Mr. J. S. Bailey, Esq.	Mr. J. S. Bailey, Esq.
Mr. J. S. Bailey, Esq.	Mr. J. S. Bailey, Esq.
Mr. J. S. Bailey, Esq.	Mr. J. S. Bailey, Esq.

(1) Elected from 1970.
(2) Elected from 1970.
(3) Elected from 1970.

MEMBERS OF THE PUBLIC HEALTH COMMITTEE

Chairman of the Council	Mr. R. Hall-Jones, Esq.
Vice-Chairman of the Council	Mr. J. S. Bailey, Esq.
Chairman of the Public Health Committee	Mr. J. S. Bailey, Esq.
Chairman of the Council	Mr. J. S. Bailey, Esq.

ANNUAL REPORT FOR THE YEAR 1970

TO THE CHAIRMAN AND MEMBERS OF THE PERSHORE
RURAL DISTRICT COUNCIL

Mr. Chairman, Ladies and Gentlemen,

I have much pleasure in presenting my Annual Report on the state of the Public Health in the Rural District of Pershore for the year 1970, and the work carried out by your Public Health Department.

As was the case in the previous year, the statistics indicate a generally satisfactory state of health in the District.

The estimated population shows an increase of 200 on the figure for the previous year. These estimates are based on the 1961 Census, and will become more precise when we have the results of the 1971 Census, which will also give us more accurate figures for the populations of the various Parishes.

The birth rate was above the average for England and Wales, and the standardised death rate was below the national average.

With regard to infectious diseases, there was a substantial drop in the notifications of infectious jaundice, only 6 cases being notified, compared with 56 in 1969. There was, however, an increase in the notifications of measles, 105, compared with only 2 in 1969.

Only one case of tuberculosis was notified, and the slow downward trend in the total number of cases on the register has been maintained:

<u>1960</u>	<u>1961</u>	<u>1962</u>	<u>1963</u>	<u>1964</u>	<u>1965</u>
96	92	82	76	37	35
<u>1966</u>	<u>1967</u>	<u>1968</u>	<u>1969</u>	<u>1970</u>	
35	34	32	34	27	

I gratefully acknowledge the assistance I have received from the Chief Public Health Inspector, Mr. R.G. Warren, and his staff, in the preparation of this report, and I should like to thank you, Mr. Chairman, and Members of the Council and their Officers for their co-operation during the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

D.B. THOMPSON, O.B.E., M.B. B.Ch., D.P.H.

Medical Officer of Health.

TO THE CHAIRMAN AND MEMBERS OF THE TRUST
WELLcome TRUST REPORT 1970

Mr. Chairman, ladies and gentlemen,

I have much pleasure in presenting to you the report of the Trust for the year 1970, and the work carried out by your Public Health Department.

As in the year in the previous year, the statistics indicate a generally satisfactory state of health in the district.

The estimated population shows an increase of 200 on the figure for the previous year. These statistics are based on the 1971 Census, and will become more precise when we have the results of the 1972 Census, which will also give us more accurate figures for the population of the various localities.

The birth rate was 20.0 per 1,000 live births, and the death rate was 10.0 per 1,000 live births.

As regards infectious diseases, there was a marked drop in the notification of infectious diseases, only 5 cases being notified, compared with 26 in 1969. There was, however, an increase in the notification of cancer, 102, compared with 85 in 1969.

Only one case of tuberculosis was notified, and the low mortality rate was maintained.

I gratefully acknowledge the assistance I have received from the Chief Public Health Inspector, Mr. J. J. Warren, and his staff, in the preparation of this report, and I should like to thank you, Mr. Chairman, and members of the Council for their co-operation during the year.

Yours obedient servant,
[Signature]

J. J. WARREN, O.B.E., M.B., B.S., D.P.H.

Medical Officer of Health

SECTION A

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area in Acres - 57,887

Registrar General's Estimate of resident population: (Census 1951 - 16,386)
(Census 1961 - 17,617)

Mid 1970 - 21,310

Mid 1969 - 21,110

Mid 1968 - 21,200

Number of inhabited houses:

End of 1970 - 7,017

End of 1969 - 6,908

End of 1968 - 6,790

Sum represented by a penny rate - 1st April, 1970 - £3,110.

Rateable Value - 1st April, 1970 - £782,149.

Industries of Area: The District is mainly agricultural. With the opening of small industrial estates, mainly in the neighbourhood of Pershore itself, there has been a steady increase in industrial activities, these being confined to carbon and light engineering.

Population and Acreage of Parishes:

Aston, Spetchley, Bredicot.

d) School Health Service:

This was provided by the County Council and included the routine medical inspection of school children, special medical examinations and continued care of all handicapped children, dental inspections, treatment, and dental health education, and arrangements for the referring of children, where necessary, for specialist attention at eye clinics, hearing testing clinics, orthopaedic clinics, speech therapy sessions, and the child guidance psychiatric clinic.

Increasing attention was given to the health education of school children, and assistance in this respect was given to the staff at the Pershore High School and other schools in the District.

e) Laboratory Facilities:

The County Council provided a laboratory for the chemical and bacteriological analysis of water, milk and other foods.

The Public Health Laboratory Service provided at the Royal Infirmary, Worcester, facilities for the bacteriological examination of specimens in connection with the diagnosis and prevention of spread of infectious disease.

f) Hospital Services:

Infectious Disease	Newtown Hospital, Worcester.
Tuberculosis	Newtown Hospital, Worcester.
Maternity	Avonside Hospital, Evesham. Rinkwood Hospital, Worcester.
Children's Diseases	Worcester Royal Infirmary. Children's Hospital, Birmingham.
Veneral Diseases	Worcester Royal Infirmary.
Mental Illness	Powick Hospital.
General	Pershore Cottage Hospital. Evesham General Hospital (Briar Close). Worcester Royal Infirmary. Tewkesbury Hospital. Cheltenham General Hospital.
Aged Sick	Evesham General Hospital. (Avonside Branch).

g) Immunisation Services:

These were provided by the County Council at child health clinics and in schools.

Protection was offered, free of charge, against the following diseases:-

Diphtheria, whooping cough, tetanus, poliomyelitis, measles and smallpox, and in the case of school children aged about 13 years, when a simple test had shown that it was necessary, B.C.G. Vaccination against tuberculosis.

h) Ambulance Service:

This was also provided by the County Council, two ambulances being stationed in Pershore.

i) Home and Domestic Help Service:

This was organised by the County Council.

SECTION C

SANITARY CIRCUMSTANCES OF THE AREA

1. Sanitary Inspection of the Area:

A summary of Inspections by the Public Health Department is given in the statistics at the end of the Report.

2. Water Supply:

A total of 6,943 dwellings with an estimated population of 20,768 are supplied from the public mains.

The South West Worcestershire Water Board is responsible for the maintenance of the public water supplies throughout the area.

The main sources of supply are the Springs supply on Bredon Hill and the Worcester City River Severn abstraction works. Bulk supplies are obtained from the Coventry and Cheltenham Corporations.

SAMPLES TAKEN:

	RESULT	
	Bacteriological	
	Satisfactory	Unsatisfactory
<u>PUBLIC SUPPLIES</u>		
Mains Samples	3	1
<u>PRIVATE SUPPLIES</u>		
Elmley Castle Village Supply	21	17
Wells and other Private Supplies	2	9

In addition a small number of samples were taken for chemical analysis during the year following receipt of complaints, usually of taste.

SECTION C

SANITARY CONDITIONS OF THE AREA

Sanitary Inspection of the Area

1.

A summary of inspections by the Public Health Department is given in the statement at the end of the Report.

Water Supply

2.

A total of 6,793 dwellings with an estimated population of 20,768 are supplied from the public mains.

The South West Worcestershire Water Board is responsible for the maintenance of the public water supplies throughout the area.

The main sources of supply are the Springs supply at Irons Hill and the Worcester City River Severn Waterworks. Both supplies are obtained from the Coventry and Cheltenham Corporations.

WATER SUPPLY

WATER SUPPLY	NUMBER	
	Sanitary	Unsanitary
Public Supply	5	1
Private Supply	21	17
Other Private Supply	2	9

In addition a small number of supplies were taken for chemical analysis during the year following receipt of complaints, namely of these.

DRAINAGE AND SEWERAGE

Sewers and Sewage Disposal Works are provided and maintained throughout the District as follows:-

<u>Bishampton</u>	Sewage pumped to upward-flow sedimentation tank; settled effluent passing percolating filter and humus tank before being discharged to stream.
<u>Bredon</u>	Village sewered on 'combined' system. Sewage received, primary settlement and effluent is then discharged by feed channels for land treatment. Major sewerage scheme in progress, including provision of new sewage disposal works.
<u>Broughton Hackett</u>	Small gravity works, with settlement tank, filter and humus tank.
<u>Comberton, Great</u>	A 'package deal' Extended Aeration Plant, followed by an upward flow clarifier.
<u>Comberton, Little</u>	Sewage pumped to upward-flow sedimentation tank, settled effluent passing through percolating filter to humus tank.
<u>Cropthorpe</u>	Crude sewage pumped to upward-flow sedimentation tank; settled effluent passing through percolating filter and humus tank before being discharged to river. Major extensions to sewage disposal works in progress.
<u>Defford</u>	Gravity works with settlement and filtration.
<u>Drakes Broughton</u>	Sewage pumped to duplicate upward-flow sedimentation tanks, followed by filtration and settlement of humus.
<u>Eckington</u>	Partially separate system. Sewage pumped to horizontal-flow sedimentation tanks, settled effluent gravitating to percolating filters, followed by settlement of humus.
<u>Kington</u>	Settled effluent pumped to percolating filter, followed by humus settlement.
<u>Littleworth</u>	Small treatment plant with crude sewage pumped to sedimentation tank, followed by filtration and settlement of humus.
<u>Lower Moor</u>	Sewage pumped to upward-flow sedimentation tank, settled effluent passing through percolating filter and humus tank.
<u>Peopleton</u>	Sewage pumped to extended aeration plant with balancing tank incorporated, after which it passes through an upward-flow Clarifier and settlement tank.
<u>Sneachill</u>	Small gravity works, with settlement tank, filter and humus tank.
<u>Upton Snodsbury</u>	Settled effluent pumped to percolating filter, followed by settlement of humus.
<u>Whittington</u>	Gravity works with storm overflow, settling tank and filter.
<u>Pershore</u>	

Sewage from the Parishes of Pershore, Pinvin, Wick and Wyre Piddle is delivered to a main pumping station in Defford Road, Pershore, from whence it is pumped via a 12" diameter Rising Main to the Sewage Disposal Works at Tyddesley Wood. Here it is passed for treatment through upward-flow sedimentation tanks, bacteria beds and humus tanks before being discharged to Bow Brook.

Work is well in hand on Phase I of the scheme which covers the enlargement of the Sewage Disposal Works at Tyddesley Wood, and which includes the provision of Heated Sludge Digestion equipment. Phase I should be completed during the early part of 1971, and it is intended that Phase 2 shall follow almost immediately.

sewers and sewage disposal works are provided and maintained throughout the district as follows:-

<u>Abington</u>	Sewage pumped to upward-flow sedimentation tank; settled effluent passing through percolating filter and human tank before being discharged to stream.
<u>Boston</u>	Wastage received on 'combined' system. Sewage received, plus settlement and effluent is then discharged by local mains to final treatment. Major sewerage works in progress, including provision of new sewage disposal works.
<u>Cambridge</u>	Small gravity works, with settlement tank, filter and human tank.
<u>Cambridge, East</u>	A 'combined' plant, including settlement tank, followed by an upward flow clarifier.
<u>Cambridge, East</u>	Sewage pumped to upward-flow sedimentation tank; settled effluent passing through percolating filter to human tank.
<u>Cambridge</u>	Small sewage pumped to upward-flow sedimentation tank; settled effluent passing through percolating filter and human tank before being discharged to river. Major sewerage works in progress.
<u>Cambridge</u>	Gravity works with settlement and filtration.
<u>Cambridge</u>	Sewage pumped to dual-flow upward-flow sedimentation tank, followed by filtration and settlement of human tank.
<u>Cambridge</u>	Locally separate system. Sewage pumped to horizontal-flow sedimentation tank, settled effluent passing to percolating filter, followed by settlement of human tank.
<u>Cambridge</u>	Settled effluent pumped to percolating filter, followed by human settlement.
<u>Cambridge</u>	Small treatment plant with upward-flow sedimentation tank, followed by filtration and settlement of human tank.
<u>Cambridge</u>	Sewage pumped to upward-flow sedimentation tank; settled effluent passing through percolating filter and human tank.
<u>Cambridge</u>	Sewage pumped to extended treatment plant with horizontal tank, followed by upward-flow sedimentation tank, followed by settlement of human tank.
<u>Cambridge</u>	Small gravity works, with settlement tank, filter and human tank.
<u>Cambridge</u>	Settled effluent pumped to percolating filter, followed by settlement of human tank.
<u>Cambridge</u>	Gravity works with upward-flow sedimentation tank and filter.

Sewage from the districts of Ipswich, Bury, and other places is delivered to a main sewerage station at Ipswich Road, Ipswich, from where it is pumped via a 15" diameter rising main to the Sewage Disposal Works at Ipswich Wood. This is the main sewerage treatment plant, which is a sedimentation tank, followed by human tank and human tank being discharged to the river.

Work is well in hand on Phase I of the scheme which covers the settlement of the Sewage Disposal Works at Ipswich Wood, and which includes the provision of a 15" diameter rising main. Phase I should be completed during the early part of 1971, and it is intended that Phase II should follow almost immediately.

Sewerage

Work continued on both the Bredon and the South Eastern Area Sewerage and Sewage Disposal Schemes. In neither case has provision been made for the treatment of sewage sludge, it being intended that the crude sludge shall be transported to the Pershore Works for treatment in the Heated Digestion Plant.

REFUSE COLLECTION AND DISPOSAL

Refuse collection and disposal is controlled through the Engineer & Surveyor's Department.

During the year, a weekly collection of Refuse has been maintained throughout the whole of the Rural District.

The Council has one centralised controlled tip at Throckmorton.

SUMMARY OF SANITARY INSPECTIONS DURING THE YEAR (OTHER THAN HOUSING)

Number of premises visited	897
Defects or nuisance found	28
Defects or nuisance abated	26
Number of informal Notices served	26
Number of Statutory Notices served	-
New drainage to sewers	26
New drainage to septic tanks	33
Drains tested	59
Number of factories inspected	29

Work continued on both the Boston and the South Boston Area
Lowage and Range Districts. In neither case has provision been
made for the treatment of sewage sludge, it being intended that the sludge
shall be transported to the Forebay Water for treatment in the United
Digestion Plant.

SEWAGE COLLECTION AND DISPOSAL

Sewage collection and disposal is controlled through the Engineer
S. Garvey's Department.

During the year, a weekly collection of sewage has been maintained
throughout the whole of the local district.

The Council has one centralized controlled tip at Greenmount.

SUMMARY OF SANITARY IMPROVEMENTS DURING THE YEAR (OTHER THAN SEWERS)

507	Number of premises visited
38	Defects or nuisances found
18	Defects or nuisances stated
18	Number of informal notices served
-	Number of statutory notices served
18	New drainage to sewers
33	New drainage to public tanks
39	Trains tested

SECTION D

H O U S I N G

Housing Position at end of 1970

	<u>1970</u>	<u>1969</u>
Estimated Population	21,310	21,110
Units of accommodation	7,017	6,908
Number of Dwellings built by Council	33	70
Total number of Council houses built post-war	1,328	1,295
Estimated number of caravan dwellings	42	49
Number of Council House applicants	371	443
Number of persons per unit of accommodation	3.0	3.0

HOUSING STATISTICS

Number of dwellings erected during the year:

a)	by Local Authority	33
b)	by other bodies or persons	137

Inspection of dwelling houses during the year:

1.	Total number of dwelling houses inspected for housing defects (under Public Health/Housing Acts)	92
2.	Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for habitation	8
3.	Number of dwelling houses (exclusive of those referred to under the preceeding sub-headings) found not to be in all respects fit for human habitation	84

Remedy of Defects during the year without service of Formal Notices:

Number of defective dwelling houses rendered fit in consequence of informal action	13
--	----

Action under Statutory Powers during the year:

Proceedings under the Public Health Acts:

Number of dwelling houses in respect of which notices were served requiring defects to be remedied	-
--	---

SLUM CLEARANCE:

Proceedings under Section 17 of the Housing Act, 1957:

1.	Number of houses in respect of which Demolition Orders were made	-
2.	Closing Orders in lieu of Demolition Orders	7
3.	Number of houses demolished in pursuance of Demolition Orders	3
4.	Undertakings not to re-let	1

Proceedings under Section 18 of the Housing Act, 1957:

Number of Closing Orders in respect of parts of buildings	-
---	---

During the year 4 Slum Clearance cases were re-housed, making a total of 248 since the Slum Clearance Programme was started.

SLUM CLEARANCE STATISTICS: (Since 1957)

Properties represented	411
Properties demolished	206
Properties closed	126
Properties reconstructed	77

ANNEX 2 RESULTS

Summary of results as at end of 1977

1977	1976	Estimated population
21,110	21,110	Rate of accommodation
6,908	7,017	Number of dwelling units by Council
30	30	Total number of Council houses built post-war
1,333	1,333	Estimated number of council dwellings
43	43	Number of Council House tenants
443	443	Number of persons per unit of accommodation
2.0	2.0	

RESULTS SUMMARY

Number of dwellings needed during the year:

a)	by local authority
b)	by other bodies or persons

22
137

Investment of dwelling houses during the year:

1.	Total number of dwelling houses completed for housing (includes transfer of housing stock)
2.	Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for habitation
3.	Number of dwelling houses (exclusive of those referred to under the preceding sub-headings) found not to be in all respects fit for human habitation

SECTION 2 INSPECTION AND SUPERVISION OF FOOD

There are the following food premises in the District :

8	Butchers and Confectioners
2	Butchers
11	Cake and Confectioners
1	Butcher, Egg and Novelty Manufacturers
2	Pastry Cooks
2	Pastry Cooks (West)
12	Confectioners
44	Grocers
1	Wholesale Grocers
62	Licensed Vendors
2	Pastry Cooks and Pastry

Food premises are inspected regularly.

FOOD POISONING : Three cases of food poisoning were notified during the year.

COMPLAINTS : During the year Certificates were issued in respect of the following:-

No.	Year	Complaint
62	19	Meat at Restaurant
63	12	Pastry
12	-	Pastry Cook & Meat Products
12	-	Pastry Cooks
24	-	Pastry Cooks (West)
-	2	Pastry Cooks and Pastry
42	-	Pastry Cooks and Pastry

SLAUGHTERHOUSES ACT, 1958

There are two licenced Slaughterhouses in the District, one in Pershore and one in Eckington. The Slaughterhouse at Eckington has been used infrequently during the year, the one in Pershore has been conducted in a satisfactory manner and has satisfied the Divisional Veterinary Officer of the Ministry of Agriculture on the statutory and informal inspections.

- - - - -

MEAT INSPECTION: The following animals were slaughtered and inspected.

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs
Number killed (if known)	516	-	13	1341	1024
Number inspected	516	-	13	1341	1024
<u>All Diseases except Tuberculosis and Cysticercosis</u>					
Whole carcasses condemned	1	-	3	1	5
Carcasses of which some part or organ was condemned	88	-	-	33	31
<u>Tuberculosis</u>					
Whole carcasses condemned	-	-	-	-	-
Carcasses of which some part or organ was condemned	-	-	-	-	1
<u>Cysticercosis</u>					
Carcasses of which some part or organ was condemned	-	-	-	-	-
Carcasses submitted to treatment by refrigeration	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-

POULTRY INSPECTION:

Poultry inspection has proceeded satisfactorily at the two processing plants. The main reasons for condemnation amongst battery hens were ascites, emaciation and tumours. Chickens and Capons - tumours and emaciation.

The majority of condemnations were battery hens.

REPORT ON THE RESULTS OF THE INVESTIGATION

There are two licensed slaughterhouses in the District, one in London and one in Brighton. The investigation at Brighton has been completed and the results are being reported. The investigation at London is still in progress and the results will be reported when completed. The investigation at Brighton has been completed and the results are being reported. The investigation at London is still in progress and the results will be reported when completed.

RESULTS: The following animals were slaughtered and inspected.

Page	Class and Grade	Cattle	Cows	Calves	Other
1004	Number killed (if more)	216	-	13	1004
1004	Number inspected	216	-	13	1004
	All Diseases except Tuberculosis and Brucellosis				
2	Whole carcasses condemned	1	-	3	2
21	Portions of which some part or organ was condemned	28	-	-	21
	Tuberculosis				
-	Whole carcasses condemned	-	-	-	-
1	Portions of which some part or organ was condemned	-	-	-	1
	Brucellosis				
-	Whole carcasses condemned	-	-	-	-
-	Portions of which some part or organ was condemned	-	-	-	-
-	Portions submitted to treatment by bacteriology	-	-	-	-
-	Condemned and totally condemned	-	-	-	-

FOOTING INVESTIGATION

Footling inspection has proceeded satisfactorily at the two processing plants. The main reasons for condemnation amongst footling have been lesions, emphysema and tumours. Lesions and emphysema have been the most common causes of condemnation.

The majority of condemnations were fairly heavy.
