CITY OF SALISBURY.

**ANNUAL REPORT**  
OF THE  
**MEDICAL OFFICER OF HEALTH**  
FOR  
**1950**

TO THE MAYOR, ALDERMEN AND COUNCILLORS,

I have the honour to submit to you the Annual Report on the state of the Public Health and details of Sanitary Work during the year 1950. The Report of your Senior Sanitary Inspector is incorporated in the above.

I am,

Your obedient Servant,

E. M. WRIGHT,

Medical Officer of Health.

1st September, 1951.

## SECTION A. STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area in acres .. .. .	2,836
Number of inhabited houses at end of 1950 .. .. .	8,985
Registrar General's estimate of Home Population for 1950 .. .. .	34,300
Rateable Value .. .. .	£266,233
The sum represented by a Penny Rate .. .. .	£1,101

			<i>Total</i>	<i>Male</i>	<i>Female</i>	<i>Rate</i>
<b>BIRTHS.—Live—</b>						
Legitimate .. .. .	484	249	235	14.11		
Illegitimate .. .. .	35	23	12	1.02		
All Births .. .. .	519	272	247	15.13		
<i>Birth Rates—Five years—</i>						
1949 .. .. .	14.34					
1948 .. .. .	16.1					
1947 .. .. .	20.87					
1946 .. .. .	18.88					
1945 .. .. .	18.78					
Average .. .. .	17.79					

The Birth Rate is higher by .79 per 1,000 in this area than in 1949 and 0.67 lower than in England and Wales.

		<i>Total</i>	<i>Male</i>	<i>Female</i>	
<b>BIRTHS.—Still—</b>					
Legitimate .. .. .	9	5	4		
Illegitimate .. .. .	—	—	—		
All Births .. .. .	9	5	4	Rate 0.26

17 Vascular lesions of nervous system .. ..	23	48	36 Homicide and operations of war .. ..	—	1
18 Coronary disease, angina .. ..	33	17			

The above figures only refer to deaths of residents in Salisbury and to those who died outside Salisbury but whose named residence is in this area. There were 556 deaths registered as occurring in Salisbury, 353 of these deaths occurred in institutions and other places. There were 76 Inward Transfer deaths (*i.e.*, those of residents of Salisbury who died outside the area), and 257 Outward Transfer deaths (*i.e.*, those of non-residents who died in the City).

The dispositions of the deaths in institutions in the area was as follows :—

				<i>Residents</i>	<i>Non-Residents</i>
Salisbury Infirmary	..	..	..	52	98
Harnwood Hospital	..	..	..	1	2
Newbridge Hospital	..	..	..	3	7
Tower House	..	..	..	30	64
The Old Manor	..	..	..	1	71
Nursing Homes	..	..	..	14	10
				101	252
				353	

*National Assistance Act, 1948.*

*Section 47.*—Removal to suitable premises of persons in need of care and attention.

An elderly man who was living alone, was removed to Tower House Welfare Institution, Salisbury for a period of three months on the 13th March, 1950, following an application made by the Council on that day under Section 47, National Assistance Act, 1948. The application was made on the grounds that the man was aged, was living in insanitary conditions, and was not able to devote to himself, and was not receiving from other persons, proper care and attention. He remained in the Institution after the expiry of the Court Order. The house which he had occupied was thoroughly disinfested by the Public Health Department after his removal.

#### INQUESTS

Thirteen inquests were held on deaths which occurred in the City during the year 1950.

##### *Residents*

1

1

3

—

##### *Non-Residents*

4

3

—

1

deaths were due to road accidents.

deaths were due to accidental falls.

deaths were due to suicide.

death was due to natural causes.

## Section B. GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

### I. PUBLIC HEALTH STAFF, 1950

Medical Officer of Health :

E. M. WRIGHT, T.D., M.A., B.M., B.Ch., D.P.H.

Deputy Medical Officer of Health :

H. M. HAMMOND, M.B., Ch.B.<sup>1</sup>

Senior Sanitary and Meat and Food Inspector :

S. APPELYARD, C.S.I.B., A.R.S.I.

Additional Sanitary and Meat and Food Inspector :

D. A. OWEN, C.S.I.B.<sup>2</sup>

<sup>1</sup>Appointed 18th July, 1950, Acts only in the absence of the Medical Officer of Health.

<sup>2</sup>Resigned his appointment on 4th January, 1951.

### II.

- (a) Laboratory facilities are available at the Public Health Laboratory, Salisbury General Infirmary, where all examinations of specimens connected with infectious disease, also examinations of milk, ice cream and drinking water are regularly carried out.

## Section C. SANITARY CIRCUMSTANCES OF THE AREA.

### I. Water.

- (i) (a) Satisfactory in quality.

- (b) No restrictions were imposed by reason of lack of water at source, but the plant itself was running very near to capacity.

#### (ii) Piped Supply

The supply is derived from two wells and samples were taken for bacteriological examination before chlorination and after chlorination at both pumping stations every week.

No organisms of the coli-aerogenes group were found on any occasion; total colony counts were usually nil, and when found did not, except on three occasions, exceed two colonies.

On every occasion the samples of water taken after chlorination at both stations were found to be sterile.

- (iii) No action has been necessary regarding contamination.

- (iv) (a) Water supply direct to houses.

No. of houses :—Salisbury City .. 8,988

Outside „(approx.) 320

No. of persons :—Salisbury „ .. 34,300

Outside „ (approx.) 1,250

No supplies by stand pipe.

Samples were also taken by the Sanitary Inspector from 9 private wells supplying dairies and other industrial premises. Three wells gave unsatisfactory results; one was marked “ unfit for drinking ” and two had chlorinating plants installed.

- II. *Public Cleansing; Refuse Collection.*—This is dealt with by five freighter-type vehicles collecting and delivering to controlled tips.

## SENIOR SANITARY INSPECTOR'S REPORT.

During the year 1,603 inspections, involving 1,730 visits, were made for the investigation and suppression of nuisances, including the following varied types of premises, i.e.:—

501	inspections of	dwellings.
125	„	„ ice-cream premises.
100	„	„ cowsheds and dairies.
112	„	for drainage.
66	„	of factories.
143	„	„ caravans.
48	„	„ licensed premises.

Visits were also paid to the Common Lodging House, bakehouses, butchers' shops wet and fried fish shops; for infectious diseases, private water supply samples, milk and ice-cream samples and for unsound food.

Twice as many complaints (274) were received, and double the number of Statutory Notices (40) served as in 1949, in addition to 101 informal notices and 218 visits for unsound food.

An increasing amount of unauthorised drainage work was being discovered and the Council authorised the service of warning letters to all the builders in the area.

The Prevention of Damage by Pests Act, 1949 became operative on the 31st March, 1950 replacing the Rats and Mice (Destruction) Act, 1919 and incorporating the Infestation Order, 1943.

The main difference between the old and new Acts is that Borough and District Councils are responsible Authorities, whereas formerly the County Council was the vesting authority but had the right to delegate its powers to District Councils willing to accept the duties.

Another difference in the Law is that it is now the duty of the local authority to ensure that its area is, as far as practicable, kept free from rats and mice, whereas under the old Act the primary duty was laid upon the individual occupier.

The local authority were without a Rodent Operative for 2 months during the year but the following figures give a summary of the work undertaken :—

<i>Number of Complaints</i>	<i>Number of new cases</i>	<i>Number of Inspections</i>	<i>Number of Treatments</i>	<i>Number of visits involved</i>
134	84	54	256	991

The above figures include visits and treatments at Corporation Tips and Sewage Works and, in addition, the sewers received six-monthly maintenance treatments. *Shops Act, 1950.*

The above Act became operative on the 1st October, 1950, and consolidated all the law relating to shops passed since 1912. The Local Authority remain responsible for the enforcement of the sections dealing with ventilation, temperature, lighting, washing facilities, facilities for taking meals, seats for female shop assistants, and the provision of suitable and sufficient sanitary conveniences. *Offices.*

Similarly, the Local Authority are responsible under the Public Health Act, 1936 for dealing with uncleanness, insufficient ventilation, obnoxious effluvia, overcrowding

and the provision of sufficient and satisfactory closet accommodation in all places of clerical employment, and it is hoped that with the increased staff envisaged in 1951, a start may be made on these branches of the work.

### SANITARY ADMINISTRATION

Work completed during the year 1950

#### *Housing.*

Roofs repaired or renewed .. .. .	13
Chimney stacks repaired or renewed .. .. .	5
Gutters repaired or renewed .. .. .	4
Rainwater pipes repaired or renewed .. .. .	2

Structural repairs carried out " " " " " ..	13
Benches, etc., cleansed " " " " " ..	4
Miscellaneous items " " " " " ..	14
Waste Foodstuffs and refuse removed " " " " " ..	4

### PREMISES AND OCCUPATIONS WHICH ARE CONTROLLED BY BYE-LAWS OR REGULATIONS

*Common Lodging House.*—There is one Common Lodging House situated in Winchester Street and registered to accommodate 44 male lodgers. Sufficient and satisfactory closet accommodation is provided and water supply laid on. Both Keeper and Deputy Keeper are registered annually as required and inspections frequently made. The premises are always scrupulously clean throughout, but owing to the need for extensive floor and wall plaster repairs and the prohibitive cost, it may be that several rooms, if not the whole of the property, will eventually be closed.

*Offensive Trades.*—There is now only one such trade carried on within the City, viz: the marine store dealer. The premises are generally kept clean and tidy.

*Tents and Vans.*—143 inspections of the caravans within the City were made and on each occasion conditions were found to be generally satisfactory. 38 new caravan licences and 31 renewals of existing licences were granted during the year.

### Section D. HOUSING STATISTICS FOR THE YEAR 1950

Number of new houses and flats erected during the year :—

(a) Total including numbers given separately under (b) :—

(i) By the Local Authority .. .. .	176
(ii) By other Local Authorities .. .. .	Nil
(iii) By other bodies or persons .. .. .	36

(b) With state assistance under the Housing Acts :—

(i) By the Local Authority .. .. .	176
(a) For the purpose of Part II of the Act, 1925 ..	Nil
(b) For the purpose of Part III of the Act, 1925 ..	Nil
(c) For other purposes :—	
Housing Act, 1946, in course of construction ..	145

1. *Inspection of Dwelling Houses during the year :—*

(1) (a) Total number of dwelling houses inspected for housing defects (under Public Health or Housing Acts) .. .. .	501
(b) Number of Visits made for the purpose .. .. .	592
(2) (a) Number of dwelling houses (included under sub-head (1) above) which were inspected and recorded under Housing Consoli- dated Regulations 1925 and 1932 .. .. .	6

2. *Remedy of Defects during the year without Service of Formal Notices :—*

Number of defective dwelling houses rendered fit in consequence of informal action by the local authority or their officers ..	67
--	----

3. *Action under Statutory Powers during the year :—*

## A.—Proceedings under Sections 9, 10 and 16 of the Housing Act, 1936.

(1) Number of dwelling houses in respect of which notices were served requiring repairs .. .. .	Nil
---	-----

(2) Number of dwelling houses which were rendered fit after service of formal notices :—	
--	--

(a) By owners .. .. .	Nil
-----------------------	-----

(b) By local authority in default of owners .. .. .	Nil
---	-----

## B.—Proceedings under Public Health Acts.

(1) Number of dwelling houses in respect of which formal notices were served requiring defects to be remedied ..	40
--	----

(2) Number of dwelling houses in which defects were remedied after service of formal notices :—	
---	--

(a) By owners .. .. .	*24
-----------------------	-----

(b) By local authority in default of owners .. .. .	Nil
---	-----

\*Including arrears from 1949.

## C.—Proceedings under Sections 11 and 13 of the Housing Act, 1936. (Individual Unfit Houses).

(1) Number of dwelling houses in respect of which Demolition Orders were made .. .. .	Nil
---	-----

(2) Number of houses demolished in pursuance of Demolition Orders .. .. .	Nil
---	-----

## D.—Proceedings under Sections 25 and 26 of the Housing Act, 1936. (Clearance Areas).

(1) Number of dwelling houses in respect of which Demolition Orders were made .. .. .	Nil
---	-----

(2) Number of houses demolished in pursuance of Demolition Orders .. .. .	Nil
---	-----

## E.—Proceedings under Section 12 of the Housing Act, 1936.

(1) Number of separate tenements or underground rooms in respect of which Closing Orders were made .. .. .	Nil
--	-----

(2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined the tenement or rooms having been rendered fit .. .. .	Nil
---	-----

F.—Number of unsatisfactory dwellings closed as a result of informal action .. .. .	6
---	---

G.—Two Clearance Orders were officially represented by the Medical Officer of Health in November and negotiations were proceeding at the end of the year.

## Number of Houses owned by the Local Authorities :—

(1) Parts II and III of the Housing Act, 1925 .. .. .	Nil
---	-----

(2) Other Powers .. .. .	Nil
--------------------------	-----

Housing Act, 1919 .. 210	Housing Act, 1930 .. 112
--------------------------	--------------------------

" " 1923 .. 304	" " 1938 .. 12
-----------------	----------------

" " 1924 .. 110	" " <del>1944</del> .. <del>100</del>
-----------------	---------------------------------------

" " 1925 .. Nil	" " 1946 .. 522
-----------------	-----------------

Plus temporary bungalows erected under the Housing Act, 1944 .. .. .	100
--	-----

Total .. .. .	<u>1370</u>
---------------	-------------

*Housing Act, 1936—Part IV.—Overcrowding.—*

(a) Number of <i>known</i> dwellings overcrowded at end of year ..	5
(b) Number of new cases of overcrowding discovered during the year	6
(c) Number of <i>known</i> cases of overcrowding relieved during the year	5

As mentioned in 1949, it is obvious from the above figures that the full extent of overcrowding within the City is not known.

*Public Health Act, 1936, Section 83-85.*

Number of inspections in connection with verminous premises ..	37
Number of visits entailed .. .. .	41
Number of re-visits .. .. .	21
Number of new cases .. .. .	22
Number of verminous rooms sprayed .. .. .	13
Number of verminous rooms gassed .. .. .	5

**Section E.**INSPECTION AND SUPERVISION OF FOOD AND PLACES WHERE  
FOOD IS PREPARED

*Slaughter Houses and Meat Inspection.*—The eight private slaughter houses, within the City were closed in January, 1940, and the work transferred to the Government controlled abattoir at Stratford. This reduced work is offset by the increased number of requests received for the condemnation of blown and damaged tins and of other foodstuffs to which the rationing orders apply. Requests are also frequently made for the inspection of meat at the distributing centre and the butchers' shops within the City. Details of meat surrendered and destroyed are included in the list below.

*Other Food Premises.*—There were 29 Butchers' Shops, 18 Bakehouses, 10 Fried Fish Shops, 58 Restaurant Kitchens (23 of these also being licensed premises), 5 Ice Cream Manufacturers, and 98 Ice Cream Dealers on the registers at the end of the year, showing an increase of 13 Ice Cream Dealers. It is also known that a number of Restaurants and Hotels serve, and possibly make, ice-cream, but again it has not been possible to investigate them. 91 ice-cream samples were submitted for Bacteriological examination and 63 (69.23%) satisfied the provisional recommendations of the Ministry of Health.

*Food Poisoning Outbreaks.*

(a) Total number of outbreaks .. .. .	0
(b) Number of cases .. .. .	1
(c) Number of deaths .. .. .	0

Details of the amount of food examined and voluntarily surrendered as unfit for human consumption are as follows :—

2676 blown and damaged tins of fruit, fish, milk and vegetables	12 fowls
2162½ lbs. fresh and frozen meat	11 jars paste
765 lbs. meat bones	9 turkeys
6 sheeps' heads	9 lbs. pudding mixture
651 lbs. 15 ozs. and 22 tins of tinned meat	8 jars marmalade
200 loaves	8 ozs. lemonade powder
	8 pkts. batter mixture
	7 jars preserves

141 lbs. butter	6 jars salad cream
121 stones fish	6 bottles of sauce
94 cases, 24 pkts. and 3½ lbs. pastry mixture	6 doz. pkts. blancmange powders
55 lbs. 2½ ozs. cheese and 10½ doz. wrapped cheeses	4 gals. synthetic cream
36 pkts. of nuts	4 lbs. sugar
34 jars pickles	4 bottles coffee
30 lbs. sultanas	2 kegs apricot pulp
20 lbs. and 6 pkts. cereals	2 jars lemon curd
18 geese	1½ lbs. dates
17½ lbs. cake	1 lb. grapes
16 pkts dried egg	1 bag shrimps
15 doz. crumpets	1 oz. flavouring essence
14 jars sandwich spread	¾ lb. biscuits
	½ lb. sponge mixture

The following complaints of unsound food being sold, offered for sale, or deposited with a view to sale were reported to the Public Health Committee and column 4 indicates the action taken :—

<i>Article</i> 1	<i>How discovered or Reported</i> 2	<i>Nature of Complaint or other irregularity</i> 3	<i>Action Authorised</i> 4
73 lbs. Beef 51 lbs. Mutton 45 lbs. Mixed Bones	Routine Inspection	Deposited in Refrigerator with sound food	Assurance requested that unsound food would not be deposited with other food intended for sale
63 lbs. Imported Beef Flanks	Routine Inspection	Unsound food presumed deposited for sale	Warned that legal proceedings would be taken for second complaint
Bowl containing mice-eaten Steak Pudding	Routine Inspection	Found in refrigerator with sound meat	Warning given that proceedings would be taken for a second complaint
Chitterlings containing manure	Complaint after sale	Sale of unsound food	Warning given that in future proceedings would be considered
Sausage Making in an unregistered, filthy cellar, containing chickens awaiting slaughter	Routine Inspection	Unregistered and dirty premises	Warning given that in future proceedings would be considered
Ants in jam roll	Complaint after sale	Sale of unsound food	Warning given that in future proceedings would be considered
Bottle of milk containing spider, web and fly	Complaint after sale	Sale of unsound food	Warning given that in future proceedings would be considered
Centipede in bottled T.T. Milk	Complaint after sale	Sale of unsound food	Warning given that in future proceedings would be considered
Bottled Milk	Complaint after sale	Sale of Milk in dirty bottle	Warning given that in future proceedings would be considered

A further complaint related to the disagreeable taste of fish and chips which, on analysis, were found to be fried in stale oil and that possibly immature new potatoes were used.

A routine inspection at a fried fish shop revealed the presence of unsound fish fillets which were presumed to be deposited with a view to sale—these were removed and the occupier warned.

On another occasion a carton containing 28 lbs. of vermicelli and a quantity of mice-eaten bread and contaminated by droppings was found in a Snack-Bar. The occupier was warned and the food-stuff removed.

In another case, a warning was given where food was being prepared in a dirty kitchen which did not comply with the Food and Drugs Act.

We also, too frequently, still find premises selling ice cream before making application to be registered: ignorance is pleaded despite the fact that warning notices have appeared in the local press.

*The Market Place.*—Inspections of the Market Stalls are made with a view to observing the sale of unsound food and also compliance with the Meat Regulations as to proper covering of stalls, etc. The Model Byelaws respecting the Handling, Wrapping and Delivery of Food and the Sale of Food in the Open Air came into operation on the 10th July and recommendations were made to the City Council in an effort to apply them to the Market, but without success. The removal of the livestock to another site has resulted in an improvement in the state of the ground, but more could be done by way of covering the stalls and keeping the food off the ground to prevent other forms of contamination, by providing free access to the conveniences for hot water to facilitate hand-washing, and by presenting the food stuffs in a more pleasant and hygienic manner.

#### *Inspection of Dairies and Milk Sampling.*

100 inspections and visits for samples were made to the 13 dairies and samples were also obtained from 4 outside distributors supplying milk within the city.

The three pasteurising plants are regularly inspected and samples taken, results being shown below. One cow-keeper is licensed for the production and distribution of "T.T." and one for the wholesale production only of "T.T." milk. Four dealers are licensed for the distribution of "T.T." whilst five retail milk from "Tuberculin Tested" cattle as undesignated milk. This arrangement allows the farmer to draw the "T.T." subsidy, but the public are not charged extra for the milk. Similarly, much of the milk purveyed in the City is "Pasteurised" though not officially labelled as such. This is all to the good, as safer milk is being consumed and the former prejudice against "Pasteurised" milk is being overcome. Higher percentages of satisfactory milks were recorded this year in the case of "T.T.," "Accredited" and "Undesignated" milk, with slightly lower percentages in the case of "Pasteurised" milk.

#### *Milk Sampling.*

40 samples of Undesignated Milk were submitted to the Bacteriologist and 28 (70%) were found to be satisfactory with regard to cleanliness. (There is no legal standard for undesignated milk.)

6 samples of "Accredited" Milk were submitted and all satisfied the requirements of the Milk and Dairies Regulations 1949.

21 samples of "Tuberculin Tested" Milk were also submitted and 19 (90.4%) of these proved to be satisfactory.

54 samples of "Pasteurised" Milk were submitted and 48 (88.8%) satisfied the requirements of the Regulations.

58 samples of milk taken from the 17 retailers supplying the City were submitted to the Tuberculin (Biological) Test and 55 (94.8%) proved satisfactory.

The milk produced at the farms giving positive results was compulsorily pasteurised under the Milk and Dairies Regulations, 1949, before being retailed in the City.

*Bottle Washings.*—36 washed milk bottles were subjected to bacteriological examination for cleanliness and 34 (94.4%) passed. The percentage of satisfactorily washed bottles has thus continued to improve steadily since sampling was begun in 1940.

### BIOLOGICAL MILK SAMPLES

Summary of samples submitted for the presence of Tuberculosis during the past ten years :—

			<i>Samples taken</i>	<i>Satisfactory</i>	<i>% Satisfactory</i>
1940	..	..	23	20	87%
1941	..	..	17	17	100%
1942	..	..	8	8	100%
1943	..	..	40	38	95%
1944	..	..	58	54	93%
1945	..	..	76	74	97%
1946	..	..	44	42	95%
1947	..	..	29	29	100%
1948	..	..	66	64	96.9%
1949	..	..	58	55	94.8%

### FACTORIES ACT, 1937.

### PUBLIC HEALTH ACT, 1936

#### 1. FACTORIES AND WORKPLACES

PREMISES	<i>Number on Register</i>	<i>Number of</i>		<i>Occupiers Prosecuted</i>
		<i>Inspections</i>	<i>Written Notices</i>	
(i) Factories in which Sections 1, 2, 3, 4 and 6 are enforced by L.A. (non-power) .. ..	41	15	—	—
(ii) Factories not included in (i) in which Section 7 is enforced by L.A. (power) .. ..	141	51	4	—
(iii) Other premises in which Section 7 is enforced by the L.A. (excluding outworkers' premises) ..	6	6	—	—
TOTAL .. ..	188	72	4	—

#### 2. CASES IN WHICH DEFECTS WERE FOUND

PARTICULARS	Number of cases in which defects were found				Number of cases in which prosecutions were instituted
	Found	Remedied	To H.M. Inspector	By H.M. Inspector	
Want of cleanliness (S. 1) ..	1	—	1	—	—
Overcrowding (S. 2) .. ..	1	—	1	—	—
Unreasonable temperature (S. 3) ..	—	—	—	—	—
Inadequate ventilation (S. 4) ..	1	—	1	—	—
TOTAL .. ..	3	—	3	—	—

## 3. OUTWORKERS

## SECTION 110.

## SECTION 111.

NATURE OF WORK	No. of outworkers in August list required by Section 110 (1) (c)	No. of cases of default in sending lists to the Council	No. of instances of unwholesome premises	Notices served	Prosecutions
Making wearing apparel..	25	24	—	—	—
Household Linen ..	1	1	—	—	—
Curtains and furniture hangings .. ..	2	2	—	—	—
Furniture and Upholstery	1	1	—	—	—
TOTAL .. ..	29	28	—	—	—

## Section F.

## PREVALENCE AND CONTROL OVER INFECTIOUS AND OTHER DISEASES

Homes are visited by the Sanitary Inspectors upon receipt of notification of infectious disease and enquiries made with respect to contacts and the possible source of infection.

Bedding is removed for steam disinfection when considered necessary and disinfectant supplied to householders where infectious disease occurs, with instructions given for its use.

NOTIFIABLE DISEASES (other than Tuberculosis) during 1950.

Notified Cases	All ages	under 1 year	1-5	5-15	15-25	25-45	45-65	65	Removed to Hospital
Scarlet Fever ..	20	—	11	9	—	—	—	—	17
Acute Poliomyelitis ..	6	—	3	2	1	—	—	—	6
Cerebro Spinal Fever	1	—	1	—	—	—	—	—	1
Food Poisoning ..	1	—	—	—	—	1	—	—	—
Puerperal Pyrexia ..	5	—	—	—	3	2	—	—	3
