Annual Report of the Medical Officer of Health for the Year 1962

To the Chairman and Members of the Sleaford
Urban District Council.

Mr. Chairman, Lady and Gentlemen,

I have the honour to present the annual report on the
Vital Statistics and Sanitary Conditions of the Urban District.

STATISTICS AND SOCIAL CONDITIONS

Area in acres	4,549
Population - Census 1961	7,834
- Registrar General's Estimate 30/6/62	7,880
Number of new houses completed during the year	19
Number of inhabited houses according to the Rate Book	2,441
Rateable value as at 1st October, 1962	£111,614
Sum represented by a penny rate	£467

VITAL STATISTICS

<u>Births</u>		<u>Male</u>	<u>Female</u>	<u>Total</u>
Live Births	Legitimate	69	52	121
	Illegitimate	2	2	4
	Totals	71	54	125
Still Births	Legitimate	1	1	2
	Illegitimate	-	-	-
	Totals	1	1	2
<u>Birth Rates</u>		<u>1961</u>	<u>1962</u>	
Live Birth Rate (Crude) per 1,000 of the estimated population		16.35	16.28	
Live Birth Rate (Corrected) per 1,000 of the estimated population		16.68	16.61	
Live Birth Rate per 1,000 of the estimated population (England and Wales)		17.40	18.00	
Illegitimate live births per cent of total live births		3.20%	3.20%	
Still Birth Rate per 1,000 Live and Still births		7.94	15.75	
Still Birth Rate per 1,000 Live and Still births (England and Wales)		18.70	18.10	
Total live and still births		126	127	

To the Chairman and Members of the Slough Urban District Council.

Mr. Chairman, Lady and Gentlemen,

I have the honour to present the annual report on the Vital Statistics and Sanitary Conditions of the Urban District.

CAUSES OF DEATH UNDER ONE YEAR OF AGE

	Male	Female
Under one week (Multiple abnormalities)	Nil	Nil
Maternal mortality (i.e. death due to pregnancy, childbirth or abortion)	Nil	Nil

The birth rate at 16.61 per 1,000 of the population approximates closely to that of England and Wales as a whole at 18.00.

The infantile mortality rate for Sleaford was nil. This excellent figure cannot however be of great statistical significance owing to the relatively small numbers involved.

The figure for England and Wales reached an all time low record at 21.40.

CAUSES OF DEATH

Cardiovascular diseases (44) were as usual the principle causes of death with vascular lesions of the central nervous system (strokes) accounting for 27.

The fact that eight deaths due to carcinoma of the lungs were confined to males emphasises the influence of smoking in this connection. It will be interesting to see the effect of the increased number of women smoking in years to come and the influence of propaganda to see if the sexes are equally represented.

	Male	Female	Total

HEALTH SERVICES IN THE AREA

Home Nursing.

There are two full time district nurse midwives in Sleaford.

Health Visiting.

One full time Health Visitor covers the Urban District of Sleaford.

Home Help Service.

The local headquarters are situated at the Riversdale School Clinic building and are open from 9 a.m. - 5 p.m. on weekdays. The home helps provide invaluable service to the elderly in their own homes maintaining domestic and social standards.

Welfare Foods Service.

This is also situated in the Riversdale School Clinic building and is open from 9a.m. - 5 p.m. on weekdays.

Infant Welfare Clinic.

This is held in the Riversdale School Clinic building on Monday afternoons between 2 and 4 p.m. and a doctor is in attendance.

School Clinic.

This is held on Monday mornings between 9.30 and 12 noon. There is a doctor in attendance and it is quite well patronized.

Regular Ophthalmic and ENT sessions which are attended by specialists are held at the school clinic for the benefit of school children.

Dental and physiotherapy clinics are also held daily at the school clinic.

The school Health service provides a child guidance clinic. This was under the charge of Dr. J. Richardson who resigned in March 1962. The service was revived by the appointment of Dr. Vera Holdway in November 1962.

Weekly speech therapy clinics are held.

Immunization and Vaccination.

Diphtheria, whooping cough and poliomyelitis immunization is provided by the general practitioners under the County Council scheme free of charge. Smallpox vaccination is also provided free of charge by the local general practitioners under the County Council scheme.

Mothercraft and Relaxation Classes.

These are held at the Riversdale School Clinic.

Ambulance Service.

The headquarters of the County Council ambulance service is situated in Sleaford. The vehicles are fitted with radio and the transmitter is situated at the ambulance station in Sleaford.

Home Nursing.

There are two full time district nurses assigned to Glasgow.

Health Visitor.

One full time Health Visitor covers the Urban District of Glasgow.

Home Help Service.

The local headquarters are situated in the Riverside School Clinic building and are open from 9 a.m. - 5 p.m. on weekdays. The home helps provide domestic service to the elderly in their own homes maintaining domestic and social standards.

Welfare Food Service.

This is also situated in the Riverside School Clinic building and is open from 9 a.m. - 5 p.m. on weekdays.

Infant Welfare Clinic.

This is held in the Riverside School Clinic building on Monday afternoons between 2 and 4 p.m. and a doctor is in attendance.

School Clinic.

This is held on Monday mornings between 9.30 and 11 noon. There is a doctor in attendance and it is quite well patronized.

Regular Ophthalmic and ENT sessions which are attended by specialists are held at the school clinic for the benefit of school children.

Dental and physiotherapy clinics are also held daily at the school clinic.

The school Health service provides a child guidance clinic. This was under the charge of Dr. J. Richardson who resigned in March 1963. The service was revived by the appointment of Dr. Vera Holway in November 1963.

Weekly speech therapy clinics are held.

Immunization and Vaccination.

Diphtheria, whooping cough and poliomyelitis immunization is provided by the general practitioners under the County Council's scheme free of charge. Smallpox vaccination is also provided free of charge by the local general practitioners under the County Council's scheme.

Maternity and Relaxation Classes.

These are held at the Riverside School Clinic.

Ambulance Service.

The headquarters of the County Council ambulance service is situated in Glasgow. The vehicles are fitted with radio and the transmitter is situated at the ambulance station in Glasgow.

Hospital Services.

These are provided by the Sheffield Regional Hospital Board at Lincoln, Boston and Grantham. The small maternity home in Sleaford serves a useful function and its contemplated closure in the future would be a big loss to the town and the surrounding area.

Venereal Disease.

A clinic is held at Lincoln County hospital twice weekly.

Laboratory Facilities.

Bacteriological investigations are carried out at the Public Health Laboratory at Lincoln under the supervision of Dr. Croll.

PREVALANCE AND CONTROL OF INFECTIOUS DISEASES

As the following table shows the Urban District of Sleaford has remained remarkably free of infectious diseases during the year except for a measles epidemic which is to be expected every second year.

There were no cases of whooping cough notified during 1962.

During the year 220 cases of infectious diseases were notified:-

Measles	..	..	..	..	..	..	..	..	213
Pneumonia	..	..	..	..	..	..	..	..	1
Scarlet Fever	..	..	..	..	..	..	..	..	2
Tuberculosis	..	..	..	..	..	..	..	..	4

Food Poisoning.

No cases of food poisoning were notified in 1962 but there were seven suspected cases which were not confirmed after investigation.

Tuberculosis.

Notifications totalled four cases during the year and of these cases three were pulmonary tuberculosis and one of the uterus.

One of the most important tasks of the health visitor is to persuade all contacts of tuberculosis cases to be x-rayed and to make sure that no contacts "slip through the net," and to have children skin tested to see whether they have been infected.

It is possible to give children who are contacts of cases and have a negative skin test protection against tuberculosis by B.C.G. vaccination. This is available to all 13 year old school children whose parents wish to take advantage of the scheme. Teenagers are now considered the most vulnerable age group and that is why protection is offered at the age of 13.

Section 47.

No action was taken under this section during 1962.

1951

Mr. Chairman, HEALTH EDUCATION

The Sleaford Urban District Council supports the Central Council for Health Education and in return receives their posters which have been displayed in different parts of the town.

During the year ending 31st December, 1951.

Good progress has been made with slum clearance during the year. I remain

Yours obedient servant

M. Loraine.

The future of the public health service has now been solved by the formation of a new authority which will control the premises.

It is particularly regrettable that very little rehousing was achieved during the year. This was undoubtedly accounted for by the general lack of building both Council and private in the district. The provision of new houses inevitably brings about movement of families. My experience is that provision of comparatively small numbers of houses does enable the needs of many more families to be satisfied.

I have commented in previous years on the lack of private development but 1951 has however shown a welcome change since proposals were put in hand for the erection of some bungalow houses and bungalows on two private estates.

I would like to thank the Council for their continued support and my fellow officers in particular those of my own department for their assistance and co-operation during the year.

Public Health Inspector
and
Medical Officer.

HEALTH EDUCATION

The Hartford Urban Minister Council supports the
General Council for Health Education and in return receives
their posters which have been displayed in different parts
of the town.

I remain

Yours obedient servant

M. Loring.

Medical Officer of Health

REPORT OF THE PUBLIC HEALTH INSPECTOR

1 9 6 2

Mr. Chairman, Lady and Gentlemen,

I have pleasure in presenting my fifteenth Annual Report on the Environmental Health Services of the Urban District for the year ending 31st December, 1962.

Good progress has been made with slum clearance during the year. A number of Orders were confirmed and the provision of new housing to re-house displaced families was awaited.

The future of the public slaughterhouse has now been solved by the formation of a private company which will control the premises.

It is particularly regrettable that very little re-housing was achieved during the year. This was undoubtedly accounted for by the general lack of building both Council and private in the district. The provision of new houses inevitably brings about movement of families. My experience is that provision of comparatively small numbers of houses does enable the needs of many more families to be satisfied.

I have commented in previous years on the lack of private development but 1962 has however shown a welcome change since proposals were put in hand for the erection of some hundred houses and bungalows on two private estates.

I would like to thank the Council for their continued support and my fellow Officers in particular those of my own department for their assistance and co-operation during the year.

Public Health Inspector
and
Housing Officer.

Mr. Chairman, Lady and Gentlemen,

I have pleasure in presenting my fifteenth annual

Report on the Environmental Health Service of the Urban

District for the year ending 31st December, 1932.

Good progress has been made with all classes

during the year. A number of Orders were notified and the

provision of new housing to re-house displaced families was

expedited.

The future of the public slum clearance has now been

solved by the formation of a private company which will

control the premises.

It is particularly regrettable that very little re-

housing was achieved during the year. This was undoubtedly

accounted for by the general lack of building both

Council and private in the district. The provision of new

houses inevitably brings about movement of families. My

experience is that provision of comparatively small numbers

of houses does enable the needs of many more families to be

satisfied.

I have commented in previous years on the lack of

private development but 1932 has however shown a welcome

change since proposals were put in hand for the erection of

some hundred houses and bungalows on two private estates.

I would like to thank the Council for their continued

support and my fellow Officers in particular those of my own

department for their assistance and co-operation during the

year.

Public Health Inspector
and
Housing Officer.

HOUSING

COUNCIL HOUSING

No new Council houses were completed during the year. The contract for roads and sewers for the Boston Road extension and for the first fifty houses and flats was placed and work on the roads and sewers had been commenced towards the end of the year. Some preliminary work on site clearance for the houses had also been carried out.

During the year three families were rehoused from unfit houses and ten families only from the general list. Lack of new houses available for letting and a continued lack of movement in the town accounted for the small number of rehousing which it was possible to effect.

A further fifteen houses on the Newfield Road Estate were improved making a total of forty completed so far.

There were no changes during the year in the direct labour force which continued to be hardpressed on the plumbing and joinery sides. Nevertheless the standard on essential maintenance remains high although there are a number of jobs which due to pressure of more urgent work have of necessity been left over.

One of the main difficulties in increasing efficiency in maintenance was the fact that the men and stores were scattered in various buildings throughout the town. This gave rise to some inefficiency in that the best use was not always made of the men's time due to this lack of centralisation. Moreover the premises in which the maintenance staff and stores were housed were far from satisfactory. I therefore put to the Council a scheme for the provision of a central stores together with workshops to be situated at the Jermyn Street Yard, the cost of which was to be around £4,000. This scheme was approved by the end of the year and steps were taken to erect the new building.

PRIVATE HOUSING

For the first time for a number of years I am able to report on some activity in the provision of private housing.

Early in the year proposals were submitted for the development of two sites at Drove Lane and Lincoln Road for private speculative building. The two estates when completed will provide for something like one hundred houses and bungalows. By the end of the year considerable progress had been made particularly at the Drove Lane site.

UNFIT HOUSING

Further work was completed on several clearance areas. It was hoped to complete the making of several orders which would come into force as replacement houses and flats became available at Boston Road. The situation at the end of the year in regard to the various areas was as following:-

(a) Sleaford Urban District (Jermyn Street No. 1) Clearance Order.

Clearance Order made 10th January, 1962.

Confirmed by Ministry of Housing 16th August, 1962.

Four houses.

HOUSING

No new Council houses were completed during the year. The contract for roads and sewers for the Boston Road extension and for the fifty houses and flats was placed and work on the roads and sewers had been commenced towards the end of the year. Some preliminary work on site clearance for the houses had also been carried out.

During the year three families were rehoused from public houses and two families only from the general stock. Lack of new houses available for letting and a continued lack of movement in the town hampered for the small number of rehousing which it was possible to effect.

A further fifteen houses on the Newfield Road Estate were approved making a total of forty completed so far.

There were no changes during the year in the direct labour force which continued to be maintained on the plumbing and joinery sides. Nevertheless the standard of essential maintenance remains high although there are a number of jobs which due to pressure of more urgent work have not necessarily been left over.

One of the main difficulties in increasing efficiency in maintenance was the fact that the men and stores were scattered in various buildings throughout the town. This gave rise to some inefficiency in that the best use was not always made of the men's time due to this lack of centralisation. However the premises in which the maintenance staff and stores were housed were far from satisfactory. I therefore put to the Council a scheme for the provision of a central store together with workshops to be situated at the Town Hall. The cost of which was to be around £4,000. This scheme was approved by the end of the year and steps were taken to erect the new building.

PRIVATE HOUSING

For the first time for a number of years I am able to report on some activity in the provision of private housing.

At the end of the year proposals were submitted for the development of two sites at Grove Lane and Lincoln Road for private speculative building. The two estates when completed will provide for something like one hundred houses and flats. By the end of the year considerable progress had been made particularly at the Grove Lane site.

URBAN HOUSING

Further work was completed on several clearance areas. It was hoped to complete the making of several orders which would come into force as replacement houses and flats became available at Boston Road. The situation at the end of the year in regard to the various areas was as follows:-

(a) Slater's Urban District (32nd Street No. 1) Clearance

Order.

Clearance Order made 10th January, 1958.

Confirmed by Ministry of Housing 15th January, 1958.

Four houses.

(b) Sleaford Urban District (Jermyn Street No. 2) Compulsory Purchase Order, 1962.

Compulsory Purchase Order made 10th January, 1962.

Confirmed by Ministry of Housing 18th October, 1962.

Fourteen houses and one other building.

(c) Sleaford Urban District (Carre Street No. 2) Compulsory Purchase Order, 1962.

Compulsory Purchase Order made 10th January, 1962.

Confirmed by Ministry of Housing 19th September, 1962.

Eight houses.

(d) Sleaford Urban District (Steven's Lane) Clearance Order, 1962.

Clearance Order made 10th January, 1962.

Confirmed by Ministry of Housing 2nd August, 1962.

Eight houses.

(e) Sleaford Urban District (West Banks No. 2) Compulsory Purchase Order, 1962.

A Compulsory Purchase Order was made on the 14th March, 1962. Mr. P. Trollope the owner/occupier of number 22, West Banks objected to the inclusion of his house on the grounds that it was not unfit. A Ministry Inquiry was subsequently held on the 31st July, 1962, the Order subsequently being confirmed by the Minister subject to the exclusion of number 22, West Banks.

Confirmed for demolition two houses and two other premises.

Eastgate Clearance Area 1, 2 and 3.

The Council considered my report on these areas and other houses adjoining. Arguments for including the three areas together with other houses adjoining were put to the Council. It was however decided to hold over any action in regard to this area until such time as the County Planning Committee had determined proposals in relation to the revised Town Development Plan.

London Road Clearance Area.

Inspections of houses in this area were commenced during the year.

IMPROVEMENT GRANTS

The total number of applications for both discretionary grants and standard grants approved during the year was ten only, a considerable drop on the figures for 1961.

The work in connection with a number of discretionary grants approved in 1961 was completed in 1962 and a total of £3,629. 15s. 2d. was actually paid out.

(b) Slater Urban District (West Bank) No. 2) Compulsory Purchase Order, 1952.

Compulsory Purchase Order made 10th January, 1952.
Confirmed by Ministry of Housing 15th October, 1952.
Fourteen houses and one other building.

(c) Slater Urban District (West Bank) No. 3) Compulsory Purchase Order, 1952.

Compulsory Purchase Order made 10th January, 1952.
Confirmed by Ministry of Housing 15th September, 1952.
Eight houses.

(d) Slater Urban District (Stevens' Lane) Clearance Order, 1952.

Clearance Order made 10th January, 1952.
Confirmed by Ministry of Housing 2nd August, 1952.
Eight houses.

(e) Slater Urban District (West Bank) No. 2) Compulsory Purchase Order, 1952.

A Compulsory Purchase Order was made on the 15th March, 1952. Mr. P. T. Trollope the owner/occupier of number 22, West Bank objected to the inclusion of his house on the grounds that it was not built. A Ministry inquiry was subsequently held on the 21st July, 1952, the Order subsequently being confirmed by the Minister subject to the exclusion of number 22, West Bank.

Confirmed for demolition two houses and two other premises.

Slater Clearance Area 1, 2 and 3.

The Council considered by report on these areas and other houses adjacent. Arguments for including the three areas together with other houses adjoining were put to the Council. It was however decided to hold over any action in regard to this area until such time as the County Planning Committee had determined proposals in relation to the revised Town Development Plan.

London Road Clearance Area.

Inspection of houses in this area were commenced during the year.

IMPROVEMENT GRANTS

The total number of applications for both discretionary grants and standard grants approved during the year was ten only, a considerable drop on the figures for 1951.

The work in connection with a number of discretionary grants approved in 1951 was completed in 1952 and a total of £2,225. 12s. 6d. was actually paid out.

From the table below it will be seen that the number of discretionary grants decreased to a very small proportion, whilst there was some increase in standard grants. This arises from the fact that few major improvements have been the subject of applications during the year, the majority being in respect of the simple provision of a bathroom and hot water supply:-

Discretionary grants approved 1962	- 2 -
Discretionary grants paid 1962	- 14 - £2,709. 13s. 4d.
Standard Grants approved 1962	- 7 -
Standard grants paid 1962	- 8 - £920. 1s. 10d.

(Standard grant payments to the Council in respect of Newfield Road improvements not included.)

From the table below it will be seen that the number of discretionary grants decreased to a very small proportion, whilst there was some increase in standard grants. This arises from the fact that few major improvements have been the subject of applications during the year, the majority being in respect of the simple provision of a bathroom and hot water supply:-

Discretionary grants approved 1962 - 2 -	
Discretionary grants paid 1962 - 14 - £2,709. 13s. 4d.	
Standard Grants approved 1962 - 7 -	
Standard Grants paid 1962 - 8 - £220. 1s. 10d.	
(Standard grant payments to the Council in respect of Newfield Road improvements not included.)	

HOUSING STATISTICS

Inspections of dwelling-houses during the year.

(a) Total number of dwelling-houses inspected for housing defects under Public Health or Housing Acts	101
Number of inspections made for the purpose	124
(b) Number of dwelling-houses (included under sub-heading (a) above), which were inspected and recorded under the Housing Consolidated Regulations, 1925	19
(c) Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation	19
(d) Number of dwelling-houses (exclusive of those referred to under preceding sub-headings) found not to be in all respects, reasonably fit for habitation	17

Remedy of defects during the year without service of Formal Notice.

Number of defective dwelling-houses rendered fit in consequence of informal action by the local authority or their officers	26
---	----

Action under Statutory Powers during the year.

MEAT AND OTHER FOODS

Slaughterhouses

The Council continued to maintain the Church Lane and Northgate slaughterhouses as public slaughterhouses until the 25th December, 1962 when the lease of the Church Lane slaughterhouse expired.

The future of the slaughterhouse was the subject of considerable discussion with the user butchers during the year and in the face of no great assurance of support from the butchers the Council resolved that adequate facilities for the slaughter of animals was provided for by authorities close to Sleaford. As a result of this the butchers decided to form a company to take over the lease of the slaughterhouse and to carry out improvements which the Council had originally proposed should be put in hand to bring the Church Lane slaughterhouse up to standard, the appointed day for Sleaford Urban District being the 1st January, 1964. The butchers were left with twelve months in which to complete the work necessary.

Meat Inspection.

One hundred per cent meat inspection has again been carried out at both slaughterhouses. There has been again a slight falling off in the throughput particularly sheep and lambs. The general quality of animals slaughtered at the slaughterhouse remains extremely high and the number of casualties which go through the slaughterhouse is proportionately very small.

The total weight of meat condemned was 1 ton 13 cwt.

(d) Proceedings under Section 18 of the Housing Act, 1957

(i) Number of separate tenements or under-tenements in respect of which Closing Orders were made

Nil

(ii) Number of separate tenements or under-tenements in respect of which Closing Orders were determined, the tenements or rooms having been rendered fit

Nil

(e) Proceedings under Sections 23 and 24 of the Housing Act, 1957

(i) Number of Clearance Orders made

2

(ii) Number of Compulsory Purchase Orders made

2

(iii) Number of dwelling-houses demolished in pursuance thereof

0

MEAT AND OTHER FOODS

Abattoirs

The Council continued to maintain the Church Lane and Northgate abattoirs as public abattoirs until the 23rd December, 1955 when the lease of the Church Lane abattoir expired.

The future of the abattoirs was the subject of considerable discussion with the meat merchants during the year and in the face of no great assurance of support from the butcher the Council resolved that adequate facilities for the slaughter of animals was provided for by authorising the Council to take over the lease of the abattoir to form a company to take over the lease of the abattoir house and to carry out improvements which the Council had originally proposed should be put in hand to bring the Church Lane abattoir up to standard. The appointed day for the slaughter of animals being the 1st January, 1956. The butchers were left with twelve months in which to complete the work necessary.

Meat Inspection

One hundred per cent meat inspection has again been carried out at both abattoirs. There has been again a slight falling off in the amount of particularly sheep and lambs. The general quality of animals slaughtered at the abattoirs remains extremely high and the number of carcasses which go through the inspection is proportionately very small.

The total weight of meat consumed was 1 ton 13 cwt.

The principle reasons for the condemnation of meat referred to follow:-

BEASTS

1 Beast and all organs

Pneumonia, Pleurisy
Pericarditis, Emaciation

560

Beef and Beast organs

Various conditions and diseases

1,528

SHEEP

1 Sheep and all organs

Caseous Lymphadenitis

81

Mutton and Sheeps' organs

Various conditions and diseases

12

PIGS

1 Sow and all organs

Multiple Abscesses

400

1 Pig and all organs

Severe injuries, ill
bled, moribund

116

Part of one Pig

Broken legs

114

Pork and Pigs' organs

Various conditions and diseases

708

The principal reasons for the abandonment of meat referred to follow:-

BEASTS

1	Beast and all organs	1,585	Various conditions and diseases
2	Beast and beast organs	1,585	Various conditions and diseases

BIRDS

1	Sheep and all organs	18	Various conditions and diseases
2	Sheep and sheep's organs	18	Various conditions and diseases

FISH

1	Sw and all organs	400	Multiple Abscesses
2	Pig and all organs	116	Severe injuries, ill
3	Part of one pig	114	Broken down
4	Pork and fish's organs	709	Various conditions and diseases

1962	Cattle	Calves	Sheep & Lambs	Pigs
Number killed and inspected	631	-	2,030	1,503

Carcasses condemned as unfit for consumption	-	-	-	-
Generalized and locally	-	-	-	-
Percentage of heads inspected affected with Cysticercosis	0.75	-	-	-

OTHER FOODS

The following premises are registered in accordance with Section 16 of the Food and Drugs Act, 1955:-

The manufacture of sausage, etc.	10
The manufacture, sale and storage of ice-cream ..	2
Storage and sale only of ice-cream	25

Food premises are classified as under:-

Grocers	19
Public Houses	15
Butchers	12
Bakers and Confectioners	7
School Canteens	5
Slaughterhouses	2
General Stores	4
Fish and Chip Shops	5
Fishmongers	2
Catering Premises	7
Hotels	4
Confectioners	4
Green Grocers	8
Egg Packers	1

95

MILK SUPPLY

10 distributors of milk are registered in the district.

Samples of cream taken have in all cases proved satisfactory.

ICE CREAM

There remained two manufacturers of ice cream, one hot mix and the other cold mix. Both were inspected during the year and found to be satisfactory. Their production is seasonal.

There are 25 premises registered for the storage and sale of ice cream only. No premises were registered during the year.

OTHER FOODS CONDEMNED

The undermentioned foods, other than fresh meat have been examined and found to be unfit for food:-

56 lbs canned meat	Unsound, decomposition, unmarketable, blown.
112 lbs filleted fish	Contaminated.
6 tins of fruit	Damaged, leaking.
13 tins of Sauerkraut	Blown

Frozen Foods

73 packets meat products)	 Unfit for sale through failure of refrigerator.
138 packets fish products)	
14 packets cakes etc.)	
17 packets dessert)	

OTHER FOODS

The following premises are registered in accordance with Section 15 of the Food and Drugs Act, 1955:-

The manufacture of sausage, etc.
The manufacture, sale and storage of ice-cream
Storage and sale only of ice-cream

Food premises are classified as under:-

12	..	..	..	..	..	Grocers
12	..	..	..	..	..	Public Houses
12	..	..	..	..	..	Butchers
12	..	..	..	..	..	Bakers and Confectioners
7	..	..	..	..	..	School Canteens
5	..	..	..	..	..	Restaurants
2	..	..	..	..	..	General Grocers

128	..	..	..	..	..	Unfit for sale through failure of refrigeration
75	..	..	..	..	..	Unfit for sale through failure of refrigeration

WATER SUPPLY

The water undertaking of the Sleaford Urban District was taken over by the newly formed Kesteven Water Board with effect from the 1st April, 1962.

The water which is obtained from the Lincoln lime stone continues to be of good quality and is bacteriological satisfactory. It is chlorinated at the source.

SEWERAGE

Further progress had been made during 1962 in connection with the provision of a satisfactory sewerage system for the village of Quarrington.

Provision for flood relief in the centre of the town and at Woodside and for the extension of the sewage disposal was put in hand. The necessary schemes to cover this work were being completed by the Council's consultants.

The condition of the old river Slea at the rear of the new Boston Road extension pinpoints the great need for a scheme which will remove from this area the most unsatisfactory sewage disposal which arises from the storm overflow.

REFUSE DISPOSAL

Refuse collection and disposal continues to be controlled by the Council's Surveyor. A weekly collection has been maintained throughout the year from the majority of premises within the area. Disposal is by controlled tipping.

MOVEABLE DWELLINGS

The number of residential sites within the Urban District is two. No great trouble arose on the two sites during the year although a close watch at times on the Claremont Place site is sometimes necessary.

No problems arose from the use of unlicensed sites in 1962.

RODENT CONTROL

The Rodent Operator has been available full time as in previous years. Whilst he continues to be employed on other duties his first call is always to deal with rodent control matters. Whilst there has been a national increase in the number of infested premises and the rat population seems to have increased, as far as Sleaford is concerned there appears to have been little change.

Treatment of the Council's sewers was carried out during the year with as usual the Westgate area showing up as the area where most rats exist.

The water undertaking of the Glasgow Urban District was taken over by the newly formed Glasgow Water Board with effect from the 1st April, 1922.

The water which is obtained from the Lincoln line above continues to be of good quality and is bacteriological satisfactory. It is obtained at the source.

SEWERAGE

Further progress had been made during 1922 in connection with the provision of a satisfactory sewerage system for the village of Garsington.

Provision for flood relief in the centre of the town and at Woodside and for the extension of the sewerage disposal was put in hand. The necessary schemes to cover this work were being completed by the Council's consultants.

The condition of the old river site at the rear of the new Boston Road extension indicates the great need for a scheme which will remove from this area the most unsatisfactory sewage disposal which arises from the above overflow.

WASTE DISPOSAL

Refuse collection and disposal continued to be controlled by the Council's Surveyor. A weekly collection has been maintained throughout the year from the majority of premises within the area. Disposal is by controlled tipping.

HOUSEHOLD WASTE

The number of residential sites within the Urban District is two. No great trouble arose on the two sites during the year although a close watch at times on the Glasgow Place site is sometimes necessary.

No problems arose from the use of unlicensed sites in 1922.

ROBENT CONTROL

The Robent Operator has been available full time as in previous years. Whilst he continues to be employed on other duties his staff is always to deal with Robent control matters. Whilst there has been a national increase in the number of infected premises and the rat population seems to have increased, so far as Glasgow is concerned there appears to have been little change.

Treatment of the Council's sewers was carried out during the year with an usual low sewage rate showing up at the area where most rats exist.

Details of the work carried out by the Rodent Operator for the twelve months ending 31st March, 1962 are as follows:-

	<u>1962/63</u>
Total number of inspections	.. 1,462
Infestations found - Rats - Major infestations ..	1
, - Minor infestations ..	139
Mice - Major infestations ..	0
Minor infestations ..	11
	1,613

Operator for the twelve months ending 31st March, 1963 are as follows:-

1962/63

1,408	..	Total number of inspections
1	..	Inspections found - None - Major inspections
129	..	Minor inspections
6	..	None - Major inspections
11	..	Minor inspections
1,613
