Medical Officer's Report for the Year, 1969

I have the honour to present my Annual Report on the health and sanitary conditions in 1969.

The estimated mid-year population as supplied by the Registrar General was 22,480.

During the Year there were 264 births, 15 of which were illegitimate, giving a birth rate of 11.7 per 1,000 population, the national rate was 16.3. The illegitimate live births as percentage of all live births was 6%, the national rate was 8%. There were 317 deaths from all causes, giving a death rate of 14.1 per 1,000 population, the national rate was 11.9, 6 of these deaths occurred in infants under 1 year giving a death rate of 23 per 1,000 live births, national rate was 18. The greatest number of deaths in adults occurred in persons of 65 years and over 80.7% Heart disease and cerebrovascular disease being the greatest killers.

Notifications were received in respect of 33 cases of infectious disease, 5 cases of Scarlet Fever, 22 Measles, 2 Whooping Cough, 1 Acute Encephalitis, 1 Food Poisoning and 2 Infective Jaundice. There was a big drop in notifications of Measles as compared with the previous Year, this is due to Measles vaccination. It is also a number of years since there was a notification of Poliomyelitis, which again is only due to vaccination. To ensure that this continues, vaccination against these diseases must be maintained.

During the Year the water supply to the district was satisfactory in quality, quantity bacteriologically and chemically, the supply comes from the bore at Driby Mumby (Sandstone bore) (Chalk Bore) and Fordington. The population supplied was 22,480, and the number of houses who had a main supply direct to the house was 8219 and the number with standpipes was 50. The figures in respect of individual parishes who have a direct supply to the house, and supplied by means of standpipe are not available. The fluoride content of the supply Driby fluoride p.p.m. 0.09, Mumby (Sandstone Bore) fluoride p.p.m. 0.75 (Chalk Bore) 0.11 p.p.m. and Fordington 0.38 p.p.m.

REFUSE COLLECTION AND DISPOSAL.

In order to comply with the final requirements of the Motor Vehicle Regulations, 1966, it was agreed, during the year, to replace three of the old existing Fore and Aft Refuse Vehicles. With effect from June 1969, a Scrap Metal Collection, Bonus Scheme was introduced on the following lines:

1. All workmen employed on the refuse collection service, including the Tip Attendant at Candlesby, to participate in the Scheme.
