ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

for

1969

RIVER BLYTH PORT HEALTH AUTHORITY

RIVER BLYTH PORT HEALTH AUTHORITY

ANNUAL REPORT

of the

Port Medical Officer of Health

for YEAR 1969

Waterloo House,  
Waterloo Road,  
BLYTH.

January, 1970.

To the Chairman and Members of the  
River Blyth Port Health Authority.

Ladies and Gentlemen,

Once again it is my privilege to place before you the Annual Report on the work of the Port Health Administration for the Port of Blyth, for the year 1969.

As in preceding years this report is presented in accordance with the instruction issued by the Minister of Health - Form Port 20, and Circular 33/52. Detailed information will be found in the Sections I to XVI.

The total number of vessels which arrived during the year was 1,358 including Fishing Vessels. This is slightly below last year's figure. Foreign Vessels, trading Foreign and Coastwise, numbered 231 including Fishing Vessels which is an increase on last year. There has been a considerable increase in the number of arrivals direct from Foreign Ports more than double that of the figure for the previous three years.

The amount of Coal and Coke shipped from the Port during the year was 2,380,471 tons; this also includes Bunker Coal.

There has been an increase in the amount and variety of imports and exports particularly to and from Foreign Ports.

Imports discharged at the Port were: Timber 23,272 loads, Iron 4,287 tons, Steel Bars 2,693 tons, Sand 3,320 tons, Machinery 968 tons, Paper 17,042 tons, Fish Meal 2,354 tons, Potatoes 2,663 tons, Fertiliser 940 tons, Barley 520 tons and Sundries 3,573 tons.

## PUBLIC HEALTH (SHIPS) REGULATIONS, 1966

The above Regulations became operative from the 1st April, 1966, and deal with the Infectious Diseases, now to be known as Quarantinable Diseases, sanitary control of ships and persons, Deratting Certificates etc. Certificates issued will be found in the appropriate tables.

### INSPECTION OF VESSELS

The work dealing with nuisances and defects (structural and otherwise) will be found in the appropriate tables included in the report.

I again record with pleasure the kind assistance received from time to time from the Blyth Harbour Commission, River Pilots, H.M. Customs Officers, Immigration Officer, also the Ministry of Transport Surveyors for their help and co-operation with the staff of the Port Health Authority.

R.J.P.R. CAMPBELL, M.B., Ch.B.,  
Medical Officer of Health.

### RIVER BLYTH PORT HEALTH AUTHORITY

#### MEMBERS OF AUTHORITY AT 31st DECEMBER, 1969

Chairman: Councillor J. Haig

Vice Chairman: Alderman J. Hudspith

Alderman E. Breadin

Alderman Mrs. M. Purves

Alderman A. Rutherford, J.P.

Alderman Mrs. L. M. Summers

Councillor G. Colpitts

Councillor A. R. Hancock

Councillor M. A. McGuckin

Councillor J. Mounsey

Councillor J. E. Teasdale

Councillor Mrs. M. E. Thompson

## THE HEALTH (TRAVEL) REGULATIONS, 1920

The above Regulations have been operative from the 1st April, 1920, and deal with the Infectious Diseases, now to be known as Quarantinable Diseases, sanitary control of ships and persons, and the following Certificate also.

### PROTECTION OF VESSELS

The work dealing with nuisances and defects (structural and otherwise) will be found in the appropriate tables included in the report.

I again record with pleasure the kind assistance rendered from time to time from the Health Harbour Commission, River Police, R.N. Customs Officers, Immigration Officers, also the Ministry of Transport Surveyors for their help and co-operation with the staff of the Port Health Authority.

R. S. F. K. CAMPBELL, M.B., Ch.B.,  
Medical Officer of Health.

### HEALTH TRAVEL REGULATIONS

#### MEMBERS OF AUTHORITY AT 1st JANUARY, 1920

Chairman: Councillor J. Hall

Vice Chairman: Alderman J. Hubbard

Councillor A. E. Bannock

Councillor M. A. Woodcock

Councillor J. Murray

Councillor J. E. Bannock

Councillor Mrs. M. M. Thompson

Alderman E. Bannock

Alderman Mrs. J. Bannock

Alderman A. Bannock, J.P.

Alderman Mrs. J. Bannock

Councillor G. Gifford

Fish landed was valued at £62,097.

Principal Ports from which Ships arrive:-

## FOREIGN PORTS -

BELGIUM ..	Antwerp, Bruges, Ghent.
CYPRUS ..	Famagusta.

## FOREIGN PORTS (Contd.)

DENMARK	..	Aarhus, Copenhagen.
FAEROES	..	Runavik, Thorshavn.
FINLAND	..	Hamina, Helsingfors, Kemi, Kotka, Turku.
FRANCE	..	Dieppe, Rouen.
GERMANY	..	Bremen, Duisberg, Emden, Gluckstadt, Hamburg, Haren-Ems, Keil, Lubeck, Rendsburg, Stade.
GREECE	..	Piraeus.
HOLLAND	..	Amsterdam, Doredrecht, Groningen, Leeuwarden, Rotterdam, Scheveningen, Sluiskil, Vlardingén.
ICELAND	..	Reyjavik.
ITALY	..	Civitavecchia.
NORWAY	..	Aalborg, Bergen, Esbjerg, Haugesund, Mo-i-Rana, Oslo, Sandnes, Sirevag, Stavanger, Uddevalla.
PANAMA	..	Panama.
POLAND	..	Gdansk, Wladyslawawa.
SPAIN	..	Passajes.
SWEDEN	..	Gefle, Goteborg, Gruvon, Karlskrona, Karlstad, Kristinstad, Lisekil, Oskarshamm, Stockholm, Vargon.
U.S.A.	..	Orange, Tampa.
U.S.S.R.	..	Leningrad.

## SECTION IV

### Inland Barge Traffic

There is no barge traffic at the Port.

## SECTION V

### Water Supply

Samples have been taken regularly from points on the West Staithes, North and South Sides, South Harbour and B.H.C. Waterboat. Of the 65 samples taken from the Port, 1 after bacteriological examination was found to be unsatisfactory.

In all cases where unsatisfactory reports have been received, remedial measures have been taken and check samples taken later have shown the supply to be satisfactory. In instances where unsatisfactory reports have come from vessels, the fresh water tanks have been cleaned out and in some instances the fresh water systems thoroughly overhauled, with satisfactory results in all cases.

## SECTION VI

### Public Health (Ships) Regulations, 1966

No change.

## SECTION VII

### Smallpox

1. The Northern Regional Hospitals Board have made arrangements for the admission of Smallpox cases to the Langley Park Isolation Hospital, Co. Durham (Telephone No.: Chester-le-Street 3207). The Doctor in Charge of the hospital will be Dr. Gavin Millar, of Green Ridge, Farnley Mount, Durham. His telephone No. is 2395.

2. The Northumberland County Council are responsible for the ambulance service. Dr. A. Donaldson, the Medical Officer for the Elyth and Bedlington Local Authorities, is responsible for the vaccinal state of the ambulance crews.

### 3. NAME OF SMALLPOX CONSULTANT AVAILABLE:-

Dr. Wilson Minns,  
South Rigg, Hunshaugh,  
Hexham.  
Home Telephone No.:  
Hunshaugh 317.

4. FACILITIES FOR LABORATORY DIAGNOSIS OF SMALLPOX. Laboratory facilities are provided at the General Hospital, Westgate Road, Newcastle upon Tyne, 4.

## SECTION VIII

### Venereal Disease

No change.

## SECTION IX

Cases of notifiable and other Infectious Diseases on ships.

Table D

Category	Disease	Number of Cases during the year		Number of Ships concerned
		Passenger	Crew	
Cases landed from ships from Foreign Ports	Nil	Nil	Nil	Nil
Cases which have occurred on ships from Foreign Ports, but have been disposed of before arrival .. .. .	Nil	Nil	Nil	Nil
Cases landed from other ships .. .. .	Nil	Nil	Nil	Nil

## SECTION X

### Observation on the occurrence of Malaria in Ships

No cases of Malaria have been reported during the year.

## SECTION XI

### Measures taken against Ships infected with or suspected of Plague

Inquiries as to the prevalence of rats are made on all ships in Port (whether in possession of Deratting Certificates or Deratting Exemption Certificates or not) and a systematic inspection is carried out on all ships arriving directly or otherwise from foreign ports.

A systematic search for evidence of infestation is carried out on all vessels.

## SECTION XII

### Measures against Rodents in Ships from Foreign Ports

1. On arrival at the Port vessels are examined and if there is any evidence of rats notice is at once served on the Master. The Port Health Authority have their own official Rodent Operator. Particular attention is given to vessels arriving directly or indirectly from infected areas.

2. Rats when caught are examined and facilities are provided by the Public Health Laboratory, Newcastle upon Tyne, for detailed bacteriological examination of any specimens when necessary.

3. For some years now there has been no instance of a major infestation of rats on any vessel to the extent of requiring wholesale fumigation. If any such instance occurred, the shipping agents would arrange for the fumigation to be carried out by one of the approved firms mentioned below. The whole process would be supervised by Officer of the Authority.

In the case of fumigation by Hydrogen Cyanide or Methyl Bromide, strict precautions have to be observed to safeguard all the persons involved and the whole process carried out in accordance with the Regulations.

Contractors approved for the carrying out of the above services in this Port are:-

Messrs. Contra Pest Services Ltd.,  
Rekendyke Lane,  
South Shields.

Tel. No.: South Shields 63388.

Messrs. Rentokil Laboratories Ltd.,  
6 Regent Street,  
South Shields.

Tel. No.: South Shields 4921.

4. In the construction of modern vessels considerable progress has been made in the provision of rat-proof compartments. Bulkheads and partitions are usually steel, and with the minimum of timber, it is difficult for rodents to find harbourage. Modern Naval Architecture is coping with the problem satisfactorily.

Table E

Rodents destroyed during the year in Ships from Foreign Ports

Category							Number
Black Rats	..	..	..	..	..	..	-
Brown Rats	..	..	..	..	..	..	-
Species not known	..	..	..	..	..	..	-
Sent for examination	..	..	..	..	..	..	-
Infected with Plague	..	..	..	..	..	..	-

The total number of brown rats recovered from the Quayside after poison baits have been put down was 309.

All rats recovered are examined and where any abnormalities are noted are sent to the Public Health Laboratory, Newcastle upon Tyne, for further detailed examination.

Table F

Deratting Certificates and Deratting Exemption Certificates issued during the year 1969 for Ships from Foreign Ports

<b>Total .. ..</b>	<b>1,358</b>	<b>Do.</b>	<b>170</b>	<b>-</b>

## SECTION XIV

### Public Health (Shell-fish Regulations) 1934 and 1948

The area covered by the Order is:-

The area of the River Blyth lying between the High Water marks on either side of the River and extending from the mouth of the River to a point where the Railway Bridge of the British Railways crosses the River.

During the early summer notification was received from the Ministry of Agriculture, Fisheries and Food that samples of mussels taken from the Harbour Area had been found to be effected with Dinoflagellates in excess of the permitted standards. In view of the possible dangers of food poisoning caused by this organism, it was felt that a more severe cautionary notice advising the public to refrain from the consumption of Shellfish should be posted up in addition to the notices already displayed under the Shellfish Order. It would seem that the tidal flow of the organisms may become an annual event which will necessitate constant vigilance in this respect.

## SECTION XV

### Medical Inspection of Aliens

This is not an approved Port for the landing or inspection of Aliens.

The number of Aliens who arrived at the Port was 61 (see Table C, Section III).

## SECTION XVI

### Miscellaneous

Mortuary - No change.

Food Inspection -

The only food imports requiring inspection and supervision were the 2,663 tons of potatoes from Cyprus. Throughout the discharging of the cargo observation was kept for any possible infestation by pests.

The following table gives a list of sprouts imported during the year by the Medical Officer of Health or Public Health Inspector as suspect of disease on board during the voyage or whilst in Port.

All cases set out below recorded at the Port and in the district.

# Public Health (Shellfish Regulations) Bill 1924

The area covered by the Order is—

The area of the River Rye lying between the High Water mark on either side of the River and extending from the mouth of the River to a point above the Railway Bridge of the British Railways across the River.

During the early summer notification was received from the Ministry of Agriculture, Fisheries and Food that samples of mussels taken from the River Rye had been found to be infected with *Vibrio* in excess of the permitted standards. In view of the possible danger of food poisoning caused by this organism, it was felt that a more severe control notice should be issued to the public to restrict from the consumption of Shellfish under the Shellfish Order. It would be seen that the tidal flow of the organism may become an annual event which will necessitate constant vigilance in this respect.

## SECTION IV

### Medical Inspection of Mussels

This is not an approved port for the landing or inspection of Mussels.

The number of Mussels who arrived at the Port was 61 (see Table C, Section III).

## SECTION IV

### Inspection

Notice - No change.

Food Inspection -

The only food inspection regarding inspection and notification was the 2,000 tons of potatoes from Cyprus. Throughout the inspection of the cargo check was kept for any possible infection by pests.

# NATIONALITIES OF SHIPS
