REPORT FOR THE YEAR 1938

Presented to the

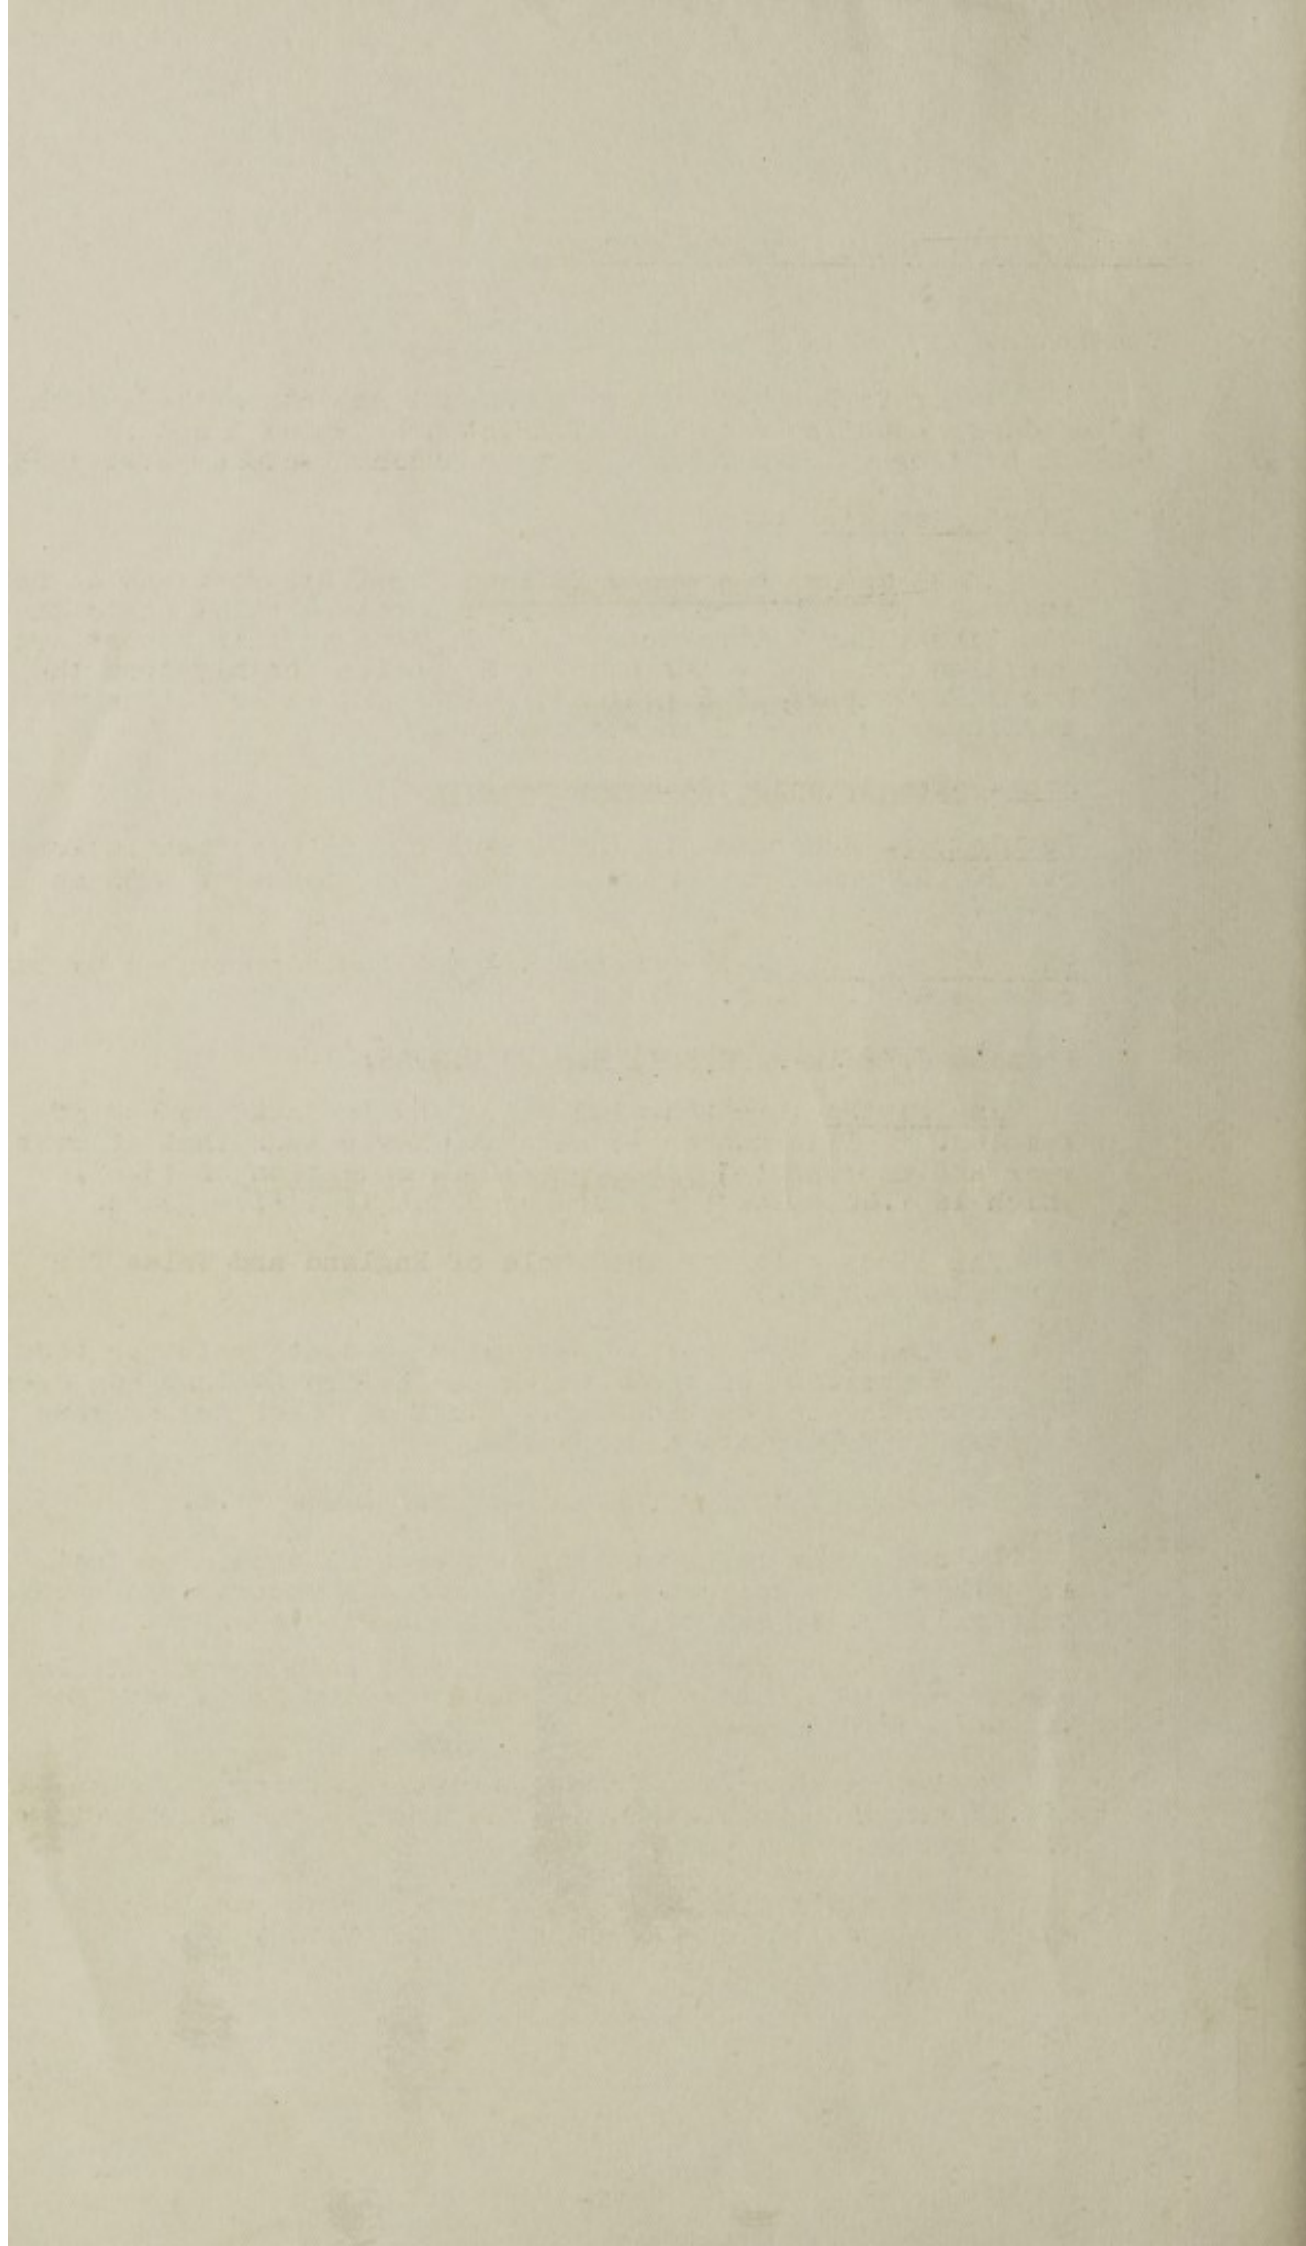

SPILSBY RURAL DISTRICT COUNCIL

by

Francis J. Walker, C.B.E., M.D., L.S.Sc.

Medical Officer of Health.

March, 1939.

TO THE SPILSBY RURAL DISTRICT COUNCIL.

Gentlemen,

I beg to lay before you my Annual Report on the health and sanitary conditions of the District over which I act as Medical Officer of Health for the year ending December 31st, 1938.

(1) Vital Statistics.

These refer to the old Spilsby Rural District and do not include any item ( except in the appendix ) relating to the old Sibsey Rural District. The figures in this report are compiled from the returns which I receive monthly from the Local Registrars of Births and Deaths and refer to the 63 parishes for which I am responsible.

Area. The Area is 124,465 acres.

Population. According to the Census of 1931 the population was 20,022 and I now estimate it to the middle of 1938 as 20,800.

The Rateable Value is £66,352 and the sum represented by 1d. rate is £311. 17. 3.

The number of inhabited houses is 6,319.

The Births were 284, 142 males and the same number of females. This number is slightly lower than that of last year and represents a rate per 1000 population of 13.65, which is 1.40 below the average of the last five years.

The Birth-rate for the whole of England and Wales for last year was 15.1.

The Deaths were 211, representing a death rate per 1000 of the population of 10.01 which is the lowest that has ever been recorded in the District. Half of these deaths were in people of 70 years and upwards.

The Death-rate for England and Wales was 11.6.

No death was registered from puerperal sepsis or from any other puerperal cause. No death was recorded as being primarily due to any of the Infectious Diseases.

The death of infants under one year numbered 10, giving a rate per 1000 births of 35. 21. A similar death rate for England and Wales was

Twelve persons died from consumption giving a death rate of .57 per 1000 population. The average for the last five years was .44.

Cancer claimed 27 victims, giving a rate per 1000 of 1.29 which is about the average for the last five years.

THE HISTORY OF THE

Continued

I have to say that you are much interested in the history of the country and the people and the things that have happened in the past.

THE HISTORY OF THE

I have to say that you are much interested in the history of the country and the people and the things that have happened in the past.

The first part of the book is about the early history of the country.

I have to say that you are much interested in the history of the country and the people and the things that have happened in the past.

The second part of the book is about the middle history of the country.

The third part of the book is about the modern history of the country.

I have to say that you are much interested in the history of the country and the people and the things that have happened in the past.

The fourth part of the book is about the future of the country.

I have to say that you are much interested in the history of the country and the people and the things that have happened in the past.

The fifth part of the book is about the present of the country.

I have to say that you are much interested in the history of the country and the people and the things that have happened in the past.

The sixth part of the book is about the past of the country.

I have to say that you are much interested in the history of the country and the people and the things that have happened in the past.

The seventh part of the book is about the future of the country.

## 2. General Provision of Health Services.

The Staff consists of:- A Medical Officer of Health ( part time ) who is not engaged in private practice, and one Chief Sanitary Inspector, with his two qualified Assistant Inspectors and two clerks. The Sanitary Inspectors act as Sanitary Surveyors to the Council and architects for the Housing Scheme.

Laboratory Facilities. Bacteriological Examinations are conducted by the County Council at Lincoln and by the Clinical Research Association in London.

Ambulance Facilities. Motor Ambulances belonging to the North Lincolnshire Branch of the British Red Cross Society are available for the removal of cases of accident or illness. Osgodby Infectious Hospital provided its own ambulance.

Clinics. There is an Orthopedic Clinic established at West End Villas, Spilsby, which is under the care of an Orthopedic Specialist from Lincoln, and a Tuberculosis Clinic in the same building.

Hospitals. These remain the same as last year. No patient was sent to the Small Pox Hospital at Osgodby, and eight patients suffering from Scarlet Fever were removed to Infectious Hospitals. No arrangement has been made to treat these cases at an Isolation Hospital of No. 4 District as suggested by the County Council, but we are still dependent for isolation on neighbouring Infectious Hospitals as Scarthoe, Osgodby and Skegness.

Cases of Tuberculosis ( Women and Children ) were sent by the County Council to their Sanatorium at Branston, but male patients are sent to Louth and Sanatoria in neighbouring counties.

The Hospitals for ordinary Medical and Surgical cases are at the County Hospital, Lincoln, the Cottage Hospitals at Alford and Spilsby and the Public Assistance Hospital at Hundleby.

Midwifery and Maternity Services. The County Council is the local Supervising Authority under the Midwives Act, for the whole of the Administrative County. Ten midwives are employed in this area by the District Nursing Associations, one by the Public Assistance Committee at the Gables, Hundleby, and one is in private practice.

## 3. Sanitary Circumstances of the Area.

### Water Supply.

The Fen and Coastal Water Schemes have made progress during the year, the former quite satisfactorily, but the boring at Mumby has been seriously delayed. I append a report from Mr. V.A.C. Durand B.Sc. ( London ) A.M. Inst. C.E. the Consulting Water Engineer, of the position of each scheme at the end of the year.

" Fen Scheme. The quality of water yielded by the Source Works has been proved satisfactory over a long period and the constructions of Twentylands Reservoir completed. Pipe-laying is in progress in the Fen District but service connections to Domestic users are being held up in four parishes under the control of the North East Lincs. Water Company. The Ministry of Health has stipulated treatment of Twentylands Water for removal of its liability to lead and copper solvency. This special work is in hand and a remedial process acceptable to the Ministry has been evolved at no great expense.

"Coastal Scheme. The completion and testing work at Mumby Borehole has been seriously delayed although the water bearing sandstone was encountered some months ago. Water is overflowing at the surface of the bore, but until tested by pumps the actual quantity available must be uncertain. Contracts for the purchase of pipes and specials for this scheme are complete, and as soon as the bore is proven, pipelaying can commence. The Water Tower can be built concurrently with other works under this scheme. "

Wainfleet. Samples taken from the tank which supplies water for the inhabitants of Wainfleet have been analysed twice during the year and the reports were - "that the water was fairly good as far as bacteria was concerned, but chemically while they were regarded as reasonably satisfactory for a river supply, it may be assumed that the standard of purity is liable to fluctuation. " These reports cannot be considered satisfactory and I do hope that measures will be taken as soon as possible to change the source of supply from the Steeping River to the new Fen Supply.

#### Drainage and Sewerage.

In the Coastal districts the erection of buildings steadily progresses and I can only repeat that the time is not far distant when the Council must proceed with modern sewage disposal schemes at Chapel St. Leonards, Hogsthorpe, and Ingoldmells.

Wainfleet Sewage Farm. The treatment is by broad irrigation and the effluent cannot always be regarded as satisfactory due to the clayey nature of the soil. Improvement can be obtained by passing the sewage through a percolating filter or by increasing considerably the land under treatment.

Public Conveniences. Plans are prepared for the erection of the sorely needed convenience at Anderby, and it is hoped work will be completed before Easter.

Scavenging. The public scavenging systems remain the same as last year, and the time has come when this system should be extended at St. Michael's Lane and Goose Lane, Wainfleet St. Mary.

Water Analysis. Thirty-three samples of water have been examined chemically. Eighteen were from bores in the Coastal area and were good, excepting for increased salinity in some of the samples. Those from shallow wells which were found to be polluted were remedied by obtaining a supply from some other source.

#### 4. Housing.

The number of new dwellings erected during the year is as follows:-

(1) By Public Authorities,	
Lindsey County Council	4
Spilsby Rural District Council	54
(2) By private enterprise	110
Total	<u>168</u>

The 54 houses built by the Spilsby Rural District Council were erected in the following parishes:-

	A.2.	A.3.	Total
Wainfleet St. Mary		8	8
Stickney		4	4
Willoughby		2	2
Ulceby		2	2
Stickford		2	2
Friskney		6	6
Wainfleet All Saints		10	10
Spilsby		6	6
Mumby	4		4
Thorpe St. Peter		2	2
New Leake		4	4
Huttoft		4	4
	4	50	54

A comprehensive inspection of the district for houses, which fell short of the required standard of fitness, was completed under the Housing Act.

A total of 425 houses were inspected and records made under the Housing Consolidated Regulations 1925. One hundred and nine dwelling houses were found to be incapable of repair at reasonable expense. After due consultation with the various owners the position at the end of the year in relation to these houses, following correspondence and appearance of owners at Committee meetings, and re-inspections of the premises with Sub-Committees, was as follows:-

- 9 Demolition Orders served.
- 26 Possible Demolition Orders.
- 18 Undertakings from Owners not to re-let.
- 56 Awaiting attention of the Owner.

It is contemplated that the Council will proceed with the erection of new houses shortly, to provide accommodation for those people displaced.

A tentative programme has been scheduled for the erection of Council houses to commence in the early part of 1939 as follows:-

<u>Parish</u>	A. 2. (2 bedrooms)	A.3. (3 bedrooms)
Burgh-le-Marsh		2
Candlesby		2
Croft		6
East Keal		2
East Kirkby		2
	Carried forward	14

Parish.	( 2 bedrooms.)	( 3 bedrooms.)
Brought forward	3	14
Friskney	6	6
Gréat Steeping		2
Ingoldmells		2
Old Bolingbroke	2	
Partney		2
Raithby		2
Spilsby	4	
Stickford	2	
Stickney		2
Toynnton St Peter	2	
Wainfleet All Saints	6	6
Wainfleet St. Mary	2	4
	<u>24</u>	<u>40</u>

For further information see Appendix 11 Page 16.

Holiday Camp - Ingoldmells, owned by Messrs. Butlin, Ltd., has been increased during the year and will now accommodate 5,000 people, and sewage works have been increased to provide for this extension.

Housing ( Rural Workers ) Act. Seven applications were received for grants and after consideration by the Council, grants were authorised in two cases.

Camping Sites. There were eight camping sites licensed during the year by the Local Authority, under Section 269 of the Public Health Act, 1936.

The estimated maximum number of campers resident in the area at one time during the summer season was 2000.

#### 5. Inspection and Supervision of Food.

The following is a list of persons who are licensed under the Milk ( Special Designation ) Order, 1936:-

<u>Name.</u>	<u>Address.</u>	<u>Designation.</u>
R. Enderby	Mill Hill Farm, Bratoft.	Accredited.
F. T. Brock	Chapel Dairy Farm, Chapel.	-do-
A.E. Dennett	Hundleby	-do-
G. Dennett	Queen Street, Spilsby.	-do-
W. Evison,	Croft Farm, Croft Bank.	-do-
R. Garfitt	Manor Farm, Bratoft.	-do-
F. Garrill	Council Farm, Burgh.	-do-
Wm. Hutton	Huttoft	-do-
E. Johnson	The Poplars Great Steeping	-do-
G.R.Needham & Son.	Bilsby.	-do-
J. F. Nickson	Ivy House, Farlesthorne.	-do-
D. Paul	Marsh View Farm, Burgh.	-do-
M.A. Simpson	Grange Farm, Ingoldmells.	-do-
S.E. Whaler	Teapot Hall Farm, Addlethorpe.	-do-

Supplementary licences to use the designations (a) pasteurised, (b) tuberculin tested were issued to Messrs. Boston Dairies, Ltd., in relation to milk retailed in the Spilsby Rural District.

The following cowsheds have been improved during the year.

Addlethorpe.

E. B. Baker.

Concrete floor in lieu of brick. Drainage. Walls cement rendered.

S. Bradley.

Concrete floor in lieu of brick. Concrete feeding trough. Proper drainage channel. Additional lighting and ventilation.

Anderby.

A. C. Everard, Seaton Farm.

Cowshed No. 1. Concrete floor in lieu of brick. Low level concrete feeding trough. Drainage. Walls cement rendered. Additional light.

Cowshed No. 2. Concrete floor in lieu of brick. Low level concrete feeding trough. Walls cement rendered. Additional light.

R. & E. Fields.

Cowshed No. 2. Drainage channel provided. Walls cement rendered. Additional light.

Cowshed No. 3. Conversion of building to cowshed.

Concrete floor with proper falls; low level concrete trough and proper drainage. Walls cement rendered. Adequate lighting and ventilation.

C. Wright.

Cowshed No. 1. Concrete floor in lieu of brick. Low level concrete feeding trough. Proper drainage.

Cowshed No. 2. Concrete floor in lieu of brick. Low level concrete feeding trough. Proper drainage.

Ashby.

H. Oliver - Rose Cottage Farm.

Concrete floor in lieu of brick and earth. Low level concrete feeding trough; proper drainage system; additional lighting and ventilation. Automatic drinking bowls.

Bolingbroke.

Hill Top Farm.

New brick and asbestos roofed cowshed with concrete floor; galvanised head ties; partitions and water bowls; and drainage.

Cropley - Boston Road.

New timber-built cowshed, on brick foundation with concrete floor; drainage etc.

Burgh-le-Marsh.

D. Paul.

Concrete floor in lieu of brick; low level concrete feeding trough; proper drainage system; additional lighting and ventilation; walls cement rendered.

Croft.

Boundary Farm

Reconstruction of cowshed by provision of new floor, lighting, and water-bowls. New cowshed built with concrete floor and, drainage, lighting, galvanised fittings and water bowls.

Cumberworth

Cook.

Concrete floor in lieu of brick; low level concrete feeding trough; proper drainage system; additional light.

A. Davidson.

Concrete floor in lieu of brick; low-level concrete feeding trough; proper drainage system; additional lighting and ventilation.

Enderby Mavis.

Field Farm.

Adoption of crewshed to cowshed; new floor drainage; galvanised head ties and partitions; water bowls; new timber and brick Dairy.

Friskney.

Wright's Lane.

New timber built cowshed and dairy on brick foundation; concrete floor and drainage; tubular fittings.

Halton Holegate.

Beverley House.

New cowshed built, timber framing on brick foundation; concrete floor and drainage; galvanised head ties and partitions.

Hogsthorpe.

F. Stones.

Concrete floor in lieu of brick; low-level concrete feeding trough; proper drainage system; walls cement rendered.

A. Wingate.

Concrete floor in lieu of brick; low-level concrete feeding trough; walls cement rendered; additional lighting.

Irby.

Church Farm.

Construction of new cowshed and dairy; concrete floor, and drainage, galvanised fittings and water bowls.

Mill Hill Farm.

Erection of new cowshed, brick built and steel framing with asbestos roof. Accommodation for 24 cows; concrete floor, drainage, tubular fittings, water bowls, new dairy.

Ingoldmells.

S. Davison

Three sheds. Concrete floors; proper drainage; walls cement rendered, additional light.

Keal East.

Fen Lane Farm.

Reconstruction of Cowshed; concrete floor; additional light and ventilation.

Keal West.

Back Lane Farm.

Reconstruction of cowshed, by provision of concrete floor and drainage; additional light and ventilation.

Mumby.

A. Dales, Moat Farm.

Concrete floor in lieu of brick, low-level concrete feeding trough; drainage.

Orby-le-Marsh.

L. M. Rodgers.

One cowshed enlarged to replace insanitary shed; concrete floor; low level concrete feeding trough; proper drainage; lighting and ventilation; accumulation of manure removed from front of shed.

Chatterton.

Concrete floor in lieu of brick; low-level concrete feeding trough; proper drainage system; additional lighting and ventilation.

Sloothby.

Ranyard, Ings Lane Farm.

Concrete floor in lieu of brick; low-level concrete feeding trough; proper drainage system; walls cement rendered; additional lighting and ventilation.

Spilsby.

J. Lee, Ashby Road.

Concrete floor in lieu of brick; proper drainage system; additional ventilation.

Steeping Little.

Poplar Farm.

Reconstruction of cowshed by provision of new concrete floor, and drainage, concrete approach, and additional light and ventilation.

Reconstruction of cowshed; additional light and ventilation; alteration to drainage system.

Thorpe Fendykes.

Fendykes Holding.

New timber built cowshed on brick foundation; concrete floor; drainage; lighting and ventilation.

Wainfleet All Saints.

Trustee Farm.

New Cowshed built; concrete floor; drainage; lighting and ventilation.

New Cowsheds.

Mumby

Wm. Chester.

Brick and tiles; concrete floor; low-level concrete feeding trough; proper drainage system; good lighting and ventilation.

Burgh-le-Marsh.

C. Marshall.

Brick and tiles; concrete floor with low level concrete feeding trough; proper drainage system; walls cement rendered, good lighting and ventilation.

Slaughter-houses and Meat Inspection.

It is very difficult to carry out an efficient inspection of all the slaughter-houses due to the distance and the periods of killing. Fortunately the majority of butchers kill animals of good quality and close co-operation exists between the butcher and the officers of the Public Health Department.

For particulars see Appendix 1, Page 14.

1. The first part of the report deals with the general situation of the country and the progress of the work during the year.

2. The second part of the report deals with the results of the work done during the year.

3. The third part of the report deals with the financial statement of the work done during the year.

4. The fourth part of the report deals with the conclusions drawn from the work done during the year.

5. The fifth part of the report deals with the recommendations made for the future work.

6. The sixth part of the report deals with the summary of the work done during the year.

7. The seventh part of the report deals with the list of the names of the persons who have taken part in the work.

8. The eighth part of the report deals with the list of the names of the persons who have given help and assistance.

II. THE WORK DONE DURING THE YEAR

1. The first part of this section deals with the work done during the first half of the year.

2. The second part of this section deals with the work done during the second half of the year.

III. THE FINANCIAL STATEMENT OF THE WORK DONE DURING THE YEAR

1. The first part of this section deals with the income of the work done during the year.

IV. THE CONCLUSIONS DRAWN FROM THE WORK DONE DURING THE YEAR

## 6. Prevalence of Infectious Diseases.

### Smallpox.

In common with the rest of England, this district was free from smallpox.

### Scarlet Fever.

Twelve notifications were received and with the exception of four cases which occurred in one house, in Sausthorpe, and arose from an imported case, in the previous year, all the others were isolated and mild. Seven of the patients were removed to isolation Hospitals and all recovered.

### Diphtheria

Only two cases were notified, one was mild and isolated, the other was a seaside visitor from Burnley, who returned home immediately.

### Enteric Fever (including Paratyphoid).

This disease was not notified during the year.

### Puerperal Pyrexia.

Five cases were notified during the year and all cases recovered.

### Pneumonia.

This disease was not so prevalent as in the previous year, nine notifications, as against 31. Six deaths were recorded.

The following table shows the incidence of Notifiable Diseases.

Diseases	Total cases notified	Cases admitted to Hospital.	Total Deaths.
Smallpox	-	-	-
Scarlet Fever	12	7	-
Diphtheria	2	1	-
Enteric Fever	-	-	-
Puerperal Pyrexia	5	1	-
Pneumonia	9	-	6
Erysipelas	3	-	-

Tuberculosis. This disease was notified twenty-one times and all but two cases were pulmonary.

#### New cases.

#### Deaths.

Age Periods.	Respiratory		Non-Respiratory		Respiratory		Non-Respiratory	
	M.	F.	M.	F.	M.	F.	M.	F.
0	-	-	-	-	-	-	-	-
1	-	-	-	-	-	-	-	-
5	-	-	-	-	-	-	-	-

65 & upwards	-	-	-	-	1	-	-	-
Total	10	9	2	-	7	5	-	-

In connection with the report of the Board of Health, the following is a list of the diseases reported during the year 1910-1911.

Diseases Reported

The following diseases were reported during the year 1910-1911: Smallpox, Measles, Diphtheria, Whooping Cough, Scarlet Fever, Typhoid Fever, Dysentery, Cholera, Malaria, Typhus, and Venereal Diseases. The total number of cases reported was 1,234.

Deaths

Only two deaths were reported during the year 1910-1911. One was due to smallpox and the other to typhoid fever.

Preventive Measures

Preventive measures were taken during the year 1910-1911.

Vaccinations

The number of vaccinations during the year 1910-1911 was 1,234.

Quarantine

This disease was not reported during the year 1910-1911. The number of cases reported was 0.

Summary of Diseases Reported

Disease	Number of Cases
Smallpox	1
Measles	123
Diphtheria	45
Whooping Cough	78
Scarlet Fever	56
Typhoid Fever	34
Dysentery	23
Cholera	12
Malaria	10
Typhus	8
Venereal Diseases	5

The following is a list of the diseases reported during the year 1910-1911. The total number of cases reported was 1,234.

Disease	Number of Cases
Smallpox	1
Measles	123
Diphtheria	45
Whooping Cough	78
Scarlet Fever	56
Typhoid Fever	34
Dysentery	23
Cholera	12
Malaria	10
Typhus	8
Venereal Diseases	5

A Table showing the number of notifications of four of the principal noticeable diseases for the last three quinquennial periods: -

<u>Period</u>	<u>Scarlet Fever.</u>	<u>Diphtheria.</u>	<u>Enteric Fever.</u>	<u>Tuberculosis</u>
1924/28	167	34	7	177
1929/33	122	18	1	154
1934/38	89	7	5	104

The mortality statistics for a like period also showed the same improvement.

But there is one disease, CANCER, that for the last fifteen years shows little or no diminution in its mortality rate. In 1939 we are promised a presentation before Parliament of a Bill which will have for its object greater facilities for a concerted action with regard to the etiology, pathology, and treatment of this dread disease.

I have the honour to be, Gentlemen,

Your obedient Servant,

Francis J. Walker.

Medical Officer of Health.

A letter from the Secretary of the  
Board of Directors of the  
Company, dated 1901, is  
attached for your information.

Statement of Assets and Liabilities		for the year ending 1901	
Assets	Liabilities	Assets	Liabilities
1. Cash	1. Cash	1. Cash	1. Cash
2. Accounts receivable	2. Accounts payable	2. Accounts receivable	2. Accounts payable
3. Inventory	3. Notes payable	3. Inventory	3. Notes payable
4. Fixed assets	4. Other liabilities	4. Fixed assets	4. Other liabilities
5. Total	5. Total	5. Total	5. Total

The above statement shows the financial position of the Company at the close of the year 1901. The assets are shown on the left and the liabilities on the right. The total assets are equal to the total liabilities, as shown in the last line of the statement.

I am, Sir, very respectfully,  
Your obedient servant,  
J. H. Smith

Enclosed for you are the following documents:  
1. A copy of the annual report of the Company.  
2. A copy of the minutes of the Board of Directors.  
3. A copy of the financial statement for the year 1901.

Very truly yours,  
J. H. Smith

Enclosed for you are the following documents:

# APPENDIX No. 1.

The following tables relate to the whole of the  
Spilsby Rural District.

The following shows some of the work done by the Sanitary Inspectors during the year throughout the whole of the Rural District.

<u>Common</u>	( No. registered under byelaws.	-
<u>Loading</u>	( No. of inspections made.	-
<u>Houses.</u>	( No. of contraventions of byelaws.	-
	( No. of contraventions remedied.	-
<u>Canal Boats</u>	( No. registered under acts.	-
<u>used as</u>	( No. of inspections.	-
<u>Dwelling-</u>	( No. of contraventions of regulations	-
<u>houses.</u>	( No. of contraventions remedied.	-
<u>Movable</u>	( No. inspected during year	385
<u>Dwellings</u>	( No. of nuisances therefrom abated	-
<u>Tents, vans</u>	( No. removed from district	4
<u>&amp;c.</u>	( No. in district	41
	( No. of underground bakehouses	-
<u>Bakehouses</u>	( No. of inspections	11
	( Contraventions of Factory Acts.	-
	( Defects remedied	-
<u>Slaughter-</u>	( No. on register.	31
<u>Houses.</u>	( No. of inspections.	385
	( Contraventions of byelaws	-
	( Defects remedied.	-
	( No. on register	661
<u>Cowsheds.</u>	( No. of inspections	186
	( Contraventions of regulations	283
	( Contraventions remedied	171
	( No. of Milch cows in district	2462
	( No. on register	672
<u>Dairies and</u>	( No. of inspections	127
<u>Milk Shops</u>	( Contraventions of regulations	52
	( Contraventions remedied.	40

#### APPENDIX II

<u>Total No. of new houses erected during the year</u>	168
(1) By the Local Authority	54
(2) By other Local Authorities	4
(3) By other bodies or persons	110

1. The first part of the report deals with the general situation of the country and the progress of the work during the year.

2. The second part deals with the results of the work done during the year.

3. The third part deals with the financial statement of the year.

4. The fourth part deals with the conclusions of the year.

5. The fifth part deals with the recommendations for the future.

6. The sixth part deals with the appendixes.

7. The seventh part deals with the index.

8. The eighth part deals with the bibliography.

9. The ninth part deals with the list of figures.

10. The tenth part deals with the list of tables.

11. The eleventh part deals with the list of maps.

12. The twelfth part deals with the list of illustrations.

13. The thirteenth part deals with the list of references.

14. The fourteenth part deals with the list of abbreviations.

15. The fifteenth part deals with the list of symbols.

16. The sixteenth part deals with the list of units.

17. The seventeenth part deals with the list of definitions.

18. The eighteenth part deals with the list of footnotes.

19. The nineteenth part deals with the list of endnotes.

20. The twentieth part deals with the list of appendices.

Inspection of Dwelling-Houses during the year.

(1)	(a) Total number of dwelling houses inspected for housing defects ( under Public/Health or Housing Acts)	551
	(b) No. of inspections made for the purpose	895
(2)	(a) No. of dwelling houses (included under Sub-Head (1) above ) which were inspected and recorded under the Housing Consolidated Regulations, 1925	425
	(b) Number of inspections made for the purpose	531
(3)	Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation	109
(4)	Number of dwelling-houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation	274

Remedy of defects during the year without service of Formal Notices.

No. of defective dwelling-houses rendered fit in consequence of informal action by the Local Authorities, or their Officers, 110

Action under Statutory Powers during the year.

(a)	Proceedings under Sections 9,10, and 36 of the Housing Act, 1936: -	
(1)	No. of dwelling-houses in respect of which notices were served requiring repairs	2
(2)	No. of dwelling-houses which were rendered fit after service of formal notices	
	(i) by owners	2
	(ii) by Local Authorities in default of owners	-
