Only Coastwise shipping arrived in the Port during 1965. There was a movement of small craft from Ramsgate to moorings at Sandwich because of hovercraft activities.

The Town Quay has little shipping, mainly of timber. The Wharf above the tollbridge is only used by small craft now.

The Richborough Wharf is now part of Pfizers area and is used for the unloading of fuel oil supplies to Pfizers. No other industrial unit at Richborough is known to use the river wharfage and no other cargo is landed there.

Customs Waterguard supervision is maintained through Ramsgate.
