1946.

RIVER TEES PORT HEALTH AUTHORITY.

LIST OF MEMBERS.

Middlesbrough Corporation
Representatives (8) :

Councillor J. Taylor.
Alderman L. G. Allen.
Alderman T. Curran.
Councillor J. S. Bolton.
Councillor J. G. Boothby.
Councillor F. J. Longstaff.
Councillor H. Madden.
Councillor W. Randall.

Stockton Corporation
Representatives (4) :

Alderman C. W. Allison.
Councillor W. M. Worth.
Councillor J. Sharkey.
Councillor J. C. Hudson.

Thornaby Corporation
Representatives (2) :

Alderman E. E. Brennan.
Councillor Miss G. Holmes.

Redcar Corporation
Representatives (2) :

Councillor J. S. Dixon.
Alderman R. Spelman.

Eston Urban District Council
Representatives (3) :

Councillor E. J. Blanshard.
Councillor J. Evans.
Councillor J. Snowball.

Billingham Urban District Council
Representatives (3) :

Councillor Mrs. J. McLean.
Councillor S. Duncan.
Councillor W. McKenna.

Stockton Rural District Council
Representatives (2) :

A. E. Ward. (Chairman).
J. Burnett.

STAFF OF THE PORT HEALTH AUTHORITY, 1945.

Clerk to the Board—G. W. W. BARNLEY.

Deputy Clerk—T. A. BANKS.

Medical Officer—T. LLOYD HUGHES, M.D., D.P.H., Barrister-at-Law.

Deputy Medical Officer—C. L. ELDER, M.B., Ch.B., D.P.H.

Port Health Inspector—A. NEILSON JONES, C.R.S.I.

Assistant Port Health Inspector—R. J. KNOTT, C.R.S.I. (Resigned Nov., 1945).

Rat Searcher—T. WARWICK.

Launch Hands—One Engineer and one Deck Hand.

RIVER TEES PORT HEALTH AUTHORITY.

MUNICIPAL BUILDINGS,
MIDDLESBROUGH,
MARCH, 1946.

To THE CHAIRMAN AND MEMBERS OF THE
RIVER TEES PORT HEALTH AUTHORITY.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in submitting the 59th Annual Report on the work of the River Tees Port Health Authority for the year ended 31st December, 1945. The Report is presented in more detail than has been possible during the war years, and full information is given as to the scope of the work of the Authority.

It will be seen that close supervision has been maintained during the year so as to safeguard against any possible introduction of sea-borne infectious diseases, and also to ascertain the sanitary conditions of vessels entering the Port and the purity of imported foodstuffs.

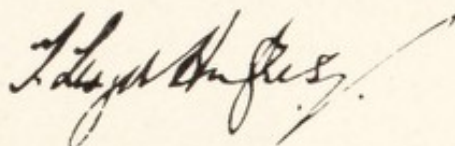

The routine inspections during the year were carried out single-handed by your Chief Port Health Inspector, in view of the continued absence of the Assistant Port Health Inspector on Active Service. This latter Officer resigned in November, and steps have already been taken to fill the vacancy.

Our relations with the Port Authorities continue to be cordial, and I wish to record my grateful thanks to the Chief Preventive Officer of Customs and his staff, the Harbour Master and his staff and the Pilot Master and Pilots for their ready assistance at all times.

My thanks are also due to the Chairman and Members of the Port Health Authority for their interest and support during the year, and to the staff for their conscientious and loyal service.

I have the honour to be,

Your obedient servant,

Medical Officer.

TABLE A.

1. AMOUNT OF SHIPPING ENTERING THE PORT DURING THE YEAR..

	Number	Tonnage	NUMBER INSPECTED		Number reported to be Defective	Number of Vessels on which defects were remedied	Number of Vessels reported as having or having had, during the voyage infectious diseases on board

CHARACTER OF TRADE OF PORT.

TABLE B.

(A).—PASSENGER TRAFFIC DURING THE YEAR.

No. of Passengers	Cabin class only	Transmigrants.
INWARDS— British Aliens	123 66	Nil Nil
OUTWARDS— British Aliens	251 113	Nil Nil

Does not include Ships' personnel arriving and departing, nor does it include passengers arriving and leaving with the same vessel.

The River Tees is not an accredited Aliens Port, but Aliens are examined from time to time by the Port Medical Officer for the immigration authorities. The passenger traffic is chiefly to and from London and Eastern North Sea Ports.

(B).—CARGO TRAFFIC.

IMPORTS INTO THE RIVER TEES FOR THE YEAR ENDED 31st OCTOBER, 1945.

(Figures supplied by courtesy of the General Manager of the Tees Conservancy Commission).

ORES :	<i>Tons</i>
Iron	1,061,618
Manganese	119,575
Chrome	3,708
IRON AND STEEL :	
Pig Iron	—
Billets, etc.	42,468
Machinery	2,349
Scrap	109,291
Manufactured	1,344
Loam	10,619
Cement	1,012
Manures (chemical)	26,928
Chemicals and Chemical Products (other than Chemical Manures)	—
Petrol, Fuel Oil, etc.	29,681
Creosote Oil	11,910

	<i>Tons</i>
Corn	37,657
Provisions	7,712
Paper	262
Sugar, etc.	11,045
Wood	3,914
Bags (empty)	375
Phosphate Rock	49,940
Spelter	90
Sundry Goods	66,337
	<hr/>
TOTAL IMPORTS ...	1,597,835 tons
LAST YEAR ...	1,392,008 tons
	<hr/>
<i>Increase</i> ...	205,827 tons
	<hr/>

EXPORTS FROM THE RIVER TEES FOR THE YEAR ENDED 31st OCTOBER, 1945.

Scrap	117
Galvanised Sheets	213
Machinery	1,739
Wire (of all descriptions)	404
Manufactured (of all kinds other than the above)	13,847
Coal and Coke	32,906
Slag Basic or Phosphate Powder	5,130
Salt	5,830
Sulphate of Ammonia	315,324
Chemicals and Chemical Products (other than Sulphate of Ammonia)	14,835
Pitch and Tar	48,190
Paint	40
Corn	6,384
Sundry Goods	234,100
	<hr/>
TOTAL EXPORTS ...	766,524 tons
LAST YEAR ...	715,044 tons
	<hr/>
<i>Increase</i> ...	51,480 tons
	<hr/>

COUNTRIES FROM WHICH VESSELS ARRIVE.

Iron and other ores are imported from Sweden, Norway, Spain, North and West African ports, Brazil, India and Canada.

Corn and cereals are transhipped from Hull.

Timber from Baltic Ports.

Potash from West Africa.

Provisions arrive from London and sugar from King's Lynn and Boston.

A few cargoes of tea and coffee arrived during the year from East Africa and sugar from the West Indies.

SOURCE OF WATER SUPPLY.

(A).—FOR THE PORT.—The water is drawn from the Middlesbrough supply, which is maintained by the Tees Valley Water Board. This water is kept under constant supervision and is abundant and of good quality.

(B)'—FOR SHIPPING. Vessels draw their water supply from hydrants on the wharves, the town supply serving these hydrants. Very exceptionally ships laid up at the buoys in the river or not going to a wharf are supplied from tanks on two of the river tug boats, having a capacity of 60 and 45 tons respectively. These tanks are cleaned out before being used. There is also a small tank on a sand barge which is used occasionally. This tank is kept under observation and cleaned out prior to use.

PORT HEALTH REGULATIONS.

ARRANGEMENTS FOR DEALING WITH DECLARATIONS OF HEALTH.

1. These are collected each morning from the Customs House.

2. The Declarations are handed to the Customs Officer or Inspector of the Port Health Authority whoever is first to board the ship. The number of Declarations of Health received during 1945 was 254. No night service of inspection is maintained, except in the case of vessels signalling their need for special attention or having infectious disease on board. Messages by wireless are received from the Cullercoats receiving station and are generally delivered direct to the Port Medical Officer.

3. The Shipping Agents have agreed to the prompt transmission to the Medical Officer of any messages received by them under the Regulations. Messages are also received by morse signalling from the Tees bay to the Lightkeepers on the break-water and are telephoned to the Medical Officer. The appropriate flag and light signals are being observed. The Customs Officers and Pilots co-operate readily in notifying the Medical Officer of any suspicious illness on board vessels entering the Port.

3A. BOARDING OF VESSELS. All vessels reporting sickness on board are boarded by the Medical Officer and Inspector ; other vessels are boarded as soon as practicable.

4. **MOORING STATIONS.** There is a mooring station outside the docks situated in the river at the Eston No. 4 buoys. This station is for vessels infected or suspected on account of :—Plague, Cholera, Yellow Fever, Typhus or Small pox.

4A. Ships entering the port with a case of infectious disease other than the above are allowed to proceed to their place of mooring, but are quarantined until visited and declared clear.

5. The provisions of Article 16 of the principal Regulations have been carried out without difficulty during the year.

6. Arrangements for waiting rooms for Medical Examination, Cleansing and Disinfection of Ships, Persons and Clothing :

- (a) There is no accommodation for waiting rooms. Disinfection of ships for the prevention of infectious disease is carried out by the Port Health Staff.
- (b) Bedding and clothing are either burnt or removed to the isolation hospital for disinfection.
- (c) Members of the crew are also removed to this hospital and are accommodated in a building reserved for this purpose whilst they are bathed and their clothes disinfected.
- (d) Accommodation is reserved at West Lane Isolation Hospital for any infectious disease case admitted from the Port.
- (e) Ambulances are available for the removal of such cases.
- (f) All contacts are kept under daily supervision and the Medical Officer of the next port of call is intimated. The names and addresses given by persons allowed to leave under Article 16 are forwarded to the Medical Officer of Health of such districts.

7 & 8. **ARRANGEMENTS FOR BACTERIOLOGICAL EXAMINATION OF RATS FOR PLAGUE.** Specimens of rats caught on ships and wharves are sent monthly to the Clinical Research Association (London), who report on post-mortem and cultural examinations. All rats destroyed are examined by the Rat Searcher for evidence of disease. Pathological specimens are examined locally or sent to the above association. Commencing in February, 1946, arrangements have been made for specimens of rats to be sent to the Emergency Public Health Laboratory at Northallerton.

9. **ARRANGEMENTS FOR THE DIAGNOSIS AND TREATMENT OF VENERAL DISEASE.** The Municipal Venereal Disease Clinic is at the General Hospital and all seamen found to be suffering from these diseases are directed to attend for treatment.

Notices printed in various languages giving full particulars of the services of the Clinic are left on board the vessels.

Special notices have been sent to all Consuls, Vice-Consuls, Shipping Agents and the Missions to Seamen drawing their attention to the facilities available to seamen for the treatment of these diseases. The attendance at the Clinic has shown a considerable increase over the years immediately preceding the war. The following gives the nationality of those treated during the past year :—

Number of Seamen treated at the Special Treatment Centre during 1945.

10. ARRANGEMENTS FOR THE INTERMENT OF THE DEAD. There is a mortuary on the riverside. Arrangements for burial are carried out by the Ship's Agents.

PARROTS (PROHIBITION OF IMPORT) REGULATIONS.

There were nine instances of parrots found on board vessels and in every case written undertakings were given that the birds would either be destroyed or not landed.

CHICKEN-POX.

S.S. "Northern Coast" arrived at the port on February 15th. One of the crew was found to be suffering from chicken-pox and went home for treatment. The Medical Officer at Huddersfield where he resided, was notified.

S.S. "City of Madras" arrived at the port on March 7th. Three of the native crew were found to be suffering from chicken-pox and were removed to West Lane Isolation hospital.

MUMPS.

S.S. "Maihar" arrived at the port from Mombasa on June 25th. One of the crew had been landed at Colombo suffering from Mumps.

SMALLPOX.

S.S. "Maihar" arrived (as above). Three cases of Smallpox had occurred on the voyage. One case was removed to hospital at Colombo and two at Durban.

PNEUMONIA.

S.S. "Ocean Vulcan" arrived at the port from Pepel on August 2nd. One of the crew had been landed at Cowes suffering from suspected pneumonia.

MALARIA.

S.S. "Empire Malacca" arrived at the port on June 7th. One of the crew had been landed at Port Said suffering from Malaria.

S.S. "Ocean Vision" arrived at the port on June 26th from Bone. One of the crew had been suffering from Malaria on the voyage.

S.S. "Fort Douglas" arrived at the port on October 29th from Takoradi. One of the crew had been landed at Freetown suffering from Malaria.

TYPHOID FEVER.

S.S. "Sinnington Court" arrived at the port on November 8th from Bone. One of the crew had been landed at Malta suffering from Typhoid Fever.

SCARLET FEVER.

S.S. "Stanrealm" arrived at the port on December 20th. One of the crew suffering from suspected Scarlet Fever was landed at Marseilles.

MEASLES.

M.V. "Spica" arrived at the port on December 22nd from Delfzyl. The Captain's child was found to be suffering from Measles and was admitted to Stockton Isolation Hospital.

TABLE D.

CASES OF INFECTIOUS SICKNESS OCCURRING ON VESSELS
DURING THE VOYAGE, but disposed of prior to arrival.

Disease	No. of Cases during 1945		No. of vessels concerned	Average for previous five years
	Passengers	Crew		
Chicken-pox	-	-	-	.6
Dysentery	-	-	-	.8
Malaria Fever	-	3	3	51.6

FOOD INSPECTION.

Consignments of foodstuffs have been systematically examined during the year.

These consisted of :—Wheat, sugar, syrup, coffee, tea, cloves, groceries, palm kernels, onions and dates.

They were all found to be in good condition.

The undermentioned ships stores were found to be unfit for food and were condemned :—

1,600 lbs. assorted meats

180 lbs. bacon.

29 bags flour.

ALIENS.

During the year sixteen aliens were medically examined, at the request of the Immigration Authorities.

All were found to be free from infectious or contagious disease, and were allowed to land.
