ANNUAL REPORT FOR THE YEAR 1967

TO THE CHAIRMAN AND MEMBERS OF THE PERSHORE

RURAL DISTRICT COUNCIL

Mr. Chairman, Ladies and Gentlemen,

I have much pleasure in presenting my Annual Report on the state of the Public Health in the Rural District of Pershore for the year 1967 and the work carried out by your Public Health Department.

Vital Statistics

The figures indicate a generally satisfactory state of health in the District.

The Registrar General's estimate of the population shows an increase of 340 over the previous year. The birth rate was slightly higher than that for the County as a whole and England and Wales. Out of a total of 325 births only 15 were illegitimate, and the infant mortality rate in respect of these illegitimate babies was NIL. There were 7 infant deaths during the year, with a general infant mortality rate of 21.5 (England & Wales 18.3). The perinatal mortality rate (still births and deaths under one week combined per 1,000 total live and still births) was, at 15, well below the figure for the County (24) and England & Wales (25.4). The standardised death rate at all ages was below the national average. There were no maternal deaths.

Infectious Diseases

The main work of the Department was concerned with contacts in the District of cases occurring outside the District. In Pershore Rural District itself, measles (159 cases, with no deaths) was the main disease notified. Tuberculosis remains a comparatively small but persistent problem. There were 34 cases on the register at the end of 1967, (35 on 31.12.66).

General

As the District continues to develop so drainage problems increase.

It is pleasing to note that progress is being made with the preparation of schemes for the parts of the area which are not satisfactorily served with public sewers.

During the year, the Ministry has held Engineering Inquiries into the South Eastern and the Bredon Sewerage & Sewage Disposal Schemes. These, when permitted to proceed, will provide proper disposal facilities in a number of villages whose present facilities are inadequate. There should be no complacency until adequate provision is made for the whole of the District.

I acknowledge with thanks the assistance I have received from Mr. R.G. Warren, Chief Public Health Inspector, and his staff, in the presentation of this report, especially the substantial part of it which is concerned with environmental hygiene.

I should also like to thank members of the Council and their staff for their co-operation and help.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

D.E. THOMPSON, O.B.E., M.B., B.Ch., D.P.H.

Medical Officer of Health.

TO THE CHAIRMAN AND MEMBERS OF THE COMMITTEE  
LOCAL DISTRICT COMMITTEE

Mr. Chairman, Ladies and Gentlemen,

I have much pleasure in presenting my Annual Report on the state of the Public Health in the Local District of Loughborough for the year 1967 and the work carried out by your Public Health Department.

Vital Statistics

The figures indicate a generally satisfactory state of health in the District.

The Registrar General's estimate of the population shows an increase of 340 over the previous year. The birth rate was slightly higher than that for the County as a whole and England and Wales. Out of a total of 722 births only 15 were illegitimate, and the infant mortality rate in respect of those illegitimate babies was 211. There were 7 infant deaths during the year, with a general infant mortality rate of 21.5 (England & Wales 18.5). The percentage mortality rate (still born and deaths under one year) showed a slight increase from 1.1% (1966) to 1.2% (1967). The standardised death rate for the County (15.5) and England & Wales (15.5). The standardised death rate for all ages was below the national average. There were no maternal deaths.

Infectious Diseases

The main work of the Department was concerned with contacts in the District of cases occurring outside the District. In Loughborough District itself, measles (139 cases, with no deaths) was the main disease notified. Tuberculosis remains a comparatively small but persistent problem. There were 14 cases on the register at the end of 1967, (32 in 1966).

General

In the District continued to develop as a health problem.

It is planned to start that program in July with the provision of schemes for the care of the area which are not satisfactorily served with public services.

During the year, the Ministry has held representative meetings into the Health Service and the British Government's Health Service. These, when completed in progress, will provide proper hospital facilities in a number of different areas of the country and in the whole of the District.

I acknowledge with thanks the assistance I have received from Mr. H.O. Wilson, Chief Public Health Inspector, and his staff, in the presentation of this report, especially the substantial part of it which is concerned with environmental hygiene.

I should also like to thank members of the Council and their staff for their co-operation and help.

I am, Mr. Chairman, Ladies and Gentlemen,

Yours obedient servant,

D. J. THOMSON, C.B.E., M.B.E., B.Sc., B.P.H.

Medical Officer of Health.

SECTION A

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area in Acres - 57,882

Registrar General's Estimate of resident population: (Census 1951 - 16,386)  
(Census 1961 - 17,617)

Mid 1967 - 19,890

Mid 1966 - 19,550

Mid 1965 - 19,600

Number of inhabited houses:

End of 1967 - 6,688

End of 1966 - 6,500

End of 1965 - 6,296

Sum represented by a penny rate - £2,877

Rateable Value - 1st April, 1967 - £687,234

Industries of Area : The District is mainly agricultural. There has, over the years, been a steady influx of an industrial nature, namely carbon and light engineering.

Population and Acreage of Parishes :

SECTION B

GENERAL PROVISIONS OF HEALTH SERVICES

a) Clinic and Treatment Services

<u>Centre</u>	<u>Situation</u>	<u>Time of Holding</u>
Bishampton	Village Hall, Bishampton	4th Tuesday, 2 - 4 p.m.
Bredon	Village Hall, Bredon.	Last Friday, 2.30 p.m.
Drakes Broughton	Village Hall, Drakes Broughton.	2nd Monday, 2.15 p.m.
Eckington	Village Hall, Eckington.	2nd Friday, 2.00 p.m.
Fladbury	Village Hall, Fladbury.	3rd Thursday, 2.00 p.m.
Norton-juxta-Kempsey	Village Hall, Norton.	2nd Tuesday, 2.30 p.m.
Pershore	W.I. Hall, Priest Lane, Pershore.	1st & 3rd Wednesdays, 2.00 p.m.

b) & c) Midwifery; Home Nursing.

The County Council provided nurse/midwives who attended general nursing and midwifery cases in the home. Parishes served by nurses as follows:-

Nurses stationed at:

Bishampton:

Tel.No. Bishampton 208

Little Comberton:

Duties at present shared between  
Pershore & Evesham Nurses.

Earl's Croome:

Tel. No. Upton-on-Severn 2138.

Eckington:

Tel. No. Eckington 250.

Fladbury:

Tel. No. Cropthorne 403.

Kemerton:

Tel. No. Overbury 212.

Pershore:

Tel. No. Pershore 2522.

Pershore:

Tel. No. 2922

Upton Snodsbury:

Tel. No. Upton Snodsbury 497.

White Ladies Aston:

Tel. No. Spetchley 286.

Parishes Served:

Abberton, Bishampton, Flyford Flavell (Part),  
North Piddle, Naunton Beauchamp, Peopleton.

Elmley Castle, Netherton, Kersoe, Brickle-  
hampton, Little Comberton, Great Comberton.

Strensham, Defford, Besford, Pirton.

Eckington, Bredon's Norton, Bredon's  
Hardwick, Bredon.

Cropthorne, Charlton, Lower Moor, Throck-  
morton, Wyre, Fladbury, R.R.E. Pinvin.

Kinsham, Westmancote.

Pershore, Pinvin.

Pershore, Wick, Pensham, Birlingham.

Kington, Dormston, Upton Snodsbury, Libbery,  
Grafton Flyford, Broughton Hackett, Flyford  
Flavell (Part).

Stoulton, Drakes Broughton, Norton,  
Wadborough, Whittington, White Ladies  
Aston, Spetchley, Bredicot.

d) School Health Services:

Provided by the County Council.

## SECTION C

### SANITARY CIRCUMSTANCES OF THE AREA

#### 1. Sanitary Inspection of the Area:

A summary of Inspections by the Public Health Department is given in the statistics at the end of the Report.

#### 2. Water Supply:

A total of 6,449 dwellings with an estimated population of 19,982 are supplied from the public mains.

Local springs on Bredon Hill are augmented by bulk supplies obtained from Cheltenham, Worcester and Coventry Corporations, all of whom extract from the River Severn. The Spring supply obtained from the Overbury side of Bredon Hill is chlorinated before distribution.

Samples taken to obtain up-to-date information on the effect of the waters on lead pipework show that in the case of the Overbury/Cheltenham mixture, the water has a high initial plumbo solvent effect. However, the analysts report states that the indications are that some protective is formed on continual exposure to the water.

The results of the analyses of water samples taken during the year are tabulated below.

#### SAMPLES TAKEN:

	RESULT			
	Bacteriological		Chemical	
	Satisfactory	Unsatisfactory	Satisfactory	Unsatisfactory
<u>PUBLIC SUPPLIES</u>				
Overbury/Westmancote Supply	46	15	-	-
Other Mains Samples	8	3	1	-
<u>PRIVATE SUPPLIES</u>				
Elmley Castle Village Supply	2	4	-	-
Wells and other Private Supplies	-	6	-	-

As in previous years samples were taken of the raw water prior to chlorination and this accounts for the unsatisfactory samples from the Overbury and Westmancote supplies. The remaining unsatisfactory reports relate to small mains extensions, laid to serve new housing estates.

In addition chemical analyses were carried out both to assist in the detection of mains leakages and complaints of taste. These latter arise solely in the parts of the district supplied with River Severn water.

## DRAINAGE AND SEWERAGE

Sewers and Sewage Disposal Works are provided and maintained throughout the District as follows:-

<u>Bishampton</u>	Sewage pumped to upward-flow sedimentation tank; settled effluent passing percolated filter and humus tank before being discharged to stream.
<u>Bredon</u>	Village sewered on 'combined' system. Sewage received, primary settlement and effluent is then discharged by feed channels for land treatment.
<u>Broughton Hackett</u>	Small gravity works, with settlement tank, filter and humus tank.
<u>Comberton, Great</u>	A 'package deal' Extended Aeration Plant, followed by an upward flow clarifier.
<u>Comberton, Little</u>	Sewage pumped to upward-flow sedimentation tank, settled effluent passing through percolating filter to humus tank.
<u>Crothorne</u>	Crude sewage pumped to upward flow sedimentation tank; settled effluent passing through percolating filter and humus tank before being discharged to river.
<u>Defford</u>	Gravity works with settlement and filtration.
<u>Drakes Broughton</u>	Settled effluent pumped for filtration, followed by settlement of humus.
<u>Eckington</u>	Partially separate system. Sewage pumped to horizontal-flow sedimentation tanks, settled effluent gravitating to percolating filters, followed by settlement of humus.
<u>Kington</u>	Settled effluent pumped to percolating filter, followed by humus settlement.
<u>Littleworth</u>	Small treatment plant with crude sewage pumped to sedimentation tank, followed by filtration and settlement of humus.
<u>Lower Moor</u>	Sewage pumped to upward-flow sedimentation tank, settled effluent passing through percolating filter and humus tank.
<u>Sneachill</u>	Small gravity works, with settlement tank, filter and humus tank.
<u>Upton Snodsbury</u>	Settled effluent pumped to percolating filter, followed by settlement of humus.
<u>Whittington</u>	Gravity works with storm overflow, settling tank and filter.
<u>Pershore</u>	

Sewage from the parishes of Pershore, Pinvin, Wick and Wyre Piddle is delivered to a main pumping station in Defford Road, Pershore, from whence it is pumped via a 12" diameter Rising Main to the Sewage Disposal Works at Tyddesley Wood. Here it is passed for treatment through upward-flow sedimentation tanks, bacteria beds and humus tanks before being discharged to Bow Brook.

### Sewerage

Ministry Enquiries have been held in respect of the Bredon and the South Eastern Area Sewerage Schemes, and permission has been given for work to proceed on detailed design with a view to obtaining tenders. In the case of the Bredon Scheme, the outlying villages of Kinsham, Bredons Norton and Bredons Hardwick have been omitted, but the Sewage Disposal Works will be of sufficient capacity to cope with these areas at a later date.

At the Ministry Enquiry into these Schemes, the Inspector stated that consideration should be given to dealing with sewage sludge by modern techniques at a central point, rather than having Drying Beds at each Works. Accordingly, the Consulting Engineers were instructed to prepare a Report on this proposal.

REFUSE DISPOSAL  
REFUSE COLLECTION AND DISPOSAL

Refuse collection and disposal was carried out under the control of the Engineer & Surveyor's Department. Weekly collections being given in Pershore town and Strensham Service Area, and fortnightly collections elsewhere.

The expansion taking place in the area and consequent influx of people from Birmingham and surrounding areas has brought increasing demands for an improved service in the country districts.

Provision has been made in the estimates for 1968/69 for the acquisition of extra staff and vehicles with a view to an improvement of the service.

SUMMARY OF SANITARY INSPECTIONS DURING THE YEAR (OTHER THAN HOUSING)

Number of premises visited	862
Defects or nuisance found	44
Defects or nuisance abated	36
Number of informal Notices served	36
Number of Statutory Notices served	3
New drainage to sewers	21
New drainage to septic tanks	25
Drains tested	46
Number of factories inspected	31

SECTION D

H O U S I N G

Housing Position at end of 1967

	<u>1967</u>	<u>1966</u>
Estimated Population	19,890	19,550
Units of Accommodation	6,668	6,500
Number of Dwellings built by Council	52	4
Total number of Council houses built post-war	1,225	1,173
Estimated number of caravan dwellings	53	46
Number of Council House applicants	500	499
Number of persons per unit of accommodation	3.0	3.0

HOUSING STATISTICS

Number of dwellings erected during the year:

a) by Local Authority	52
b) by other bodies or persons	149

Inspection of dwelling houses during the year:

1. Total number of dwelling houses inspected for housing defects (under Public Health/Housing Acts)	46
2. Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for habitation.	32
3. Number of dwelling houses (exclusive of these referred to under the preceding sub-headings) found not to be in all respects fit for human habitation.	14

Remedy of Defects during the year without service of Formal Notices:

Number of defective dwelling houses rendered fit in consequence of informal action	12
--	----

Action under Statutory Powers during the year:

Proceedings under the Public Health Acts:

Number of dwelling houses in respect of which notices were served required defects to be remedied	2
---	---

SLUM CLEARANCE

Proceedings under Section 17 of the Housing Act, 1957:

1. Number of houses in respect of which Demolition Orders were made	4
2. Closing Orders in lieu of Demolition Orders	10
3. Number of houses demolished in pursuance of Demolition Orders	3
4. Undertakings not to re-let	15

Proceedings under Section 18 of the Housing Act, 1957:

Number of Closing Orders in respect of parts of buildings	-
---	---

During the year 19 Slum Clearance cases were re-housed, making a total of 226 since the Slum Clearance Programme was started.

SLUM CLEARANCE STATISTICS: (Since 1957)

Properties represented	373
Properties demolished	180
Properties closed	125
Properties reconstructed	62

Other Food	12	12	12

# SLAUGHTERHOUSES ACT, 1958

There are two slaughterhouses operating in the District, one in Pershore and one in Eckington. Both the Slaughterhouses have been operated in a satisfactory manner, and have complied with the requirements of the Divisional Veterinary Officers of the Ministry of Agriculture, Fisheries and Food on the statutory annual inspection. Very little use has been made of the Slaughterhouse at Eckington.

MEAT INSPECTION: The following animals were slaughtered and inspected.

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs	Horses
Number killed (if known)	480	-	32	1799	597	-
Number inspected	480	-	32	1799	597	-
<u>All Diseases except Tuberculosis and Cysticercosis</u>						
Whole carcasses condemned	-	-	-	2	-	-
Carcasses of which some part or organ was condemned	77	-	-	52	34	-
Percentage of number inspected affected with disease other than T.B. and Cysticercosis	16.04	-	-	2.9	5.9	-
<u>Tuberculosis only</u>						
Whole carcasses condemned	-	-	-	-	-	-
Carcasses of which some part or organ was condemned	-	-	-	-	5	-
Percentage of number inspected affected with T.B.	-	-	-	-	.84	-
<u>Cysticercosis</u>						
Carcasses of which some part or organ was condemned	1	-	-	-	-	-
Carcasses submitted to treatment by refrigeration	1	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-	-

## POULTRY INSPECTION:

During the year Poultry Inspection was commenced at the two processing plants in the District. The procedure adopted being that a "spotter" on the staff of the establishment puts all suspect birds to one side and these are inspected by a Member of the Staff. During the year 3 tons, 7 cwt and 48 lbs. of poultry were condemned being in the main battery hens.

There are two slaughterhouses operating in the District, one in  
Tombura and one in Balingian. Both are slaughterhouses have been operated  
in a satisfactory manner, and have complied with the requirements of the  
Federal Veterinary Officers of the Ministry of Agriculture, Fisheries  
and Food on the statutory annual inspection. Very little has been made  
of the slaughterhouse at Balingian.

MEAT INSPECTION: The following statistics were slaughtered and inspected.

Number killed (all kinds)	Cattle including Goats	Swine	Goats	Sheep and Lambs	Pigs	Horses
Number inspected	400	-	21	199	307	-
All carcasses except substantials and quarantined	-	-	-	2	-	-
Wholes carcasses condemned	-	-	-	-	-	-
Carcases of which some part or organs was condemned	72	-	-	22	34	-
Percentage of number inspected affected with disease other than T.B. and Quaternary	18.0	-	-	1.0	11.1	-
Quarantined only	-	-	-	-	-	-
Wholes carcasses condemned	-	-	-	-	-	-
Carcases of which some part or organs was condemned	-	-	-	-	2	-
Percentage of number inspected affected with T.B.	-	-	-	-	0.6	-
Quarantined	-	-	-	-	-	-
Carcases of which some part or organs was condemned	1	-	-	-	-	-
Carcases retained in quarantine by notification	1	-	-	-	-	-
Inspected and found condemned	-	-	-	-	-	-

MEAT INSPECTION:

During the year Inspecting Officers were concerned at the two  
slaughtering plants in the District. The statistics reported during the  
"quarter" on the staff of the establishment gave all reports which  
one side and these are inspected by the staff of the District. During the year  
5 tons, 7 cwt and 5 lbs. of poultry was condemned being in the main  
factory pens.
