-fish) Regulations 1934 - 1948.

Not applicable.

Section XV. - Medical Inspection of Aliens.

Not applicable.

Section XVI. - Miscellaneous.

Arrangements for the burial on shore of persons who have died on board ship from infectious disease. - Port M.O.H. in conjunction with District M.O.H. institute procedure prescribed by Section 162 P.H.A. 1936.

Mortuary.

During the year 18 bodies have been placed in the mortuary.

Dock Installations.

The sanitary facilities and canteens provided by Messrs. Harvey & Co., were visited and found clean and satisfactory.

An application was approved by the District Council for the retention of a temporary canteen to replace the existing facilities on North Quay is likely to be a great improvement.

Major infestation of rats was found in the dock area and this was dealt with by the Health Department and it has been suggested that this should be a periodic control treatment.

A new warehouse for potatoes and fruit was in the course of erection and rat proofing was suitably effected.

Infectious Diseases.

On 24th January 1955 smallpox was reported in Brittany and on 13th April Tours and Port of Brest were declared infected areas. I instructed Pilots and Customs Offices to notify me of the arrival of any French boats at Hayle and to quarantine them. No vessels were reported and the alert ended on 11th July 1955.

SGD. P.E. MORRIS.

PORT MEDICAL OFFICER OF HEALTH.
