ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

AND

CHIEF PUBLIC HEALTH INSPECTOR

ACQD. BY

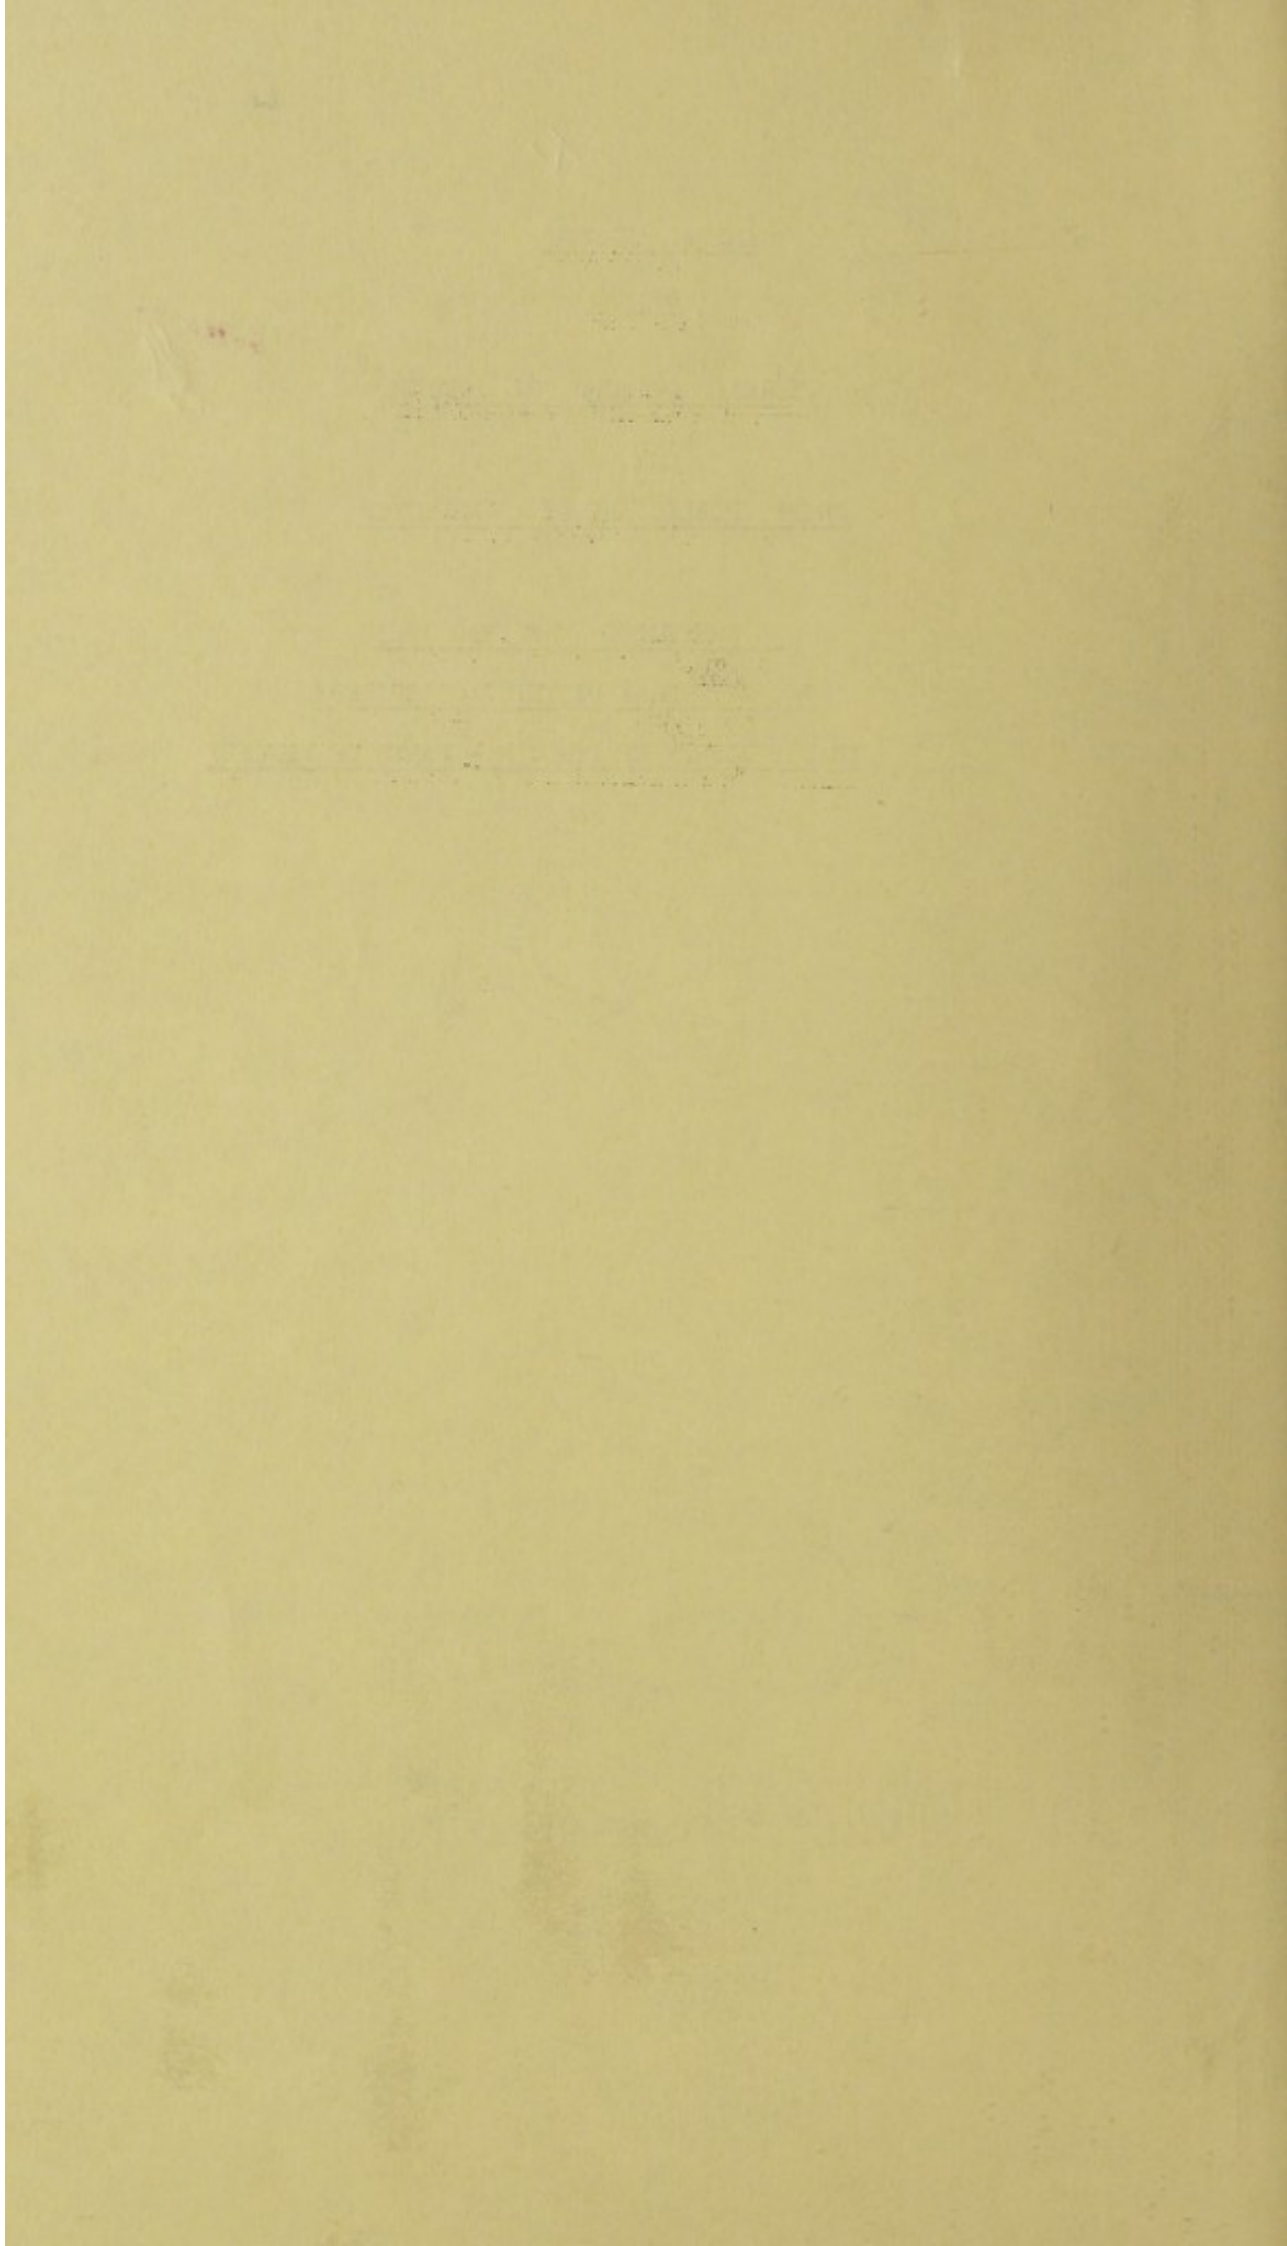

IN RESPECT OF THE YEAR 1963

FOR THE RURAL DISTRICT OF SPILSBY

IN THE COUNTY OF LINCOLN - PARTS OF LINDSEY

August, 1963

SPILSBY RURAL DISTRICT COUNCIL.

Public Health Staff.

Medical Officer of Health.

A. Loftus, L.R.C.P., L.R.C.S., D.P.H., Dip. Mid..

Chief Public Health Inspector.

W. Bailey, Cert. R.S.I., M.S.I.A., Cert. Meat and  
Other Foods.

Additional Public Health Inspector.

M.J. Whitehead, M.A.P.H.I., M.R.S.H., Cert. Meat Insp:  
date of appointment 1st April, 1963.

Clerk.

G.D. Holiday.

GENERAL INSTRUCTIONS

ARTICLE I

SECTION 1

1. The name of the organization shall be the [illegible]

SECTION 2

2. The purpose of the organization shall be [illegible]

SECTION 3

3. The members of the organization shall be [illegible]

SECTION 4

4. [illegible]

SPIILSBY RURAL DISTRICT COUNCIL.

Medical Officer's Report for the year 1963.

Mr. Chairman and Gentlemen,

I have the honour to present the Annual Report on the Health and Sanitary conditions of the district for the year 1963.

During the year there were 312 births, giving a birth rate of 14 per 1,000 population, compared with a National rate of 18.2. There were 7 stillbirths, giving a rate of 21.9 per 1,000 population, National rate 17.3. There were 330 deaths from all causes, giving a death rate of 14.8 per 1,000 population compared with a National rate of 12.2. 4 deaths occurred in infants under one year. An infant mortality rate of 12.8 per 1,000 live births, National rate 20.9.

Notifications in respect of 401 cases of infectious diseases were received, measles accounting for 369, an epidemic in the first quarter of the year. In addition 6 cases of whooping cough, 11 cases of scarlet fever, 1 meningococcal infection, 10 dysentery, 2 food poisoning, 1 pulmonary tuberculosis and 1 non-pulmonary tuberculosis occurred. No dangerous infectious disease was notified.

VITAL STATISTICS.

Area in acres .....	145,660.
Population: the Registrar General's estimated mid-year home population is .....	22,270.
<u>Density:</u> The density of population is (persons per acre).....	.15
<u>Rateable Value:</u> The rateable value was .....	£602,980.
and the product of a penny rate .....	£2,372. 2s. Od.
<u>Houses:</u> The number of houses inhabited was .....	7,811.
<u>Births:</u> Live births (a) legitimate M. 157 F. 137 Total... (b) illegitimate M. 6 F. 12	312.
Live births rate per 1,000 population .....	14.
Illegitimate live births per cent or total live births .....	5.7
Stillbirths ..... M. 4 F. 3 Total .....	7.
Rate per 1,000 total live and still births .....	219.
Total live and still births .....	319.
Infant deaths (deaths under 1 year) M. 2 F. 2 Total ...	4.
Legitimate mortality rate per 1,000 legitimate live births..	12.8
Illegitimate mortality rate per 1,000 illegitimate live births .....	Nil.

Enclos. 4.

4th November, 1964.

Sir,

Annual Report of the Medical Officer of Health for 1963.

Following Ministry of Health Circular 1/64 I now enclose herewith 4 copies of the above Report, which has been before and approved by the Council.

I am Sir,  
Your obedient Servant,

The Secretary,  
Ministry of Health,  
Alexander Fleming House,  
Elephant and Castle,  
LONDON S.E.1.

REPLY TO  
1931

T. H. E. COTTRELL  
CLERK OF THE COUNCIL

IN REPLY PLEASE QUOTE  
C. 285A.

Refers to

Sir,

Annual Report of the Medical Officer of Health for 1931.

Following Ministry of Health Circular 1/31 I now enclose herewith 4 copies of the above report, which has been before and approved by the Council.

I am Sir,  
Your obedient servant,

*W. E. ...*

The Secretary,  
Ministry of Health,  
Alexander Fleming House,  
Elephant and Castle,  
London S.E.1.

Vital Statistics

Neonatal Mortality Rate (deaths under 4 weeks per 1,000 total live births).....	9.6
Early Neonatal Mortality Rate (deaths under 1 week per 1,000 total live births).....	9.6
Perinatal Mortality Rate ( still births and deaths under 1 week combined per 1,000 total live and still-births)	31.3
Maternal Mortality (including abortion).....	Nil
Number of deaths.....	Nil
Rate per 1,000 total live and still births.....	Nil

DEATHS

No of deaths from all causes.....	330
Death rate per 1,000 resident population.....	14.8
Death rate adjusted for comparison with other places.....	11.8
Death rate for England and Wales per 1,000 resident population.....	12.2

There were no cases of the following Infectious Diseases:-

Pneumonia  
 Erysipelas  
 Poliomyelitis  
 Diphtheria  
 Ophthalmia Neonatorum  
 Puerperal Pyrexia  
 Polio Encephalitis  
 Paratyphoid Fever

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is equivalent to the problem of finding a function  $f(x)$  which satisfies the conditions

2. The second part of the paper is devoted to a detailed study of the case in which  $f(x)$  is a polynomial. It is shown that in this case the problem is equivalent to the problem of finding a polynomial  $P(x)$  which satisfies the conditions

3. The third part of the paper is devoted to a study of the case in which  $f(x)$  is a rational function. It is shown that in this case the problem is equivalent to the problem of finding a rational function  $R(x)$  which satisfies the conditions

4. The fourth part of the paper is devoted to a study of the case in which  $f(x)$  is a transcendental function. It is shown that in this case the problem is equivalent to the problem of finding a transcendental function  $T(x)$  which satisfies the conditions

5. The fifth part of the paper is devoted to a study of the case in which  $f(x)$  is a function of a special type. It is shown that in this case the problem is equivalent to the problem of finding a function  $S(x)$  which satisfies the conditions

6. The sixth part of the paper is devoted to a study of the case in which  $f(x)$  is a function of a special type. It is shown that in this case the problem is equivalent to the problem of finding a function  $S(x)$  which satisfies the conditions

7. The seventh part of the paper is devoted to a study of the case in which  $f(x)$  is a function of a special type. It is shown that in this case the problem is equivalent to the problem of finding a function  $S(x)$  which satisfies the conditions

8. The eighth part of the paper is devoted to a study of the case in which  $f(x)$  is a function of a special type. It is shown that in this case the problem is equivalent to the problem of finding a function  $S(x)$  which satisfies the conditions

9. The ninth part of the paper is devoted to a study of the case in which  $f(x)$  is a function of a special type. It is shown that in this case the problem is equivalent to the problem of finding a function  $S(x)$  which satisfies the conditions

10. The tenth part of the paper is devoted to a study of the case in which  $f(x)$  is a function of a special type. It is shown that in this case the problem is equivalent to the problem of finding a function  $S(x)$  which satisfies the conditions

11. The eleventh part of the paper is devoted to a study of the case in which  $f(x)$  is a function of a special type. It is shown that in this case the problem is equivalent to the problem of finding a function  $S(x)$  which satisfies the conditions

12. The twelfth part of the paper is devoted to a study of the case in which  $f(x)$  is a function of a special type. It is shown that in this case the problem is equivalent to the problem of finding a function  $S(x)$  which satisfies the conditions

### B.C. G. Vaccination

Details of B.C.G. vaccinations carried out at Schools in Spilsby during the year under the County Council's School Children Scheme are as follows:-

	No. skin tested	No. found positive	No. found negative	No. vaccinated
School children under 14 years of age	129	8	121	121

### HOME HELP SERVICE

Details regarding the Domestic Help Service in Spilsby during 1963 are as follows:

Number of Helpers enrolled at the end of 1963:- 36

Number of cases given help during 1963:-				
Aged.	Chronic sick	Maternity	Others	Total
62	4	4	5	75

Number of cases receiving help at the end of 1963:-				
Aged	Chronic sick	Maternity	Others	Total
46	4	-	2	52

### FOOD AND DRUGS ACT, 1955

#### Sample of Food and Drugs taken for Analysis during the year

1.	Milk	609
2.	Processed milk products (including cream, butter and ice cream)	3
3.	Edible fats and oils	2
4.	Tinned, bottled and dried articles	8
5.	Alcoholic beverages	2
6.	Meat and fish products (not included in 4)	8
7.	Sugar and flour confectionery	3
8.	Vinegars, pickles, sauces, spices, flavourings and essences	1
9.	Miscellaneous	2
10.	Medicines and drugs	2
		<u>640</u> Total

The number of milk samples is very substantial as the majority of these have been taken for convenience on arrival at the major collecting and pasteurising dairy which is situated in the district. Of the foregoing samples 20 were deficient in fat, 34 were deficient in solids non-fat and 2 were deficient in both fat and solids non-fat. All of these deficiencies were found to be due to natural causes and advice was rendered to the producers accordingly.

One sample of pork sausage was deficient in meat in accordance with the standard of not less than 65.0 per cent which has been recommended by the Food Standards Committee of the Ministry of Agriculture, Fisheries and Food and is generally accepted by the trade.

The following table shows the results of the survey conducted in the year 2000. The data is presented in the following table:

Year	Number of respondents	Percentage of respondents	Number of respondents who are satisfied	Percentage of respondents who are satisfied
2000	100	100%	75	75%

The following table shows the results of the survey conducted in the year 2001. The data is presented in the following table:

Year	Number of respondents	Percentage of respondents	Number of respondents who are satisfied	Percentage of respondents who are satisfied
2001	100	100%	80	80%

Table 1: Results of the survey conducted in the year 2000

The following table shows the results of the survey conducted in the year 2000. The data is presented in the following table:

Year	Number of respondents	Percentage of respondents	Number of respondents who are satisfied	Percentage of respondents who are satisfied
2000	100	100%	75	75%

The following table shows the results of the survey conducted in the year 2001. The data is presented in the following table:

Year	Number of respondents	Percentage of respondents	Number of respondents who are satisfied	Percentage of respondents who are satisfied
2001	100	100%	80	80%

Two samples of fruit salad and one sample of ice cream were found to be incorrectly labelled in accordance with the Labelling of Food Order, 1953 and the Ice Cream Regulations.

Warnings were issued in these instances and the matters have been rectified.

One hundred and three samples of raw milk were taken for biological examination of which 86 were taken on arrival of the milk at the main pasteurising depots for convenience. No evidence of tuberculosis was revealed on examination but five samples of milk showed positive evidence for brucella abortus. The milk from these herds has been subject to pasteurisation and the producers and employees advised on the dangers of consuming raw milk. In addition the Divisional Veterinary Officer of the Ministry of Agriculture, Fisheries and Food has arranged for calf vaccination to be carried out against contagious abortion as necessary.

#### Milk (Special Designation) Regulations

The following samples were taken during the year from the two pasteurising dairies operating in the district and in the course of delivery -

Tuberculin tested milk (pasteurised)	280
Pasteurised milk	313
Sterilised milk	148
Tuberculin tested milk - raw	8

There are two pasteurising plants in the area both of which operated satisfactorily during the year apart from a local defect at one which resulted in two samples failing the phosphatase test for heat treatment.

The undermentioned samples taken from dealers failed the methylene blue test for keeping quality -

Tuberculin tested milk (pasteurised)	1
Pasteurised milk	3
Tuberculin tested milk - raw	1

These matters were investigated, advice offered as necessary and subsequent samples proved satisfactory.

In all cases the processors or venders were warned under the Food and Drugs Act accordingly.

### HOSPITAL SERVICES

#### GENERAL AND MATERNITY

Grace Swan Hospital provides for some medical, surgical and maternity cases. Other medical, surgical and maternity cases are admitted to Louth and Boston Hospitals. Paediatric cases are admitted to Boston, Louth and Lincoln Hospitals.

#### INFECTIOUS DISEASES

Patients suffering from these diseases are admitted to the Isolation Hospitals at Boston and Lincoln.

#### X-RAY FACILITIES

X-Ray facilities are provided by the Grace Swan, <sup>Spilsby</sup> Boston and Louth Hospitals.

#### WELFARE SERVICES

Under the provisions of the National Assistance Act, 1948., it is the responsibility of the Welfare Authority to provide accommodation for aged and infirm persons who are in need of care and attention. This accommodation is provided in the form of Hostels in the district. It was not necessary to take action under Section 47 of this Act during the year.

The number of units which are supplied to the user will be approximately 1000 units per month with the following of this order, 1977 and the following information.

The number of units which are supplied to the user will be approximately 1000 units per month with the following of this order, 1977 and the following information.

UNIT PRICE INFORMATION

The following table shows the unit price for the year 1977. The unit price is shown in the following table and is the same as the unit price for the year 1976.

100	1000 units (estimated)
200	2000 units (estimated)
300	3000 units (estimated)
400	4000 units (estimated)

The unit price for the year 1977 is shown in the following table and is the same as the unit price for the year 1976.

### AMBULANCE SERVICE

Since the 1st January, 1964., there is a sub-station at Spilsby, this is staffed with 2 men and 1 ambulance.

### THE CHILDRENS ACT, 1948.

By the provisions of this Act certain classes of children come under the care of the Childrens Department of the County Council. This department is responsible for children who are for various reasons deprived of normal care of their parents, and problem families. The Rural District as a Housing Authority can give a lot of help towards the re-housing of problem families, under this Act. There is one Residential Nursery in the district, situated at Burgh-le-Marsh.

### GENERAL HEALTH SERVICES

#### MATERNITY SERVICE

##### MIDWIFERY

Five Midwives serve the district, four full-time and one in a relieving capacity.

#### ANTE-NATAL and POST-NATAL

Ante-Natal and Post-Natal work is undertaken by the general practitioners in the district.

#### INFANT WELFARE

An Infant Welfare Clinic is held at Friskney on the 2nd and 4th Mondays of the Month, and at Wainfleet on the 1st and 3rd Wednesdays of the Month. Immunisation against Diphtheria, Whooping Cough, and vaccination against Smallpox and Poliomyelitis is done at these Clinics.

### SANITARY ADMINISTRATION OF THE AREA.

#### PUBLIC CLEANSING.

This service which collects and disposes of domestic refuse, cesspool contents at camp sites, business premises, domestic premises, public conveniences, small sewage works and night soil, is a most important factor in public health.

In addition, the Council arranges the disposal of refuse from Butlin's Holiday Camp, varying from 4,000 population early in the season to 12,000 population weekly at the height of the holiday period.

Any temporary failure in the refuse collection services, rightly causes an immediate outcry from those primarily affected. Such occasions, deeply regretted by those responsible, serve to bring to the notice of the public the relative importance of the collection and disposal of waste refuse.

Illness; mechanical breakdowns; heavy snowfalls; continued wet weather, along with dense populated holiday resorts such as Ingoldmells, Chapel St. Leonards and Anderby, at times provide a temporary set-back from the normal times of collection.

Thanks to the workmen, the refuse collection services did a good job.

The introduction of modern methods and ideas, abolishing old customs, takes time. I feel sure that in the future the present type of galvanized covered ash bin will be abolished and a changing pattern to the sack holder will operate. With the sack holder there is no noise; no flying dust; no bin to clean and complete clearance.

Refuse tips are situate at Spilsby, Langrick, Ulceby, Stickney, Burgh, Ingoldmells and Hogsthorpe.

There is a refuse collection service in all sixty-nine parishes, comprising once every week in seven parishes and once every two weeks at Wainfleet St. Mary and built up areas of Sibsey and Stickney, and once every three weeks in the remaining fifty-nine parishes.

#### Night Soil and Cesspools.

Since the inauguration of a free cesspool emptying to household properties once every two years, the increased means of disposal of the effluent is a problem.

The work done by the three cesspool vehicles is as follows:-

Private properties .....	973.
Schools .....	32.
Camp Sites .....	176.
Business Premises .....	37.
Sewage Disposal Works .....	122.
Public Conveniences .....	229.

There is a once weekly collection of night soil in the parishes of Wainfleet St. Mary, Wainfleet All Saints, Burgh-le-Marsh and Ingoldmells. During the holiday season Ingoldmells receives a twice weekly collection.

#### HOUSING.

Under the Housing Rural Survey, a total of 599 premises were classified as being potentially unfit for human habitation. At the commencement of the year, a total of 569 premises had been inspected, leaving 30 premises for final inspection.

In recent years there has been gradual clearance of unfit and dangerous properties by demolition and considerable improvement by reconditioning to modern amenities by means of an Improvement Grant.

During the year, 29 Demolition Orders were made; 48 properties were demolished following Demolition Orders and 7 properties were subject to Closing Orders.

108 new houses were erected, 88 by private enterprise and 20 by Council.

#### Position at 31st December, 1963.

Families are now housed by the Council as follows:-

Council dwelling	- brick	964.
„ „	- non-traditional Airy	40.
„ „	- non-traditional Prefab:	45.
„ „	- non-traditional Swedish	8.
Dwellings converted	- Land Army Hostels	5.
Old Council Offices	- Flats	4.
Old Persons Residence	- Flats	36.
Old Persons Bungalows	-	72.

The introduction of modern methods and ideas, including the  
use of the microscope, has led to the discovery of many  
of the most important facts in the history of life. It is  
to the work of these men that we owe our knowledge of the  
cell, the tissue, the organ, and the system.

It is the aim of this book to present a clear and concise  
summary of the history of biology, from the earliest times  
to the present day.

The book is divided into two parts. The first part deals  
with the history of biology up to the year 1800, and the  
second part deals with the history of biology from 1800 to  
the present day.

CONTENTS

Part I. The History of Biology up to 1800. The history of  
biology up to the year 1800 is divided into three periods:  
the classical period, the medieval period, and the modern  
period.

1. The Classical Period	1
2. The Medieval Period	15
3. The Modern Period	35
4. The History of Botany	55
5. The History of Zoology	75
6. The History of Physiology	95
7. The History of Medicine	115
8. The History of Agriculture	135
9. The History of Geology	155
10. The History of Meteorology	175
11. The History of Astronomy	195
12. The History of Mathematics	215
13. The History of Philosophy	235
14. The History of Literature	255
15. The History of Art	275
16. The History of Music	295
17. The History of Law	315
18. The History of Politics	335
19. The History of Economics	355
20. The History of Social Science	375
21. The History of Education	395
22. The History of Religion	415
23. The History of Ethics	435
24. The History of Psychology	455
25. The History of Logic	475
26. The History of Metaphysics	495
27. The History of Epistemology	515
28. The History of Aesthetics	535
29. The History of Criticism	555
30. The History of Hermeneutics	575
31. The History of Jurisprudence	595
32. The History of Political Science	615
33. The History of Sociology	635
34. The History of Anthropology	655
35. The History of Linguistics	675
36. The History of Philology	695
37. The History of Archaeology	715
38. The History of Epigraphy	735
39. The History of Papyrology	755
40. The History of Numismatics	775
41. The History of Palaeontology	795
42. The History of Prehistoric Archaeology	815
43. The History of Ethnology	835
44. The History of Folklore	855
45. The History of Mythology	875
46. The History of Legend	895
47. The History of Fairy Tale	915
48. The History of Romance	935
49. The History of Novel	955
50. The History of Drama	975
51. The History of Opera	995
52. The History of Ballet	1015
53. The History of Music	1035
54. The History of Painting	1055
55. The History of Sculpture	1075
56. The History of Architecture	1095
57. The History of Garden	1115
58. The History of Landscape Gardening	1135
59. The History of Horticulture	1155
60. The History of Forestry	1175
61. The History of Agriculture	1195
62. The History of Farming	1215
63. The History of Stock Raising	1235
64. The History of Fishing	1255
65. The History of Hunting	1275
66. The History of Game Laws	1295
67. The History of Game Reserves	1315
68. The History of Game Wards	1335
69. The History of Gamekeepers	1355
70. The History of Gamekeepers' Lodges	1375
71. The History of Gamekeepers' Cottages	1395
72. The History of Gamekeepers' Huts	1415
73. The History of Gamekeepers' Sheds	1435
74. The History of Gamekeepers' Barns	1455
75. The History of Gamekeepers' Stables	1475
76. The History of Gamekeepers' Piggeries	1495
77. The History of Gamekeepers' Poultry Houses	1515
78. The History of Gamekeepers' Washhouses	1535
79. The History of Gamekeepers' Drying Rooms	1555
80. The History of Gamekeepers' Cellars	1575
81. The History of Gamekeepers' Cellars	1595
82. The History of Gamekeepers' Cellars	1615
83. The History of Gamekeepers' Cellars	1635
84. The History of Gamekeepers' Cellars	1655
85. The History of Gamekeepers' Cellars	1675
86. The History of Gamekeepers' Cellars	1695
87. The History of Gamekeepers' Cellars	1715
88. The History of Gamekeepers' Cellars	1735
89. The History of Gamekeepers' Cellars	1755
90. The History of Gamekeepers' Cellars	1775
91. The History of Gamekeepers' Cellars	1795
92. The History of Gamekeepers' Cellars	1815
93. The History of Gamekeepers' Cellars	1835
94. The History of Gamekeepers' Cellars	1855
95. The History of Gamekeepers' Cellars	1875
96. The History of Gamekeepers' Cellars	1895
97. The History of Gamekeepers' Cellars	1915
98. The History of Gamekeepers' Cellars	1935
99. The History of Gamekeepers' Cellars	1955
100. The History of Gamekeepers' Cellars	1975

The history of biology is a long and varied one, and it is  
the aim of this book to present a clear and concise summary  
of the history of biology, from the earliest times to the  
present day.

INDEX

The index is divided into two parts. The first part deals  
with the history of biology up to the year 1800, and the  
second part deals with the history of biology from 1800 to  
the present day.

## FOOD INSPECTION.

The introduction of the Meat Inspection Regulations, 1963, operative on the 1st October, 1963, ultimately ensures that all home killed meat is inspected before it leaves the slaughter-house.

During the year, 3,580 carcasses and organs of bovines, sheep and pigs, were inspected.

The amount of meat found to be diseased and unfit for human consumption at the slaughter-houses was :-

11 cwts    2 qrs    8 lbs.

There are five licensed slaughter-houses in the District.

### Other Foods Condemned.

48 x 15½ oz tins .....	Salmon.
1 x 12 lb tin .....	Ham.
3 x 15 lb tins .....	Ham.
5 x 13 lb tins .....	Ham.

### Food Hygiene.

Experience has proved that there is variation and disparity in hygiene standards between control exercised in food shops and apparent ignorance of those operating in open air.

The temporary nature of the structures in the open market, mobiles and particularly the confined hot-dog and sea-food stalls, prevents ideal and satisfactory hygiene standards.

Some outdoor vendors who operate in our coastal region, never consider any modern design vehicle, but overnight erect a small structure without any reasonable amenities for washing hands, crockery etc..

The steady increase of pre-packed foods, fortunately reduces hygiene problems, but in hot weather constant supervision is required at stalls and mobile vans.

It is regretted that there are no powers available whereby an owner of a stall, contemplating selling open food and remaining in the same position day by day, can be forced by law to submit plans, and if the site is unsuitable and most undesirable due to possible contamination of food, refuse the plan.

### CAMPING SITES AND MOVEABLE DWELLINGS.

As one travels northwards from Roman Bank, Ingoldmells, to the parish of Anderby, it is a most interesting sight by day to see the vast column of caravans, and in the evening, the lights of this small township of caravans.

We have mile after mile of these camps along and near to the sand-hills, and it is no exaggeration to state that we have nearly the largest camping area in England. Hence the Council's desire to ensure that licensed conditions are fair and strict, so that families can enjoy all the amenities of a delightful holiday.

The problem of persons living permanently without authority on caravan sites, after the expiration of the licensed period each year, has now ceased due to (a) co-operation of the camp site operators and (b) a licensed Council site.

There are 262 licensed camp sites. Approximately 7,000 caravans are stationed on these licensed sites along with other fields taking advantage of the 28 day exemption period.

The first part of the report deals with the general situation of the country and the progress of the work done during the year.

The second part of the report deals with the results of the work done during the year and the progress of the work done during the year.

The third part of the report deals with the results of the work done during the year and the progress of the work done during the year.

The fourth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

1. The first part of the report deals with the general situation of the country and the progress of the work done during the year.	100
2. The second part of the report deals with the results of the work done during the year and the progress of the work done during the year.	100

The work done during the year has been very satisfactory and the progress of the work done during the year has been very satisfactory.

The work done during the year has been very satisfactory and the progress of the work done during the year has been very satisfactory.

SEWERAGE AND SEWAGE DISPOSAL SCHEMES.

Burgh-le-Marsh.

Works commenced and progress took place in the laying of 7" and 12" sewers, manholes, laterals, rising mains and pumping stations.

East Kirkby. Phase 2.

The work of laying sewers is almost complete.

Stickney. Phase 3.

Following an advertisement in the press at the latter part of the year, tenders will be submitted by Contractors early 1964.

Huttoft.

A Local Investigation was held into this scheme in September, 1963.

Ingoldmells.

Contract No. 1 - Sewage Disposal Schemes.

Contract No. 2 - Laying of sewers and construction of pumping stations.

Works proceeding.

Spilsby, Hundleby and Halton Holegate.

The scheme was advertised in the press in November 1963, and it is anticipated that a Local Investigation or Public Enquiry will be held into the scheme.

Wainfleet All Saints, Wainfleet St. Mary and part of Croft.

Tender accepted.

REPORT ON THE SANITARY CIRCUMSTANCES FOR THE YEAR 1963.

District: Spilsby Rural.

Area: 145,660 acres                      Population: 22,718. 1961 (provisional) census.

HOUSING.

Total No. of dwelling houses and flats in District ..... 8,347.

TOTAL NUMBER OF NEW HOUSES ERECTED DURING THE YEAR.

(1)	By the Local Authority .....	20.
(2)	By other Local Authorities .....	Nil.
(3)	By other bodies or persons .....	88.
(4)	Number allocated for replacing houses subject to Demolition Orders or otherwise demolished .....	5.

HOUSING REPAIRS AND RENTS ACTS, 1954 - 57.

No. of certificates of disrepair issued ..... Nil.
