SECTION B. - GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA.

LABORATORY FACILITIES.

Provided by contract of £10 per annum with the
Emergency Public Health Laboratory of the Ministry of
Health at Peterborough Memorial Hospital.

SECTION C. - SANITARY CIRCUMSTANCES IN THE AREA.

1. (1) WATER.

The Borough is supplied with a piped supply owned
by the Marquess of Exeter. This supply is drawn from
four sources :-

Bone Mill
Whitewater - Supplies south of river welland.
Wothorpe
Northfields - " north " " "
Bore-hole

All supplies are chlorinated at source.
Bacteriological reports have shown satisfactory results
throughout the year

Digitized by the Internet Archive
in 2018 with funding from
Wellcome Library

SECTION E. - INSPECTION & SUPERVISION OF FOOD.

Meat and other Foods.

The following Table is compiled from the records of the late Meat Inspector and relates to the remaining portion of the year, i.e. January 1st. - September 7th. 1941. No information is available as to the number of animals killed or inspected nor as to the number of animals from which the various organs were derived so that the particulars cannot be incorporated in Table 1.

MEAT CONDEMNED JAN. 1st. - SEPT. 7th. 1941.

	<u>BEEF.</u>		<u>VEAL.</u>		<u>MUTTON.</u>		<u>PORK.</u>	
	T.B.	Other.	T.B.	Other	T.B.	Other	T.B.	Other

No. of whole carcasses and offals condemned	-	-	-	14	3
No. of carcasses of which some part or organ was condemned	59		-	122	4
Percentage of carcasses affected with diseases other than T.B.	10.95%		-	7.42%	10.61%

TABLE 2. - DETAILS OF CONDEMNED MEAT SHOWN IN ABOVE TABLE.

Meat Condemned	Bovine	Ovine	Porcine.
Whole Carcasses & Offals	6	11	6
Heads	27	7	3
Tongues	29	7	3
Pairs of lungs	43	63	-
Livers	47	51	-
Flucks (complete)	-	12	-
Fats (Mesenteric)	13	2	5
Spleens	3	1	-
Hearts	2	1	-
Kidneys	1	1	1
Udders	2	-	-
Forequarters (whole)	6	5	-
Hindquarters (whole)	4	8	-
Other parts of Carcasses	20	12	4

Total No. of Carcasses inspected. 2,411.
 Weight of Meat condemned 10,771 lbs.
 No. of visits to premises where food is prepared for sale 142.

The following food other than meat has also been condemned as unfit for human consumption :-

Butter. 20 lbs. Tins of Condensed Milk 8.

SECTION F. - PREVALENCE OF AND CONTROL OVER INFECTIOUS AND OTHER DISEASES.

Cases of Diphtheria, Scarlet Fever, Typhoid & Paratyphoid and Erysipelas are admitted by contract to Bourne Isolation Hospital at an annual maintenance charge of £180 per annum for 12 patients per year and an additional charge of £3.3.0. per week for all cases over this number. Accommodation has proved adequate.

Cases of Cerebro spinal Meningitis & Dysentery can only be admitted to Bourne Hospital by special arrangement.

Minor Infectious Disease Hospital - The White House, Stamford.

The Ministry of Health Minor Infectious Disease Hospital has provided a much needed accommodation for Measles, Rubella, Chicken-pox, Mumps and whooping Cough amongst evacuee children. Children normally resident in the area can be admitted at the weekly charge of £3.3.0. to the Council concerned.

This hospital was opened in the spring, after the winter epidemics, which had, by this time, practically ceased.

Accommodation will provide for two types of cases of both sexes being treated simultaneously.

Ambulance facilities are provided by arrangement with the Controller A.R.F. Kesteven, for the use of Civil Defence ambulances; the necessary disinfection being the responsibility of the Borough.

Diphtheria Immunization.

This has proceeded satisfactorily throughout the year, practically all inoculations being performed at the Clinic held in Broad Street once a month. Attendances of school children have been very satisfactory, but the number in the under 5 age group is still very low.
