Cert. Meat and Food Inspection R.S.I.

Clerk:

Mrs. BARBARA WISEMAN.

To the

Chairman and Members of the Selby Urban District Council.

Ladies and Gentlemen,

I have the honour to present to you my twelfth Annual Report on the health of the Urban District and the work of the Public Health Department for the year 1958.

There were 143 live births registered, a decrease of 13, giving a Birth Rate of 14.0 per thousand population (Adjusted Birth Rate 14.0). The West Riding County Birth Rate for Urban Districts was 16.3 and for England and Wales 16.4.

137 deaths occurred, giving a Crude Death Rate of 13.4 (Adjusted Death Rate 12.7). The aggregate County Rate was 12.8 and the Rate for England and Wales 11.7. Births exceeded deaths by 6.

Four infants died under the age of one year, three of them in the first week of life, giving an Infant Mortality Rate of 28.0. The National Rate was 22.5, a new low record.

The incidence of notifiable infectious disease was again very low, only 36 cases being reported.

Adequate protective measures against infection by certain serious diseases continues to be available free through Welfare Centres and general practitioners. The response is fairly good but could be better, and it requires continuous personal health education and periodic public propaganda to maintain the present level of protection.

Vaccine against poliomyelitis became available in increasing quantities during the year and the vaccination of 1,904 of the 2,017 registered persons was completed.

In conclusion, I take this opportunity to express my thanks for the continued support of the Members and Officers of the Council during 1958, to the Voluntary Committee at the Clinic, and to the W.V.S. for their assistance in the distribution of welfare foods.

I remain, Your obedient servant,

S. KENNAUGH APPLETON,

July, 1959.

Medical Officer of Health.

Cinemas.

No complaints received during the year and they were generally well kept.

Periodical inspections were carried out and any minor defects reported to the respective managers and remedied without the service of formal notices

Meat and Other Foods.

Meat.—Total weight of meat condemned: 12 cwts.

Food.—Total weight of food condemned: 1 ton, 6 cwts, 3 qrs, 9 lbs.

Food condemned is burned in the Baths furnace or disposed of on one of the tips.

Rats and Mice Destruction.

Number of visits and re-visits	756
Number of complaints received	51

Rat Infestation of Sewers.

The sewers have been treated on two occasions. The method of treatment is as follows: A 10% baiting test is placed in the inspection chambers, this gives an indication which sections are rat infested. The infested sections are then treated with Zinc Phosphide and from the amount of this poison taken it would seem that a large number of rats were killed.

Water Supply.

All houses are provided with piped water from the Council's deep wells at Brayton. During the year 10 samples were taken for bacteriological examination. All samples were satisfactory.
